Dr. Richard D. Garrity
Deputy Assistant Secretary
Southwest District, Florida Department
of Environmental Regulation
4520 Oak Fair Boulevard
Tampa, FL 33610-7347

FLD 980 729610

Dear Dr. Garrity:

This letter is to refer to you violations found at Laidlaw Environmental Services (formerly Tricil Recovery Services, Inc. (TRSI))

Enclosed please find manifests of hazardous waste which was sent to the TRSI facility. These manifests include information in the manifest discrepancy box which indicates the number of drums of hazardous waste which was returned to the generator because TRSI could not treat the waste.

The hazardous wastes indicated in the discrepancy box of these manifests was returned to the respective generators after the fifteen day period had expired in which the receiving facility (TRSI) has to make a discrepancy determination.

Please take the appropriate enforcement action for this violation. Also, please copy EPA on all enforcement actions taken.

If you have any questions concerning this matter, please contact Daryl Himes of my staff at (404) 347-7603.

Sincerely yours,

Alan Farmer
Chief, South Unit
Waste Compliance Section
