Florida Department of Environmental Regulation  
3426 Bills Road  
Jacksonville, FL 32207

Re:

Dear Mr. Frey:

Please be informed that our neighborhood association named above, ANNE, is concerned about the possibility of an expanded operation of Quadrex HRS Inc, located at 1940 NW 67th Place, Gainesville, FL. We understand from the permit application that Quadrex will be handling up to 50,000 gallons of toxic wastes in the area near our Northwood neighborhoods.

We believe it prudent for the Department of Environmental Regulation to conduct a public hearing where we can learn the full details of the proposed Quadrex operation.

Considerable risk to the residents of the area seems to be involved as indicated by the volume and kind of substances to be handled.

On behalf of ANNE, I hereby request that a public hearing on the above matter be held at the earliest date provided by applicable law.

Thanks for your help in arranging for the requested public hearing.

Sincerely,

  
Ralph Dawson, Ph.D.  
President
