Subject: Manifest Discrepancy Report
Safety Kleen, Orange Park
FLD 980 847 214

Dear Ms. Valade:

As discussed with you by phone Jan. 9, 1991, the purpose of this letter is to report to you some discrepancies associated with our picking up of used mineral spirits parts washer wastes from one of our customers, Metal Container Corporation. The discrepancies are noted below.

Four manifests basically did not include an LDR notice. The manifests in question are as follows:

Pick-up Date	Manifest No.	Waste Code/s on Manifest	Amount of Waste Shipped
Aug. 15, 1990	48482	D001	258 lbs.
Nov. 15, 1990	97470	D001/D039	516 lbs.
Dec. 13, 1990	44237	D001/D039	516 lbs.
Oct. 30, 1991	26972	D001/D039	344 lbs.

Furthermore, the completed LDR form for Manifest No. 23734 did not have a check marked on the treatments standards box for waste petroleum naphtha. This manifest was for a shipment of 172 lbs. of used mineral spirits.

Safety Kleen's 1990 records show this customer as being an SQG who generates between 220 to 2200 lbs/mo. As such, the branch had been making use of the one time LDR notice allowed under 40 CFR 268.7(a)(9). Our records now show them as a Large Quantity Generator so we have now been enclosing a completed LDR notice with each manifest shipment.

DOCKET # 92-2

Manifest 26972 dated October 30, 1991 should have included an LDR notice. The preprint for this particular shipment was done manually so the sales rep completed the preprint similar to the 1990 preprints. Furthermore, the customer initialed the preprint as SQG. All Orange Park branch personnel now know that Metal Container Corp is LQG and they have been instructed to include an LDR notice with each manifest.

As discussed with you, in order to correct the discrepancies, our customer was advised to notify Safety Kleen, after the fact, of the LDR notification requirements delineated in 40 CFR 268.7(a). Enclosed with this letter are the above manifests and their corresponding completed LDR forms which show they were signed yesterday. The LDR for Manifest No. 23734 now has a check marked by the customer on the treatment standards box for waste petroleum naphtha.

Your consideration and understanding in this matter is requested. If you have any questions, please call me at (813) 682-8094.

Sincerely,

A handwritten signature in cursive script that reads "Victor L. San Agustin".
