Re: Noncompliance letter

Dear Mr. Mitchell

Thank you for the time during the Hazardous waste inspection conducted at our facility at 2778 West Tharpe St. Tallahassee Fl.. The items noted during the inspection are corrected.

The used oil that is stored in 55 gal. drums are now placed on containment pallets for safe storage. All drums containing product or items are sealed and labeled with the contents within the containers. The used oil, drained used oil filters are labeled on the exterior of the 55 gal. drum. The exterior Black Gold heater is labeled used oil. Attached are pictures of the containment under 55 gal. drums, labels on 55 gal drums and labeling on the Black Gold heater.

If there is any other questions please let contact me at 580-576-1221 ext 250.

Thank you

A handwritten signature in blue ink that reads 'Joseph Wier sr'.
