Attn Solid Waste Specialist:

Re: USFilter Recovery Services -- Pompano Beach Facility
Solid Waste/Used Oil Processing Permit Application Requirements
Revised Solid Waste Closure Cost Estimate

USFilter Recovery Services Mid-Atlantic, Inc. (USFRSMA) has acquired the International Petroleum Corporation (IPC) facility located at 1280 N.E. 48th Street in Pompano Beach. The acquisition was completed on June 21, 2002, through U.S. Bankruptcy Court proceedings.

Renewal of the existing Used Oil Processing and Solid Waste Permits is required. The submittal of the Used Oil Processing Permit Application is being coordinated with Bill Parker of the Florida DEP office in Tallahassee. Attachment 8 of that application concerns the Closure Plan and Closure Cost Estimate. The Closure Plan is based on the disposal of inventory and decontamination of the facility to a safe condition. It does not include subsequent demolition.

The original closure Cost Estimate was submitted in September 2002. As required by Mr. Parker, we are presently submitting to Solid Waste the attached two revised copies of the Closure Cost Estimate dated December 2002. The text of the submittal is the same as Attachment 8 and is accompanied by a detailed cost worksheet. Costs have been estimated on the basis of the facility being at full capacity with decontamination performed by a third-party contractor and off-site processing and disposal of all materials. Costs are included for a reconnaissance-level Closure Assessment of soil and groundwater conditions. This represents a worst-case estimate. Certification by a Florida P.E. has been provided on DEP Form 62-710.901(d). It is our understanding that once your office has approved the estimate, preparation of the Financial Assurance mechanism can be initiated.

As reviewed through file

HAZARDOUS WASTE INSPECTION EXIT INTERVIEW SUMMARY – Page 1 of 2

FACILITY NAME <i>Magnum - Pompano</i>		TYPE OF INSPECTION: CAV: <input type="checkbox"/> CEI: <input checked="" type="checkbox"/> CI: <input type="checkbox"/> OTHER: <input type="checkbox"/>	
ADDRESS	CITY	STATE	ZIP CODE
EPA ID NUMBER	DATE OF INSPECTION <i>5/9/02</i>	PAGE <i>1</i>	OF <i>2</i>
FOLLOW UP CAV INSPECTION WITHIN 120 DAYS: <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO			

A hazardous waste/used oil compliance inspection was made this date, under the authority of Section 403.091, Florida Statutes (F.S.), to determine your facility's compliance with Chapter 403, F.S. and Chapters 62-710, 62-730, 62-737, and 62-740, Florida Administrative Code (F.A.C.). Provisions of Title 40 Code of Federal Regulations (C.F.R.) Parts 260 through 268 and 279, which are cited on this form, have been adopted by reference as the state hazardous waste and used oil rules in Chapter 62-710, 62-730, 62-737 and 62-740, F.A.C. The following potential items of non-compliance were identified by the inspector(s). **This is not a formal enforcement action and may not be a complete listing of all items of non-compliance which exist at the time of this inspection. You are advised to immediately begin correcting these potential violations noted below:**

GENERAL REQUIREMENTS:

- Failure to ensure delivery of HW to proper HW facility § 261.5
- Failure to provide hazardous waste determination § 262.11
- Failure to notify as generator § 262.12
- Failure to use a manifest or reclamation agreement § 262.20
- Failure to provide personnel training § 265.16, 262.34
- Evidence of release(s) of waste § 265.31
- Facility exceeds 90/180 day time limit § 262.34

USED OIL VIOLATIONS:

- Failure to label containers § 279.22
- Failure to respond to releases § 279.22
- Failure to document used oil disposal § 279.10

CONTAINER MANAGEMENT:

- Unlabeled containers § 262.34
- Undated containers § 262.34
- Leaking or bulging containers § 262.34
- Open containers § 265.173
- Inadequate aisle space § 62-730.160

RECORDKEEPING REQUIREMENTS:

- Manifests § 262.40, § 262.44
- Training records § 262.34
- Contingency Plan § 262.34
- Weekly Inspection records § 62-730.160
- Information not posted by phone § 262.34
- Authorities not notified § 262.37

HAZARDOUS WASTE INSPECTION EXIT INTERVIEW SUMMARY - Page 2 of 2

OTHER: _____

ITEMS REQUESTED BY INSPECTOR:

- update contingency plan
- be aware / do not discharge to storm sewer - investigate destination (ok set)
- adjust facility and container inspection logs.

OWNER/OPERATOR COMMENTS:

The owner/operator is hereby requested to submit in writing, within 10 days of this inspection, 1) a description of all corrective actions taken, 2) a schedule for completion of corrective actions to be taken and 3) a description of efforts to prevent recurrence of the above items to the person signing as "INSPECTOR", Florida Department of Environmental Protection, P.O. Box 15425, West Palm Beach, FL 33416. The actions taken within ___ days of this notice will be considered in determining whether enforcement, including the assessment of penalties, should be initiated.

IF YOU HAVE QUESTIONS, contact: JOHN HARRIS at (561) 681-⁶⁶⁷³~~6600~~.

INSPECTOR (signature): [Signature] Date: 5/9/02

The undersigned person hereby acknowledges that he/she received a copy of this notice and has read and understands same.

SIGNATURE: <u>[Signature]</u>	PRINTED NAME: <u>Bernard Brzezinski</u>
TITLE: <u>Sales mgr</u>	DATE: <u>5/9/02</u>

TRANSPORTERS CHECKLIST

Transporter Requirements (40 CFR 263)

1. Do vehicles transporting hazardous waste have the appropriate placards? (263.10)(49 CFR 172.500) Y N _____
2. Does transporter have an EPA identification number? (263.11(a)) Y N _____
3. Does the transporter mix/consolidate hazardous wastes of different DOT shipping descriptions 263.10(c)(2)? Y _____ N
- If Yes, Complete Generator Checklist
4. Does the transporter use manifest system as required by 263.20? Y N _____
 Do the manifests contain at least:
 - a) Name, address, and EPA ID of transporter? Y N _____
 - b) Name, address, and EPA ID code of generator? Y N _____
 - c) Name, address, identification code of designated permitted facility? Y N _____
 - d) Corresponding manifest document number? Y N _____
 - e) Description and quantity of each hazardous waste? Y N _____
 - f) Signature of subsequent transporters? Y N _____
 - g) Signatures signifying proper delivery or reasons why delivery could not be certified? Y _____ N _____
 - h) EPA waste codes? Y N _____
5. International shipments: (263.20(g)) NA
 - a) Record of date waste left U.S.? Y _____ N _____
 - b) Presence of one signed copy in records? Y _____ N _____
 - c) Signed copy of manifest returned to the generator? Y _____ N _____
 - d) Copy of the manifest given to a U.S. Customs official at the point of departure from the United States? Y _____ N _____
6. For SQG waste transported according to reclamation agreement:
 - a) Is the following information recorded on a shipping paper:
 - Name, address, and EPA ID of waste generator Y N _____
 - Quantity of waste accepted Y N _____
 - DOT - required shipping info Y N _____
 - Date waste is accepted Y N _____
 - b) Does transporter carry this shipping paper during transport? Y N _____
 - c) Are records maintained for three years after termination or expiration of reclamation agreement? Y N _____
 - d) Are vehicles owned and operated by the waste reclaimer? Y N _____
7. Are copies of the manifests retained for 3 years? (263.22) Y N _____
8. Is there evidence of discharge of hazardous waste? (263.30) Y N

9. Has transporter demonstrated the financial responsibility required under 62.730.170(2) F. A. C.? Y N _____
10. Does the transporter verify financial responsibility with the Department annually (62-730.170(3) F. A. C.)? Y _____ N _____
11. Does the transporter manage Conditionally exempt or Household wastes? Y N _____
- a) Does the transporter have documentation that this waste was generated by an unregulated source? Y N _____
- b) If no, is the transporter assuming responsibility as the generator of this waste? Y _____ N _____
- If yes, complete the applicable Generator or Small Quantity Generator checklist.

_____ N/A Transfer Facility Requirements (17-730.171)

1. 10 Day Limit (263.12)

- Does transporter comply with 10 day storage limit for transfer facilities? Y N _____
- a) Is the hazardous waste packaged according to 262.30? (263.12) Y N _____
- b) Can the facility document that the material is held only as part of the normal course of transportation? Y N _____

If not, the storage may not be exempt.

2. Closure (62-730.171(2)(b) F. A. C.)

- Does facility have a written closure plan satisfying requirements of closure performance, notification, and decontamination standards of 40 CFR 265.111, 265.112(c), 265.114, 265.115? Y N _____
- Has the facility supplied DEP with a copy of the plan? Y N _____

3. Storage Areas (62-730.171(2)(d) F. A. C.)

Is hazardous waste that is stored in containers or vehicles stored on a man made surface which is capable of preventing spills or releases to the ground? Y N _____

4. Operating Record (62-730.171(2)(e) F. A. C.)

- a) Is a written log maintained for all waste entering or leaving the transfer facility? Y N _____
- b) Does the log contain:
- Generators' names? Y N _____
- Manifest numbers? Y N _____
- Dates when waste enters and leaves facility? Y N _____

5. Notification (62-730.171(3) F. A. C.)

- Has the facility notified the department on Form 17-730.900(6) (Transfer facility notification form)? Y N _____
- Does the transfer facility have an EPA/DER ID number? Y N _____

6. General Facility Standards (265 Subpart B)

a) Security (265.14)

- (1) Is the facility security system adequate to minimize unauthorized entry? Y N
- (2) Are signs posted and legible for 25 feet? Y N

b) Inspection Requirement (265.15)

- (1) Does the facility have a copy of the Inspection Plan? Y N
- (2) Does the facility have completed inspection logs? Y N
- (3) Were the deficiencies corrected in a timely manner? Y N
- (4) Are the inspection logs maintained at the facility for 3 years? Y N

c) Personnel Training (265.16)

- (1) Do facility personnel complete hazardous waste training? Y N

Comments:

- (2) Does the facility combine DOT Hazmat training with hazardous waste training? Y N
- (3) Is the trainer adequately trained in hazardous waste management procedures? Y N
- (4) Does the training cover safety? Y N
- (5) Does the training cover emergency response procedures, including equipment handling and inspection? Y N
- (6) Does the training cover hazardous waste identification and handling procedures? Y N
- (7) Does the facility maintain personnel training records? Y N
- (8) Does the facility maintain job titles and position descriptions for employees managing hazardous waste? Y N
- (9) Do the job descriptions include the requisite skills, education and experience? Y N
- (10) Do the job descriptions include a list of the positions' duties? Y N
- (11) Are people trained within 6 months of hiring? Y N
- (12) Do they work unsupervised prior to training? Y N
- (13) Is training reviewed annually? Date of last training _____ Y N
- (14) Are records maintained for three years? Y N

d) Ignitable, Reactive, or Incompatible Waste (265.17)

(1) Is the waste separated and confined from sources of ignition or reaction, sparks, spontaneous ignition, and radiant heat? Y N _____

(2) Are "No Smoking" signs posted in the area? Y N _____

7. Preparedness and Prevention (40 CFR 265 Subpart C)

a) Is there evidence of a fire, explosion or release of hazardous waste or hazardous waste constituents to the environment? (265.31) Y _____ N

If Yes, has the facility reported in writing to DOT as required by 49 CFR 171.16? Y _____ N _____

b) Does the facility have an internal communication or alarm system? (265.32(a)) Y N _____

c) Is there a telephone, alarm, 2-way radio or other device at the scene of operations immediately available and capable of summoning assistance? (265.32(b)) Y N _____

d) Describe fire control equipment. Is it adequate? (265.32(c)) Y N _____

e) Is spill control and decontamination equipment present? (265.32(c)) Y N _____

f) If sprinklers, water hoses or foam producing equipment is part of the facility fire control equipment, is water available at adequate volume and pressure? (265.32(d)) Y N _____

g) Is the emergency equipment inspected and tested periodically? Y N _____

h) Frequency? ✓ yr

i) Is there adequate aisle space to allow unobstructed movement of facility personnel and emergency equipment to any area of the facility where needed? (265.35) Y N _____

j) Has the facility made emergency response arrangements with the following: (265.37)

