Re: Florida Hazardous Waste Transporter Approval

Dear Robert McFeeley:

Your Florida Hazardous Waste Transporter Approval Certificate is enclosed. The terms and conditions of approval are specified in Sections 62-730.170 and 62-730.171, Florida Administrative Code(FAC), a copy of which is enclosed for your reference. Please note the following.

1. You must demonstrate proof of liability coverage on an annual basis, even if your insurance policy is issued on a multi-year basis. If no changes in status or insurance coverage have occurred, you can meet this requirement by submitting a certificate of liability coverage form along with the two copies of the Hazardous Waste Transporter Status Form, copies of which are available upon request from the Department of Environmental Protection.
2. A copy of your insurance policy, together with any endorsements, must be maintained at your principal place of business.
3. Your insurer can not terminate your coverage until 30 days after filing written notice with DEP, by Certified mail, that your policy has expired or has been canceled.
4. Any changes to the information specified on your approval certificate will render it null and void. It is your responsibility to advise DEP of any changes in liability coverage or status.
5. A copy of Hazardous Waste Transporter Status Form, complete with the Department approval shall be carried in each vehicle transporting hazardous waste for the transportation company.

9. Type of Regulated Waste Activity (Mark 'X' in all that apply):**A. Hazardous Waste Activities:****(1) Generator of Hazardous Waste**

(Choose only one of the following three categories.)

- ☐ a. Large Quantity Generator (LQG):
Generates in any calendar month 1,000 kilograms or greater per month (kg/mo) (2,200 lbs.) of *non-acute* hazardous waste; or Greater than 1 kg (2.2 lbs) of *acute* hazardous waste
- ☐ b. Small Quantity Generator (SQG):
Generates in any calendar month greater than 100kg/mo but less than 1,000 kg/mo (>220 to <2,200 lbs.) of *non-acute* hazardous waste and/or 1 kg (2.2 lbs) or less of *acute* hazardous waste
- ☐ c. Conditionally Exempt SQG (CESQG):
Generates in any calendar month 100 kg/mo or less (220 lbs.) of *non-acute* hazardous waste and 1 kg (2.2 lbs) or less of *acute* hazardous waste

In addition, indicate other generator activities that apply.

- ☐ d. United States Importer of hazardous waste
- ☐ e. Mixed Waste (hazardous and radioactive) Generator

For Items 2 through 7, mark 'X' in all that apply.

(2) Treater, Storer, or Disposer of Hazardous Waste

(at your facility) Note: A hazardous waste permit may be required for this activity.

- ☐ a. Operating Commercial TSD
- ☐ b. Operating Non-commercial TSD
- ☐ c. Non-operating: Postclosure or Corrective Action Permit or Consent Order (HSWA, etc.)

(3) ☐ Recycler of Hazardous Waste (at your facility)Specify: ☐ Commercial; ☐ Non-Commercial.

A permit is required for storage prior to recycling.

(4) ☐ Exempt Boiler and/or Industrial Furnace

- ☐ a. Small Quantity On-site Burner Exemption
- ☐ b. Smelting, Melting, and Refining Furnace Exemption

(5) ☐ Person Authorized to Manage Conditionally Exempt Waste Generated at Other Facilities - Choose this management activity ONLY if you attach EITHER a copy of your application for such authorization OR the authorization you received from FDEP.**(6) ☐ Underground Injection Control - Mark an 'X' even if the UIC well at your facility does not receive hazardous waste****(7) ☒ Transporter of Hazardous Waste [Note: A Certificate of Liability Insurance is required along with this registration.]**
Registration must be renewed annually. ☐ a. For own waste only ☒ b. For commercial purposes**c. Hazardous Waste Transporter Insurance Information**Insurance Company ACE American Insurance CompanyAddress Two Riverway, Suite 100, Houston, Texas 77057Contact Euan SmartTelephone 305-961-6164Policy Number ISAH08254382Expiration date February 15, 2010d. Transportation Mode ☐ Air ☐ Rail ☐ Highway ☒ Water ☐ Other - specify _____**e. ☒ Hazardous Waste Transfer Facility:**Storage Volume none☐ Initial notification

The following items are required to be submitted with the initial notification for a transfer facility [Rule 62-730.171(3), Florida Administrative Code (F.A.C.)]:

- ☐ Certification by a responsible corporate officer of the transporter that the proposed location satisfies the criteria of Section 403.7211(2), Florida Statutes (F.S.) [Rule 62-730.171(3)(a)1., F.A.C.]
- ☐ Evidence of the transporter's financial responsibility [Rule 62-730.171(3)(a)3., F.A.C.]
- ☐ A brief general description of the transfer facility operations [Rule 62-730.171(3)(a)4., F.A.C.]
- ☐ A copy of the facility closure plan [Rule 62-730.171(3)(a)5., F.A.C.]
- ☐ A copy of the contingency and emergency plan [Rule 62-730.171(3)(a)6., F.A.C.]
- ☐ A map or maps of the transfer facility [Rule 62-730.171(3)(a)7., F.A.C.]

☐ Notification of changes in above items☒ Annual update notification

B. Universal Waste (UW) Activities (Mark 'X' in all that apply) ("accumulated" means at any one time):

- ☐ Large Quantity Handler (LQH) = 5,000 kg (11,000 lb) or more of any combination of UW accumulated
- ☐ Small Quantity Handler (SQH) = always less than 5,000 kg accumulated
- ☐ Mercury-containing devices LQH = 100 kg (220 lb) or more accumulated by for-hire handler
- ☐ Mercury-containing devices SQH = less than 100 kg accumulated by for-hire handler
- ☐ Mercury-containing lamps LQH = 2,000 kg (4400 lbs/8,000 lamps) or more accumulated by for-hire handler
- ☐ Mercury-containing lamps SQH = less than 2,000 kg (8,000 lamps) accumulated by for-hire handler
- [Note: 4 lamps = 1 kg, 62-737.200(10)]
- ☐ Pharmaceuticals LQH = 5,000 kg or more of universal pharmaceutical waste (UPW) accumulated
- ☐ Pharmaceuticals LQH = more than 1 kg (2.2 lb) of acutely hazardous ("P-listed") pharmaceutical waste accumulated
- ☐ Pharmaceuticals SQH = always less than 5,000 kg of UPW and always 1 kg or less of acutely hazardous UPW accumulated

(1) For those Managing	Generate/ Accumulate	Transport (see note in instructions)	Handle at Transfer Facility	(2) Enter your estimate of the maximum amount (in pounds) of each type of UW on site or transported at any one time.
a. Batteries	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
b. Pesticides	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
c. Pharmaceuticals	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
d. Mercury Containing Devices	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
e. Mercury Containing Lamps	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>

(3) Mercury Recovery and/or Reclamation Facility ☐ Note: A hazardous waste permit is required for this activity. [Rule 62-737.800, F.A.C.]
[Chapter 62-737, F.A.C.]

(4) Reverse Distributor of UW ☐ Pharmaceuticals ☐ Lamps ☐ Devices ☐

(5) Destination Facility for UW ☐ Note: for this activity, a facility must treat, dispose or recycle a UW. A permit is required for storage prior to recycling.

C. Used Oil Activities:

(1) Used Oil Transporter - indicate type(s) of activity(ies):

- ☐ a. Transporter
- ☐ b. Transfer Facility

(2) ☐ Collection Center

(3) ☐ Used Oil Processor (A permit is required for this activity.)

(4) ☐ Off-Specification Used Oil Burner

(5) ☐ Used Oil Fuel Marketer

(6) Used Oil Filter

- ☐ a. Transporter
- ☐ b. Transfer Facility
- ☐ c. Processor
- ☐ d. End User

(8) Specific Certification to be signed by all Used Oil Transporters

I certify as a Used Oil Transporter that the training program and financial responsibility required under Section 62-710.600, F.A.C., are in place, current and being adhered to. If any modifications have been made to the originally approved training program, they are explained in attachments to this registration form. Evidence of financial responsibility is demonstrated by the attached Used Oil Transporter Certificate of Liability Insurance, DEP form 62-710.901(4), F.A.C.

