RE: **Mobro Marine, Inc., Disposal of Hazardous Wastes,**  
**OGC Consent Order No. 90-1662**  
**M&A Project No. JE1-470, Control No. 1196**

Dear Ms. Mears:

As discussed in our conversation of May 15, 1992, Missimer & Associates, Inc. (M&A) requests a 60-day extension to complete sampling and removal of the two drums of hazardous waste at the facility. Mobro Marine retained a disposal contractor to remove the two drums for disposal; however, the contractor failed to notify Mobro Marine of the sampling requirements until last week. M&A is currently assisting Mobro Marine in collecting appropriate characterization samples and selecting a qualified disposal contractor. The waste oil/water has been removed and properly disposed. You will be kept informed of progress at the facility. If you have any questions, please feel free to call.

Sincerely,

MISSIMER AND ASSOCIATES, INC.

James P. Oliveros, PG