Fire Department: _____ Y N _____

Police: _____ Y N _____

Hospital: _____ Y N _____

Emergency Response Contractor: _____ Y N _____

k). If not, has the facility attempted to do so and is the refusal documented? Y _____ N _____

4. Contingency Plans and Emergency Response (265 Subpart C)

- a) Does the facility have a contingency plan? 265.51 Y _____ N _____
- b) Is it at the facility and easily available? (265.53) Y _____ N _____
- c) Does the plan include:
- | | | | |
|--|-----------|---------------------------------------|---------|
| Fire Response Procedure: | N/A _____ | Y <input checked="" type="checkbox"/> | N _____ |
| Spill Response Procedures: | N/A _____ | Y <input checked="" type="checkbox"/> | N _____ |
| Explosion Response Procedures: | N/A _____ | Y <input checked="" type="checkbox"/> | N _____ |
| A description of arrangements with local authorities: | N/A _____ | Y <input checked="" type="checkbox"/> | N _____ |
| Emergency Coordinators: (Name) <u>Sammy Cooper</u> | | Y _____ | N _____ |
| Addresses and telephone numbers of Emergency Coordinators: | | Y <input checked="" type="checkbox"/> | N _____ |
| Emergency equipment list: | | Y <input checked="" type="checkbox"/> | N _____ |
| Specifications and capabilities of emergency equipment: | | Y <input checked="" type="checkbox"/> | N _____ |
| Locations of emergency equipment: | | Y <input checked="" type="checkbox"/> | N _____ |
| An evacuation plan and routes: | | Y <input checked="" type="checkbox"/> | N _____ |
| Evacuation/alarm signals: | | Y <input checked="" type="checkbox"/> | N _____ |
- d) Is the plan up to date, with no changes to the list of emergency equipment, list of emergency coordinators, applicable regulations or contingency plan failures since the last revision? Y _____ N CORRECTED
- e) Has the plan been distributed to the local police, fire department, ERT and hospital? Circle omitted authorities. (265.53) Y N _____
- f) Is the emergency coordinator authorized to commit funds for incident response? Y N _____

5. Off Vehicle Container Storage Areas (Subpart I - Use and Management of Containers 265.170)

- a) Are the containers in good condition (265.171)? (check for leaks, corrosion, bulges, etc.) Y N _____
- b) If a container is found to be leaking, does the operator transfer the hazardous waste from the leaking container? Y N _____
- c) Is the waste compatible with the containers and/or its liner? (265.172) Y N _____
- d) Are containers holding hazardous waste opened, handled or stored in such a manner as to cause the container to rupture or leak? (265.173) Y _____ N
If yes, explain using narrative.
- e) Are each of the containers inspected at least weekly (265.174)? Y N _____
If no, explain using narrative concerning the frequency of inspection.
- f) Are containers holding ignitable or reactive wastes located at least 15 meters (50 feet) from the facility property line? (265.176) Y N _____
- g) Are incompatible wastes stored in the same containers? Y _____ N
- h) Are containers holding incompatible wastes kept apart by physical barrier or sufficient distance? Y N _____

USED OIL PROCESSOR CHECKLIST

Facility Name: Miyumi - Pompano Date: 5/9/02
Facility Representative: KOZZEKWINSKI Facility ID: FLD984262410
Inspector: HARRIS BROWN Registration # _____

40 CFR 279 Subpart F -- Processor Standards

1. Is the facility exempt under any of the following? (279.50(a)) Y___ N
Transporter or burner processing incidental to normal course of operations? Y___ N___
Processors who also generate, transport, market, dispose or burn used oil must comply with the applicable Subparts of Part 279.
2. Does the processor have an EPA ID Number? (279.51(a)) Y N___
3. Is the processor Registered? (62-710.500(1)(b)) Y N___
4. Does the processor have a general permit? 62-710.800(1)) Y N___
5. For new facilities; was the notification of intent to use the general permit submitted 30 days prior to beginning operation? For existing facilities, was the notification for renewal submitted 30 days prior to expiration of the general permit?(62-710.800(2)) Y___ N/A

Oil Filter Processing Standards-- 62-710.850 F.A.C.

1. Does the facility process used oil filters by removing oil, draining, crushing or element separation? Describe in narrative. Generators who process their own filters are not regulated provided the filters are not disposed of in a landfill but are managed by a registered processor. TRANSPORT ONLY
Y___ N___
Is the facility a registered used oil filter processor? (62-710.850) Y___ N___
2. Are the filters stored in above ground containers which are: (62-710.850(6))
In good condition? Y___ N___
Closed or otherwise protected from weather? Y___ N___
Labeled "Used Oil Filters"? Y___ N___
Stored on an oil impervious surface? Y___ N___
3. Are records maintained on DEP Form 62-710.900(2) or equivalent that include: (62-710.850(5)(a))
Destination or end use of the processed filters? Y___ N___
Name and street address of each destination or end user? Y___ N___
Are copies kept at the facility's street address for 3 years? (62-710.850(5)(b)) Y___ N___
4. Is an Annual Report submitted by March 1 for the previous calendar year summarizing the above records? (62-710.850(5)(c)) Y___ N___

Oil Management Standards - 279.54

1. Is used oil stored only in tanks or containers? (Circle applicable units) Y N
2. If the facility has tanks, do they comply with 62-761 and 62.762 F. A. C. rules?
(Applicable to USTs over 110 g and ASTs over 550 gallons. Describe in narrative, including number and size of tanks, noting registration numbers if applicable, and compliance status.) Y N
- Is secondary containment consisting of a floor and dike which are impervious to oil provided for ASTs? Applies to all ASTs regardless of size per 279.54(d & e) Y N
3. Are containers and tanks in good condition and not leaking? (279.54(b)) Y N
4. Are containers provided with secondary containment consisting of walls and floor at a minimum? (279.54(c)) Y N
- Is the containment system impervious to oil so as to prevent migration? Y N
5. Are ASTs, UST tank fill lines and containers labeled "used oil? (279.54(f)) Y N
6. Does the facility stop operations and clean up releases of used oil, repairing or replacing any leaking units as applicable? (279.54(g)) Y N

General Facility Standards - 279.52

1. Is the facility maintained and operated to prevent a fire, explosion or planned or unplanned release of used oil to the air, soil, or water which could threaten human health or the environment? (279.52(a)(1)) Y N
2. Does the facility have an internal communication or alarm system capable of giving immediate emergency instruction to facility personnel?(279.52(a)) Y N
3. Is there a telephone, alarm, 2-way radio or other device at the scene of operations immediately available and capable of summoning assistance from local fire departments? (279.52(a)(2)(ii)) Y N
- Is there immediate access to this equipment by all personnel who are engaged in pouring, mixing, spreading or otherwise handled, either directly or by voice or visual contact with another employee? (279.52(a)(4)) Y N
4. Describe fire control equipment. Is it adequate? (279.52(a)(2)(iii)) Y N
5. Is spill control and decontamination equipment present? (279.52(a)(2)(iii)) Y N
6. If sprinklers, water hoses or foam producing equipment is part of the facility fire control equipment, is water available at adequate volume and pressure? (279.52(a)(2)(iii)) Y N
7. Is the emergency equipment inspected and tested periodically?
Frequency? 1 yr Y N

8. Is there adequate aisle space to allow unobstructed movement of facility personnel and emergency equipment to any area of the facility where needed? (279.52(a)(5i)) Y N
9. Has the facility made emergency response arrangements with the following: (279.52(a)(6))
- Fire Department: _____ Y N
- Police: _____ Y N
- Hospital: _____ Y N
- Emergency Response Contractor: _____ Y N
10. If not, has the facility attempted to do so and is the refusal documented? Y N

Contingency Plans and Emergency Response – 279.52(b)

1. Does the facility have a contingency plan? Y N
2. Is it at the facility and easily available? Y N
3. Does the plan include:
- Fire Response Procedure: (compare to 279.52(b)(6)) N/A Y N
- Spill Response Procedures: " N/A Y N
- Explosion Response Procedures: " N/A Y N
- Instructions for handling contaminated materials & residues Y N
- A description of arrangements with local authorities: N/A Y N
- Emergency Coordinators: (Name) Summy Lopez Y N
- Addresses and telephone numbers of Emergency Coordinators: Y N
- Emergency equipment list: Y N
- Specifications and capabilities of emergency equipment: Y N
- Locations of emergency equipment: Y N
- An evacuation plan and routes: Y N
- Evacuation/alarm signals: Y N
- External reporting procedures: Y N
- Internal recordkeeping requirements: Y N
4. Is the plan up to date, with no changes to the list of emergency equipment, list of emergency coordinators, applicable regulations or contingency plan failures since the last revision? (279.52(b)(4)) Y N *CORRECTED*
5. Has the plan been distributed to the local police, fire department, ERT and hospital? Circle omitted authorities. (279.52(b)(3)) Y N
6. Is the emergency coordinator authorized to commit funds for incident response? Y N
7. Has the processor noted in the operating record any incidents requiring implementation of the contingency plan? (279.52(b)(6)(ix)) Y N/A N
9. Were written reports made within 15 days to the DEP? (279.52(b)(6)(ix)) Y N

Rebuttable Presumption and Analysis Plan -- 279.53, 279.55

1. Does the processor have a written analysis plan to determine whether used oil stored at the facility has a total halogen content above or below 1,000 ppm and whether the facility's used oil fuel meets the used oil specification? (279.55(a)) Y N
2. Is the 1,000 ppm halogen determination made by testing? Y N
- If so, does the analysis plan cover: (279.55(a)(2))
- Sampling methods? Y N
- Frequency of sampling? Y N
- Analytical Methods? Y N
- Is the 1,000 ppm halogen determination made by process knowledge? Y N
- If so, is the type of information that will be used to determine the halogen content stated in the analysis plan? (279.55(a)(3)) Y N *N/A*
3. Have any analyses showed exceedances of the 1,000 ppm level? Y N
- If so, was the oil managed as hazardous waste? Y N
- If not, was the oil exempt? Describe basis for presumption rebuttal in narrative. (ex. analysis, refrigerant oil, etc.) N/A Y N
4. Is the used oil fuel specification determination made by testing?
- If so, does the analysis plan cover: (279.55(b)(2))
- Sampling methods? Y N
- Whether the oil will be tested before or after processing? Y N
- Frequency of sampling? Y N
- Analytical Methods? Y N
- Is the used oil fuel specification determination made by process knowledge? Y N
- If so, is the type of information that will be used to determine the halogen content stated in the analysis plan? (279.55(b)(3)) Y N
5. Are all oil processing residues managed as used oil, reclaimed, or used as asphalt manufacture feedstock? (279.59) N/A Y N
- If not, has the processor conducted a hazardous waste determination? (279.10(e)) N/A Y N
6. Are test records or copies of records providing basis for determinations kept for 3 years? Y N

not marketing at Pompano facility

Recordkeeping and Reporting – 279.57, 62-710.510-520 F.A.C.

1. Do used oil acceptance records include: (279.56(a))

- Name & address of the generator or off site source of the used oil? Y N
- EPA ID # of oil provider (if applicable)? Y N
- Name & Address of the transporter delivering the oil to the facility? Y N
- EPA ID # of the transporter delivering the oil Y N
- Quantity of oil shipped? Y N
- Type of oil received (62-710.510(1)(c)) Y N
- Date of shipment? Y N

2. Do used oil delivery records include: (279.56(b), also check marketer requirements)

- Name & Address of receiving facility? (burner, processor or disposal site) Y N
- EPA ID # of receiving facility? Y N
- Name & Address of transporter delivering the oil? Y N
- EPA ID # of transporter? Y N
- Quantity of oil delivered? Y N
- End Use of the oil? (62-710.510(1)(e)) Y N
- Date of delivery? Y N

3. Does the facility keep records on DEP Form 62-710.900(2) or equivalent? (62-710.501(1))

Y N

4. Does the facility submit an annual report by March 1 summarizing the on site records for the previous calendar year? (62-710.520)

Y N

If not, is the facility an electric utility processing only self generated used oil for recycling, which is exempt from state registration and reporting requirements? (62-710.530)?

