LATITUDE / LONGITUDE: Lat 27° 58' 41.9855" / Long 82° 22' 47.6364"

SIC CODE: 4212 - Trans. & utilities - local trucking, without storage

TYPE OF OWNERSHIP: Private

Introduction:

Quality Carriers, Inc (Quality) was inspected by the Department of Environmental Protection to determine the facility's compliance with state and federal hazardous waste transporter regulations. This transporter was last inspected by the Department on March 17, 2010. Mr. Robert Smale, Director of Chemical and Environmental Services for Quality Distribution, Inc., the facility's parent company, provided the inspector the required information.

Process Description:

This is the corporate headquarters for Quality. No hazardous waste or other transported material is ever brought to this physical location. Requested information was submitted to the Department on February 28, 2012 via email. Quality transports hazardous waste under this Florida EPA ID number, through bulk product transportation is the primary business. No trucks were available for inspection at this location. Quality maintains its financial responsibility through Zurich American Insurance.

Quality has more than one hundred terminals throughout the United States and Canada. Hazardous waste manifests are kept at each individual terminal throughout the country. No hazardous waste manifests are kept at the Tampa office. The Department requested copies of hazardous waste manifests for review. Subsequent to the inspection, the Department reviewed a sampling of manifests from 2011 and 2012. The manifests were from Cherokee Pharmaceuticals, LLC in Riverside PA, E.I. DuPont De Nemours & Company, Fort Madison, IA, Arnold Engineering Dev Center/TSDCA, Arnold AFR, TN, and Arkema North Kansas City, North Kansas City MO. No violations of the transporter requirements for hazardous waste manifests were noted. Quality does not export or import hazardous waste.

Quality submitted copies of the company's SOP for screening waste prior to acceptance for

Inspection Date: 02/01/2012

transport. Customers must provide a detailed description of the waste or use product knowledge before the waste will be accepted. Additionally, if the material is being shipped as used product rather than waste, the customer must also provide the relevant exemption or exclusion. Customers are also required to provide similar information for bulk products so any heels or residues from cleaning out the transport trailers can be properly managed. The information provided and certified by the customer will be reviewed and qualified by Quality before acceptance.

Summary of Potential Violations and Areas of Concern:Potential Violations

No Violations

Areas of Concern

No Areas of Concern

Conclusion:

Based on the observationa made during the inspection, it appears that Quality Carriers is in compliance with rules and regulations applicable to hazardous waste transporters.

Inspection Date: 02/01/2012

Signed:

A hazardous waste compliance inspection was conducted on this date, to determine your facility's compliance with applicable portions of Chapters 403 & 376, F.S., and Chapters 62-710, 62-730, 62-737, & 62-740 Florida Administrative Code (F.A.C.). Portions of the United States Environmental Protection Agency's Title 40 Code of Federal Regulations (C.F.R.) 260 - 279 have been adopted by reference in the state rules under Chapters 62-730 and 62-710, F.A.C. The above noted potential items of non-compliance were identified by the inspector(s).

This is not a formal enforcement action and may not be a complete listing of all items of non-compliance discovered during the inspection.
