**To:** Winston, Kathy  
**Subject:** RE: CBI insp 22FEB11 support  
**Attachments:** CBI ledger and manifests using stamps.pdf

Please see attached copies of 1) ledger entries with Tank Farm Inspection stamp and 2) non-hazardous waste manifests with Halogen stamp, showing incorporation of both in normal use.

Best regards,

Steve

Looks good, did you receive the one for the halogen screening yet? I think that is all that is still owed but don't take y word for it as I will have to review your submittals. I should be able to get to that by mid-next week as I have a big fire to put out right now. Thanks for your cooperation and looking forward to putting this one to rest. Have a great day!

The new stamp for the tank farm inspections is here, revised to better address all regulatory items. A copy is attached and we are instituting changes to this stamp immediately.

Best regards,

Steve

**Subject:** RE: CBI insp 22FEB11 support

Just a note to let you know I am still working on these items.  
The rubber stamp for the halogen testing should arrive in about seven days.  
The rubber stamp for the inspection is taking a bit longer.

Best regards,

Steve

**To:** Steve Collins; Larry Doyle  
**Subject:** RE: CBI insp 22FEB11 support

I have spoken to Larry about this, so if you don't understand my email, talk to him. Your dispatch tickets, bill of ladings, manifest, whatever you are using for used oil pickups does not indicate that a halogen screen has been performed. This has to happen. Larry said you may just get a stamp to show this happening until it is time to reorder the paperwork you leave for your clients. Please let me know how you will handle this and send me an example.

**Subject:** RE: CBI insp 22FEB11 support

Steve, finally got a chance today to start reviewing your submittal. I am only just beginning but I wanted to give you a heads up on one thing. Your general facility inspection logs don't meet the requirements of 40 CFR Part 279.52(3), as the log doesn't include checking you communication or alarm systems on a

regular basis, nor does it include examination of your fire suppression systems, spill control equipment and decontamination equipment. If you read the rule, it is sort of up to the facility to decide what is the appropriate frequency to examine these different items but they need to be checked on some sort of regular basis. What I would like to see from the facility would be a log that includes these items that has been filled out for at least a couple weeks or if you intend to make certain items only monthly checks, then you need to send me the next monthly inspection and an example log showing what your are inspecting and at what frequency. I know it is Monday am and I may not be making myself clear so if you need more interpretation, give me a call. (561) 681-6756 I will let you know if I find any other issues.
