Subject: FW: Compliance needed

Maddie,,

Below please find the information for the violations still open on the Compliance status letter.

1. Violation 265.16 (a) (1)

Training – Crowley has provided a training roster showing Michael Lesser as the instructor and Mark Kemp as one of the attendees.

We are planning another training class by the end of October that will conform to Florida Statutes.

2. Violation 62-730.171 (3)

Hazardous Waste Transfer Site – even though the port has changed the Crowley “footprint” at the port and the work is ongoing – the

area previously approved to handle waste loads discharged from vessels until they are removed by the designated carrier is unchanged.

The containers are placed on a chassis at the point of discharge from the vessel and parked in the same designated area until they are

picked up. (Confirm with Mark and Ed)

3. Violation 62-710.850(5) (a) Question 5.140

Condition mitigated at time of inspection.

Do not hesitate to contact me if you have any questions.

Thanks,

Jose Santiago