Y N | A

5. Does the transporter keep copies of the record and reports for three years at the street address of the facility? (62-710.510(2))

Y N

Closure -- 62-710.800(3) F.A.C. and 279.54(h)

1. Has the facility submitted a written closure plan? (62-710.800(3)(a))

Y N

2. Does the plan include procedures for removing containers of oil and residues?

Y N

Cleaning and decontaminating tanks and ancillary equipment?

Y N

Removing contaminated soils?

Y N

Eliminating the need for further maintenance?

Y N

If the facility operated tank systems, and not all contaminated soils can be practicably removed, the owner or operator must close the facility as a hazardous waste landfill.

USED OIL TRANSPORTER CHECKLIST

Facility Name: Magnum - Pompano Date: 5/9/02
Facility Representative: KORZEKWINSKI Facility ID #: FD984262410
Inspector: HARRIS, BROWN Registration # _____

40 CFR 279 Subpart E -- Transporter Standards

1. Is the facility exempt under any of the following? (279.40(a)) Y _____ N X _____
 - On site transport?
 - Generator transporting < 55 g /time to a collection center?
 - Transporter of < 55 g /time from generator to aggregation point owned by same generator ?

2. If the transporter also transports hazardous waste in the same trucks as are used to transport used oil, are the vehicles emptied per 261.7 after HW shipments? (If not, the used oil must be managed as hazardous) Y X _____ N _____

3. Does the transporter process used oil incidental to transport? (279.41) Y X _____ N _____
 - Are any residues managed as used oil, reclaimed, or used as asphalt manufacture feedstock? N/A _____ Y X _____ N _____
 - If not, has the transporter conducted a hazardous waste determination? (279.10(e)) N/A _____ Y _____ N _____

4. Has the facility notified of used oil activities? Check EPA form 8700-12 Y X _____ N _____

5. Does the transporter only deliver used oil to other transporters, oil processors, off specification used oil burners with EPA ID Numbers, or to on-specification oil burners? (279.43(a)) Y X _____ N _____

6. Does the transporter comply with DOT requirements? (279.43(b)) Y X _____ N _____

7. If any oil is discharged during transport, does the transporter: (279.43(c))
 - Notify National Response Center and State Warning Point and Coast Guard per 33 CFR 153.203, as applicable? Y X _____ N _____
 - Report to DOT in writing per 49 CFR 171.16? Y X _____ N _____
 - Clean up any discharges until the discharge poses no threat? Y X _____ N _____

8. Does the facility also transport used oil filters? Y X _____ N _____
 - If so, are the filters stored in above ground containers which are: (62-710.850(6))
 - In good condition? Y X _____ N _____
 - Closed or otherwise protected from weather? Y X _____ N _____
 - Labeled "Used Oil Filters"? Y X _____ N _____
 - Stored on an oil impervious surface? Y X _____ N _____

Transporter Recordkeeping - 279.46

1. Do used oil acceptance records include: (279.46(a))
 - Name & Address of facility providing the oil for transport? Y N
 - EPA ID # of oil provider (if applicable)? Y N
 - Quantity of oil shipped? Y N
 - Date of shipment? Y N
 - Signature of oil provider, dated upon receipt? Y N

2. Do used oil delivery records include: (279.46(b))
 - Name & Address of receiving facility or transporter? Y N
 - EPA ID # of receiving facility or transporter? Y N
 - Quantity of oil delivered? Y N
 - Date of delivery? Y N
 - Signature of oil receiver, dated upon receipt? Y N

3. Do the above records also include state required information on the type of oil and destination or end use? (62-710.510(1)(c & e)) Y N

4. Does the facility keep records on DEP Form 62-710.900(2) or equivalent? (62-710.501(1)) Y N

5. Does the facility submit an annual report by March 1 summarizing the on site records for the previous calendar year? (62-710.520) Y N

If not, is the facility an electric utility transporting only self generated used oil for recycling, which is exempt from state registration and reporting requirements? (62-710.530)? Y N/A

7. Does the transporter keep copies of the record and reports for three years at the street address of the facility? (62-710.510(2)) Y N

Transporter Certification (62-710 F.A.C.)

1. Is the transporter certified? (local governments, and < 55g/time transporters are exempt) (62-710.600) Y N
2. Does the facility maintain training records? (62-710.600(2)(c)) Y N
3. Does the facility maintain insurance or financial assurance of \$100,000 combined single limit? (62-710.600(2)(d)) Y N
4. Is the facility registration form and ID number displayed? (62-710.500) Y N

Facility Name: _____
Date: _____

Transfer Facility Standards - 279.45

1. Does the transporter store used oil at any transportation related facility (including parking lots) for more than 24 hours and not longer than 35 days during the normal course of transport? Transfer facilities storing used oil more than 35 days must comply with 279 Subpart F
- FACILITY IS USED OIL PROCESSOR*
- N/A _____ Y _____ N _____
- Is the transfer facility registered per 62-710.500(1)(a) F. A. C.?
- Y _____ N _____
2. Does the transporter determine whether used oil stored at a transfer facility has a total halogen content above or below 1,000 ppm?
- Y _____ N _____
- Is this done by testing?
- Y _____ N _____
- Is this done by process knowledge? Describe basis in narrative.
- Y _____ N _____
- Are test records or copies of records providing basis for determination kept for 3 years?
- Y _____ N _____
3. Have any analyses showed exceedances of the 1,000 ppm level?
- Y _____ N _____
- If so, was the oil managed as hazardous waste?
- Y _____ N _____
- If not, was the oil exempt? Describe in narrative.
- N/A _____ Y _____ N _____
4. Is used oil stored only in tanks or containers? (Circle applicable units)
- Y _____ N _____
5. If the facility has tanks, do they comply with 62-761 and 62.762 F. A. C rules? (Describe in narrative, including number and size of tanks, noting registration numbers if applicable, and compliance status.)
- Y _____ N _____
- Is secondary containment provided and adequate?
- Y _____ N _____
6. Are containers, and tank trailers in good condition and not leaking?
- Y _____ N _____
7. Are containers provided with secondary containment consisting of walls and floor at a minimum?
- Y _____ N _____
- Is the containment system impervious to oil so as to prevent migration?
- Y _____ N _____
8. Are ASTs, UST tank fill lines and containers labeled "used oil?"
- Y _____ N _____
9. Are used oil filters stored more than 10 days?
- If so, is the facility a registered used oil filter transfer facility? (62-710.850) N/A _____ Y _____ N _____
10. Does the facility stop operations and clean up releases of used oil, repairing or replacing any leaking units as applicable?
- Y _____ N _____

HAZARDOUS WASTE INSPECTION EXIT INTERVIEW SUMMARY – Page 1 of 2

FACILITY NAME <i>Magnum / IPC</i>		TYPE OF INSPECTION: CAV: <input type="checkbox"/> CEI: <input checked="" type="checkbox"/> CI: <input type="checkbox"/> OTHER: <input type="checkbox"/>			
ADDRESS <i>1280 NE 48th St.</i>		CITY <i>Pompano Beach</i>	STATE <i>FL</i>	ZIP CODE <i>33064</i>	
EPA ID NUMBER <i>FLD984262410</i>	DATE OF INSPECTION <i>5/16/01</i>		PAGE <i>1</i>	OF <i>2</i>	
FOLLOW UP CAV INSPECTION WITHIN 120 DAYS: <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO					

A hazardous waste/used oil compliance inspection was made this date, under the authority of Section 403.091, Florida Statutes (F.S.), to determine your facility's compliance with Chapter 403, F.S. and Chapters 62-710, 62-730, 62-737, and 62-740, Florida Administrative Code (F.A.C.). Provisions of Title 40 Code of Federal Regulations (C.F.R.) Parts 260 through 268 and 279, which are cited on this form, have been adopted by reference as the state hazardous waste and used oil rules in Chapter 62-710, 62-730, 62-737 and 62-740, F.A.C. The following potential items of non-compliance were identified by the inspector(s). **This is not a formal enforcement action and may not be a complete listing of all items of non-compliance which exist at the time of this inspection. You are advised to immediately begin correcting these potential violations noted below:**

GENERAL REQUIREMENTS:

- Failure to ensure delivery of HW to proper HW facility § 261.5
- Failure to provide hazardous waste determination § 262.11
- Failure to notify as generator § 262.12
- Failure to use a manifest or reclamation agreement § 262.20
- Failure to provide personnel training § 265.16, 262.34
- Evidence of release(s) of waste § 265.31
- Facility exceeds 90/180 day time limit § 262.34

USED OIL VIOLATIONS:

- Failure to label containers § 279.22
- Failure to respond to releases § 279.22
- Failure to document used oil disposal § 279.10

CONTAINER MANAGEMENT:

- Unlabeled containers § 262.34
- Undated containers § 262.34
- Leaking or bulging containers § 262.34
- Open containers § 265.173
- Inadequate aisle space § 62-730.160

RECORDKEEPING REQUIREMENTS:

- Manifests § 262.40, § 262.44
- Training records § 262.34
- Contingency Plan § 262.34 *update*
- Weekly Inspection records § 62-730.160
- Information not posted by phone § 262.34
- Authorities not notified § 262.37

HAZARDOUS WASTE INSPECTION EXIT INTERVIEW SUMMARY – Page 2 of 2

OTHER: _____

ITEMS REQUESTED BY INSPECTOR: *Please provide response to the following within 15 days: 1) Provide updated contingency plan (only applicable pages), 2) Provide mgmt plan for screening used oil for halogen content, 3) Provide analysis for 3 drums from "UPS" dated 1/9/00.*

OWNER/OPERATOR COMMENTS: _____

The owner/operator is hereby requested to submit in writing, within __ days of this inspection, 1) a description of all corrective actions taken, 2) a schedule for completion of corrective actions to be taken and 3) a description of efforts to prevent recurrence of the above items to the person signing as "INSPECTOR", Florida Department of Environmental Protection, P.O. Box 15425, West Palm Beach, FL 33416. The actions taken within __ days of this notice will be considered in determining whether enforcement, including the assessment of penalties, should be initiated.

IF YOU HAVE QUESTIONS, contact: Tim Ayers at (561) 681-6600.

INSPECTOR (signature): James R. Ayers Date: 5/16/01

The undersigned person hereby acknowledges that he/she received a copy of this notice and has read and understands same.

USED OIL PROCESSOR CHECKLIST

Facility Name: Magnus Environmental Services Date: 9/21/00
Facility Representative: Hunt Harman Facility ID: FL0984262410
Inspector: Jim Ayers / Jeff Smith Registration # _____

40 CFR 279 Subpart F -- Processor Standards

1. Is the facility exempt under any of the following? (279.50(a)) Y ___ N
- Transporter or burner processing incidental to normal course of operations? Y ___ N
- Processors who also generate, transport, market, dispose or burn used oil must comply with the applicable Subparts of Part 279.
2. Does the processor have an EPA ID Number? (279.51(a)) Y N ___
3. Is the processor Registered? (62-710.500(1)(b)) Y N ___
4. Does the processor have a general permit? 62-710.800(1)) Y N ___
5. For new facilities, was the notification of intent to use the general permit submitted 30 days prior to beginning operation? For existing facilities, was the notification for renewal submitted 30 days prior to expiration of the general permit?(62-710.800(2)) Y ___ N N/A

Oil Filter Processing Standards-- 62-710.850 F.A.C.

1. Does the facility process used oil filters by removing oil, draining, crushing or element separation? Describe in narrative. Generators who process their own filters are not regulated provided the filters are not disposed of in a landfill but are managed by a registered processor. Y ___ N N/A
- Is the facility a registered used oil filter processor? (62-710.850) Y ___ N ___
2. Are the filters stored in above ground containers which are: (62-710.850(6))
- In good condition? Y ___ N ___
- Closed or otherwise protected from weather? Y ___ N ___
- Labeled "Used Oil Filters"? Y ___ N ___
- Stored on an oil impervious surface? Y ___ N ___
3. Are records maintained on DEP Form 62-710.900(2) or equivalent that include: (62-710.850(5)(a))
- Destination or end use of the processed filters? Y ___ N ___
- Name and street address of each destination or end user? Y ___ N ___
- Are copies kept at the facility's street address for 3 years? (62-710.850(5)(b)) Y ___ N ___
4. Is an Annual Report submitted by March 1 for the previous calendar year summarizing the above records? (62-710.850(5)(c)) Y ___ N ___

N/A Filters Shipped to Magnus St. Pierce Facility

Oil Management Standards - 279.54

1. Is used oil stored only in tanks or containers? (Circle applicable units) Y N
2. If the facility has tanks, do they comply with 62-761 and 62.762 F. A. C. rules?
(Applicable to USTs over 110 g and ASTs over 550 gallons. Describe in narrative, including number and size of tanks, noting registration numbers if applicable, and compliance status.)

Is secondary containment consisting of a floor and dike which are impervious to oil provided for ASTs? Applies to all ASTs regardless of size per 279.54(d & e) Y N
3. Are containers and tanks in good condition and not leaking? (279.54(b)) Y N
4. Are containers provided with secondary containment consisting of walls and floor at a minimum? (279.54(c)) Y N

Is the containment system impervious to oil so as to prevent migration? Y N
5. Are ASTs, UST tank fill lines and containers labeled "used oil"? (279.54(f)) Y N
6. Does the facility stop operations and clean up releases of used oil, repairing or replacing any leaking units as applicable? (279.54(g)) Y N

General Facility Standards - 279.52

1. Is the facility maintained and operated to prevent a fire, explosion or planned or unplanned release of used oil to the air, soil, or water which could threaten human health or the environment? (279.52(a)(1)) Y N
2. Does the facility have an internal communication or alarm system capable of giving immediate emergency instruction to facility personnel?(279.52(a)) Y N
3. Is there a telephone, alarm, 2-way radio or other device at the scene of operations immediately available and capable of summoning assistance from local fire departments? (279.52(a)(2)(ii)) Y N

Is there immediate access to this equipment by all personnel who are engaged in pouring, mixing, spreading or otherwise handled, either directly or by voice or visual contact with another employee? (279.52(a)(4)) Y N
4. Describe fire control equipment. Is it adequate? (279.52(a)(2)(iii)) Y N
fire extinguishers, sand, blankets
5. Is spill control and decontamination equipment present? (279.52(a)(2)(iii)) Y N
6. If sprinklers, water hoses or foam producing equipment is part of the facility fire control equipment, is water available at adequate volume and pressure? (279.52(a)(2)(iii)) Y N
N/A
7. Is the emergency equipment inspected and tested periodically?
Frequency? Annually Y N

8. Is there adequate aisle space to allow unobstructed movement of facility personnel and emergency equipment to any area of the facility where needed? (279.52(a)(5i)) Y N
9. Has the facility made emergency response arrangements with the following: (279.52(a)(6))
- Fire Department: _____ Y N
- Police: _____ Y N
- Hospital: _____ Y N
- Emergency Response Contractor: Hoot Herween Y N
10. If not, has the facility attempted to do so and is the refusal documented? Y N N/A

Contingency Plans and Emergency Response -- 279.52(b)

1. Does the facility have a contingency plan? Y N
2. Is it at the facility and easily available? Y N
3. Does the plan include:
- Fire Response Procedure: (compare to 279.52(b)(6)) N/A Y N
- Spill Response Procedures: " N/A Y N
- Explosion Response Procedures: " N/A Y N
- Instructions for handling contaminated materials & residues Y N
- A description of arrangements with local authorities: N/A Y N
- Emergency Coordinators: (Name) _____ Y N
- Addresses and telephone numbers of Emergency Coordinators: Y N
- Emergency equipment list: Y N
- Specifications and capabilities of emergency equipment: Y N
- Locations of emergency equipment: Y N
- An evacuation plan and routes: Y N
- Evacuation/alarm signals: Y N
- External reporting procedures: Y N
- Internal recordkeeping requirements: Y N
4. Is the plan up to date, with no changes to the list of emergency equipment, list of emergency coordinators, applicable regulations or contingency plan failures since the last revision? (279.52(b)(4)) Y N
5. Has the plan been distributed to the local police, fire department, ERT and hospital? Circle omitted authorities. (279.52(b)(3)) Y N
6. Is the emergency coordinator authorized to commit funds for incident response? Y N ?
7. Has the processor noted in the operating record any incidents requiring implementation of the contingency plan? (279.52(b)(6)(ix)) Y N
9. Were written reports made within 15 days to the DEP? (279.52(b)(6)(ix)) Y N N/A

Rebuttable Presumption and Analysis Plan -- 279.53, 279.55

1. Does the processor have a written analysis plan to determine whether used oil stored at the facility has a total halogen content above or below 1,000 ppm and whether the facility's used oil fuel meets the used oil specification? (279.55)(a)) Y N

2. Is the 1,000 ppm halogen determination made by testing? Y N

If so, does the analysis plan cover: (279.55(a)(2))

Sampling methods? Y N

Frequency of sampling? Y N

Analytical Methods? Y N

Is the 1,000 ppm halogen determination made by process knowledge? Y N

If so, is the type of information that will be used to determine the halogen content stated in the analysis plan? (279.55(a)(3)) Y N N/A

3. Have any analyses showed exceedances of the 1,000 ppm level? Y N

If so, was the oil managed as hazardous waste? Y N N/A

If not, was the oil exempt? Describe basis for presumption rebuttal in narrative. (ex. analysis, refrigerant oil, etc.) N/A Y N

4. Is the used oil fuel specification determination made by testing?

If so, does the analysis plan cover: (279.55(b)(2))

Sampling methods? Y N

Whether the oil will be tested before or after processing? Y N

Frequency of sampling? Y N

Analytical Methods? Y N

Is the used oil fuel specification determination made by process knowledge? Y N

If so, is the type of information that will be used to determine the halogen content stated in the analysis plan? (279.55(b)(3)) Y N N/A

5. Are all oil processing residues managed as used oil, reclaimed, or used as asphalt manufacture feedstock? (279.59) N/A Y N

If not, has the processor conducted a hazardous waste determination? (279.10(e)) N/A Y N

6. Are test records or copies of records providing basis for determinations kept for 3 years? Y N

Recordkeeping and Reporting -- 279.57, 62-710.510-520 F.A.C.

1. Do used oil acceptance records include: (279.56(a))

- Name & address of the generator or off site source of the used oil? Y N
- EPA ID # of oil provider (if applicable)? Y N
- Name & Address of the transporter delivering the oil to the facility? Y N
- EPA ID # of the transporter delivering the oil Y N
- Quantity of oil shipped? Y N
- Type of oil received (62-710.510(1)(c)) Y N
- Date of shipment? Y N

2. Do used oil delivery records include: (279.56(b), also check marketer requirements)

- Name & Address of receiving facility? (burner, processor or disposal site) Y N
- EPA ID # of receiving facility? Y N
- Name & Address of transporter delivering the oil? Y N
- EPA ID # of transporter? Y N
- Quantity of oil delivered? Y N
- End Use of the oil? (62-710.510(1)(e)) Y N
- Date of delivery? Y N

3. Does the facility keep records on DEP Form 62-710.900(2) or equivalent? (62-710.501(1))

Y N

4. Does the facility submit an annual report by March 1 summarizing the on site records for the previous calendar year? (62-710.520)

Y N

If not, is the facility an electric utility processing only self generated used oil for recycling, which is exempt from state registration and reporting requirements? (62-710.530)

N/A ~~Y N~~

5. Does the transporter keep copies of the record and reports for three years at the street address of the facility? (62-710.510(2))

Y N

Closure -- 62-710.800(3) F.A.C. and 279.54(h)

1. Has the facility submitted a written closure plan? (62-710.800(3)(a))

Y N

2. Does the plan include procedures for removing containers of oil and residues?

Y N

Cleaning and decontaminating tanks and ancillary equipment?

Y N

Removing contaminated soils?

Y N

Eliminating the need for further maintenance?

Y N

If the facility operated tank systems, and not all contaminated soils can be practicably removed, the owner or operator must close the facility as a hazardous waste landfill.

HAZARDOUS WASTE INSPECTION EXIT INTERVIEW SUMMARY – Page 1 of 2

FACILITY NAME <i>Megana Environmental Services</i>		TYPE OF INSPECTION: CAV: <input type="checkbox"/> CEI: <input checked="" type="checkbox"/> CI: <input type="checkbox"/> OTHER: <input type="checkbox"/>

FOLLOW UP CAV INSPECTION WITHIN 120 DAYS: <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO					

A hazardous waste/used oil compliance inspection was made this date, under the authority of Section 403.091, Florida Statutes (F.S.), to determine your facility's compliance with Chapter 403, F.S. and Chapters 62-710, 62-730, 62-737, and 62-740, Florida Administrative Code (F.A.C.). Provisions of Title 40 Code of Federal Regulations (C.F.R.) Parts 260 through 268 and 279, which are cited on this form, have been adopted by reference as the state hazardous waste and used oil rules in Chapter 62-710, 62-730, 62-737 and 62-740, F.A.C. The following potential items of non-compliance were identified by the inspector(s). **This is not a formal enforcement action and may not be a complete listing of all items of non-compliance which exist at the time of this inspection. You are advised to immediately begin correcting these potential violations noted below:**

GENERAL REQUIREMENTS:

- Failure to ensure delivery of HW to proper HW facility § 261.5
- Failure to provide hazardous waste determination § 262.11
- Failure to notify as generator § 262.12
- Failure to use a manifest or reclamation agreement § 262.20
- Failure to provide personnel training § 265.16, 262.34
- Evidence of release(s) of waste § 265.31
- Facility exceeds 90/180 day time limit § 262.34

USED OIL VIOLATIONS:

- Failure to label containers § 279.22
- Failure to respond to releases § 279.22
- Failure to document used oil disposal § 279.10

CONTAINER MANAGEMENT:

- Unlabeled containers § 262.34
- Undated containers § 262.34
- Leaking or bulging containers § 262.34
- Open containers § 265.173
- Inadequate aisle space § 62-730.160

RECORDKEEPING REQUIREMENTS:

- Manifests § 262.40, § 262.44
- Training records § 262.34
- Contingency Plan § 262.34
- Weekly Inspection records § 62-730.160
- Information not posted by phone § 262.34
- Authorities not notified § 262.37

4. COMPLETE ALL CATEGORIES THAT APPLY.

A. Used Oil (40 CFR Part 279)

YES NO Has the used oil been mixed with a hazardous waste? If yes, fill out Section D below.

YES NO Total Halogen concentration >1000 ppm? If yes, fill out Section D below.

YES NO Does the used oil contain PCB's? If yes, check the measured level.

YES NO Did the oil ever contain PCB's > 50 ppm?

A. < 2 ppm b. 2 - 50 ppm c. > 50 ppm

B. Petroleum Contact Water (Chapter 62-740 F.A.C.)

YES NO Has material been mixed with any other waste? If yes, fill out section D below.

YES NO Does waste contain hazardous constituents above those found in the product source? If yes, fill out section D below.

C. Virgin Product

Name of Material _____ Attach MSDS for the product.

YES NO Has the product been mixed with a hazardous waste? If yes, please list the waste codes and fill out Section D.

D. Waste

Is the waste hazardous by:

- YES NO a. Ignitability (per 40 CFR Part 261.21)?
- YES NO b. Corrosivity (per 40 CFR Part 261.22)?
- YES NO c. Reactivity (per 40 CFR Part 261.23)?