Signature of Authorized Person

Print Name of Authorized Person

(7) Used Oil Transporters, Transfer Facilities, Collection Centers, Off-Specification Burners and Marketers must pay an annual \$100 registration fee. Used Oil Processors are exempt from this fee. If applicable, enclose a check or money order, in the amount of \$100, payable to Florida Department of Environmental Protection.

☐ A check is enclosed.

(9) The records required under the provisions of Rule 62-710.510, F.A.C., are kept at (check one):

- ☐ our mailing (business) address
- ☐ The site (facility) address

EPA ID No.

FL0000360560

HAZARDOUS WASTE TRANSPORTER CERTIFICATE OF LIABILITY INSURANCE

1. ACE American Insurance Company
(Name of Insurer)
(the "Insurer"), of Two Riverway, Suite 1100, Houston, TX 77057
(Address of Insurer)

hereby certifies that it has issued liability insurance covering bodily injury and property damage including environmental restoration for sudden accidental occurrences to

Crowley Liner Services, Inc.
(Name of Insured)
(the "Insured"), of 9487 Regency Square Blvd. - Jacksonville, FL 32225
(Address of Insured)

in connection with the insured's obligation to demonstrate financial responsibility under Florida Administrative Code Rule 62-730.170. The coverage applies at:

<u>EPA/DEP I.D. No.</u>	<u>Name</u>	<u>Location</u>
FLD 085 092 146	Crowley Liner Services	1163 Talleyrand, Jacksonville
FLD 000 054 221	Crowley Liner Services	3001 Talleyrand, Jacksonville
FLO 085 360 560	Crowley Liner Services	4300 McIntosh, Ft. Lauderdale

(If coverage is for multiple facilities, identify each facility insured.)

This insurance is primary and the company shall not be liable for amounts in excess of \$ 5,000,000 for each accident, exclusive of legal defense costs. The coverage is provided under policy number ISAH08254382, issued on April 1, 2009.
(date)

The effective date of said policy is April 1, 2009 and the expiration date of said policy is February 15, 2010.
(date)

This insurance is excess and the company shall not be liable for amounts in excess of \$ _____ for each accident in excess of the underlying limit of \$ _____ for each accident, exclusive of legal defense costs. The coverage is provided under policy number _____, issued on _____, The effective date of said policy is _____ and the expiration date of said policy is _____.
(date) (date) (date)

2. The Insurer further certifies the following with respect to the insurance described in Paragraph 1:

(a) Bankruptcy or insolvency of the insured shall not relieve the Insurer of its obligations under the policy.

- (b) The Insurer is liable for the payment of amounts within any deductible applicable to the policy, with a right of reimbursement by the insured for any such payment made by the Insurer
- (c) Whenever requested by the Secretary (or designee) of the Florida Department of Environmental Protection (FDEP), the Insurer agrees to furnish to the Department a signed duplicate original of the policy and all endorsements.
- (d) Cancellation of the insurance, whether by the Insurer or the Insured and any other termination of the insurance (e.g., expiration, non-renewal), will be effective only upon written notice and only after the expiration of thirty (30) days after a copy of such written notice is received by the Secretary of the FDEP as evidenced by certified mail return receipt.
- (e) The Insurer shall not be liable for the payment of any judgment or judgments against the Insured for claims resulting from accidents which occur after the termination of the insurance described herein, but such termination shall not affect the liability of the Insurer for the payment of any such judgment or judgments resulting from accidents which occur during the time the policy is in effect.

I hereby certify that the Insurer is licensed to transact the business of insurance, or eligible to provide insurance as an excess or surplus lines insurer, in one of more States including Florida.

Page Two

If you intend to operate a hazardous waste transfer facility, please refer to Form 8700-12FL, page 2, item 7(e) for a list of all the required documents that must be submitted.

If you are currently operating an authorized transfer facility, you must maintain records of incoming and outgoing hazardous waste shipments. These records must include generator names and manifest numbers, and, unless otherwise approved by the Department, must be maintained at the transfer facility in accordance with Rule 62-730.171, 7(6), F.A.C. Also, please review the attached letter of March 11, 2009 addressed to all hazardous waste transporters who have notified of existing transfer facilities, subject: Required Submittal of Supplemental Information.

If you have any questions, please contact me at 850/245-8755.

Sincerely,

A handwritten signature in dark ink, appearing to read "Aprilia Graves". The signature is fluid and cursive, with the first name being more prominent.

1. Does transporter comply with 10 day storage limit for transfer facilities? (263.12) Y X N
- a.. Is the hazardous waste packaged according to 262.30? (263.12) Y N N/A X

Note: Hazardous waste containers are transported to Crowley in closed freight trailers. The trailers are not opened until they reach their destination. Contents are verified by manifest only. Actual waste storage containers are not observed at the facility.

2. General Facility Standards (265 Subpart B)

- a. Security (265.14)
- (1) Is the facility security system adequate to minimize unauthorized entry? Y X N
- (2) Are signs posted and legible for 25 feet? Y X N
- b. Inspection Requirement (265.15)
- (1) Does the facility have a copy of the Inspection Plan? Y X N
- (2) Does the facility have completed inspection logs? Y X N
- (3) Were the deficiencies corrected in a timely manner? Y X N
- (4) Are the inspection logs maintained at the facility for 3 years? Y X N
- c. Personnel Training (265.16)
- (1) Do management personnel complete hazardous waste training? Y X N
- Is training on the job? Y X N
- Is training in the classroom? Y X N
- (2) Do laborers who handle hazardous waste complete training? Y X N

distance of the plant at all times? (265.55 - Emergency Coordinator) Y X N

e. Who is the emergency coordinator? : Ed Alford

f. Has the facility supplied local police and fire departments with a copy of the contingency plan? (265.53(b) - Content of Contingency Plan) Y X N

g. Has the facility supplied DEP with a copy of the Contingency Plan? (17-730.171(2)(a)) Y X N

5. Container Storage Checklist (Subpart I - Use and Management of Containers 265.170)

Note: Hazardous waste containers are transported to Crowley in closed freight trailers. The trailers are not opened until they reach their destination. Contents are verified by manifest only.

a. Are the containers in good condition (265.171)?
(check for leaks, corrosion, bulges, etc.) Y N

b. If a container is found to be leaking, does the operator transfer the hazardous waste from the leaking container? Y N

c. Is the waste compatible with the containers and/or its liner? (265.172) Y N

d. Are containers holding hazardous waste opened, handled or stored in such a manner as to cause the container to rupture or leak? (265.173) Y N

If yes, explain using narrative.

e. Are each of the containers inspected at least weekly (265.174)? Y N
If no, explain using narrative concerning the frequency of inspection.

f. Are containers holding ignitable or reactive wastes located at least 15 meters (50 feet) from the facility property line? (265.176) Y X N

If yes, explain using narrative.

g. Are incompatible wastes stored in the same containers? Y N

If yes, explain using narrative.

h. Are containers holding incompatible wastes kept apart by physical barrier or sufficient distance? Y N
If no, explain using narrative.

6. Does facility have a written closure plan satisfying requirements of closure performance, notification, and decontamination standards of 40 CFR 265.111, 265.112(c), 265.114, 265.115? (17-730.171(2)(b)) Y X N
Has the facility supplied DEP with a copy of the plan? Y X N

7. Is hazardous waste that is stored in containers or vehicles stored on

a man made surface which is capable of preventing spills or releases to the ground? (17-730.171(2)(d))

Y X N

8. Is a written log maintained for all waste entering or leaving the transfer facility? (17-730.171(2)(e))

Y X N

Does the log contain:

Generators' names?

