Used Oil and Material Processing Facility Permit Application
Review Comments/Responses Dated October 2, 2013

Dear Mr. Miranda:

The Florida Department of Environmental Protection (the Department) has reviewed your permit applications dated August 12, 2013, and August 29, 2013 and received on August 13, 2013 and August 30, 2013 and October 2, 2013 to operate a Used Oil and Material Processing Facility in Davie, Florida. Based on the information provided, including Financial Assurance approval letter of October 22, 2013, the department now considers the application to be complete.

The review of the permit application indicates that the facility appears to be in violation of the Issued permit dated April 17, 2009, Part I – General And Standard Conditions 1, 2, 8, 9, 16, 22, 23, and 27. Also, Part II – Used Oil Processing Condition 7, Submittal of As Built Drawings, and Part VI – Closure Condition 1.e, and 2. We have acknowledged your response during the meeting held on October 2, and the written response provided to us. However, in the future please do not make such errors. Please keep open communications about site activities with the District and Tallahassee offices by phone calls, e-mails, or letters to avoid future penalties.

Should you have any questions, please contact me at (850) 245-8781 or e-mail:
