Chapter 62-761, FAC, Closure Assessment Report – Review

Dear Mr. Johnson:

The Florida Department of Health- Environmental Health Division is contracted with the Florida Department of Environmental Protection (Department) to conduct the Storage Tank System Compliance Verification Program for facilities located in Okaloosa County. The Florida Department of Health- Environmental Health Division has reviewed the August 25, 2022, Closure Assessment Report that was submitted by Clean Asset Environmental (CAE) and received on September 26, 2022 for the above referenced facility.

For future Closure Assessment Reports submitted by CAE, the pictures of soil boring locations that are referenced on the Closure Field Form will need to be submitted for review. Also, future narratives will need to include what spill buckets were replaced (Regular, Premium, Diesel).

The results as provided in the Closure Assessment Report and Closure Assessment Report (Revised) do not indicate the presence of petroleum contamination in the area addressed in excess of Department Cleanup Target Levels. Please note that this letter does not certify that this site is not contaminated, and the Department reserves the right to require appropriate actions for this site in accordance with Chapter 62-780, Florida Administrative Code (FAC), if any contamination is discovered in the future in excess of Department Cleanup Target Levels.

If you have any questions please contact me at 850-554-1112 or Charles.Payne@FLHealth.gov. Or, at the Florida Department of Health in Escambia County- Environmental Health Division, 1300 West Gregory Street, Pensacola FL 32502-3724.

Sincerely,

Charles Payne
Environmental Supervisor I