Y X N

Manifest numbers?

Y X N

Dates when waste enters and leaves facility?

Y X N

9. Has the facility notified the department on Form 17-730.900(6) (Transfer facility notification form)? (17-730.171(3))

Y X N

10. Does the transfer facility have an EPA/DER ID number?

Y X N

Unregulated Wastes
(Household/Conditionally Exempt/Small Quantity Generator Wastes)
NA X

1. Does the transporter have documentation that this waste was generated by an unregulated source?

Y _____ N _____

2. If no, is the transporter assuming responsibility as the generator of this waste?

Y _____ N _____

a. If yes, complete the applicable Generator or Small Quantity Generator checklist.

b. If no, the inspector should inform the transporter that he will be held responsible as the generator of the waste and will be reinspected to ensure that the applicable requirements are being satisfied. A follow-up inspection should be scheduled as follows:

(1) 90 days after initial inspection if the quantity of "unregulated" wastes on site exceed 1000 kg.

(2) 180 days after initial inspection if the quantity of "unregulated" wastes on site are less than 1000 kg.

3. Does the transporter mix/consolidate hazardous wastes of different DOT shipping descriptions 263.10(c)(2)?

Y _____ N _____

If yes, complete the Generator checklist.

Land Disposal Restrictions

1. Does the transporter manage restricted (land ban) wastes?

Y X N

If yes, check appropriate box(es).

HAZARDOUS WASTE INSPECTION EXIT INTERVIEW SUMMARY, NOTICE OF POTENTIAL VIOLATIONS

Page 2 of 2

ITEMS REQUESTED OR RECOMMENDATIONS BY THE "INSPECTOR":

- ① Please send next 2 manifest from Safety Kleen showing less than 25 gal were picked up.
- ② Please provide the page of the Contingency (Emergency) Plan with the name of the Emergency Response Coordinator and Alternate along with their contact information

OWNER/OPERATOR COMMENTS:

The owner/operator is hereby requested to submit in writing, within 30 days of this inspection, 1) a description of all corrective actions taken, 2) a schedule for completion of corrective actions to be taken and 3) a description of efforts to prevent recurrence of the above items to the person signing as "INSPECTOR", Florida Department of Environmental Protection, 400 North Congress Avenue, Suite 200, West Palm Beach, FL 33401. The actions taken within 30 days of this notice will be considered in determining whether enforcement, including the assessment of penalties, should be initiated.

IF YOU HAVE QUESTIONS, contact: Richard Beaman at (561) 681-6600.

"INSPECTOR" (signature): Richard Beaman Date: 5-10-07

The undersigned person hereby acknowledges that he/she received a copy of this notice and has read and understands the same.

A hazardous waste/used oil compliance inspection was made this date, under the authority of Section 403.091, Florida Statutes (F.S.), to determine your facility's compliance with Chapter 403, F.S. and Chapters 62-730 and 62-710, Florida Administrative Code (F.A.C.). Provisions of Title 40 Code of Federal Regulations (C.F.R.) Parts 260 through 268 and 279, which are cited on this form, have been adopted by reference as the state hazardous waste and used oil rules in Chapter 62-730 and 62-710, F.A.C. The following potential items of non-compliance were identified by the inspector(s). **This is not a formal enforcement action and may not be a complete listing of all items of non-compliance which exist at the time of this inspection.**

GENERAL REQUIREMENTS:

- ☐ Failure to ensure delivery of HW to proper HW facility § 261.5
- ☐ Failure to provide hazardous waste determination § 262.11
- ☐ Failure to notify as generator § 262.12
- ☐ Failure to use a manifest or reclamation agreement § 262.20
- ☐ Failure to provide personnel training § 265.16, 262.34
- ☐ Evidence of release(s) of waste § 265.31
- ☐ Facility exceeds 90/180 day time limit § 262.34

CONTAINER MANAGEMENT:

- ☐ Unlabeled containers § 262.34
- ☐ Undated containers § 262.34
- ☐ Leaking or bulging containers § 262.34
- ☐ Open containers § 265.173
- ☐ Inadequate aisle space § 62-730.160

RECORDKEEPING REQUIREMENTS:

- ok** ☒ Manifests § 262.40, § 262.44
- ☐ Training records § 262.34
- ☒ Contingency Plan § 262.34
- ☐ Weekly Inspection records § 62-730.160
- ☐ Information not posted by phone § 262.34
- ☐ Authorities not notified § 262.37

USED OIL VIOLATIONS:

- ☐ Failure to label containers § 279.22
- ☐ Failure to respond to releases § 279.22
- ☐ Failure to document used oil disposal § 279.10

RE: Hazardous waste compliance inspection at Crowley Liner Services, Inc., 4300 Macintosh Road, Fort Lauderdale, FL 33316 EPA ID Number: FL0000360560

Dear Mr. McFeeley:

On April 7, 2006 the Department conducted a hazardous waste and used oil compliance evaluation inspection at your facility. The facility is classified as a Transporter, a 10-Day Transfer Facility, and a Conditionally Exempt Small Quantity Generator (CESQG) of hazardous waste. The inspection also found possible violations of Chapter 403, Florida Statutes (F.S.), and Chapters 62-730 and 62-710, Florida Administrative Code (F.A.C.) regarding management of hazardous waste and used oil. Enclosed, please find the inspection report used to determine compliance at your facility. Florida Statutes provide that facilities must comply with Title 40 Code of Federal Regulations (CFR) Parts 260 to 268 and 279 as adopted in Chapter 62-730, F.A.C. and Chapter 62-710, F.A.C.

The Department has reviewed the documents received on May 5, 2006, June 5, 2006 and July 5, 2006 in response to our exit interview. It appears that your facility has returned to compliance.

This will conclude the Department's investigation into this matter, however, please be advised that the State will continue to conduct random and unannounced compliance evaluation inspections in the future. If you have any questions about the inspection or any other compliance related issues, please contact Mr. Stephen Brown at 561/681-6722. Thank you for your cooperation.

Sincerely,

Stephen Brown

CESQG CHECKLISTDate: April 7, 2006Facility Name: Crowley Liner Services, Inc. Facility ID #: FL0000360560Facility Representative: Mr. Ed Alford and Mr. Robert McFeeleyInspectors: Stephen Brown, Debra House

40 CFR 261.5

1. Describe the facility's hazardous and potentially hazardous waste streams 40 CFR 262.11:

Waste	EPA Waste #s	Generation Rate	Disposal facility?	Proper Waste ID?
Waste Solvents	D001	15kg/mo	Safety Kleen	Yes
Used Oil	N/A	15kg/mo	Atlantic Industrial and Perma-Fix	Yes
Batteries	D008	5kg/mo	American Battery	Yes
Used Anti-Freeze	D008	10kg/mo	Atlantic Industrial and Perma-Fix	Yes

(describe discrepancies in waste identification in narrative)

Standards for Conditionally Exempt Small Quantity Generators - 40 CFR 261.5

2. Does the facility generate less than 100 kg/mo (220 lb/mo) of all hazardous wastes? Y X N And less than 1kg/mo of acutely toxic (P-listed, 40 CFR 262.33) hazardous wastes? Y X N 3. Has the facility obtained an EPA ID #? (not required for CESQGs) Y X N 4. Is the facility disposing of all its hazardous wastes to facilities permitted to accept the waste? (40 CFR 261.5) Describe discrepancies in narrative. Y X N 5. Is the facility disposing of hazardous waste by mixing with used oil? Y N X6. Can the facility document proper disposal of all hazardous wastes? Y X N 7. Are any hazardous wastes treated or disposed of on site? Describe in narrative: Y N X8. Are there any unpermitted discharges of other wastes to the environment? Y N X

Note: During the inspection it was noted that a used oil tank, used oil filter container and used anti-freeze container were not properly labeled. Documents received on May 5, 2006 indicates that the violations have been corrected.