Does the waste contain:

- YES NO a. Herbicides or pesticides?
- YES NO b. Dioxins?
- YES NO c. Radioactive Substances?
- YES NO d. Domestic Wastes?
- YES NO e. Biohazardous Materials?

- YES NO Is this a hazardous waste (F, K, U, or P listed) per 40 CFR Subpart D 261.30 - 261.33?
If yes, identify listing _____
- YES NO Is the waste derived from an underground storage tank (UST)?
If yes, list material stored _____
- YES NO Does the waste contain any constituents listed in the table below?
 N/A If yes, check the contaminants that apply and levels measured. Attach all laboratory analysis.

How Were Levels Determined?		<input type="checkbox"/> Laboratory Analysis	<input checked="" type="checkbox"/> Generator knowledge	<input type="checkbox"/> MSDS	
Constituent	Regulatory TCLP Level (mg/L)	Below Regulatory Level	Total (mg/L)	TC (in)

SUBJECT: Proposed Settlement by Consent Order in Case of Florida
Department of Environmental Protection vs. Magnum
Environmental Services, Inc., OGC File No. 00-0442.

Dear Mr. Williams:

The purpose of this letter is to complete the resolution of the matter previously identified by the Department in the Warning Letter dated January 28, 2000, a copy of which is attached. The corrective actions required to bring your facility into compliance have been performed. However, the Department has calculated civil penalties in the amount of \$1,000.00 along with \$250.00 to reimburse the Department's costs, for a total of \$1,250.00. The payment must be made payable to the Department of Environmental Protection by cashier's check or money order and shall include the OGC File Number assigned above and the notation "Ecosystem Management and Restoration Trust Fund." The payment shall be sent to the Southeast District Office, Post Office Box 15425, West Palm Beach, Florida 33416, within 20 days of your signing this letter.

Your signing this letter constitutes your acceptance of the Department's offer to resolve this matter on these terms. If you elect to sign this letter, please return it to the Department at the address indicated above. The Department will then countersign the letter and file it with the Clerk of the Department. When the signed letter is filed with the Clerk, the letter shall constitute final agency action of the Department, which shall be enforceable pursuant to Section 120.69 and 403.121, Florida Statutes.

If you do not sign and return this letter to the Department at the Southeast District address given above within 20 days of receiving it, the Department will assume that you are not interested in settling this matter on the above described terms, and will proceed accordingly. None of your rights or substantive interest are

"More Protection, Less Process"

Printed on recycled paper.

determined by this letter unless you sign it and it is filed with the Department Clerk.

Sincerely,

NOTICE OF RIGHTS

Persons who are not parties to this Consent Order but whose substantial interests are affected by this Consent Order have a right, pursuant to Sections 120.569 and 120.57, Florida Statutes, to petition for an administrative hearing on it. The Petition must contain the information set forth below and must be filed (received) at the Department's Office of General Counsel, 3900 Commonwealth Boulevard, MS-35, Tallahassee, Florida 32399-3000, within 21 days of receipt of this notice. A copy of the Petition must also be mailed at the time of filing to the District Office named above at the address indicated. Failure to file a petition within the 21 days constitutes a waiver of any right such person has to an administrative hearing pursuant to Sections 120.569 and 120.57, Florida Statutes.

The petition shall contain the following information:

(a) The name, address, and telephone number of each petitioner; the Department's Consent Order identification number and the county in which the subject matter or activity is located; (b) A statement of how and when each petitioner received notice of the Consent Order; (c) A statement of how each petitioner's substantial interests are affected by the Consent Order; (d) A statement of the material facts disputed by petitioner, if any; (e) A statement of facts which petitioner contends warrant reversal or modification of the Consent Order; (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Consent Order; (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Consent Order.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the subject Consent Order have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 21 days of receipt of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Sections 120.569 and 120.57, Florida Statutes, and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 60Q-2.010, Florida Administrative Code.

Mediation under Section 120.573, Florida Statutes, is not available in this proceeding.

HW - Magnum Environmental
Services, Inc.

RE: Hazardous Waste Compliance Inspection at Magnum
Environmental Services, Inc., 1280 NE 48th Street, Pompano
Beach, Florida 34064

Dear Mr. Ramos:

The purpose of this letter is to advise you of possible violations of law for which you may be responsible, and to seek your cooperation in resolving the matter. A hazardous waste compliance inspection was conducted at your facility on August 26, 1999. During this inspection, possible violations of Chapter 403, Florida Statutes (F.S.) and Chapter 62-730, Florida Administrative Code (F.A.C.) regarding hazardous waste management were noted. The observations of the Department are in the attached inspection report. Florida Statutes provide that facilities must comply with Title 40 Code of Federal Regulations (CFR) Parts 260 through 268 and 279, as adopted in Chapter 62-730, F.A.C. and Chapter 62-710, F.A.C.

You are advised that any activity at your facility that may be contributing to violations of the above described statutes or rules should be ceased immediately. Operation of a facility in violation of state statutes or rules may result in liability for damages and restoration and the judicial imposition of civil penalties up to \$50,000 per violation per day pursuant to Section 403.727, F.S.

You are requested to contact Mr. Mark McLean of this office at (561) 681-6756 within 10 days of receipt of this Warning Letter to arrange a meeting to discuss the issues. The Department is

Mr. Osiris Ramos
Magnum Environmental Services, Inc.
Page 2 of 2

interested in reviewing any facts you may have that will assist in determining whether any violations have occurred. You may bring anyone with you to the meeting that you feel could help resolve this matter.

If after further investigation, the Department determines that the violations occurred, this matter may be resolved through entry of a Consent Order which will include a compliance schedule and an appropriate penalty. In accordance with the August 12, 1997 Department's "Settlement Guidelines for Civil Penalties" and the RCRA Civil Penalty Policy of 1990, the penalty proposed in this case is \$6,500 plus \$250 for cost and expenses.

Please be advised that this Warning Letter is part of an agency investigation preliminary to agency action in accordance with Section 120.57(4), F.S. The attached civil penalty worksheets are formulated and tendered only in the context of settlement negotiations in order to attempt to reach a cooperative settlement. We look forward to your cooperation in completing the investigation and resolution of this matter.

Sincerely,

 1/28/00

MAGNUM ENVIRONMENTAL SERVICES, INC.
INSPECTION REPORT

FLD984262410
TRANSPORTER, TRANSFER
& USED OIL FACILITY
LQG

INTRODUCTION

On August 26, 1999, a routine hazardous waste and used oil compliance inspection was conducted at Magnum Environmental Services, Inc. (MES) located at 1280 NE 48th Street, Pompano Beach, Florida. The inspection was conducted as part of the Department's 1998-1999 inspection schedule. The site inspection and record review were hosted by Mr. Hunt Harween, the Director of Facility Compliance. Department personnel participating in the inspection were Mr. Jeff Smith, Mr. Jim Ayers, and Mr. Mark McLean.

MES is a full-service recycling, recovery, and remediation service, which is currently registered as a hazardous waste transporter and transfer facility, used oil transporter, transfer, processor and marketer, filter transporter, transfer and processor facility. MES is located on approximately 2.5 acres and has conducted operations from this location since 1993. MES employs approximately 35 employees at any one time. The facility is serviced by a Public Owned Treatment Works (POTW).

SITE INSPECTION

MES has notified as a hazardous waste transporter and transfer facility. Pursuant to Rule 62-730.171, F.A.C., hazardous waste is stored at the facility for less than 10 days, and then transported to an approved hazardous waste treatment, storage, and disposal facility. MES is under contract with the Department's Bureau of Emergency Response pick up and transport abandoned hazardous waste.

The facility maintains a tank farm area, a wastewater pre-treatment plant, a used oil processing area, and a hazardous waste 10-day transfer area. The entire facility is surrounded by a 10-foot high concrete wall and, according to MES's records, has an impervious base consisting of three feet of reinforced concrete over a 60-mil geothermic lining. Telephones and fire extinguishers are stationed throughout the facility for easy access. Within the approximately 125,000 square foot open area of the facility is a roofed storage area for non-hazardous drum storage, a hazardous waste storage area, a roofed oil filter processing shredding area, five 500-gallon used antifreeze storage totes, empty drum storage area, and a truck repair garage. A trailer containing spill response equipment is stationed in this area and is designed for on-site use if needed.

The oil filter processing area is contained by a "speed bump" type of containment. This area consists of used oil filter storage, an oil filter shaker/shredder, and a waste oil storage tank. Currently, the used oil filters are being shredded and sent to U.S. Foundry (Medley, Florida) for recycling. MES plans to ship the used oil filters to

the MES facility in Ft. Pierce to be crushed/compacted and then shipped to a northern smelter. Immediately adjacent to the oil filter processing area is the truck maintenance building. MES's waste hauling trucks undergo minor repairs and oil changes in this area.

MES has an industrial wastewater pre-treatment plant. Wastewater unit operations include oil/water separation, coagulation with aluminum sulfate, and metals precipitation with sodium hydroxide. Soil/liquid separation is accomplished by treatment of the wastewater with a rotary vacuum filter which removes the solid particles and produces a dry filter cake. The effluent from the vacuum filter is then treated by air sparging for phenol and BTEX removal, and activated carbon polishing, if required, prior to discharge to the POTW. The filter cake is placed in a roll-off, sampled, and then disposed of in a Subtitle D landfill.

The facility has above ground storage tanks for storing used oil, oil/water mixtures and recovered fuel and fuel for on-site consumption. This area has its own secondary containment. Stormwater accumulated inside the secondary containment is recovered and put into the wastewater treatment system. MES is permitted by Broward County to discharge industrial wastewater into the POTW. The stormwater runoff, as well as other petroleum contact water (PCW) and process water is collected and directed to oil/water separators for phase separation. The wastewater is treated by the on-site pre-treatment plant prior to discharge to the POTW.

Another major category are fuels which include combustible fuels, flammable fuels and PCW. These fuels are used to make specification fuel, which is then marketed.

Antifreeze is transported to the Pompano facility for accumulation prior to being transported to Hi-Tech Recovery (Boynton Beach), an off-site recycling facility. If the antifreeze is not recycled, then the antifreeze is subject to 40 CFR 262.11 determination prior to disposal. Other non-petroleum related and non-regulated liquids and solids are also handled by MES. The industrial solids are profiled, sampled, and disposed of in a Subtitle D landfill.

Petroleum contaminated soils and sludges are another waste source. They are either treated in a licensed facility or landfill, depending on the analytical data. The non-hazardous petroleum contaminated soils and sludges are disposed of in a Subtitle D landfill. Non-hazardous debris such as personal protective equipment is also handled by MES and is usually disposed of into a Subtitle D landfill.

MES currently uses fly ash residue from off-site for stabilization of oily wastes. Other agents such as lime dust, cement kiln dust, or

other carbonaceous matrix that would provide a stabilized product suitable for landfill may be used, depending on market availability. The agent is mixed directly with the sludges to be stabilized in a sealed roll-off container through transfer hoses. The stabilized sludges are disposed of at Waste Management Central Sanitary Landfill (Pompano Beach), Waste Management Okeechobee Landfill (Okeechobee), or at the Magnum Environmental Services' thermal treatment facility (West Palm Beach).

RECORD REVIEW

MES provided the following records that were applicable to hazardous waste and used oil/filter activities: Field QA Plan (#930141), hazardous waste manifests, non-hazardous waste manifests, screen oil debris report, Biennial Report, used oil annual report, and training records.

Upon review of the facility's hazardous manifests, it was discovered that two were missing the Generator's USEPA ID Number, these were:

Manifest # 11798	Dated 11/07/98	Norwegian Cruise Line
Manifest # 00733	Dated 10/07/98	Mar-a-Lago Club, Inc.

DEPARTMENT FINDINGS

MES is classified as a Large Quantity Generator (LQG) because working under the Department's Bureau of Emergency Response (BER) contract, it may be possible to co-generate more than five drums (or 1000 kilograms) of hazardous waste in a month.

