Re: Hazardous Waste Compliance Inspection – FLR 000057414
Warning Letter # 241496
Hillsborough County

Dear Elizabeth:

Quality Carriers, Inc. (QC) is in receipt of your above referenced correspondence. With respect to the violations, QC's Safety Director Ray Chinault has contacted the terminal manager responsible for the two violations. Mr. Chinault has reviewed the two shipments in question at length with our terminal manager. Our terminal manager was then instructed to have a meeting with all of his drivers, including Mr. Giles as well as his dispatchers. The meeting was scheduled to review the requirements of a Hazardous Waste movement and to make sure the receiving facility is executing the manifests upon acceptance of the waste. The terminal manager was also reminded that it is his responsibility to maintain all original manifests for loads dispatched from his terminal, for at least three years and make them easily accessible in case of a state compliance audit. Mr. Chinault has also ordered one of QC's safety managers to audit the terminal's waste manifest records for accuracy and compliance.

I hope this meets with your satisfaction. If you need any additional information please give me a call at (813) 630-5826 x7369.

Sincerely,

John McAvoy
Insurance Manager

Attn: Mr. Ray Chennault

Re: Facility ID# FLR 000 057 414
Warning Letter #241496
Hillsborough County

Dear Mr. Chennault:

The purpose of this letter is to advise you of possible violations of law for which you may be responsible, and to seek your cooperation in resolving the matter. A hazardous waste program field inspection conducted on September 7, 2000, indicates that violations of Florida Statutes and Rules may exist at the above referenced facility. Department of Environmental Protection personnel made observations described in the attached inspection report. Section 9 of the report lists a summary of alleged violations of Department Rules.

Sections 403.161 and 403.727, Florida Statutes (F.S.) provides that it is a violation to fail to comply with rules adopted by the Department. The activities observed during the Department's field inspection and any other activities at your facility that may be contributing to violations of Florida Statutes or Department Rules should cease.

You are requested to contact Elizabeth Knauss at (813)744-6100, extension 383, within fifteen (15) days of receipt of this Warning Letter to arrange a meeting to discuss this matter. The Department is interested in reviewing any facts you may have that will assist in determining whether any violations have occurred. You may bring anyone with you to the meeting that you feel could help resolve this matter. Alternatively, you may respond in writing within thirty (30) days with documentation that all alleged violations have been corrected.

Please be advised that this Warning Letter is part of an agency investigation, preliminary to agency action in accordance with Section 120.57(4), F.S. If you fail to respond and document a return to compliance within 90 days, under the Department's agreement with the United States Environmental Protection Agency (EPA), you may be designated as significantly out of compliance. This could result in issuance of a formal administrative complaint or "Notice of Violation" (NOV) and assessment of civil penalties if the case is not resolved within 150 days of the attached inspection report. We look forward to your cooperation in completing the investigation and resolution of this matter.

Sincerely yours,

 Deborah A. Getzoff
Director of District Management
Southwest District

6. TYPE OF OWNERSHIP: Private Federal State County Municipal

7. PERMIT #: N/A ISSUE DATE: EXP. DATE:

"More Protection, Less Process"

Printed on recycled paper.

8. Facility and Process Description:

Quality Carriers was formerly Montgomery Tank Lines, and was re-named in 1999 after merging with several other carriers. The company operates several hundred terminals nationally, mainly in the eastern states. At least two terminals are in Florida, one in Tampa and one in Jacksonville.

Quality Carriers' new national headquarters in Tampa obtained an EPA identification number in June of 1999 as a hazardous waste transporter. This number is used corporate wide for hazardous waste shipments, except in a few locations where an Illinois number is being used pending transfer of some permits. Quality verified that they ship hazardous waste in Pennsylvania and other states. Meg Harkins in North Carolina is responsible for submitting quarterly reports on transportation activities to Pennsylvania. She is also responsible for submitting the annual transporter status form as required by 62-730.170.(2)(e). DEP records indicate current insurance certificates for both ILD 049 812 696 and FLR 000 057 414.

No waste is managed at the headquarters location. Copies of manifests were not being stored at headquarters either. Instead, manifests are kept at the terminal where the load originated.

The Florida terminals concentrate on transport of bulk liquids, including hazardous materials. No hazardous waste is transported out of the Tampa terminal according to the manager, Bruce Conley, and no records related to hazardous waste transportation are kept at that location.

In response to a request for information, Quality stated that the company has never transported hazardous waste to or from a destination in Florida and submitted manifests for July 2000 to the Department. Manifests NJA3114649, NJA3114648, for non-hazardous waste from E.I. Dupont (IAD005272398), did not have signatures from the second transporter listed. These two manifests were signed by the disposal facility acknowledging receipt. Manifests NYG2648223 and NYG 2648232, from Merck (PAD003043353) were not signed by the disposal facility. Since these two manifests were for a shipment of hazardous waste, this is a violation of 40 CFR 263.20(d).