TRANSPORTERS CHECKLIST

1. Site Name: Crowley Liner Services, Inc.

Transporter Requirements (40 CFR 263)

1. Do vehicles transporting hazardous waste have the appropriate placards? (263.10)(49 CFR 172.500) Y X N
2. Does transporter have an EPA identification number? (263.11(a)) Y X N
3. Does the transporter use manifest system as required by 263.20? Y X N
- Do the manifests contain at least:
- a. Name, address, and EPA ID of transporter? Y X N
- b. Name, address, and EPA ID code of generator? Y X N
- c. Name, address, identification code of designated permitted facility? Y X N
- d. Corresponding manifest document number? Y X N
- e. Description and quantity of each hazardous waste? Y X N
- f. Signature of subsequent transporters? Y X N
- g. Signatures signifying proper delivery or reasons why delivery could not be certified? Y X N
- h. EPA waste codes? Y X N
4. International shipments: (263.20(g)) NA X

Note: International shipments of hazardous waste are shipped to the U.S. by Crowley.

- a. Record of date waste left U.S.? Y N
- b. Presence of one signed copy in records? Y N
- c. Signed copy of manifest returned to the generator? Y N
- d. Copy of the manifest given to a U.S. Customs official at the point of departure from the United States? Y N
5. For SQG waste:
- a. Is waste transported according to reclamation agreement? Y N X
- b. Is following information recorded on a shipping paper:
- Name, address, and EPA ID of waste generator N/A X
- N/A X

- Quantity of waste accepted N/A X
- DOT - required shipping info N/A X
- Date waste is accepted N/A X
- c. Does transporter carry this shipping paper during transport? N/A X
- d. Are records maintained for three years after termination or expiration of reclamation agreement? N/A X
6. Are copies of the manifest retained for 3 years? (263.22) Y X N
7. Is there evidence of discharge of hazardous waste? (263.30) Y N X
8. Has transporter demonstrated the financial responsibility required under 17-30.170(2) Y X N
9. Does the transporter verify financial responsibility with the Department annually (17-30.170(3))? Y X N

Transfer Facility Requirements (17-730.171)

1. Does transporter comply with 10 day storage limit for transfer facilities? (263.12) Y X N
- a.. Is the hazardous waste packaged according to 262.30? (263.12) Y N N/A X

Note: Hazardous waste containers are transported to Crowley in closed freight trailers. The trailers are not opened until they reach their destination. Contents are verified by manifest only. Actual waste storage containers are not observed at the facility.

2. General Facility Standards (265 Subpart B)

- a. Security (265.14)
- (1) Is the facility security system adequate to minimize unauthorized entry? Y X N
- (2) Are signs posted and legible for 25 feet? Y X N
- b. Inspection Requirement (265.15)
- (1) Does the facility have a copy of the Inspection Plan? Y X N
- (2) Does the facility have completed inspection logs? Y N X

Note: Crowley's container inspection log did not contain a column for the Generator's ID Number. According to documents received on June 5, 2006, the violation appears to be corrected.

- (3) Were the deficiencies corrected in a timely manner? Y X N
- (4) Are the inspection logs maintained at the facility for 3 years? Y X N
- c. Personnel Training (265.16)
- (1) Do management personnel complete hazardous waste training? Y X N
- Is training on the job? Y X N
- Is training in the classroom? Y X N

(2) Do laborers who handle hazardous waste complete training? Y X N

Is training on the job? Y X N

Is training in the classroom? Y X N

(3) Does training include:

Emergency response procedures? Y X N

Inspection procedures? Y X N

Operation of hazardous waste handling equipment? Y X N

(4) How often is training reviewed? See note below:

Note: Department staff have observed that training has not been reviewed on an annual basis. Documents received on July 5, 2006 indicates the violation has been corrected. The Department advises Crowley to conduct annual reviews in a timely manner in the future and retain documentation of the training. Failure to conduct annual reviews of training may result in enforcement action.

(5) Does the facility have personnel training records including:

Job title and description of position? Y X N

Description of employee's training Y X N

(6) Is training successfully completed within 6 months of hiring/
transfer to HW position? Y X N

(7) Are records maintained for three years at the facility? Y X N

d. Ignitable, Reactive, or Incompatible Waste (265.17)

(1) Is the waste separated and confined from sources of ignition or
reaction, sparks, spontaneous ignition, and radiant heat? Y X N

(2) Are "No Smoking" signs posted in the area? Y X N

3. Preparedness and Prevention (265 Subpart C)

a. Is there evidence of fire, explosion or contamination of the
environment? (265.31 Maintenance and Operation of Facility) Y N X

If yes, use narrative explanation.

b. Is the facility equipped with (265.32 - required equipment):

(1) Internal communications or alarm system? Y X N

Is it easily accessible in case of emergency? Y X N

(2) Telephone or two-way radio to call emergency response
personnel? Y X N

(3) Portable fire extinguishers, fire control equipment, spill control
equipment and decontamination equipment? Y X N

Is this equipment tested to assure its proper operation?

Y X NHow frequently? Annually

(4) Water of adequate volume for hoses, sprinklers or water spray system?

N/A X Y N

(a) Describe source of water. _____

(b) Indicate flow rate and/or pressure and storage capacity, _____
if applicable. _____

c. Is there sufficient aisle space to allow unobstructed movement of personnel and equipment? (e.g., adequate aisle space in between barrels to check for leakage, corrosion and proper labeling, etc.) (265.35 - Required Aisle Space)

Y X N

d. Has the owner/operator made arrangements with the local authorities to familiarize them with characteristics of the facility? (Layout of facility, properties of hazardous waste handled and associated hazards, places where facility personnel would normally be working, entrances to roads inside facility, possible evacuation routes.) (265.37 - Arrangements with Local Authorities)

Y N X**Note: Documentation of arrangements with local emergency response authorities was not on record at Crowley. Documents received on July 5, 2006 indicate that the violation has been corrected.**

e. In the case that more than one police or fire department might respond, is there a designated primary authority? (265.37 - Arrangements with Local Authorities)

N/A X Y N

If yes, indicate primary authority. _____

Is the fire department a city or volunteer fire department? _____

f. Does the owner/operator have phone number of and agreements with state emergency response teams, emergency response contractors and equipment suppliers? (265.37 - Arrangements with Local Authorities)
Are they readily available to the emergency coordinator?Y X NY X Ng. Has the owner/operator arranged to familiarize local hospitals with the properties of hazardous waste handled and types of injuries that could result from fires, explosions, or releases at the facility? (265.37 - Arrangements with Local Authorities) **See Note Above**Y N X

If no, has the owner/operator attempted to do this?