MES is currently under contract with the BER to respond to emergency response abatements and incidents involving abandoned drums. Both MES and BER are considered co-generators of any hazardous waste collected as part of this contract. Hazardous waste generated or collected from the BER contract is not considered as hazardous waste subject to Rule 62-730.171, F.A.C., but generated hazardous waste subject to 40 CFR 262.34(a).

Hazardous waste management rules may have been violated, as noted below ("Summary of Potential Violations"). The Department expects the violations to be corrected in an expeditious and safe manner. The Department's Enforcement Section is willing to provide assistance within the Department's capabilities, limitations, time constraints and workload. In addition, if not already done, the Department suggests that a copy of the hazardous waste regulations (40 CFR 260-268) be obtained from local public, college or law libraries or EPA Region IV or U.S.

Government Printing Office. Please be advised that the Department does not have copies of 40 CFR 262-268 to hand out.

SUMMARY OF POTENTIAL VIOLATIONS

40 CFR 263.20

Missing Or Incorrect Information On Manifest

MES failed to verify that all information on manifests were properly completed.

CORRECTIVE ACTIONS

40 CFR 263.20

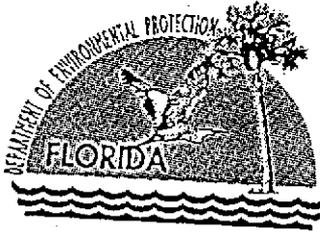

Missing Or Incorrect Information On Manifest

MES should verify that all information on manifests are properly completed, prior to receiving them for shipment.

Mr. Dennis Williams
Magnum Environmental Services, Inc.
1280 N.E. 48th Street
Pompano Beach, Florida 33064

Broward County
HW-Magnum Environmental
Services, Inc.

SUBJECT: Proposed Settlement by Consent Order in Case of Florida
Department of Environmental Protection vs. Magnum
Environmental Services, Inc., OGC File No. 00-0442.

Dear Mr. Williams:

The purpose of this letter is to complete the resolution of the matter previously identified by the Department in the Warning Letter dated January 28, 2000, a copy of which is attached. The corrective actions required to bring your facility into compliance have been performed. However, the Department has calculated civil penalties in the amount of \$1,000.00 along with \$250.00 to reimburse the Department's costs, for a total of \$1,250.00. The payment must be made payable to the Department of Environmental Protection by cashier's check or money order and shall include the OGC File Number assigned above and the notation "Ecosystem Management and Restoration Trust Fund." The payment shall be sent to the Southeast District Office, Post Office Box 15425, West Palm Beach, Florida 33416, within 20 days of your signing this letter.

Your signing this letter constitutes your acceptance of the Department's offer to resolve this matter on these terms. If you elect to sign this letter, please return it to the Department at the address indicated above. The Department will then countersign the letter and file it with the Clerk of the Department. When the signed letter is filed with the Clerk, the letter shall constitute final agency action of the Department, which shall be enforceable pursuant to Section 120.69 and 403.121, Florida Statutes.

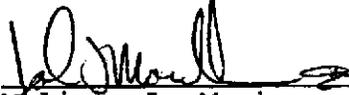

If you do not sign and return this letter to the Department at the Southeast District address given above within 20 days of receiving it, the Department will assume that you are not interested in settling this matter on the above described terms, and will proceed accordingly. None of your rights or substantive interest are

"More Protection, Less Process"

NOTICE OF RIGHTS

Persons who are not parties to this Consent Order but whose substantial interests are affected by this Consent Order have a right, pursuant to Sections 120.569 and 120.57, Florida Statutes, to petition for an administrative hearing on it. The Petition must contain the information set forth below and must be filed (received) at the Department's Office of General Counsel, 3900 Commonwealth Boulevard, MS-35, Tallahassee, Florida 32399-3000, within 21 days of receipt of this notice. A copy of the Petition must also be mailed at the time of filing to the District Office named above at the address indicated. Failure to file a petition within the 21 days constitutes a waiver of any right such person has to an administrative hearing pursuant to Sections 120.569 and 120.57, Florida Statutes.

The petition shall contain the following information:

(a) The name, address, and telephone number of each petitioner; the Department's Consent Order identification number and the county in which the subject matter or activity is located; (b) A statement of how and when each petitioner received notice of the Consent Order; (c) A statement of how each petitioner's substantial interests are affected by the Consent Order; (d) A statement of the material facts disputed by petitioner, if any; (e) A statement of facts which petitioner contends warrant reversal or modification of the Consent Order; (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Consent Order; (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Consent Order.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the subject Consent Order have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 21 days of receipt of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Sections 120.569 and 120.57, Florida Statutes, and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 60Q-2.010, Florida Administrative Code.

Mediation under Section 120.573, Florida Statutes, is not available in this proceeding.

Department of Environmental Protection

RE: Hazardous Waste Compliance Inspection at Magnum
Environmental Services, Inc., 1280 NE 48th Street, Pompano
Beach, Florida 34064

Dear Mr. Ramos:

The purpose of this letter is to advise you of possible violations of law for which you may be responsible, and to seek your cooperation in resolving the matter. A hazardous waste compliance inspection was conducted at your facility on August 26, 1999. During this inspection, possible violations of Chapter 403, Florida Statutes (F.S.) and Chapter 62-730, Florida Administrative Code (F.A.C.) regarding hazardous waste management were noted. The observations of the Department are in the attached inspection report. Florida Statutes provide that facilities must comply with Title 40 Code of Federal Regulations (CFR) Parts 260 through 268 and 279, as adopted in Chapter 62-730, F.A.C. and Chapter 62-710, F.A.C.

You are advised that any activity at your facility that may be contributing to violations of the above described statutes or rules should be ceased immediately. Operation of a facility in violation of state statutes or rules may result in liability for damages and restoration and the judicial imposition of civil penalties up to \$50,000 per violation per day pursuant to Section 403.727, F.S.

You are requested to contact Mr. Mark McLean of this office at (561) 681-6756 within 10 days of receipt of this Warning Letter to arrange a meeting to discuss the issues. The Department is

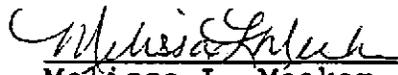

Mr. Osiris Ramos
Magnum Environmental Services, Inc.
Page 2 of 2

interested in reviewing any facts you may have that will assist in determining whether any violations have occurred. You may bring anyone with you to the meeting that you feel could help resolve this matter.

If after further investigation, the Department determines that the violations occurred, this matter may be resolved through entry of a Consent Order which will include a compliance schedule and an appropriate penalty. In accordance with the August 12, 1997 Department's "Settlement Guidelines for Civil Penalties" and the RCRA Civil Penalty Policy of 1990, the penalty proposed in this case is \$6,500 plus \$250 for cost and expenses.

Please be advised that this Warning Letter is part of an agency investigation preliminary to agency action in accordance with Section 120.57(4), F.S. The attached civil penalty worksheets are formulated and tendered only in the context of settlement negotiations in order to attempt to reach a cooperative settlement. We look forward to your cooperation in completing the investigation and resolution of this matter.

Sincerely,

 1/28/00

INSPECTION REPORT

FLD984262410
TRANSPORTER, TRANSFER
& USED OIL FACILITY
LOG

INTRODUCTION

On August 26, 1999, a routine hazardous waste and used oil compliance inspection was conducted at Magnum Environmental Services, Inc. (MES) located at 1280 NE 48th Street, Pompano Beach, Florida. The inspection was conducted as part of the Department's 1998-1999 inspection schedule. The site inspection and record review were hosted by Mr. Hunt Harween, the Director of Facility Compliance. Department personnel participating in the inspection were Mr. Jeff Smith, Mr. Jim Ayers, and Mr. Mark McLean.

MES is a full-service recycling, recovery, and remediation service, which is currently registered as a hazardous waste transporter and transfer facility, used oil transporter, transfer, processor and marketer, filter transporter, transfer and processor facility. MES is located on approximately 2.5 acres and has conducted operations from this location since 1993. MES employs approximately 35 employees at any one time. The facility is serviced by a Public Owned Treatment Works (POTW).

SITE INSPECTION

MES has notified as a hazardous waste transporter and transfer facility. Pursuant to Rule 62-730.171, F.A.C., hazardous waste is stored at the facility for less than 10 days, and then transported to an approved hazardous waste treatment, storage, and disposal facility. MES is under contract with the Department's Bureau of Emergency Response pick up and transport abandoned hazardous waste.

The facility maintains a tank farm area, a wastewater pre-treatment plant, a used oil processing area, and a hazardous waste 10-day transfer area. The entire facility is surrounded by a 10-foot high concrete wall and, according to MES's records, has an impervious base consisting of three feet of reinforced concrete over a 60-mil geothermic lining. Telephones and fire extinguishers are stationed throughout the facility for easy access. Within the approximately 125,000 square foot open area of the facility is a roofed storage area for non-hazardous drum storage, a hazardous waste storage area, a roofed oil filter processing shredding area, five 500-gallon used antifreeze storage totes, empty drum storage area, and a truck repair garage. A trailer containing spill response equipment is stationed in this area and is designed for on-site use if needed.

The oil filter processing area is contained by a "speed bump" type of containment. This area consists of used oil filter storage, an oil filter shaker/shredder, and a waste oil storage tank. Currently, the used oil filters are being shredded and sent to U.S. Foundry (Medley, Florida) for recycling. MES plans to ship the used oil filters to

the MES facility in Ft. Pierce to be crushed/compacted and then shipped to a northern smelter. Immediately adjacent to the oil filter processing area is the truck maintenance building. MES's waste hauling trucks undergo minor repairs and oil changes in this area.

MES has an industrial wastewater pre-treatment plant. Wastewater unit operations include oil/water separation, coagulation with aluminum sulfate, and metals precipitation with sodium hydroxide. Soil/liquid separation is accomplished by treatment of the wastewater with a rotary vacuum filter which removes the solid particles and produces a dry filter cake. The effluent from the vacuum filter is then treated by air sparging for phenol and BTEX removal and activated carbon polishing, if required, prior to discharge to the POTW. The filter cake is placed in a roll-off, sampled, and then disposed of in a Subtitle D landfill.

The facility has above ground storage tanks for storing used oil, oil/water mixtures and recovered fuel and fuel for on-site consumption. This area has its own secondary containment. Stormwater accumulated inside the secondary containment is recovered and put into the wastewater treatment system. MES is permitted by Broward County to discharge industrial wastewater into the POTW. The stormwater runoff, as well as other petroleum contact water (PCW) and process water is collected and directed to oil/water separators for phase separation. The wastewater is treated by the on-site pre-treatment plant prior to discharge to the POTW.

Another major category are fuels which include combustible fuels, flammable fuels and PCW. These fuels are used to make specification fuel, which is then marketed.

Antifreeze is transported to the Pompano facility for accumulation prior to being transported to Hi-Tech Recovery (Boynton Beach), an off-site recycling facility. If the antifreeze is not recycled, then the antifreeze is subject to 40 CFR 262.11 determination prior to disposal. Other non-petroleum related and non-regulated liquids and solids are also handled by MES. The industrial solids are profiled, sampled, and disposed of in a Subtitle D landfill.

Petroleum contaminated soils and sludges are another waste source. They are either treated in a licensed facility or landfill, depending on the analytical data. The non-hazardous petroleum contaminated soils and sludges are disposed of in a Subtitle D landfill. Non-hazardous debris such as personal protective equipment is also handled by MES and is usually disposed of into a Subtitle D landfill.

MES currently uses fly ash residue from off-site for stabilization of oily wastes. Other agents such as lime dust, cement kiln dust, or

other carbonaceous matrix that would provide a stabilized product suitable for landfill may be used, depending on market availability. The agent is mixed directly with the sludges to be stabilized in a sealed roll-off container through transfer hoses. The stabilized sludges are disposed of at Waste Management Central Sanitary Landfill (Pompano Beach), Waste Management Okeechobee Landfill (Okeechobee), or at the Magnum Environmental Services' thermal treatment facility (West Palm Beach).

