Introduction:

Allied Electronics Trading, Inc. (AET) is a facility that receives, repairs, and disassembles, electronic equipment. They have been at this location for 1 and a half years, are on public utilities, and employ 5 people. AET notified in January 2013 as a CESQG of hazardous waste, a Small Quantity Handler (SQH) of universal waste, and a transporter of universal lamps, batteries, and devices.

Process Description:

Computers are purchased from businesses for resale to wholesalers who export them. Non working units are broken down to components and sent to Battery Max of Miami, Trademark Metals Recycling, U.S. Scrap Metal Corp., Svinga Brothers, and Eureka Computer Scrap. It was indicated that the facility does not accept CRT's, or old glass monitors.

Conclusion:

Allied Electronics Trading, Inc. was last inspected on September 2, 2010 at their previous location at 2736 NW 29th Terrace, Lauderdale Lakes, Florida. In May 2012 the facility moved to it's current location. The facility appears to be a small quantity handler of universal waste batteries but not a transporter of universal lamps. They do transport universal batteries and other equipment that if broken would become hazardous waste. The employees have been trained on how to respond to spills.

Inspection Date: 09/17/2013

Signed:

A hazardous waste compliance inspection was conducted on this date, to determine your facility's compliance with applicable portions of Chapters 403 & 376, F.S., and Chapters 62-710, 62-730, 62-737, & 62-740 Florida Administrative Code (F.A.C.). Portions of the United States Environmental Protection Agency's Title 40 Code of Federal Regulations (C.F.R.) 260 - 279 have been adopted by reference in the state rules under Chapters 62-730 and 62-710, F.A.C. The above noted potential items of non-compliance were identified by the inspector(s).

This is not a formal enforcement action and may not be a complete listing of all items of non-compliance discovered during the inspection.
