Erin,

Veolia is a permitted mercury reclamation facility and as such they operate a system that would meet the description of "smelting, melting, refining furnace" and since it is limited solely to the reclamation of mercury it would meet the exemption.

Let me know if you need anything else.

Good Morning Tony,

Jack asked me check with you about Veolia. They have listed Furnace as a waste activity on their current 8700-12FL and we would like to know if it is correct.
