Jenna Perry Environmental Specialist III - Hazardous Waste Florida Department of Environmental Protection 7825 Baymeadows Way, Suite B200 Jacksonville, FL 32256-7590

RE: Proposed Settlement of Lewis Environmental 1432 Cleveland Street, Jacksonville, FL 32203 EPA/DEP ID: FLR 000 048 561 OCG File No.: 10-2610 Duval County – Hazardous Waste Program

Dear Ms. Perry,

This letter will serve as our final report regarding the P2 Project we agreed upon in October of 2010.

In accordance with our agreement, the P2 Project was begun in late November and was actually completed in late December 2010, 30 days ahead of schedule.

As indicated in our proposal, we contracted SunWorks Solar (a local Solar Power Contractor) to install a 2,450 watt photovoltaic solar system. The cost for materials and installation was \$18,500.00, including tax (see attached invoice photo). It required 10 man hours of senior management design and preparation time for the project, including design and training relative to the operation of the system at a cost of \$100.00/man hour. Our total expenses relative to the P2 Project were \$19,500.00.

The project was completed and has been functioning successfully for more than 3 months.

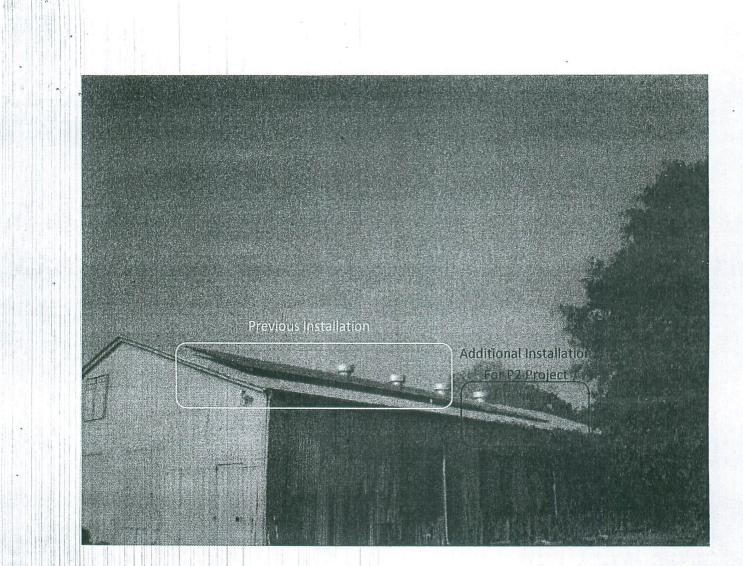

If you have any additional questions relative to the project please don't hesitate to call.

Sincere Regards,

Harry R. Lewis, Jr VP/COO **HR** Lewis Petroleum
