THE COMMANDANT OF THE UNITED STATES COAST GUARD
WASHINGTON, D.C. 20593-0001

SEP 20 1995

Dear Mr. Berry,

Cliff Berry, Incorporated, honorable mention winner of the 1995 William M. Benkert Award in the small facility category, is recognized for leadership in marine environmental protection.

Your company has demonstrated a total commitment to the pursuit of environmental excellence through implementation of programs which far exceed minimum regulatory requirements. As a steward of the marine environment, you have set a high standard for other industry leaders to follow.

Please accept this letter and bronze medallion as tokens of our appreciation for your outstanding marine environmental protection program.

Sincerely,

R. E. BRAMMER
Admiral, U.S. Coast Guard

Mr. Cliff Berry II
President
Cliff Berry, Inc.

PERMIT No.: IWP-00108-97 01

SOURCE NAME: CLIFF BERRY, INC. MIAMI TERMINAL

LOCATION: 3033 NW NORTH RIVER DR
MIAMI, FL 33142

DESCRIPTION OF FACILITY/EQUIPMENT:

This document, issued under the provisions of Chapter 24, Metropolitan Dade County Code (Dade County Pollution Control Ordinance), shall be valid from June 1, 1997 through May 31, 1998. The above named permittee is hereby authorized to operate the pollution control facility at the above location which consists of the following:

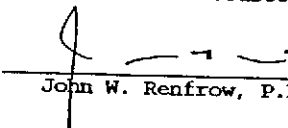

- A 38,000 GPD Pretreatment System for a Combined Waste Treatment facility of petroleum recovery products with:
1. Secondary containment for fourteen A/G horizontal tanks, 9526 sqft. x 3' high, discharging stormwater through a vertical tube coalescer tank to existing frech drain.
 2. Concrete curb for containment of pretreatment system , 1190 sqft X 3' high, inside building.
 3. Concrete curb for containment of drums in holding area, inside building.
 4. Concrete truck ramp with 9" curb for collection of spills in receiving tank area.
 5. Pretreatment system for processed wastes including:
 - a. Three 5000 gal. receiving tanks with partial treatment, within containment area;
 - b. Horizontal decant/holding tanks, as needed;
 - c. A 50 gpm vertical tube coalescer unit;
 - d. Two 350 gal Flash Mix tanks with coagulant and pH feeds;
 - e. DAF unit, 8' diameter, with an air absorption tank;
 - f. Clearwell and holding tank for final inspection before discharge;
 - g. Sludge system with a 600 gal. sludge tank, BP plate and frame filter press;
 - h. Chemical feed system with metering pumps (7) for acid, caustic, coagulant and flocculant solutions;
 6. Two adjustable rate flow controllers with meters to record influent and effluent rates.

SPECIFIC CONDITIONS:

- 01 Hazardous waste, sludge and other industrial wastes and/or wastewater must be transported by DERM approved transporters. Analytical data must be submitted to DERM, for all waste and/or wastewater that is disposed of locally. Failure to gain approval from DERM, for disposal, will result in rejection of your waste at the disposal facility.
- 02 A monthly report of operations shall be submitted to this Department on or before the 15th of the following month in accordance with the enclosed monitoring program. Said monitoring program is a condition of this operating permit and is made a part hereof by reference. The information in the report shall include:
 1. Average daily wastewater flow (gals). Number of batches treated.
 2. Analytical data of TRPH, pH, EPA 601 & 602 Organics, TSS, Cr, Pb, Zn, Nickel, Phenols (semiannual), TTO (semiannual) in final effluent. Include sampling date, sample type, sample location, and analytical method used.
 3. Amount of sludge/hazardous waste disposed of, date, name of hauler and final destination.
- 03 Operations to be conducted in accordance with the Spill Prevention Control Countermeasure (SPCC) Plan as submitted and approved by this Department.

=====

PROJECT NAME: Cliff Berry, Inc.

ADDRESS (APPROX.): 3303 N.W. North River Drive
Miami, Florida 33142

DESCRIPTION:

1. Permitted capacity flow increase of 25,000 gallons per day from a total industrial flow of 13,340 GPD to 38,340 GPD.
2. A total permitted capacity of 38,340 GPD has been approved for discharge into PSO #513 by the Miami-Dade Water and Sewer Department. PSO #513 is owned and operated by Cliff Berry, Inc. and is located at the above address.

