Re: Unmanifested Waste Report
Greif Packaging
211 Sandra Jackson Rd.
Auburndale, FL 33823

Dear Mr. Dregne:

Enclosed is an unmanifested waste report for the above listed generator. Safety Kleens' Tampa branch was recently notified by Greif Packaging that they are a Large Quantity Generator (LQG) of hazardous waste. Safety-Kleen picks up approximately 5 gallons of used solvent from a model 16 parts washing unit at their location. We were unaware that Greif Packaging generated additional hazardous waste streams and had them classified as a CESQG in our system. Therefore, a uniform hazardous waste manifest was not being used when we serviced the parts washer. I have consolidated all of the waste service amounts on the enclosed unmanifested waste report. A review of the customer file found 3 service documents for the Safety-Kleen parts washing unit dated 1/15/10, 5/21/10 & 9/3/10.

All waste was picked up using a Safety-Kleen sales document and was handled according to standard hazardous waste management procedures. At no time did the waste pose a threat to human health or the environment.

If you have any questions or require additional information, please contact me at (561) 523-4719.

Sincerely,

Jeff Curtis
EHS Manager
Safety-Kleen Systems, Inc.