N/A X Y N

h. If the State, or local authorities decline to enter into the above referenced agreements, has this been documented in the operation record? (265.37 - Arrangements with Local Authorities)

N/A X Y N4. Contingency Plan and Emergency Procedures (265 Subpart D)

a. Does the facility have a contingency plan? (265.51 - Purpose and Implementation of Contingency Plan)

Y X N

b. Is it maintained at the facility? (265.53 - Copies of Contingency Plan) Y X N

c. Is the contingency plan a revised SPCC Plan (265.52 - Content of Contingency Plan) Y X N

(1) Does the plan include:

(a) Action personnel will take? Y X N

(b) Evacuation routes? Y X N

(c) Emergency Equipment? Y X N

(d) Is the emergency equipment properly inspected and maintained? Y X N

d. Is there an emergency coordinator on site or within short driving distance of the plant at all times? (265.55 - Emergency Coordinator) Y X N

e. Who is the emergency coordinator? : Ed Alford

f. Has the facility supplied local police and fire departments with a copy of the contingency plan? (265.53(b) - Content of Contingency Plan) Y X N

g. Has the facility supplied DEP with a copy of the Contingency Plan? (17-730.171(2)(a)) Y X N

5. Container Storage Checklist (Subpart I - Use and Management of Containers 265.170)

Note: Hazardous waste containers are transported to Crowley in closed freight trailers. The trailers are not opened until they reach their destination. Contents are verified by manifest only.

a. Are the containers in good condition (265.171)? (check for leaks, corrosion, bulges, etc.) Y N

b. If a container is found to be leaking, does the operator transfer the hazardous waste from the leaking container? Y N

c. Is the waste compatible with the containers and/or its liner? (265.172) Y N

d. Are containers holding hazardous waste opened, handled or stored in such a manner as to cause the container to rupture or leak? (265.173) Y N

If yes, explain using narrative.

e. Are each of the containers inspected at least weekly (265.174)? Y N
If no, explain using narrative concerning the frequency of inspection.

f. Are containers holding ignitable or reactive wastes located at least 15 meters (50 feet) from the facility property line? (265.176) Y X N

If yes, explain using narrative.

g. Are incompatible wastes stored in the same containers?

Y N

If yes, explain using narrative.

h. Are containers holding incompatible wastes kept apart by physical barrier or sufficient distance?

Y N

If no, explain using narrative.

6. Does facility have a written closure plan satisfying requirements of closure performance, notification, and decontamination standards of 40 CFR 265.111, 265.112(c), 265.114, 265.115? (17-730.171(2)(b))

Y X N

Has the facility supplied DEP with a copy of the plan?

Y X N

7. Is hazardous waste that is stored in containers or vehicles stored on a man made surface which is capable of preventing spills or releases to the ground? (17-730.171(2)(d))

Y X N

8. Is a written log maintained for all waste entering or leaving the transfer facility? (17-730.171(2)(e))

Y X N

Does the log contain:

Generators' names?

Y X N

Manifest numbers?

Y X N

Dates when waste enters and leaves facility?

Y X N

9. Has the facility notified the department on Form 17-730.900(6) (Transfer facility notification form)? (17-730.171(3))

Y X N

10. Does the transfer facility have an EPA/DER ID number?

Y X N

Unregulated Wastes
(Household/Conditionally Exempt/Small Quantity Generator Wastes)
NA X

1. Does the transporter have documentation that this waste was generated by an unregulated source?

Y N

2. If no, is the transporter assuming responsibility as the generator of this waste?

Y N

a. If yes, complete the applicable Generator or Small Quantity Generator checklist.

b. If no, the inspector should inform the transporter that he will be held responsible as the generator of the waste and will be reinspected to ensure that the applicable requirements are being satisfied. A follow-up inspection should be scheduled as follows:

(1) 90 days after initial inspection if the quantity of "unregulated" wastes on site exceed 1000 kg.

(2) 180 days after initial inspection if the quantity of "unregulated" wastes on site are less than 1000 kg.

3. Does the transporter mix/consolidate hazardous wastes of different DOT shipping descriptions 263.10(c)(2)?

Y N

If yes, complete the Generator checklist.

Land Disposal Restrictions

1. Does the transporter manage restricted (land ban) wastes?

Y X N

If yes, check appropriate box(es).

CESQG CHECKLISTDate: April 7, 2006Facility Name: Crowley Liner Services, Inc. Facility ID #: FL0000360560Facility Representative: Mr. Ed Alford and Mr. Robert McFeeleyInspectors: Stephen Brown, Debra House

40 CFR 261.5

1. Describe the facility's hazardous and potentially hazardous waste streams 40 CFR 262.11:

Waste	EPA Waste #s	Generation Rate	Disposal facility?	Proper Waste ID?
Waste Solvents	D001	15kg/mo	Safety Kleen	Yes
Used Oil	N/A	15kg/mo	Atlantic Industrial and Perma-Fix	Yes
Batteries	D008	5kg/mo	American Battery	Yes
Used Anti-Freeze	D008	10kg/mo	Atlantic Industrial and Perma-Fix	Yes

(describe discrepancies in waste identification in narrative)

Standards for Conditionally Exempt Small Quantity Generators - 40 CFR 261.5

2. Does the facility generate less than 100 kg/mo (220 lb/mo) of all hazardous wastes? Y X N
And less than 1kg/mo of acutely toxic (P-listed, 40 CFR 262.33) hazardous wastes? Y X N
3. Has the facility obtained an EPA ID #? (not required for CESQGs) Y X N
4. Is the facility disposing of all its hazardous wastes to facilities permitted to accept the waste? (40 CFR 261.5) Describe discrepancies in narrative. Y X N
5. Is the facility disposing of hazardous waste by mixing with used oil? Y N X
6. Can the facility document proper disposal of all hazardous wastes? Y X N
7. Are any hazardous wastes treated or disposed of on site? Describe in narrative: Y N X
8. Are there any unpermitted discharges of other wastes to the environment? Y N X

Note: During the inspection it was noted that a used oil tank, used oil filter container and used anti-freeze container were not properly labeled. Documents received on May 5, 2006 indicates that the violations have been corrected.

RE: Crowley Maritime Corporation
Florida Hazardous Waste Course – 6/28/06

Dear Mr. Brown:

Enclosed you will find a copy of our recent training session on the rules and procedures for handling hazardous waste in the State of Florida.

Included in this training session were all employees who may handle hazardous waste manifest, with the exception of one person, who is on vacation.

Please advise if you have any questions or concerns.

Sincerely,

CROWLEY MARITIME CORPORATION

Robert P. McFeeley
Manager, Safety, Quality & Hazardous Material

RE: Hazardous Waste Compliance Inspection Conducted on 4/7/06
Crowley Liner Services, Inc.

Dear Mr. Brown:

This is in response to your letter received May 17, 2006.

1. Attachment (1) is a Haz/Waste log with the changes your requested. As we have discussed, we were not maintaining written logs but used our computer tracking system to record activity.

Attachment (2) is a shipping document for the last shipment we had in May, 2005. There were three trailers involved for this U.S. Government Waste.

Attachments 3, 4 and 5 show the activity for these three moves:

1YLTBS – In Yard Loaded To Be Sailed 5/11/05

OVL – On Vessel Loaded 5/11/05

ASLDS – At Sea Loaded For Delivery 5/14/05

IYLDU – In Yard Loaded for Delivery 5/14/05

OSLDU – On Street Loaded for Delivery 5/14/05

2. As discussed, all Haz/Waste training was conducted in connection with our D.O.T. Hazardous Material Transportation with a Haz/Waste component. In the future we will be conducting a separate course for Haz/Waste and the next session will be June 13, 2006.

Stephen Brown
May 31, 2006
Page 2

3. In researching our files, there is a note of filing our Emergency Contingency Plan with the local fire, police and hospital, but no documented proof. Attached you will find a letter going out to the various agencies.

If further action is required, please advise.

Sincerely,

CROWLEY MARITIME CORPORATION

RE: Hazardous waste compliance inspection conducted on 4/7/2006 and your response
dated May 2, 2006.

Dear Mr. McFeeley:

The purpose of this letter is to advise you of possible violations of law for which you may be responsible, and to seek your cooperation in resolving the matter. A compliance evaluation inspection was conducted at your facility on April 7, 2006. During the inspection, possible violations of Chapter 403, Florida Statutes and Chapter 62-730 and Chapter 62-710, Florida Administrative Code (F.A.C.), regarding hazardous waste management, were noted. Florida Statutes provide that facilities must comply with Title 40 Code of Federal Regulations, Parts 260-268 and Part 279, as adopted in Chapter 62-730, F.A.C. and Chapter 62-710, F.A.C.

