RE: Mobro Marine, Inc., Facility Personnel Training Program,
OGC Consent Order No. 90-1662
M&A Project No. JE1-559, Control No. 1113

Dear Ms. Mears:

On behalf of Mobro Marine, Inc., Missimer & Associates, Inc. (M&A) requests a 30-day extension to develop and conduct a training program in accordance with the requirements of item number 9b of the Consent Order. The additional time is necessary to properly develop and implement the training program and to conduct and document training.

In addition, please note that procedures for preparation of a hazardous waste container inspection log (item 9e of the Consent Order) were included in the facility Contingency Plan submitted on April 20, 1992 (Appendix G, Hazardous Waste Tracking). The procedures have been modified in the final Contingency Plan to include weekly inspection of the containers.

If either of these items present a problem or additional information is required, please feel free to contact me.

Sincerely,

MISSIMER AND ASSOCIATES, INC.

James P. Oliveros
