RE: Warning Notice #NE-W-01-4301

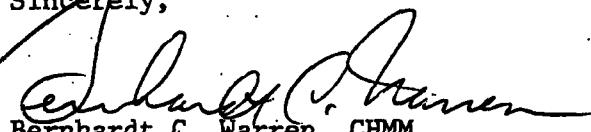

Dear Mr. Frey:

This is in response to your letter of September 4, 1987 providing a Notice of Deficiencies for our application for a Temporary Operating Permit. Enclosed are four copies of our reply to your letter, as requested.

The details of our reply are incorporated as changes in our previous submittal. These page revisions should be substituted for pages in your copy of the application. If extra pages were prepared to answer your questions, a letter number was given to the page (i.e., 37, 37a, 37b, etc.) Attached is a cross reference sheet to assist you in comparing the substitution sheets with the changes requested in your letter.

If you have any further questions regarding this application, please contact me.

Sincerely,

Bernhardt C. Warren, CHMM
Operator, Hazardous Waste Facility