You are advised that any activity at your facility that may be contributing to violations of the above described statutes or rules should be ceased immediately. Operation of a facility in violation of State statutes or rules may result in liability for damages and restoration and the judicial imposition of civil penalties of up to \$50,000 per violation per day pursuant to Section 403.727, Florida Statutes.

The Department has received the documents dated May 2, 2006 in response to the April 7, 2006 exit interview. However, the documentation is not sufficient to document compliance. The Department is requesting the following be provided within thirty (30) days:

1. The 10 day transfer log provided is only for the month of May, 06. Please provide copies for the last three years from the date of inspection. Also, the log does not have a column for the generator's EPA ID number as required by 62-730.171(2)(e), F.A.C.
2. Training requires an annual review of the training. The documentation you have provided dates back to 1997. Please begin annual reviews if not already done. Please provide documentation of annual reviews.

"More Protection. Less Process"

Printed on recycled paper.

Crowley Liner Services, Inc.
Page 2 of 2

3. There has been no documentation presented that shows arrangements with the local police, fire and hospital. This can be accomplished by sending a letter to each facility, and keeping proof of mailing for the Department's review.

The Department is requesting a response to the items listed above pursuant to Rule 62-730.150(4), F.A.C. Please be advised that unless an adequate response is received, including the documentation being requested, the Department will assume that the corrections have not been made and the Department may proceed with appropriate enforcement.

Please address your written response to Mr. Stephen Brown of the District Office. If you have any questions you may contact Mr. Brown at 561/681-6722. We look forward to your cooperation in completing the investigation and resolution of this matter.

Sincerely,

Stephen Brown

RE: Crowley Liner Services, Inc.
Notice of Potential Hazardous Waste Non-Compliance

Dear Mr. Brown:

Attached please find the items we discussed. After your visit to our terminal we conducted a review of all our haz/waste movements for the past three years (in fact, there were only a few and only one within the last year). Hopefully the attachment will meet your requirements. If not, please advise.

Items requested:

1. Attachment I is a spreadsheet we developed and it will be used by all traffic personnel.
2. Training records: Attachment II is a list of all employees who have received training. The names highlighted are employees who may handle haz/waste documents. As I mentioned, even though this indicates a DOT Haz/Mat course we have a haz/waste component included. I am planning to conduct a separate haz/waste course in mid-May.
3. Inspection records: These loads are "shipper load and count" with high security seals. Our employees never go inside.
4. Arrangements with local authorities: Attachment III - we daily submit to Broward County Public Safety Department a list of all hazardous loads that are on our facility.

Mr. Stephen E. Brown, MM

May 2, 2006

Page 2

5. Contingency plans: Attachment IV – we have attached these floor plans to our emergency contingency plan.

6. and 7. – See attached pictures.

Sincerely,

CROWLEY MARITIME CORPORATION

Robert P. McFeeley

NOTICE OF POTENTIAL HAZARDOUS WASTE NON-COMPLIANCE – Page 1 of 2

FACILITY NAME <i>Crowley Liner Services Inc.</i>		TYPE OF INSPECTION: CAV: <input type="checkbox"/> CEI: <input checked="" type="checkbox"/> CI: <input type="checkbox"/> OTHER: <input type="checkbox"/>	
ADDRESS <i>4300 McIntosh Road</i>	CITY <i>Fort Lauderdale</i>	STATE <i>FL</i>	ZIP CODE <i>33316</i>
EPA ID NUMBER <i>FL000360560</i>	DATE OF INSPECTION <i>4/7/06</i>	PAGE <i>1</i>	OF <i>2</i>
FOLLOW UP CAV INSPECTION WITHIN 120 DAYS:		<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO	

A hazardous waste/used oil compliance inspection was made this date, under the authority of Section 403.091, Florida Statutes (F.S.), to determine your facility's compliance with Chapter 403, F.S. and Chapters 62-730 and 62-710, Florida Administrative Code (F.A.C.). Provisions of Title 40 Code of Federal Regulations (C.F.R.) Parts 260 through 268 and 279, which are cited on this form, have been adopted by reference as the state hazardous waste and used oil rules in Chapter 62-730 and 62-710, F.A.C. The following potential items of non-compliance were identified by the inspector(s). **This is not a formal enforcement action and may not be a complete listing of all items of non-compliance which exist at the time of this inspection.**

GENERAL REQUIREMENTS:

- ☐ Failure to ensure delivery of HW to proper HW facility § 261.5
- ☐ Failure to provide hazardous waste determination § 262.11
- ☐ Failure to notify as generator § 262.12
- ☐ Failure to use a manifest or reclamation agreement § 262.20
- ☐ Failure to provide personnel training § 265.16, 262.34
- ☐ Evidence of release(s) of waste § 265.31
- ☐ Facility exceeds 90/180 day time limit § 262.34

CONTAINER MANAGEMENT:

- ☐ Unlabeled containers § 262.34
- ☐ Undated containers § 262.34
- ☐ Leaking or bulging containers § 262.34
- ☐ Open containers § 265.173
- ☐ Inadequate aisle space § 62-730.160

USED OIL VIOLATIONS:

- ☐ Failure to label containers § 279.22
- ☐ Failure to respond to releases § 279.22
- ☐ Failure to document used oil disposal § 279.10

RECORDKEEPING REQUIREMENTS:

- ☐ Manifests § 262.40, § 262.44
- ☐ Training records § 262.34
- ☐ Contingency Plan § 262.34
- ☐ Weekly Inspection records § 62-730.160
- ☐ Information not posted by phone § 262.34
- ☐ Authorities not notified § 262.37

ITEMS REQUESTED OR RECOMMENDATIONS BY THE "INSPECTOR":

1. Need written log for shipments of hazardous waste which includes: generator name, manifest numbers, & dates that show when waste arrives & leaves facility.
2. Personnel Training records
3. Inspection Records
4. arrangements with local authorities
5. contingency plan should include: Emergency equipment list, locations of emergency equipment
6. label used oil tank maint. shop, label Anti-Freeze container: used oil filter drum
7. Please put batteries inside or cover them

OWNER/OPERATOR COMMENTS:

The owner/operator is hereby requested to submit in writing, within 14 days of this inspection, 1) a description of all corrective actions taken, 2) a schedule for completion of corrective actions to be taken and 3) a description of efforts to prevent recurrence of the above items to the person signing as "INSPECTOR", Florida Department of Environmental Protection, 400 North Congress Avenue, Suite 200, West Palm Beach, FL 33401. The actions taken within 14 days of this notice will be considered in determining whether enforcement, including the assessment of penalties, should be initiated.

IF YOU HAVE QUESTIONS, contact: Stephen Brown at (561) 681-6600.

"INSPECTOR" (signature): [Signature] Date: 4/7/06

The undersigned person hereby acknowledges that he/she received a copy of this notice and has read and understands the same.

RE: Hazardous Waste Compliance Evaluation Inspection at Crowley Liner Services
4300 McIntosh Road, Ft. Lauderdale, Florida 33316

Dear Mr. Hopkins:

On May 12, 2005, the Department conducted a hazardous waste compliance evaluation inspection at your facility. The facility appears to be a Conditionally Exempt Small Quantity Generator (CESQG) of hazardous waste and a transporter of hazardous waste. Enclosed, please find the CESQG checklist used to determine compliance at your facility. The inspection also found possible violations of Chapter 403, Florida Statutes (F.S.) and Chapter 62-730, Florida Administrative Code (F.A.C.) regarding management of hazardous waste. Florida Statutes provide that facilities must comply with Title 40 Code of Federal Regulations (CFR) Parts 260 to 268 and Part 279, as adopted in Chapter 62-730, F.A.C. and Chapter 62-710, F.A.C.

Documents requested at the exit interview were provided to the Department within a reasonable time span. It appears that your facility has returned to compliance.

