Ms. Sharon Kiddon
U.S. Environmental Protection Agency
Region V - 5HR-JCK-13
230 South Dearborn St.
Chicago, IL 60604

Dear Ms. Kiddon:

The Illinois EPA has received copies of manifests from out-of-state generators with the transporter headquartered out of state:

Chemical Conservation Corporation, FLD980559778.

Dates on the manifests (samples attached) indicate the transporter held the RCRA waste more than ten days, which subjects the transporter to regulation as a storage facility.

We would appreciate your assistance in determining if the transporter is in compliance with regulations as a storage facility. If they are not, we would appreciate referral to the appropriate region or state for compliance action.

Thank you for your assistance.

Sincerely,

Eugene P. Theios, Manager
Administrative Compliance Unit
Compliance Section
Division of Land Pollution Control