CONDITIONS:

1. All conditions of annual operating permit IWP-108 will be incorporated to this approval.
2. This section of DERM must be informed of any modifications that may occur and upon the completion of this project.
3. All discharges to the sanitary sewer system must meet Dade County Sewer Discharge Standards, stipulated in Section 24-11(9) of the Code.

PERMIT No.: PSO-00513-96 05
SOURCE NAME: CLIFF BERRY, INC.
LOCATION: 3033 NW NORTH RIVER DR
MIAMI, FL

DESCRIPTION OF FACILITY/EQUIPMENT:

This document, issued under the provisions of Chapter 24, Metropolitan Dade County Code (Dade County Pollution Control Ordinance), shall be valid from October 1, 1996 through September 30, 1997. The above named permittee is hereby authorized to operate the pollution control facility at the above location which consists of the following:

DESIGN CAPACITY: 100 GPM
NUMBER OF PUMPS: 2, Submersible
ALARMS: Audio & Visual

Subject to specific and general conditions listed below and in the following pages of this document (if any).

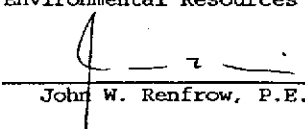

SPECIFIC CONDITIONS:

- 01 The collection/transmission facility shall be operated continuously in such a manner that maximum level of efficiency is maintained at all times and full compliance with Rule 62-604, Florida Administrative Code.
- 02 Each pump shall be provided with a fully operational and working non-resettable elapsed time meter. Monthly totalized meter readings of the total number of hours for each pump shall be recorded by the permittee on the Private Sewage Pump Station Elapsed Time Meter Form and made available to regulatory officials upon request.
- 03 The Permittee shall obtain a Domestic Wastewater Collection/Transmission System Construction permit and notify this Department before making any modifications of pump condition that may change the pumping capacity of the station.

GENERAL CONDITIONS:

- 04 The applicant, by acceptance of this document, agrees to operate and maintain the subject operation so as to comply with the requirements and standards of Chapter 24 of the Code of Metropolitan Dade County.
- 05 If for any reason, the applicant does not comply with or will be unable to comply with any condition or limitation specified on this document the applicant shall immediately notify and provide the department with the following information: (a) a description of and cause of non-compliance; and (b) the period of non-compliance including exact dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps taken to reduce, eliminate, and prevent recurrence of the non-compliance. The applicant shall be responsible for any and all damages which may result and may be subject to enforcement action by the department for penalties or revocation of this document.
- 06 As provided in Section 24-30 of the Code of Metropolitan Dade County, the prior written approval of the Department of Environmental Resources Management shall be obtained for any alteration to this facility.

DESCRIPTION OF FACILITY/EQUIPMENT:

This document, issued under the provisions of Chapter 24, Metropolitan Dade County Code (Dade County Environmental Protection Ordinance), shall be valid from April 01, 1997 through March 31, 1998. The above named permittee, is hereby authorized to operate as a Liquid Waste Transportation business from the above location, and with the equipment bearing the following identifying stickers:
WO97-104-001 through WO97-104-030

Subject to conditions (1) through (15) listed below and in the following pages (if any) of this document.

SPECIFIC CONDITIONS:

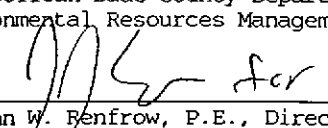

- 01 Correctly completed monthly reporting forms and corresponding fees are required to be submitted to DERM on or before the 10th of the following month.
- 02 No hazardous waste shall be transported under this permit.
- 03 All waste transportation equipment shall be maintained in good working order at all times. Valves, hoses, tanks, etc., shall be properly maintained and shall not leak.
- 04 All waste oil and waste water must be sold or disposed of in accordance with all local, state and federal regulations.
- 05 Only waste oil, oily waste water and non-hazardous industrial waste shall be transported under this permit. Radiator fluid shall not be transported under this permit.

