MEETING DOCUMENTATION

Attendees: (see attached sheet)	Location: SED	Date/Time: 10/18/12 10:00 am

Meeting Requested by: Kathy Winston, SED - FDEP per WL dated 09/11/12

Meeting Objectives: To review inspection and potential violations with CBI staff. To receive any additional information from CBI staff regarding the inspection and potential violations.

Notes: CBI will send in photos of used oil tanks that were labeled. No longer operating biofuel area. Per Larry Doyle CBI Miami staff didn't seek upper management approval to move the HW transfer area. The 50' from the property line was reviewed in the past. The berm around the oily waste storage area was added, but pad slope down to the northeast. DEP will review photos, CBI will provide photos and additional information about storage area.

Agreements/conclusions: Because gasoline contaminated rags were determined to be non hazardous, the DEP will not consider that violation in any enforcement. The DEP will review all information provided and consider CBI's information. DEP will review for potential enforcement, including civil penalties and notify CBI of its finding. DEP staff did not discuss penalty amounts with CBI during this meeting.

Follow-up Actions/Dates: CBI will send in photos of used oil tank, HW transfer area and berm along oily waste storage area. DEP staff will review SNC status shown on ECHO. DEP will check and make entries in DEP's data bases as necessary. DEP completed SNC review 10/18/12 and changed SNY to SNN.

Prepared by: Roger E. Carmen 10/22/12