This will conclude the Department's investigation into this matter, however, please be advised that the State will continue to conduct random and unannounced compliance evaluation inspections in the future.

If you have any questions about the inspection or any other compliance related issues, please contact Ms. Karen Kantor at 561/681-6720. Thank you for your cooperation.

Sincerely,

Kathy Winston
Environmental Manager
Hazardous Waste Compliance/Enforcement Section

CESQG CHECKLIST

Facility Name: Crowley Liner Services Date: May 12, 2005
 Facility Representative: Charles Meridth Facility ID #: FL0000360560
 SIC Codes: 4424 Inspector: Karen Kantor

40 CFR 261.5

1. Describe the facility's hazardous and potentially hazardous waste streams 40 CFR 262.11:

WASTE DESCRIPTION	EPA Waste Codes	Generation Rate	Disposal Facility and EPA ID	Proper Waste ID?
Petroleum naphtha	D001, D039, D018, D040	23 gal/mo	Safety Kleen	Yes

(describe discrepancies in waste identification in narrative)

Standards for Conditionally Exempt Small Quantity Generators - 40 CFR 261.5

1. Does the facility generate less than 100 kg/mo (220 lb/mo) of all hazardous wastes? Y X N
2. And less than 1kg/mo of acutely toxic (P-listed, 40 CFR 262.33) hazardous wastes? Y X N
3. Has the facility obtained an EPA ID #? (not required for CESQGs) Y X N
4. Is the facility disposing of all its hazardous wastes to facilities permitted to accept the waste? (40 CFR 261.5) Describe discrepancies in narrative. Y X N
5. Is the facility disposing of hazardous waste by mixing with used oil? Y N X
6. Can the facility document proper disposal of all hazardous wastes? Y X N
7. Are any hazardous wastes treated or disposed of on site? Describe in narrative: Y N X
8. Are there any unpermitted discharges of other wastes to the environment? Y N X

TRANSPORTERS CHECKLIST

1. Site Name: Crowley Liner Services

Transporter Requirements (40 CFR 263)

1. Do vehicles transporting hazardous waste have the appropriate placards? (263.10)(49 CFR 172.500) Y X N _____
2. Does transporter have an EPA identification number? (263.11(a)) Y X N _____
3. Does the transporter use manifest system as required by 263.20? Y X N _____
Do the manifests contain at least:
 - a. Name, address, and EPA ID of transporter? Y X N _____
 - b. Name, address, and EPA ID code of generator? Y X N _____
 - c. Name, address, identification code of designated permitted facility? Y X N _____
 - d. Corresponding manifest document number? Y X N _____
 - e. Description and quantity of each hazardous waste? Y X N _____
 - f. Signature of subsequent transporters? Y X N _____
 - g. Signatures signifying proper delivery or reasons why delivery could not be certified? Y X N _____
 - h. EPA waste codes? Y X N _____
4. International shipments: (263.20(g)) NA X _____
 - a. Record of date waste left U.S.? Y _____ N _____
 - b. Presence of one signed copy in records? Y _____ N _____
 - c. Signed copy of manifest returned to the generator? Y _____ N _____
 - d. Copy of the manifest given to a U.S. Customs official at the point of departure from the United States? Y _____ N _____
5. For SQG waste:
 - a. Is waste transported according to reclamation agreement? Y _____ N _____
 - b. Is following information recorded on a shipping paper:
Name, address, and EPA ID of waste generator Y _____ N _____

- Quantity of waste accepted Y____N____
- DOT - required shipping info Y____N____
- Date waste is accepted Y____N____
- c. Does transporter carry this shipping paper during transport? Y____N____
- d. Are records maintained for three years after termination or expiration of reclamation agreement? Y____N____
6. Are copies of the manifest retained for 3 years? (263.22) Y____N____X____
Facility rarely transports and had only one hazardous waste transport in past three years. Received copy of manifest.
7. Is there evidence of discharge of hazardous waste? (263.30) Y____N____X____
8. Has transporter demonstrated the financial responsibility required under 17-30.170(2) Y____X____N____
9. Does the transporter verify financial responsibility with the Department annually (17-30.170(3))? Y____X____N____

Transfer Facility Requirements (17-730.171)

N/A

1. Does transporter comply with 10 day storage limit for transfer facilities? (263.12) Y____N____
- a.. Is the hazardous waste packaged according to 262.30? (263.12) Y____N____
2. General Facility Standards (265 Subpart B)
- a. Security (265.14)
- (1) Is the facility security system adequate to minimize unauthorized entry? Y____N____
- (2) Are signs posted and legible for 25 feet? Y____N____
- b. Inspection Requirement (265.15)
- (1) Does the facility have a copy of the Inspection Plan? Y____N____
- (2) Does the facility have completed inspection logs? Y____N____
- (3) Were the deficiencies corrected in a timely manner? Y____N____
- (4) Are the inspection logs maintained at the facility for 3 years? Y____N____
- c. Personnel Training (265.16)
- (1) Do management personnel complete hazardous waste training? Y____N____
- Is training on the job? Y____N____
- Is training in the classroom? Y____N____

(2) Do laborers who handle hazardous waste complete training? Y_____N_____

Is training on the job? Y_____N_____

Is training in the classroom? Y_____N_____

(3) Does training include:

Emergency response procedures? Y_____N_____

Inspection procedures? Y_____N_____

Operation of hazardous waste handling equipment? Y_____N_____

(4) How often is training reviewed? _____

(5) Does the facility have personnel training records including:

Job title and description of position? Y_____N_____

Description of employee's training Y_____N_____

(6) Is training successfully completed within 6 months of hiring/
transfer to HW position? Y_____N_____

(7) Are records maintained for three years at the facility? Y_____N_____

d. Ignitable, Reactive, or Incompatible Waste (265.17)

(1) Is the waste separated and confined from sources of ignition or
reaction, sparks, spontaneous ignition, and radiant heat? Y_____N_____

(2) Are "No Smoking" signs posted in the area? Y_____N_____

3. Preparedness and Prevention (265 Subpart C)

a. Is there evidence of fire, explosion or contamination of the
environment? (265.31 Maintenance and Operation of Facility) Y_____N_____

If yes, use narrative explanation.

b. Is the facility equipped with (265.32 - required equipment):

(1) Internal communications or alarm system? Y_____N_____

Is it easily accessible in case of emergency? Y_____N_____

(2) Telephone or two-way radio to call emergency response
personnel? Y_____N_____

(3) Portable fire extinguishers, fire control equipment, spill control
equipment and decontamination equipment? Y_____N_____

Is this equipment tested to assure its proper operation? Y_____N_____

How frequently? _____

(4) Water of adequate volume for hoses, sprinklers or water spray
system? Y_____N_____

(a) Describe source of water. _____

(b) Indicate flow rate and/or pressure and storage capacity, _____
if applicable. _____

c. Is there sufficient aisle space to allow unobstructed movement of personnel and equipment? (e.g., adequate aisle space in between barrels to check for leakage, corrosion and proper labeling, etc.) (265.35 - Required Aisle Space)

Y _____ N _____

d. Has the owner/operator made arrangements with the local authorities to familiarize them with characteristics of the facility? (Layout of facility, properties of hazardous waste handled and associated hazards, places where facility personnel would normally be working, entrances to roads inside facility, possible evacuation routes.) (265.37 - Arrangements with Local Authorities)

Y _____ N _____ NA _____

If NA, explain _____

e. In the case that more than one police or fire department might respond, is there a designated primary authority? (265.37 - Arrangements with Local Authorities)

Y _____ N _____ NA _____

If yes, indicate primary authority. _____
Is the fire department a city or volunteer fire department? _____

f. Does the owner/operator have phone number of and agreements with state emergency response teams, emergency response contractors and equipment suppliers? (265.37 - Arrangements with Local Authorities)

Y _____ N _____

Are they readily available to the emergency coordinator?