GENERAL CONDITIONS:

- 06 The applicant, by acceptance of this document, agrees to operate and maintain the subject operation so as to comply with the requirements and standards of Chapter 24 of the Code of Metropolitan Dade County.
- 07 If for any reason, the applicant does not comply with or will be unable to comply with any condition or limitation specified on this document the applicant shall immediately notify and provide the department with the following information: (a) a description of and cause of non-compliance; and (b) the period of non-compliance including exact dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps taken to reduce, eliminate, and prevent recurrence of the non-compliance. The applicant shall be responsible for any and all damages which may result and may be subject to enforcement action by the department for penalties or revocation of this document.
- 08 As provided in Section 24-30 of the Code of Metropolitan Dade County, the prior written approval of the Department of Environmental Resources Management shall be obtained for any alteration to this facility.
- 09 The issuance of this document does not convey any vested rights or any exclusive privileges. Nor does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations. Nor does it relieve the applicant from liability for harm or injury to human health or welfare or property.

DESCRIPTION OF FACILITY/EQUIPMENT:

This document, issued under the provisions of Chapter 24, Metropolitan Dade County Code (Dade County Environmental Protection Ordinance), shall be valid from April 01, 1997 through March 31, 1998. The above named permittee, is hereby authorized to operate as a Liquid Waste Transportation business from the above location, and with the equipment bearing the following identifying stickers:
HW97-00391-001 through HW97-00391-018

Subject to conditions (1) through (16) listed below and in the following pages (if any) of this document.

SPECIFIC CONDITIONS:

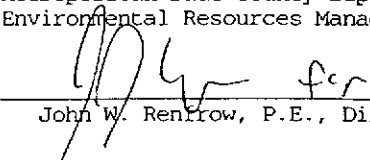

- 01 Correctly completed monthly reporting forms and corresponding fees are required to be submitted to DERM on/or before the 10th of the following month.
- 02 All hazardous waste shall be transported only to an approved transfer station or to an approved hazardous waste disposal site. No storage or disposal of hazardous waste is permitted in Dade County.
- 03 All hazardous waste shall be transported in D.O.T. approved containers and vehicles.
- 04 Correctly completed monthly reporting forms and corresponding fees are required to be submitted to DERM on/or before the 10th of the following month.
- 05 A properly executed manifest shall be required as per federal regulations for each shipment of hazardous waste (copies of said manifests shall be submitted to DERM on a monthly basis before the 10th of the following month). In the event a manifest is not required by federal regulations, an official bill of lading or invoice shall be submitted showing date of pickup, type and amount of waste, source name and disposal location, along with a monthly reporting form and the corresponding fees.
- 06 All spills must be promptly reported to this department by the transporter at 372-6789. Any vehicle containing hazardous waste which is stored in Dade County overnight must be reported to this department by the transporter at the above numbers.

GENERAL CONDITIONS:

- 07 The applicant, by acceptance of this document, agrees to operate and maintain the subject operation so as to comply with the requirements and standards of Chapter 24 of the Code of Metropolitan Dade County.
- 08 If for any reason, the applicant does not comply with or will be unable to comply with any condition or limitation specified on this document the applicant shall immediately notify and provide the department with the following information: (a) a description of and cause of non-compliance; and (b) the period of non-compliance including exact dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps taken to reduce, eliminate, and prevent recurrence of the non-compliance. SPECIFIC CONDITIONS:

- 01 Correctly completed monthly reporting forms and corresponding fees are required to be submitted to DERM on or before the 10th of the following month.
- 02 Accidental spills must be promptly reported to this department by the transporter at 372-6789.
- 03 No material other than radiator fluid shall be transported under this permit. No hazardous waste or untreated wastewaters from radiator boil out or test tanks shall be transported under this permit.
- 04 All waste transportation equipment shall be maintained in good working order at all times. Valves, hoses, tanks, etc., shall be properly maintained and shall not leak.
- 05 All sludges resulting from the transport, handling or treatment of the radiator fluid shall be disposed of as hazardous waste. This hazardous waste shall be transported by a DERM - permitted hazardous waste transporter, and copies of a properly executed Uniform Hazardous Waste Manifest shall be submitted.
- 06 Only facilities with a valid Dade County Pollution Control Facility Annual Operating permit shall be serviced.
- 07 Samples and/or analysis of materials transported will be supplied at the request of DERM.
- 08 Do not discharge used coolant, flush out or test tank waters into septic tanks, storm drains, soakage pits, or onto ground surface.
- 09 All radiator fluid shall be treated as an industrial wastewater and shall not be discharged to any sewage treatment plant without prior approval from DERM.

