Re: Unmanifested Waste Report

Dear Mr. Dregne:

Enclosed is an unmanifested waste report for the above listed generator. The Safety-Kleen Tampa service facility received a call to remove two parts washers at the above customer location in December 2010. In the process of scheduling this work to be done the customer information database was not checked beforehand and the service was not completed on a U.S. Hazardous Waste Manifest as required for Large Quantity Generators.

All waste was picked up using a Safety-Kleen sales document and was handled according to standard hazardous waste management procedures. At no time did the waste pose a threat to human health or the environment.

If you have any questions or require additional information, please contact me at (561) 523-4719.

Sincerely,

Jeff Curtis