RECORD REVIEW

MES provided the following records that were applicable to hazardous waste and used oil/filter activities: Field QA Plan (#930141), hazardous waste manifests, non-hazardous waste manifests, screen oil debris report, Biennial Report, used oil annual report, and training records.

Upon review of the facility's hazardous manifests, it was discovered that two were missing the Generator's USEPA ID Number, these were:

Manifest # 11798	Dated 11/07/98	Norwegian Cruise Line
Manifest # 00733	Dated 10/07/98	Mar-a-Lago Club, Inc.

DEPARTMENT FINDINGS

MES is classified as a Large Quantity Generator (LQG) because working under the Department's Bureau of Emergency Response (BER) contract, it may be possible to co-generate more than five drums (or 1000 kilograms) of hazardous waste in a month.

MES is currently under contract with the BER to respond to emergency response abatements and incidents involving abandoned drums. Both MES and BER are considered co-generators of any hazardous waste collected as part of this contract. Hazardous waste generated or collected from the BER contract is not considered as hazardous waste subject to Rule 62-730.171, F.A.C., but generated hazardous waste subject to 40 CFR 262.34(a).

Hazardous waste management rules may have been violated, as noted below ("Summary of Potential Violations"). The Department expects the violations to be corrected in an expeditious and safe manner. The Department's Enforcement Section is willing to provide assistance within the Department's capabilities, limitations, time constraints and workload. In addition, if not already done, the Department suggests that a copy of the hazardous waste regulations (40 CFR 260-268) be obtained from local public, college or law libraries or EPA Region IV or U.S.

Government Printing Office. Please be advised that the Department does not have copies of 40 CFR 262-268 to hand out.

SUMMARY OF POTENTIAL VIOLATIONS

40 CFR 263.20

Missing Or Incorrect Information On Manifest

MES failed to verify that all information on manifests were properly completed.

CORRECTIVE ACTIONS

40 CFR 263.20

Missing Or Incorrect Information On Manifest

MES should verify that all information on manifests are properly completed, prior to receiving them for shipment.

MAGNUM ENVIRONMENTAL SERVICES, INC.
PENALTY JUSTIFICATION

Based upon Guidelines for Characterizing
RCRA Violations dated 4/18/95.

1. **Regulation:** 40 CFR 263.20(a)
The Manifest System

Violation: Magnum Environmental Services, Inc. (MES)
accepted hazardous waste from a generator that
was not accompanied by a manifest signed in
accordance with the provisions of 40 CFR 262.20.

Characterization of Violation:

Potential for Harm - Moderate

Using the Potential for Harm Ranking System, the nature of the waste, volume of waste (>25 drums), no discharge of the waste, and potential receptors (<10 people) were taken into account in determining this portion of the matrix. The potential for harm was determined to be moderate.

Extent of Deviation - Moderate

The RCRA penalty calculation guidelines in the DEP Enforcement Manual indicate that for accepting hazardous waste from a generator that was not accompanied by a manifest signed in accordance with the provisions of 40 CFR 262.20 if shipping papers are available, the extent of deviation is moderate.

Multi-event - unable to determine
Economic Benefit - unable to calculate
Adjustments - N/A

 [Signature]

**FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION
ENFORCEMENT MEETING DOCUMENTATION**

Attendees:

See Meeting Attendance Sheet

Location: SED DEP Office

Date: February 9, 2000

Time: 1:30pm

Subject: Magnum Environmental Services - Enforcement Meeting.

Meeting Objectives:

Confirm return to compliance with hazardous waste regulations and discuss settlement agreement with appropriate penalty.

NOTES: Introductions were made and the meeting attendance list was passed around.

There were two manifests associated with the cited violations. Magnum provided documentation to show that the total number of drum associated with the two manifests were ~14 drums (3564 pounds for Mar-a-Largo and 385 gallons for NCL). The penalty calculation assumed >25 drums based on the original manifests obtained by the Department. The Department is to revisit the calculated penalty. The Potential for Harm could be reduced to minor, thus lowering the calculated penalty.

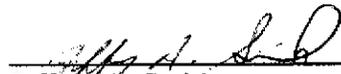

We discussed settlement of case. A Short Form CO was agreed to by Magnum. Magnum agreed to \$1,000 plus \$250 for cost and expenses.

Magnum showed the Department documents that are now placed in each truck to assist each driver with understanding that any volume of HW >1000 kg will need an EPA ID number.

AGREEMENTS/CONCLUSIONS REACHED:

Department will revisit calculated penalty. If lowered to minor/moderate then Magnum agrees to settlement of \$1,000 plus \$250 C&E. Department will send out Short Form CO.

RE: Hazardous Waste Compliance Inspection at Magnum
Environmental Services, Inc., 1280 NE 48th Street, Pompano
Beach, Florida 34064

Dear Mr. Ramos:

The purpose of this letter is to advise you of possible violations of law for which you may be responsible, and to seek your cooperation in resolving the matter. A hazardous waste compliance inspection was conducted at your facility on August 26, 1999. During this inspection, possible violations of Chapter 403, Florida Statutes (F.S.) and Chapter 62-730, Florida Administrative Code (F.A.C.) regarding hazardous waste management were noted. The observations of the Department are in the attached inspection report. Florida Statutes provide that facilities must comply with Title 40 Code of Federal Regulations (CFR) Parts 260 through 268 and 279, as adopted in Chapter 62-730, F.A.C. and Chapter 62-710, F.A.C.

You are advised that any activity at your facility that may be contributing to violations of the above described statutes or rules should be ceased immediately. Operation of a facility in violation of state statutes or rules may result in liability for damages and restoration and the judicial imposition of civil penalties up to \$50,000 per violation per day pursuant to Section 403.727, F.S.

You are requested to contact Mr. Mark McLean of this office at (561) 681-6756 within 10 days of receipt of this Warning Letter to arrange a meeting to discuss the issues. The Department is

"Protect, Conserve and Manage Florida's Environment and Natural Resources"

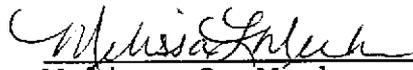

Mr. Osiris Ramos
Magnum Environmental Services, Inc.
Page 2 of 2

interested in reviewing any facts you may have that will assist in determining whether any violations have occurred. You may bring anyone with you to the meeting that you feel could help resolve this matter.

If after further investigation, the Department determines that the violations occurred, this matter may be resolved through entry of a Consent Order which will include a compliance schedule and an appropriate penalty. In accordance with the August 12, 1997 Department's "Settlement Guidelines for Civil Penalties" and the RCRA Civil Penalty Policy of 1990, the penalty proposed in this case is \$6,500 plus \$250 for cost and expenses.

Please be advised that this Warning Letter is part of an agency investigation preliminary to agency action in accordance with Section 120.57(4), F.S. The attached civil penalty worksheets are formulated and tendered only in the context of settlement negotiations in order to attempt to reach a cooperative settlement. We look forward to your cooperation in completing the investigation and resolution of this matter.

Sincerely,

 1/28/00

INSPECTION REPORT

FLD984262410
TRANSPORTER, TRANSFER
& USED OIL FACILITY
LOG

INTRODUCTION

On August 26, 1999, a routine hazardous waste and used oil compliance inspection was conducted at Magnum Environmental Services, Inc. (MES) located at 1280 NE 48th Street, Pompano Beach, Florida. The inspection was conducted as part of the Department's 1998-1999 inspection schedule. The site inspection and record review were hosted by Mr. Hunt Harween, the Director of Facility Compliance. Department personnel participating in the inspection were Mr. Jeff Smith, Mr. Jim Ayers, and Mr. Mark McLean.

MES is a full-service recycling, recovery, and remediation service, which is currently registered as a hazardous waste transporter and transfer facility, used oil transporter, transfer, processor and marketer, filter transporter, transfer and processor facility. MES is located on approximately 2.5 acres and has conducted operations from this location since 1993. MES employs approximately 35 employees at any one time. The facility is serviced by a Public Owned Treatment Works (POTW).

SITE INSPECTION

MES has notified as a hazardous waste transporter and transfer facility. Pursuant to Rule 62-730.171, F.A.C., hazardous waste is stored at the facility for less than 10 days, and then transported to an approved hazardous waste treatment, storage, and disposal facility. MES is under contract with the Department's Bureau of Emergency Response pick up and transport abandoned hazardous waste.

The facility maintains a tank farm area, a wastewater pre-treatment plant, a used oil processing area, and a hazardous waste 10-day transfer area. The entire facility is surrounded by a 10-foot high concrete wall and, according to MES's records, has an impervious base consisting of three feet of reinforced concrete over a 60-mil geothermic lining. Telephones and fire extinguishers are stationed throughout the facility for easy access. Within the approximately 125,000 square foot open area of the facility is a roofed storage area for non-hazardous drum storage, a hazardous waste storage area, a roofed oil filter processing shredding area, five 500-gallon used antifreeze storage totes, empty drum storage area, and a truck repair garage. A trailer containing spill response equipment is stationed in this area and is designed for on-site use if needed.

The oil filter processing area is contained by a "speed bump" type of containment. This area consists of used oil filter storage, an oil filter shaker/shredder, and a waste oil storage tank. Currently, the used oil filters are being shredded and sent to U.S. Foundry (Medley, Florida) for recycling. MES plans to ship the used oil filters to

the MES facility in Ft. Pierce to be crushed/compacted and then shipped to a northern smelter. Immediately adjacent to the oil filter processing area is the truck maintenance building. MES's waste hauling trucks undergo minor repairs and oil changes in this area.

MES has an industrial wastewater pre-treatment plant. Wastewater unit operations include oil/water separation, coagulation with aluminum sulfate, and metals precipitation with sodium hydroxide. Soil/liquid separation is accomplished by treatment of the wastewater with a rotary vacuum filter which removes the solid particles and produces a dry filter cake. The effluent from the vacuum filter is then treated by air sparging for phenol and BTEX removal and activated carbon polishing, if required, prior to discharge to the POTW. The filter cake is placed in a roll-off, sampled, and then disposed of in a Subtitle D landfill.

The facility has above ground storage tanks for storing used oil, oil/water mixtures and recovered fuel and fuel for on-site consumption. This area has its own secondary containment. Stormwater accumulated inside the secondary containment is recovered and put into the wastewater treatment system. MES is permitted by Broward County to discharge industrial wastewater into the POTW. The stormwater runoff, as well as other petroleum contact water (PCW) and process water is collected and directed to oil/water separators for phase separation. The wastewater is treated by the on-site pre-treatment plant prior to discharge to the POTW.

Another major category are fuels which include combustible fuels, flammable fuels and PCW. These fuels are used to make specification fuel, which is then marketed.

Antifreeze is transported to the Pompano facility for accumulation prior to being transported to Hi-Tech Recovery (Boynton Beach), an off-site recycling facility. If the antifreeze is not recycled, then the antifreeze is subject to 40 CFR 262.11 determination prior to disposal. Other non-petroleum related and non-regulated liquids and solids are also handled by MES. The industrial solids are profiled, sampled, and disposed of in a Subtitle D landfill.

Petroleum contaminated soils and sludges are another waste source. They are either treated in a licensed facility or landfill, depending on the analytical data. The non-hazardous petroleum contaminated soils and sludges are disposed of in a Subtitle D landfill. Non-hazardous debris such as personal protective equipment is also handled by MES and is usually disposed of into a Subtitle D landfill.

MES currently uses fly ash residue from off-site for stabilization of oily wastes. Other agents such as lime dust, cement kiln dust, or

other carbonaceous matrix that would provide a stabilized product suitable for landfill may be used, depending on market availability. The agent is mixed directly with the sludges to be stabilized in a sealed roll-off container through transfer hoses. The stabilized sludges are disposed of at Waste Management Central Sanitary Landfill (Pompano Beach), Waste Management Okeechobee Landfill (Okeechobee), or at the Magnum Environmental Services' thermal treatment facility (West Palm Beach).