9. Summary of Alleged Violations:

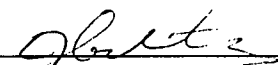

40 CFR 263.20(d)

Failure to obtain the printed name and handwritten signature of a representative of the designated facility when delivering 2 shipments of hazardous waste in July 2000.

10. Recommended Corrective Actions:

40 CFR 263.20(d)

Review training with driver William Giles and his terminal manager on manifest and recordkeeping procedures; conduct an internal audit and report any additional violations discovered under the self audit policy.

Inspected:  Date: 12/4/02
Elizabeth B. Knauss
Environmental Manager

TRANSPORTERS CHECKLIST

1. Site Name: Quality Carriers
Location where records are maintained: various terminals

Transporter Requirements (40 CFR 263)

1. Do vehicles transporting hazardous waste have the appropriate placards? (263.10)(49 CFR 172.500) Y ☐ N ☐ *Not inspected*
2. Does transporter have an EPA identification number? (263.11(a)) Y ☒ N ☐ *- no transp in Florida*
3. Does the transporter use the manifest system as required by 263.20? Y ☒ N ☐
Do the manifests contain at least:
- a. Name, address, and EPA ID of transporter? Y ☒ N ☐
- b. Name, address, and EPA ID code of generator? Y ☒ N ☐
- c. Name, address, identification code of designated permitted facility? Y ☒ N ☐
- d. Corresponding manifest document number? Y ☒ N ☐
- e. Description and quantity of each hazardous waste? Y ☒ N ☐
- f. Signature of subsequent transporters? Y ☒ N ☐ *- 2 loads monitored*
- g. Signatures signifying proper delivery or reasons why delivery could not be certified? Y ☐ N ☒ *2 manifest*
- h. EPA waste codes? Y ☒ N ☐
4. International shipments: (Exports - 263.20(g)) NA ☒
- a. Are records kept of the dates waste left the U.S.? Y ☐ N ☐
- b. Presence of one signed manifest copy in the transporter's records? Y ☐ N ☐
- c. Is a signed copy of the manifest returned to the generator? Y ☐ N ☐
- d. Is a copy of the manifest given to a U.S. Customs official at the point of departure from the United States? Y ☐ N ☐
5. Tolling Agreements for SQG waste: ☒ N/A
- a. Is all waste transported by tolling agreements generated by SQGs? Y ☐ N ☐
- b. Is following information recorded on a shipping paper:
Name, address, and EPA ID of waste generator Y ☐ N ☐
Quantity of waste accepted Y ☐ N ☐
DOT - required shipping info Y ☐ N ☐
Date waste is accepted Y ☐ N ☐
- c. Does transporter carry this shipping paper during transport? Y ☐ N ☐
- d. Are records maintained for three years after termination or expiration of reclamation agreement? Y ☐ N ☐
6. Are copies of the manifest retained for 3 years? (263.22) Y ☐ N ☐
7. Is there evidence of discharge of hazardous waste? (263.30) Y ☐ N ☐

8. Has transporter demonstrated the financial responsibility required under 62-730.170(2) Y ☒ N ☐
9. Does the transporter verify financial responsibility with the Department annually (62-730.170(3))? Y ☒ N ☐
10. Does the transporter mix/consolidate hazardous wastes of different DOT shipping descriptions 263.10(c)(2)? Y ☐ N ☒

If yes, complete the Generator checklist.

Transfer Facility Requirements (62-730.171)

1. Does transporter comply with 10 day storage limit for transfer facilities? (263.12) Y ☐ N ☐
- a.. Is the hazardous waste packaged according to 262.30? (263.12) Y ☐ N ☐
2. Has the facility notified the department on Form 62-730.900(6) (Transfer facility notification form)? (62-730.171(3)) Y ☐ N ☐
3. Does the transfer facility have an EPA/DER ID number? Y ☐ N ☐
4. Is a written log maintained for all waste entering or leaving the transfer facility? (62-730.171(2)(e)) Y ☐ N ☐
- Does the log contain:
- Generators' names? Y ☐ N ☐
- Manifest numbers? Y ☐ N ☐
- Dates when waste enters and leaves facility? Y ☐ N ☐
5. Does facility have a written closure plan satisfying requirements of closure performance, notification, and decontamination standards of 40 CFR 265.111, 265.112(c), 265.114, 265.115? (62-730.171(2)(b)) Y ☐ N ☐
- Has the facility supplied DEP with a copy of the plan? Y ☐ N ☐

