Greg,

A review of documents submitted by you and Mr. Butch shows that your facility is now in compliance. Please keep in mind that although many facilities use centralized filing systems all files (or at least copies) must be available for review at each facility of origin.

If you have any questions please don't hesitate to contact me at any time.

Thank you,
Maddie Gierczak

Subject: SWS - Ft. Lauderdale Florida 8700-12FL Form with d-b-a change

Magdalena:

The Ft. Lauderdale FDEP 8700-12FL form is in-route to FDEP Tallahassee for data input via US Mail on 1-12-12... As well as our other SWS Florida Service Center locations...

I had inquired (via telephone) about our doing our "doing-business-as" name change with Tallahassee DEP, RIGHT after our 2011 Used Oil Certs. had just issued and was told, "Oh, just do them during our next permit renewal cycles"... Our corporate "Progressive Environmental Services, Inc." entity did not change, nor did any company ownership (only our d/b/a for re-branding)...

Additionally, we encountered delays with getting all of our truck name decals correct from the printer, in sufficient quantity, and issued/installed onto all of our transport vehicles...

I beg the DEP South Florida Department's forgiveness if I was wrong here, but PLEASE Understand "I did not want to make DEP Tallahassee mad at me for insisting on doing our d/b/a change on all of our Florida permits, when they told me to do it during the next renewal cycle"... I would have sent in the forms in back then....

Thank You for your consideration of the precarious position I am placed in between the Tallahassee & South Florida Departments...

Greg
