In an effort to provide a more efficient service, the Florida Department of Environmental Protection's Hazardous Waste Program and Permitting section is forwarding the attached document to you by electronic correspondence "e-correspondence" in lieu of a hard copy through the normal postal service.

We ask that you verify receipt of this document by sending a "reply" message to epost_hwrs@dep.state.fl.us. (An automatic "reply message" is not sufficient to verify receipt). If your email address has changed or you anticipate that it will change in the future, please advise accordingly in your reply. You may also update this information by contacting Kim Thursby at (850) 245-8792.

The attached document is in "pdf" format and will require Adobe Reader 6 or higher to open properly. You may download a free copy of this software at www.adobe.com/products/acrobat/readstep2.html.

Please note that our documents are sent virus free. However, if you use Norton Anti-virus software, a warning may appear when attempting to open the document. Please disregard this warning.

Your cooperation in helping us affect this process by replying as requested is greatly appreciated. If you should have any questions about the attached document(s), please direct your questions to the contact person listed in the correspondence.

RE: Liquid Environmental Solutions of Florida, LLC – Florida Facility
EPA I.D. No. FLD 981 928 484
Permit Numbers: 72815-HO-015; 72815-SO-014
Used Oil and Material Processing Facility Permit Minor Modification Application, Notice of
Deficiency (NOD).

Dear Mr. Turovsky:

The Florida Department of Environmental Protection (the Department) has reviewed your permit minor modification application dated February 19, 2015 and received on February 26, 2015 to operate a Used Oil and Material Processing Facility in Jacksonville, Florida.

The review of the permit application indicates that it is incomplete. Please provide the information requested as shown below:

1. The Facility needs to submit the Solid Waste Permit Application Form 62-701.900(4), F.A.C. as appropriate.
2. The Facility needs to update all Site Maps in an electronic format (pdf preferred), size- 8½”×11”, so that these maps can be inserted into the permit.
3. The Facility needs to update Tank Table in an electronic format (pdf preferred), size- 8½”×11”, so that the tank table can be inserted into the permit.
4. Permit Application in electronic version (DVD/CD), so that the application can be easily inserted into OCULUS.

In preparing your response, the Department recommends that you identify each comment followed by your response and also provide your revised pages of the application. The revised pages are to include the new revision date.

The Department will be contacting you to schedule a meeting or conference call to discuss these comments. Additional communications will be scheduled as needed prior to your submittal of an official response to minimize the time and effort required to formulate adequate replies to the comments. This

Mr. Yuri Turovsky, Plant Manager

exchange of ideas will assist you in developing a complete and adequate response that should eliminate the need for additional official responses and therefore accelerate the permit modification process.

Further action on processing your application is temporarily held in abeyance pending receipt of your complete response. Please submit your written response and electronic copy to the Tallahassee Hazardous Waste Program and Permitting. If you cannot submit all this information within 30 days, you must formally request an extension and provide a schedule, with dates, indicating when this information will be submitted.

Should you like to arrange a meeting or if you have any questions, please contact me at (850) 245-8781 or e-mail: Bheem.kothur@dep.state.fl.us

Sincerely,

A handwritten signature in blue ink, appearing to read 'Bheem Kothur', followed by a long horizontal line.

Bheem Kothur, P.E., DEE
