1. The registration for this facility as a hazardous waste transporter is not current. As a 10-day hazardous waste transfer facility, each location must register as a hazardous waste transporter. A different hazardous waste transporter registration can be used for transportation purposes, but each 10-day transfer location must be registered. Your application cannot be processed because, according to our records, your facility has not renewed your registration for a hazardous waste transporter. Please provide documentation of current hazardous waste transporter registration for this facility.
