In an effort to provide a more efficient service, the Florida Department of Environmental Protection's Hazardous Waste Regulation Section is forwarding the attached document to you by electronic correspondence "e-correspondence" in lieu of a hard copy through the normal postal service.

We ask that you verify receipt of this document by sending a "reply" message to [epost\\_hwrs@dep.state.fl.us](mailto:epost_hwrs@dep.state.fl.us). (An automatic "reply message" is not sufficient to verify receipt). If your email address has changed or you anticipate that it will change in the future, please advise accordingly in your reply. You may also update this information by contacting Kim Thursby at (850) 245-8792.

The attached document is in "pdf" format and will require Adobe Reader 6 or higher to open properly. You may download a free copy of this software at [www.adobe.com/products/acrobat/readstep2.html](http://www.adobe.com/products/acrobat/readstep2.html).

Please note that our documents are sent virus free. However, if you use Norton Anti-virus software, a warning may appear when attempting to open the document. Please disregard this warning.

Your cooperation in helping us affect this process by replying as requested is greatly appreciated. If you should have any questions about the attached document(s), please direct your questions to the contact person listed in the correspondence.

Mr. Jeff Curtis  
Safety-Kleen Systems, Inc.  
5309 24th Avenue South  
Tampa, Florida 33619

Subject: Safety-Kleen Systems, Inc. (Tampa) FLD 980 847 271, Operating Permit No. 34744-HO-007, *Natural Attenuation Monitoring Report #1* dated December 3, 2012

Dear Mr. Curtis:

As pointed out in the report, 3+4-methylphenol was detected and confirmed above its GCTL in monitoring well MW-4 for the first time. Depending upon the January 2013 results, you may need to assess potential contamination to the northwest of MW-4. Details of the assessment (e.g., specific well(s) and location(s)), if needed, can be determined after your January 2013 results have been received. Keep in mind that if RMOII is pursued, you will need to demonstrate that the plume is stable or decreasing, located on site, and ¼ acre or less in size.

As a reminder, the annual review discussed in your NAM Plan<sup>1</sup> must also be submitted with your January 03, 2013 sampling report.

If you have any questions, please call me at 850-245-8796 or [merlin.russell@dep.state.fl.us](mailto:merlin.russell@dep.state.fl.us)

Sincerely,

Merlin D. Russell Jr.  
Professional Geologist II  
Hazardous Waste Regulation

MR/mdr