General Facility Standards (265 Subpart B, adopted by reference in 62-730.161)

1. Security (265.14)
- (a) Is the facility security system adequate to minimize unauthorized entry? Y ☐ N ☐
- (b) Are signs posted and legible for 25 feet? Y ☐ N ☐
2. Inspection Requirements (265.15)
- (a) Does the facility have a copy of the Inspection Plan? Y ☐ N ☐
- (b) Does the facility have completed inspection logs? Y ☐ N ☐
- (c) Were the deficiencies corrected in a timely manner? Y ☐ N ☐
- (d) Are the inspection logs maintained at the facility for 3 years? Y ☐ N ☐
3. Personnel Training (265.16)
- (a) Do management personnel complete hazardous waste training? Y ☐ N ☐
- Do laborers who handle hazardous waste complete training? Y ☐ N ☐
- Is training on the job? ☐ in the classroom? ☐ both? ☐

- (b) Does training include:
- | | |
|--------------------------------------------------|--------------|
| Emergency response procedures? | Y_____N_____ |
| Inspection procedures? | Y_____N_____ |
| Operation of hazardous waste handling equipment? | Y_____N_____ |

N/A

(c) How often is training reviewed? _____

(d) Does the facility have personnel training records including:

- | | |
|----------------------------------------|--------------|
| Job title and description of position? | Y_____N_____ |
| Description of employee's training | Y_____N_____ |

(e) Is training successfully completed within 6 months of hiring/
transfer to HW position? Y_____N_____

(f) Are records maintained for three years at the facility? Y_____N_____

4. Ignitable, Reactive, or Incompatible Waste (265.17)

(a) Is the waste separated and confined from sources of ignition or
reaction, sparks, spontaneous ignition, and radiant heat? Y_____N_____

(b) Are "No Smoking" signs posted in the area? Y_____N_____

Preparedness and Prevention (265 Subpart C adopted by reference in 62-730.161)

1. Is there evidence of fire, explosion or contamination of the
environment? (265.31 Maintenance and Operation of Facility) Y_____N_____

If yes, use narrative explanation.

2. Is the facility equipped with (265.32 - required equipment):

(a) Internal communications or alarm system? Y_____N_____

Is it easily accessible in case of emergency? Y_____N_____

(b) Telephone or two-way radio to call emergency response personnel? Y_____N_____

(c) Portable fire extinguishers, fire control equipment, spill control
equipment and decontamination equipment? Y_____N_____

Is this equipment tested to assure its proper operation? Y_____N_____

How frequently? _____

(d) Water of adequate volume for hoses, sprinklers or water spray system? Y_____N_____

(1) Describe source of water. _____

(2) Indicate flow rate and/or pressure and storage capacity, if applicable. _____

3. Is there sufficient aisle space to allow unobstructed movement of personnel and
equipment? (e.g., adequate aisle space in between barrels to check for leakage,
corrosion and proper labeling, etc.) (265.35 -Required Aisle Space) Y_____N_____

4. Has the facility made emergency response arrangements with the following: (265.37)

Fire Department: _____ Y _____ N _____
Police: _____ Y _____ N _____
Hospital: _____ Y _____ N _____
Emergency Response Contractor: _____ Y _____ N _____

If NA, explain _____

5. If not, has the facility attempted to do so and is the refusal documented? Y _____ N _____

6. Does the owner/operator have phone number of and agreements with state emergency response teams, emergency response contractors and equipment suppliers? (265.37 - Arrangements with Local Authorities) Y _____ N _____

Are they readily available to the emergency coordinator? Y _____ N _____

Contingency Plan and Emergency Procedures (265 Subpart D adopted by reference in 62-730.161)

1. Does the facility have a contingency plan? (265.51 - Purpose and Implementation of Contingency Plan) Y _____ N _____

2. Is it maintained at the facility? (265.53 - Copies of Contingency Plan) Y _____ N _____

3. Is the contingency plan a revised SPCC Plan (265.52 - Content of Contingency Plan) Y _____ N _____

(a) Does the plan include:

(1) Action personnel will take? Y _____ N _____

(2) Evacuation routes? Y _____ N _____

(3) Emergency Equipment? Y _____ N _____

(4) Is the emergency equipment properly inspected and maintained? Y _____ N _____

4. Is there an emergency coordinator on site or within short driving distance of the plant at all times? (265.55 - Emergency Coordinator) Y _____ N _____

5. Who is the emergency coordinator? _____

6. Has the facility supplied local police and fire departments with a copy of the contingency plan? (265.53(b) - Content of Contingency Plan) Y _____ N _____

7. Has the facility supplied DEP with a copy of the Contingency Plan? (62-730.171(2)(a)) Y _____ N _____

Unregulated Wastes – HHW/CESQG Waste N/A _____

1. Does the transporter have documentation that this waste was generated by an unregulated source? Y _____ N _____

2. If no, is the transporter assuming responsibility as the generator of this waste? Y _____ N _____

If yes, complete the applicable Generator or Small Quantity Generator checklist.

