SIC CODE: 4213 - Trans. & utilities - trucking, except local

TYPE OF OWNERSHIP: Private

Introduction:

Landstar Express America Inc was inspected on July 3, 2012, as an unannounced hazardous waste compliance inspection. At the time of the inspection, the facility was operating as a transporter of hazardous waste. The facility was last inspected in August 2007. The facility has been assigned the EPA ID number FLR000099945. Please use this number on all hazardous waste manifests and on future correspondence with the DEP.

Process Description:

Landstar System Inc (LSI) provides transportation services to its customers for the transportation of general commodities throughout the United States. The primary business is the shipping of goods and materials. LSI also consists of five different transportation companies at this location. Each has a separate EPA ID number: Landstar Express America Inc [FLR000099945], Landstar Ranger Inc [FLR000067175], Landstar Ligon Inc [FLR000099937], Landstar Inway Inc [FLR000006320], and Landstar Gemini Inc [FLR000099952]. Express America, Ranger, and Ligon are all currently registered in the State of Florida as transporters of hazardous waste. Inway is also registered in the State of Florida to transport hazardous waste, but it is registered under the EPA ID number ILR000117127.

According to the facility, the only hazardous waste shipments are from various DOE and DOD facilities directly to permitted TSDs. Landstar Inway and Landstar Ranger are the two main companies that perform hazardous waste transportation. No waste is brought back to this location.

During the inspection, Mr. Wes Pace, Director of Hazardous Materials, indicated that Landstar Gemini was no longer in operation. Approximately three years ago, its vehicles were distributed among the other four companies.

Records:
A review of the facility's hazardous waste manifests, financial assurance forms, and hazardous waste registration forms were available for review and in order.

Signed:

A hazardous waste compliance inspection was conducted on this date, to determine your facility's compliance with applicable portions of Chapters 403 & 376, F.S., and Chapters 62-710, 62-730, 62-737, & 62 -740 Florida Administrative Code (F.A.C.). Portions of the United States Environmental Protection Agency's Title 40 Code of Federal Regulations (C.F.R.) 260 - 279 have been adopted by reference in the state rules under Chapters 62-730 and 62-710, F.A.C. The above noted potential items of non-compliance were identified by the inspector(s).

This is not a formal enforcement action and may not be a complete listing of all items of non-compliance discovered during the inspection.
