Subject: Safety-Kleen Systems, Inc.-Tampa; FLD 980 847 271; Notice of Field Activities

Hello Merlin:

Per Rule 62-780.220(1) F.A.C., please be advised that field activities are scheduled for the referenced Safety-Kleen facility in Tampa, FL.

Specifically: On Friday 03/21/2014, monitor well MW-2 will be replaced with a new well. MW-2 was found to be damaged during the February groundwater sampling event (apparently due to construction activities for the new sewer system installation). The replacement well "MW-2R" will be constructed by a certified water well contractor in the same manner and in the same borehole as the previous well, and the top-of-casing elevation will be surveyed relative to the elevations of other nearby monitor wells.

Thank you.... Rick