RECORD REVIEW

MES provided the following records that were applicable to hazardous waste and used oil/filter activities: Field QA Plan (#930141), hazardous waste manifests, non-hazardous waste manifests, screen oil debris report, Biennial Report, used oil annual report, and training records.

Upon review of the facility's hazardous manifests, it was discovered that two were missing the Generator's USEPA ID Number, these were:

Manifest # 11798	Dated 11/07/98	Norwegian Cruise Line
Manifest # 00733	Dated 10/07/98	Mar-a-Lago Club, Inc.

DEPARTMENT FINDINGS

MES is classified as a Large Quantity Generator (LQG) because working under the Department's Bureau of Emergency Response (BER) contract, it may be possible to co-generate more than five drums (or 1000 kilograms) of hazardous waste in a month.

MES is currently under contract with the BER to respond to emergency response abatements and incidents involving abandoned drums. Both MES and BER are considered co-generators of any hazardous waste collected as part of this contract. Hazardous waste generated or collected from the BER contract is not considered as hazardous waste subject to Rule 62-730.171, F.A.C., but generated hazardous waste subject to 40 CFR 262.34(a).

Hazardous waste management rules may have been violated, as noted below ("Summary of Potential Violations"). The Department expects the violations to be corrected in an expeditious and safe manner. The Department's Enforcement Section is willing to provide assistance within the Department's capabilities, limitations, time constraints and workload. In addition, if not already done, the Department suggests that a copy of the hazardous waste regulations (40 CFR 260-268) be obtained from local public, college or law libraries or EPA Region IV or U.S.

Government Printing Office. Please be advised that the Department does not have copies of 40 CFR 262-268 to hand out.

SUMMARY OF POTENTIAL VIOLATIONS

40 CFR 263.20

Missing Or Incorrect Information On Manifest

MES failed to verify that all information on manifests were properly completed.

CORRECTIVE ACTIONS

40 CFR 263.20

Missing Or Incorrect Information On Manifest

MES should verify that all information on manifests are properly completed, prior to receiving them for shipment.

Re: Processing of Antifreeze on Site

Per our conversation this date, please verify that Magnum Environmental Services, Inc. is permitted to process antifreeze on site per our permit (#HO06-307677). This would include having a mobile processor recycle at our facility and Magnum Environmental Services, Inc. processing the antifreeze by heating, separating, etc.

The description statement indicates that we are permitted, but I would like to have written confirmation from your office to this effect.

The processing operation would take place in our processing area within the oil tank farm area to ensure proper containment. All residues generated will be sampled for hazardous constituents, and these wastes would be handled accordingly, dependant on analytical results.

Your response is appreciated. If you have any questions, please contact me at the number listed.

Thank you.

Re: Manifest for Mar-a-Lago, Attached

Jeff,

Attached is the corrected manifest from ONMI Southeastern. Note Section 19. The corrected weight is 1012 pounds for line 11b. OMNI broke out the pallet from line b and listed it on 11c. The total weights for the load are listed on the right side of 19. Total weight is 3564 pounds.

I have jury duty tomorrow, 9/2/99, but will be in the office on Friday. I will call you then to discuss.

Re: CESQG and SQG Definitions and Acceptance Criteria

Recently, I have been approached by a number of people to provide an interpretation of the above generator exemptions.

A Conditionally ^{generates} Exempt Small Quantity Generator (CESQG) is a generator who accumulates less than 100 kg. (220 lbs) of hazardous waste in a calendar month and accumulates no more than 1000 kg. (2200 lbs) [40CFR261.5(g)(2)]. Therefore, you cannot have "CESQG" in the EPA ID# space if you are transporting more than 263 gallons (about 5 drums) of EPA regulated waste.

↳ varies on weight of unseparated

A Small Quantity Generator (SQG) is a generator who accumulates ^{generates} between 100 kg. (220 lbs) and 1000 kg. (2200 lbs) in a calendar month and who accumulates no more than 6000 kg. (13,200 lbs) in six months [40CFR262.34(d)(1)]. Therefore, if we take the worst case scenario and assume the generator is shipping once in a six month period, you cannot have "SQG" in the EPA ID# space if you are transporting more than 1583 gallons (about 29 drums) of EPA regulated waste.

Please review your paperwork to ensure block 1 on the manifest reflects this information. If you have any questions, contact scheduling or compliance before you sign as transporter.

- All SQG's (i.e any HW > 1000kg) must have perm on temp ID #.

15. Special Handling Instructions and Additional Information EMERGENCY GUIDE BOOK #160,154,127 EMERGENCY PHONE #954-527-5135 STATE OF ORIGIN - FLORIDA				Public reporting burden for this collection of information is estimated to average: 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form. Send comments regarding the burden estimate, including suggestions for reducing this burden, to Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M St., S.W., Washington, D.C. 20460; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.			
16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations and the laws of the State of South Carolina. If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classed, packaged, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations. If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment. OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

Public reporting burden for this collection of information is estimated to average 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form. Send comments regarding the burden estimate, including suggestions for reducing this burden, to Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M St. S.W., Washington, D.C. 20460; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations and the laws of the State of South Carolina.
If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

15. Special Handling Instructions and Additional Information
EMERGENCY PH: 800-886-3531
EMERGENCY GUIDE NO: 127 (line A), 171 (line B)

Public reporting burden for this collection of information is estimated to average 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment, storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form. Send comments regarding the burden estimate, including suggestions for reducing this burden, to Chief Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M St., S.W. Washington, D.C. 20460, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations and the laws of the State of South Carolina.
If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

EMERGENCY PHONE #954-527-5135
EMERGENCY GUIDE BOOK #128

Public reporting burden for this collection of information is estimated to average 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form. Send comments regarding this burden estimate, including suggestions for reducing this burden, to Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M St., S.W., Washington, D.C. 20460; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations and the laws of the State of South Carolina.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations and the laws of the State of South Carolina.
If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

Origin: Florida

Public reporting burden for this collection of information is estimated to average: 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form. Send comments regarding the burden estimate, including suggestions for reducing this burden, to Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M St., S.W., Washington, D.C. 20460; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations and the laws of the State of South Carolina.
If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

HAZARDOUS WASTE INSPECTION EXIT INTERVIEW

FACILITY: Magnum Env. Services DATE: 8/26/99 TIME: 3:45 pm

INTERVIEW PARTICIPANTS: Jeffrey Smith, Mark McLonn, Tom Ayres, Hunt Harrison

This exit interview is the Department's attempt to advise you early in the process of possible violations of Florida Administrative Code Chapter 17-730, which adopts 40 CFR Parts 260-266 by reference. It is possible that the list of violations noted (checked) is incomplete. After a complete internal file review by the Department an inspection report will be finalized. In most cases, the violations noted by the inspector will not change in the final report, therefore, you are advised to immediately begin correcting these deficiencies noted below.

Please also be aware that the Department has signed an enforcement agreement with the U.S. Environmental Protection Agency which calls for the assessment and collection of monetary penalties when violations, such as these, are noted. While your quick response in correcting the violations may not reduce the calculated penalties, continued non-compliance may result in greater penalty liability.

The following violations have been tentatively identified:

- 1. Hazardous Waste Determination [262.11].
- 2. Notification as a generator [262.12].
- 3. Manifest Deficiencies [262 Subpart B].
- 4. Recordkeeping [test results, manifest, biennial report].
- 5. Personnel Training [265.16; 262.34(d)].
- 6. Contingency Plan [265 Subpart D; 262.34(d)(5)].
- 7. Preparedness and prevention [265 Subpart C; 262.34(d)(4)].
- 8. Container Requirements [265 Subpart I; 262.34(d)(2)].
- 9. Tank requirements [265 Subpart J].
- 10. Exceeding accumulation storage time [262.34(a); 262.34(d)].
- 11. Accumulation start date & labels on containers [262.34(a)(2)&(3)].
- 12. Accumulating >1000 kg without meeting SQG standards [261.5].
- 13. Not ensuring delivery of HW to a proper TSD facility [261.5].
- 14. Notification as a TSD facility [264.11].
- 15. Treatment, storage or disposal without a permit [F.A.C. 17-730].
- 16. Ground water monitoring [265 Subpart F].
- 17. Security Requirements [265.14].
- 18. Storing HW less than 50 feet from the property line [265.176].
- 19. "No Smoking" signs, ignitable/reactive requirements [265.17].
- 20. Closure/Post-closure [265 Subpart G].
- 21. Financial Responsibility [264 Subpart H].
- 22. Failure to comply with the provisions of a Department Issued Permit or with the provisions of the Consent Order.
- 23. Other _____

COMMENTS: No apparent violations noted. Facility maintains good

June 9, 1999

Harry Lux
Birdsall Industries
821 Ave E
Riviera Beach, FL 33404

Dear Harry:

This letter is in reference to the disposal of used antifreeze from your facilities. The antifreeze material is picked up at a Birdsall facility, then transported back to the Pompano Beach branch. The material is stored in a permitted antifreeze tank. Magnum Environmental utilizes two antifreeze recyclers to then pick up the material. The two companies are:

Hi Tech Recovery
1135 SW 25 Ave
Boynton Beach, FL 33426

AutoMart Distributors
5130 NW 15th St
Margate, FL 33063 954/469-1738

The material is then recycled at the above facilities for reuse of antifreeze product.

If you have any questions, please call me at the above number.

Sincerely,

Bernie Korzekwinski
Sales Manager

Jeff Smith
Florida Department of Environmental Protection
400 N. Congress Ave.
West Palm Beach, FL 33416

Dear Mr. Smith:

Per your telephone conversation of May 25, 1999, with our consultant, John Jones, I would like to confirm Magnum Environmental's acceptance procedures for material removed from oil/water separators. The material removed from the sumps typically includes recoverable oil, oily water, and inert solids. Magnum has required analytical results for the solids removed from these units (typically used at vehicle or maintenance operations) over a period of several years. Based on these results, Magnum has concluded that the material can properly be managed according to the standards of Rule 62-710, F.A.C. and Magnum's used oil permit. Magnum's waste acceptance procedures requires the generator of the waste to use process knowledge to ensure that the material in the sump does not contain listed hazardous waste. The generator acknowledges this determination on Magnum's waste acceptance form (copy attached). If the generator is not able to verify the source of the waste, then Magnum will required additional waste characterization.

Based on the historical information and the generator process knowledge, Magnum intends to accept oil/water separator wastes for treatment in it's facilities. The sump contents will be collected at one time using vacuum trucks, and the contents processed in accordance with Magnum's permits. All oil, water, and residues, (including any treatment residues), are managed in accordance with Magnum's Waste Analysis Plan. Accordingly, any waste leaving Magnum's facility is characterized prior to subsequent treatment and/or disposal. Magnum is therefore confident that this process is protective of human health and the environment.

Should you have any questions or comments regarding this procedure, please contact me at (954) 785-2320

Sincerely,

Dennis Williams
Vice President

990359

D. **Waste**

Is the waste hazardous by:

- YES NO a. Ignitability (per 40 CFR Part 261.21)?
- YES NO b. Corrosivity (per 40 CFR Part 261.22)?
- YES NO c. Reactivity (per 40 CFR Part 261.23)?

Does the waste contain:

- YES NO a. Herbicides or pesticides?
- YES NO b. Dioxins?
- YES NO c. Radioactive Substances?
- YES NO d. Domestic Wastes?
- YES NO e. Biohazardous Materials?

- YES NO Is this a hazardous waste (F, K, U, or P listed) per 40 CFR Subpart D 261.30 - 261.33?
If yes, identify listing _____
- YES NO Is the waste derived from an underground storage tank (UST)?
If yes, list material stored _____
- YES NO Does the waste contain any constituents listed in the table below?
 N/A If yes, check the contaminants that apply and levels measured. Attach all laboratory analysis.

How Were Levels Determined?

Laboratory Analysis
