ADD'L DESCRIPTION/SPECIAL HANDLING INSTRUCTIONS:

Used Oil is subject to regulation by the Florida DEP Statute 403, Florida Administrative Code 62-710 and The United States EPA 40 CFR Part 279
Avoid Skin & Tissue Contact. Wear Gloves & Eye Protection. In case of emergency contact the Florida Department of Environmental Protection and Synergy Recycling at (886) 492-6879

GENERATOR CERTIFICATION:

We the generator of this product, hereby certify that we have not mixed any hazardous waste with this product being collected by RICKY'S OIL & ENVIRONMENTAL SE. This product is being transported to RICKY'S OIL & ENVIRONMENTAL SE to be recycled in accordance with all federal, state, and local laws. We the generator also certify that this product does not contain any detectable levels of PCB,s (53 Fed. Reg. 24206, June 27, 1988).

I hereby declare that the contents of this shipment are fully and accurately described above by proper shipping name and are classified, packed, marked and labeled, and are in all respects in proper condition for transport by highway according to applicable international, national, and state regulations.

Unless I am a small generator who has been exempted by statute or regulation from the duty to make a waste minimization certification under Section 3002(b) of RCRA, I also certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and I have selected the method of treatment, storage, or

Reuse Qualification Statement
By signing this document, I hereby certify that I understand the used FCC Environmental, LLC degreasing fluid (i.e. Mineral spirits, petroleum naphtha) returned to FCC Environmental, LLC for inclusion in the FCC Environmental, LLC Reuse program will be utilized as an effective substitute for chemical product. For the purpose of qualifying to participate in the program, I further certify that any used degreasing fluid so returned to FCC Environmental, LLC has not been mixed with hazardous waste or other objectionable substances.
All constituents that may be present in the degreasing fluid are contaminants resulting from, and incidental to, normal use of the solvent as a degreaser or cleaner. I have reviewed our physical facilities, administrative practices, and operational procedures and based on this review do willing make this true, accurate and complete certification.

Reuse Solvent QA & QC
Yes No
Used solvent passed Visual Inspection ☐ ☐
Used solvent has no unusual odor ☐ ☐
Parts Cleaner is clean (front/back) ☐ ☐
Fuel tank operational ☐ ☐
Rep initials ☐ ☐
Light assembly is in good working order ☐ ☐
Lid is unobstructed ☐ ☐
Parts Cleaner is properly grounded ☐ ☐

Authorization Signature
I agree to pay for the above services and/or products and to be bound by the terms and conditions set forth above on the reverse side of this document.

Initial if Conditionally Exempt Small Quantity Generator as defined in 40 CFR 261.5

Initial if Do-it-yourself collection center

The GENERATOR hereby certifies that the material collected from the GENERATOR'S facility by FCC Environmental, LLC does not contain any PCB's as defined in 40 CFR 761 and is not hazardous waste or been mixed with a listed or characteristic hazardous waste as defined in 40 CFR 261.1. If the material collected is a used oil as defined in 40 CFR Part 279, the GENERATOR certifies that the total halogen content is less than 1,000 ppm, or the GENERATOR hereby certifies that the reusable waste presumption under 40 CFR Part 279 has been rebutted. The GENERATOR will be responsible for any and all costs including, but not limited to, proper disposal, testing, and transportation if the material contains PCB's or is determined to be a hazardous waste. I certify the to the best of my knowledge, the information presented herein is correct and accurate, and I am authorized to sign on behalf of the GENERATOR.

Shipping Declaration:

This is to certify that the above-named materials are properly classified, described, packaged, marked and labeled, and are in proper condition to transportation according to the applicable regulations of the Department of Transportation.

EPA ID#

The GENERATOR hereby certifies that the material collected from the GENERATOR's facility by FCC Environmental, LLC does not contain any PCB's as defined in 40 CFR 763 and is not hazardous waste or been mixed with a listed or characteristic hazardous waste as defined in 40 CFR 261. If the material waste collected is used as defined in 40 CFR part 273, the GENERATOR certifies that the total hydrogen content is less than 1,000 ppm, the GENERATOR certifies that the releasable waste presumption under 40 CFR Part 273 has been rebutted. The GENERATOR will be responsible for any and all costs associated with the waste, including, but not limited to, proper detection, testing, and transportation. If this material contains PCB's or is determined to be a hazardous waste, I certify, to the best of my knowledge, the information presented herein is correct and accurate, and I am authorized to sign on behalf of the GENERATOR.

Shipping Declaration:

This is to certify that the above-named materials are properly classified, described, packaged, marked and labeled, and are in proper condition for transportation according to the applicable regulations of the Department of Transportation.

*The above TCLP is based on: ☐ Actual Testing ☒ Generator Knowledge ☐ Both (Attach all applicable analysis)

G. BENZENE NESHAP QUESTIONNAIRE (Note: If the 1st question is marked "NO," then skip remaining questions in this section)

Does the waste contain benzene? ☐ Yes ☒ No

Is the waste generated by Petroleum Refineries (SIC 2911), Chemical Manufacturing Plants (SIC 2800-2899), Coke By-Product Recovery Plants (SIC 3312), or TSDF (SIC 4953, 4959, 9511, 4214)? ☐ Yes, SIC _____ ☒ No

What is the benzene concentration in the waste? Min value: _____ Max value: _____ ☐ ppm or ☐ %

If the concentration of benzene is based on knowledge provide a description: _____

If benzene concentration is based on testing, provide date test data was obtained: _____ / _____ / _____

Has the process generating the waste changed since date of concentration determination? ☐ Yes ☒ No

Will any shipments of this waste contain greater than 10% water? ☐ Yes ☒ No

What is your facility's Total Annual Benzene (TAB) in mega-grams (10⁶ grams) per year _____ Mg/yr.

Is this waste subject to the Benzene Waste Operations NESHAP controls requirements (per 40 CFR Part 61.342(b))? ☐ Yes ☒ No

H. CERTIFICATION FOR HAZARDOUS WASTE**GENERATOR CERTIFICATION:**

I certify under penalty of law, that this document, and all attachments, were prepared under my direction or supervision in accordance with a system designed to ensure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person(s) who manages the systems, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Signature: XDate: Jun-14Print Name: XTitle: X Facility Manager**DESIGNATED FACILITY CERTIFICATION: (for Giant Resource Recovery use, only)**

In compliance with 40 CFR 264.12(b), I certify that, based on the information presented in this document, this facility is permitted to accept the waste stream described hereon, and do hereby inform the generator listed hereon of acceptance of the waste for treatment, storage and/or disposal in the manner designated, and in compliance with the TSDF's standard terms and conditions.
