Dear Mr. Patel:

Safety-Kleen Corp. has reviewed the Second Notice of Deficiency for the above-referenced facility. The additional information requested is attached. The attached Table 1 presents a comment-by-comment response to Florida Department of Environmental Regulation (FDER) comments. Per your verbal request on September 1, 1992, Safety-Kleen agreed to add a statement regarding generator verification of no process changes. Further review of our previous response indicates that this statement is present in paragraph 2 on page II.A.6-3. We believe that all the information requested by FDER has been included.

If you have any questions, please contact me at (813) 682-8094.

Sincerely,