GENERAL CONDITIONS:

- 10 The applicant, by acceptance of this document, agrees to operate and maintain the subject operation so as to comply with the requirements and standards of Chapter 24 of the Code of Metropolitan Dade County.

Dear Mr. Berry:

This letter acknowledges receipt of your notice requesting the use of a General Permit. Based upon the representation submitted to the Department, this project appears to qualify for the operation of a used oil recycling facility located at 3033 N.W. North River Drive, Miami, Dade County, Florida, 33142.

This facility shall be operated in accordance with the applicable paragraphs set forth in Rules 17-710, Florida Administrative Code (F.A.C.).

This General Permit is subject to the General Conditions of Section 17-4.540, F.A.C., (attached).

If you need further information, please contact me at telephone number 407-433-2650.

Sincerely,

Joseph Kahn, P.E.

This is to certify that the facility named herein has one or more regulated storage tanks and/or compression vessels registered with the Florida Department of Environmental Protection.

Tanks required to register with the Department include those that contain vehicular fuel for land, sea, or air use; other petroleum or petroleum-based products; pollutants such as pesticides, ammonia, or chlorine; a hazardous substance such as listed on the federal CERCLA list; or a mineral acid such as hydrobromic acid, hydrochloric acid, hydrofluoric acid, phosphoric acid, or sulfuric acid.

UST systems installed between 1976 and 1980 should have been upgraded with secondary containment by 12/31/1995.

The Florida Department of Environmental Protection has an Internet site available at <http://www.dep.state.fl.us/>

Storage Tank Inventory information can be obtained on-line by interactive query or by downloading reports. Follow the path: Information Directory : Standard Reports : Storage Tank Inventory. For Petroleum Cleanup program information, follow the path: People, Places, and Organizations : Organization Structure : Division of Waste Management : Local, State, Federal Programs.

In 1996, the Florida Legislature passed House Bill 1127 which requires facility owners and operators at sites with existing petroleum contamination to use a DEP approved method of leak detection if they wish to retain PLIRP coverage for the site. Please call the DEP Storage Tank District office for more information or to obtain a list of Department approved methods. Questions may also be directed to staff in the Storage Tank Regulation - Compliance Subsection at (904) 488-3935.

The Storage Tank Registration placard below must be posted at the facility.
It must be placed out of the weather and in plain view of inspectors entering the facility.

CERTIFICATE OF REGISTRATION**

Registrant: CLIFF BERRY INC.
Attn: Ileana Smothers
PO Box 13079
Ft. Lauderdale, FL 33316

This certifies that the registrant is registered with the U.S. Department of Transportation as required by 49 CFR Part 107, Subpart G.

This certificate is issued under the authority of Section 106(c)(1) of the Hazardous Materials Transportation Act, 49 App. U.S.C. 1801, et. seq. It is unlawful to alter or falsify this document.

Reg. No: 072296 002 002E Issued: 07/23/96 Expires: 06/30/97

Recordkeeping Requirements for the Registration Program

The following must be maintained at the principal place of business for a period of three years from the date of issuance of this Certificate of Registration:

- (1) A copy of the registration statement filed with RSPA; and
- (2) This Certificate of Registration.

Each person subject to the registration requirement must furnish that person's Certificate of Registration (or a copy) and all other records and information pertaining to the information contained in the registration statement to an authorized representative or special agent of the U.S. Department of Transportation upon request.

Each motor carrier (private or for-hire) and each vessel operator subject to the registration requirement must keep a copy of the current Certificate of Registration or another document bearing the registration number identified as the "U.S. DOT Hazmat Reg. No." in each truck and truck tractor or vessel (trailers and semi-trailers not included) used to transport hazardous materials subject to the registration requirement. The Certificate of Registration or document bearing the registration number must be made available, upon request, to enforcement personnel.

For information, contact the Hazardous Materials Registration Manager, DHM-60 Research and Special Programs Administration, U.S. Department of Transportation, 400 Seventh Street, SW, Washington, DC 20590, telephone (202)366-4109.

LETTER OF ADEQUACY

Gentlemen:

Your Mobile Oil Transfer Facility Operations Manual has been reviewed by my staff. The manual meets the requirements of the regulations contained in Title 33, Code of Federal Regulations, Parts 154-156 (33 CFR 154-156). A copy of this Letter of Adequacy shall be kept with your Facility Operations Manual. This letter supercedes the Letter of Adequacy issued to you on June 14, 1991.