If not, explain circumstances in narrative, including a discussion of applicable exemptions.

Container Storage Checklist (Subpart I - Use and Management of Containers 265.170)

1. Is hazardous waste that is stored in containers or vehicles stored on a man made surface which is capable of preventing spills or releases to the ground? (62-730.171(2)(d)) Y_____N_____
2. Are the containers in good condition (265.171)?
(check for leaks, corrosion, bulges, etc.) Y_____N_____
3. If a container is found to be leaking, does the operator transfer the hazardous waste from the leaking container? Y_____N_____
4. Is the waste compatible with the containers and/or its liner? (265.172) Y_____N_____
5. Are containers holding hazardous waste opened, handled or stored in such a manner as to cause the container to rupture or leak? (265.173) Y_____N_____
- If yes, explain using narrative.
6. Are each of the containers inspected at least weekly (265.174)? Y_____N_____
- If no, explain using narrative concerning the frequency of inspection.
7. Are containers holding ignitable or reactive wastes located at least 15 meters (50 feet) from the facility property line? (265.176) Y_____N_____
- If yes, explain using narrative.
8. Are incompatible wastes stored in the same containers? Y_____N_____
- If yes, explain using narrative.
9. Are containers holding incompatible wastes kept apart by physical barrier or sufficient distance? Y_____N_____
- If no, explain using narrative.
10. Does the transporter store hazardous waste in units other than containers? Y_____N_____

If Yes, the transporter may be subject to hazardous waste permit requirements.

Re: Hazardous Waste Compliance Inspection – FLR 000057414

Dear Elizabeth:

Enclosed are the Quality Carrier, Inc. hazardous waste manifests you've requested per your correspondence of September 11, 2000. These hazardous waste manifests are for the month of July 2000 and have been transported under Quality Carrier, Inc.'s EPA ID number FLR000057414. The original waste manifests are stored at the dispatching terminal in case of a corresponding state inspection. These terminals include are Mediapolis, Ia., Denton, Tx., Williamsport, Pa., Memphis, Tn., Luling, La. and St. Albans, WV.

With respect to your second request, Quality Carriers has no records of any hazardous waste being hauled into or out of the state of Florida since QC was issued its Florida hazardous waste transporter EPA ID number FLR 000057414, in June of 1999.

I hope this meets with your satisfaction. If you need any additional information please give me a call at (813) 630-5826 x7369.

Sincerely,

John McAvoy
Insurance Manager

**Re: Quality Carriers, Inc.
Request for Extension of Response Time**

Dear Ms. Knauss:

I am writing to confirm the extension of response time you granted in our phone conversation on September 15, 2000.

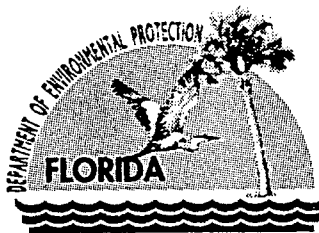

In your letter, dated September 11, 2000, you requested Quality Carriers produce documents within 10 days. As discussed in our conversation, you granted an extension, allowing a total of 20 days to respond to your request.

If you have any questions, please contact me at 704-947-8340.

Sincerely,

Quality Carriers, Inc.

Dear Mr. McAvoy

Re: Hazardous Waste Compliance Inspection
FLR 000 057 414

Thank you for your assistance during the hazardous waste compliance inspection I began on September 7, 2000. In order to complete the inspection I need to review a representative sample of the manifests for hazardous waste shipments managed by your company.

You are requested to send me copies of the following records within 10 days of receipt of this letter:

- Copies of ALL hazardous waste manifests where FLD 000 057 414 was used as the hazardous waste transporter identification number for shipments accepted in July 2000. The copy should include the signature of a representative of the designated facility.
- Copies of ANY manifests where FLD 000 057 414 was used as the hazardous waste transporter identification number for shipments of hazardous waste that originated in or were consigned to a destination in Florida. For these manifests, please state the location where the record is maintained in your files. The number was issued in June of 1999.

If you need more than 10 days to supply this information, or if you have any questions, please call me at 813/744-6100 ext. 383.

Sincerely,

Elizabeth B. Knauss
Environmental Manager
Hazardous Waste Section
