

Florida Department of Environmental Protection

Bob Martinez Center 2600 Blair Stone Road Tallahassee, Florida 32399-2400 Rick Scott Governor

Jennifer Carroll Lt. Governor

Herschel T. Vinyard Jr. Secretary

02/09/2012 Bahram (Bob) Ahmadi, President Photographic Waste Control Inc 1943 High St Longwood, FL 32750-3711

The Florida Department of Environmental Protection has reviewed your form 8700-12FL notification for a new hazardous waste DEP/EPA Identification Number or status/information change. Based on the information received you must use the following identification number for all manifests or reports for **Photographic Waste Control Inc** located at **1943 High St, Longwood**, **FL32750-3711**

FLD984229609

Your facility notified FDEP requesting the following hazardous waste status/activities which do not require a separate submission: Small Quantity Generator; Small Quantity Handler, Universal Waste Batteries, Universal Waste Battery Transporter, Universal Waste Pesticides, Universal Waste Pesticide Transporter, Universal Waste Lamps, Universal Waste Devices, Universal Pharmaceuticals, Person authorized to accept Conditionally Exempt Waste, Universal Pharmaceutical Transporter; Commercial HW Recycler.

Your facility is currently registered for the following activities: UW Lamp Transporter, UW Device Transporter, UW Lamp Transfer Facility, UW Device Transfer Facility, UW Lamp SQH, UW Device SQH (reg exp on 03/01/13); HW Transporter, HW Transfer Facility (reg exp on 09/09/12); Used Oil Transporter, Used Oil Transfer Facility, Used Oil Filter Transporter (reg exp on 06/30/2012).

Your facility is currently permitted as: No Active Hazardous Waste Treatment, Storage, or Disposal Permit.

If you have pending program registrations/certifications or permits, these will be mailed separately. You are required to notify us on form 8700-12FL if there is any change in your operations which would affect your status, activity or contact information. The form is found here: http://www.dep.state.fl.us/waste/categories/hwRegulation/pages/NotificationRegulatedWaste.htm.

To review the details of your status, visit:

http://appprod.dep.state.fl.us/www_RCRA/Reports/handler_results.asp?epaid=FLD984229609. For further assistance, please e-mail a Notification Coordinator at EPOST_HWreg@dep.state.fl.us or call us at (850)245-8707.

Sincerely,

Glen Perrigan

Environmental Manager

. Type of Regulated Waste Activity (Mark 'X' in all tha	at apply):
A. Hazardous Waste Activities:	For Items 2 through 7, mark 'X' in all that apply.
(1) Generator of Hazardous Waste (Choose only one of the following three categories.) ☐ a. Large Quantity Generator (LQG): Generates in any calendar month 1,000 kilograms or greater per month (kg/mo) (2,200 lbs.) of non-acute hazardous waste; or Greater than 1 kg (2.2 lbs) of acute hazardous waste	(2) Treater, Storer, or Disposer of Hazardous Waste (at your facility) Note: A hazardous waste permit may be required for this activity. a. Operating Commercial TSD b. Operating Non-commercial TSD c. Non-operating: Postclosure or Corrective Action Permit or Consent Order (HSWA, etc.)
b. Small Quantity Generator (SQG): Generates in any calendar month greater than 100kg/mo but less than 1,000 kg/mo (>220 to <2,200 lbs.) of non-acute hazardous waste and/or 1 kg (2.2 lbs) or less of acute hazardous waste	(3) Recycler of Hazardous Waste (at your facility) Specify: Commercial; Non-Commercial. A permit is required for storage prior to recycling. (4) Exempt Boiler and/or Industrial Furnace a. Small Quantity On-site Burner Exemption b. Smelting, Melting, and Refining Furnace Exemption
C. Conditionally Exempt SQG (CESQG): Generates in any calendar month 100 kg/mo or less (220 lbs.) of non-acute hazardous waste and 1 kg (2.2 lbs) or less of acute hazardous waste	(5) Person Authorized to Manage Conditionally Exempt Waste Generated at Other Facilities - Choose this management activity ONLY if you attach EITHER a copy of your application for such authorization OR the authorization you received from FDEP.
In addition, indicate other generator activities that apply. d. United States Importer of hazardous waste e. Mixed Waste (hazardous and radioactive) Generator	(6) Underground Injection Control - Mark an 'X' even if the UIC well at your facility does not receive hazardous waste.
	waste only b. For commercial purposes

Photographic Waste Control Inc.
RE: Volume Reduction of Hazardous Waste and
Precious Metal Recycling

Dear Mr. Ahmadi:

The Department has determined that Photographic Waste Control Inc. does not need a permit to operate a volume reduction process since they are recycling a precious metal.

Photographic Waste Control has received their EPA Transporter Number (FLD984229609), and is allowed to transport hazardous waste from generators to their facility for volume reduction and precious metal recycling. The sludge generated from the recycling process will be tested for further determination. If the sludge is not hazardous it will be disposed of as a non-regulated waste, but if it is determined to be a hazardous waste, the sludge will be manifested for proper disposal.

The wastewater generated through the reduction process will not be disposed of at the Publicly Owned Treatment Works (POTW) plant as originally planned. Since a cooling tower is utilizing this wastewater, we suggest you contact the Air Section regarding the possible need for a permit.

Please do not hesitate to contact the Hazardous Waste Section at (407) 894-7555 if you have any questions.

Sincerely,

Robert T. Snydek, P.

Program Manager

Hazardous Waste Section