This Letter of Adequacy is void if the facility operator amends the Operations Manual without following the procedures contained in 33 CFR 154.320, or fails to amend the Operations Manual when required by the Captain of the Port.

This Letter of Adequacy is valid only within the geographic boundaries of the Miami Captain of the Port Zone, which is identified in 33 CFR 3.35-10.

If you have any questions, please contact LTJG Bill Bodenhamer of my staff at (305) 536-5693.

Sincerely,

A handwritten signature in cursive script, appearing to read "D. F. Miller".

Port Everglades Station
Fort Lauderdale, Fl 33316

Gentlemen:

I have reviewed and incorporated recent changes submitted by you on 28 November 1995 into your facility response plan (SMIA93).

I commend your efforts in developing a response plan that will help ensure effective oil spill response and mitigation. Please be sure that all parties with responsibilities under the plan are familiar with the plan's procedures and requirements.

You are reminded that your company is prohibited from handling, storing, transporting, transferring, or lightering oil unless it is operating in full compliance with this plan. Compliance includes ensuring that the required resources are in place and available through contract or other approved means. In addition, the facility must have a copy of the plan at the marine-transportation related portion of your facility. It is recommended that copies of this letter be placed with your facility operations manual and facility response plan.

You must review your plan annually and submit amendments to the Coast Guard as required by 33 CFR 154.1065.

If you have any further questions, please contact Lieutenant (Junior Grade) Bill Bodenhamer of my staff at the above listed number.

Sincerely,

A handwritten signature in cursive script, appearing to read "D. F. Miller".

Mr. Cliff Berry
Cliff Berry, Inc.
P.O. Box 13079
Fort Lauderdale, FL 33316

Dear Mr. Berry:

I have completed a review of your organization's resources and records for the purpose of determining your classification level as an Oil Spill Removal Organization. This review included a visit to your response resource sites and was conducted as outlined in Coast Guard Navigation and Vessel Inspection Circular 12-92 (NVIC 12-92) and NSFCC Instruction 16480.1 dated June 1993. The review has resulted in the following determination:

FINAL CLASSIFICATION for the following environments:

CLASS E - River & Canal Environments
CLASS E - Inland & Nearshore Environments

You have been assigned OSRO Classification Number 048. Enclosure (1) to this letter provides a summary of the response resources available at each of your sites. You must provide this letter and list to any client wishing to name you as their OSRO for the purposes of vessel and facility response plans. This list will help them determine if you can provide sufficient resources to the required location(s) within the response times necessary for their response plans. This list will also be provided to all Coast Guard response plan reviewers, who will check it against the response plans that have been submitted to them for approval.

If you have questions regarding your final classification or information in the attached sheets, please contact CDR Dave Giraitis of my staff at (919) 331-6005.

Sincerely,

A handwritten signature in dark ink, appearing to read "D. S. Jensen".

Cliff Berry, Incorporated
Environmental Services

Clifford L. Berry II
President

Dear Customer:

Cliff Berry, Inc. would like to take this opportunity to inform you of our environmental and petroleum services and equipment available. Enclosed you will find information highlighting our capabilities in the areas of oil recovery, storage and disposal, plus the equipment and materials available to complete these tasks.

For more than 30 years, Cliff Berry, Inc. has been a petroleum industry leader in southeast Florida. Our dedication to providing reliable, quality service to our customers has been proven time and time again. This commitment results in continuing contracts with U.S. Coast Guard, Port Everglades Authority, and the majority of oil companies within the port.

Whether on land or sea, we have the expertise, professional personnel and equipment to respond to oil spills throughout south Florida.

Cliff Berry, Inc. is registered by the State of Florida Department of Environmental Regulation as a used oil transporter, collection and recycling facility. In addition, we are licensed by the Broward County Department of Natural Resource Protection and the Dade County DERM. Therefore, you can always depend on us to dispose of oil waste in accordance with today's strict environmental regulations.

Should you have any questions regarding the services Cliff Berry, Inc. can offer, please contact Larry Doyle, Assistant To The President.

We look forward to working with you in the future.

Sincerely,

Cliff Berry, Inc.

Cliff Berry II
President