Y _____ N _____

g. Has the owner/operator arranged to familiarize local hospitals with the properties of hazardous waste handled and types of injuries that could result from fires, explosions, or releases at the facility? (265.37 - Arrangements with Local Authorities)

Y _____ N _____

If no, has the owner/operator attempted to do this?

Y _____ N _____

h. If the State, or local authorities decline to enter into the above referenced agreements, has this been documented in the operation record? (265.37 - Arrangements with Local Authorities)

Y _____ N _____

4. Contingency Plan and Emergency Procedures (265 Subpart D)

a. Does the facility have a contingency plan? (265.51 - Purpose and Implementation of Contingency Plan)

Y _____ N _____

b. Is it maintained at the facility? (265.53 - Copies of Contingency Plan)

Y _____ N _____

c. Is the contingency plan a revised SPCC Plan (265.52 - Content of Contingency Plan)

Y _____ N _____

(1) Does the plan include:

(a) Action personnel will take?

Y _____ N _____

- (b) Evacuation routes? Y____N____
- (c) Emergency Equipment? Y____N____
- (d) Is the emergency equipment properly inspected and maintained? Y____N____
- d. Is there an emergency coordinator on site or within short driving distance of the plant at all times? (265.55 - Emergency Coordinator) Y____N____
- e. Who is the emergency coordinator? _____
- f. Has the facility supplied local police and fire departments with a copy of the contingency plan? (265.53(b) - Content of Contingency Plan) Y____N____
- g. Has the facility supplied DEP with a copy of the Contingency Plan? (17-730.171(2)(a)) Y____N____
5. Container Storage Checklist (Subpart I - Use and Management of Containers 265.170)
- a. Are the containers in good condition (265.171)? (check for leaks, corrosion, bulges, etc.) Y____N____
- b. If a container is found to be leaking, does the operator transfer the hazardous waste from the leaking container? Y____N____
- c. Is the waste compatible with the containers and/or its liner? (265.172) Y____N____
- d. Are containers holding hazardous waste opened, handled or stored in such a manner as to cause the container to rupture or leak? (265.173) Y____N____
- If yes, explain using narrative.
- e. Are each of the containers inspected at least weekly (265.174)? Y____N____
- If no, explain using narrative concerning the frequency of inspection.
- f. Are containers holding ignitable or reactive wastes located at least 15 meters (50 feet) from the facility property line? (265.176) Y____N____
- If yes, explain using narrative.
- g. Are incompatible wastes stored in the same containers? Y____N____
- If yes, explain using narrative.
- h. Are containers holding incompatible wastes kept apart by physical barrier or sufficient distance? Y____N____
- If no, explain using narrative.
6. Does facility have a written closure plan satisfying requirements of

closure performance, notification, and decontamination standards of 40 CFR 265.111, 265.112(c), 265.114, 265.115? (17-730.171(2)(b))

Y____N____

Has the facility supplied DEP with a copy of the plan?

Y____N____

7. Is hazardous waste that is stored in containers or vehicles stored on a man made surface which is capable of preventing spills or releases to the ground? (17-730.171(2)(d))

Y____N____

8. Is a written log maintained for all waste entering or leaving the transfer facility? (17-730.171(2)(e))

Y____N____

Does the log contain:

Generators' names?

Y____N____

Manifest numbers?

Y____N____

Dates when waste enters and leaves facility?

Y____N____

9. Has the facility notified the department on Form 17-730.900(6) (Transfer facility notification form)? (17-730.171(3))

Y____N____

10. Does the transfer facility have an EPA/DER ID number?

Y____N____

Unregulated Wastes
(Household/Conditionally Exempt/Small Quantity Generator Wastes)

1. Does the transporter have documentation that this waste was generated by an unregulated source?

Y____N____

2. If no, is the transporter assuming responsibility as the generator of this waste?

Y____N____

a. If yes, complete the applicable Generator or Small Quantity Generator checklist.

b. If no, the inspector should inform the transporter that he will be held responsible as the generator of the waste and will be reinspected to ensure that the applicable requirements are being satisfied. A follow-up inspection should be scheduled as follows:

(1) 90 days after initial inspection if the quantity of "unregulated" wastes on site exceed 1000 kg.

(2) 180 days after initial inspection if the quantity of "unregulated" wastes on site are less than 1000 kg.

3. Does the transporter mix/consolidate hazardous wastes of different DOT shipping descriptions 263.10(c)(2)?

Y____N____

If yes, complete the Generator checklist.

Facility: Crowley Liner Services
Date: May 12, 2005

Land Disposal Restrictions

1. Does the transporter manage restricted (land ban) wastes?

Y____N____

If yes, check appropriate box(es).

USED OIL GENERATOR CHECKLIST

Facility Name: Crowley Liner Services Date: May 12, 2005
Facility Representative: Charles Meridth Facility ID #: FL0000360560
SIC Codes: 4424 Inspector: Karen Kantor

40 CFR 279 Subpart C -- Generator Standards

1. Describe the facility's used oil streams:

WASTE DESCRIPTION	ON/Off Specification	Testing or Process Knowledge	Generation Rate	Disposal Facility and EPA ID
Used oil	On	Process	Est. 20 gal/mo	Atlantic Industrial Services
Used oil filters	On	Process	Est. 5 P/mo	Atlantic Industrial Services

2. Does the generator mix hazardous waste with the used oil?(279.10) Y____N__X__

3. If so, is the facility a CESQG? Y____N____

4. If not, Is the oil mixed with a characteristic hazardous waste?
(describe waste) Y____N____

If so, does the facility document that the resultant mixture does not exhibit any
characteristic of hazardous waste? Y____N____

Or, if the hazardous waste is only D001, that the resultant mixture is not
ignitable? Y____N____

If the facility is not a CESQG, and oil is mixed with a listed hazardous waste,
it must be managed as a hazardous waste.

5. Does the facility generate other materials contaminated with used oil? Y____N__X__

If so, are the materials burned for energy recovery as used oil? Y____N____

or, Does the facility have records documenting the residuals are not
hazardous waste? Y____N____

6. Does the generator claim that the used oil meets the specification in 279.11? Y__X__N____

**If so, and the oil is to be burned for energy recovery, the generator is a marketer
subject to 40 CFR 279 Subpart H**

Subpart C

1. Does the facility store used oil only in tanks, containers or permitted hazardous waste storage units? Y X N _____
Are containers/tanks in good condition? (279.22(b)(1)) Y X N _____
Are containers/tanks leaking? (279.22(b)(2)) Y _____ N X _____
Are containers/tanks storing used oil marked with the words "Used Oil", including fill pipes used to fill underground tanks? (279.22(c)) Y X N _____
2. Are used oil filters stored in above ground containers which are: (62-710.850(6))
In good condition? Y X N _____
Closed or otherwise protected from weather? Y X N _____
Labeled "Used Oil Filters"? Y X N _____
Stored on an oil impervious surface? Y X N _____
3. Have any releases to the environment occurred, other than a leak from a UST? Y _____ N X _____
If so, did the facility stop the release, contain the oil, clean up the release and manage the contaminated material properly and repair or replace the leaking units prior to returning them to service? (279.22(d)) Y _____ N _____
4. Does the generator burn on site in a space heater? (279.23) Y _____ N X _____
If so, does he burn only DIY oil or oil generated on site? Y _____ N _____
Does the heater have a capacity of no more than 0.5 million BTU/hr? Y _____ N _____
Are combustion gasses vented to the atmosphere? Y _____ N _____
5. Does the generator only use transporters who have received EPA Identification numbers?
Name and number Atlantic Industrial Services, FLD984247882
6. If not, does the generator self-transport only used oil generated on site or DIY oil to used oil collection centers or aggregation point owned by the generator? Y _____ N _____
Name and location of center: _____
Location of generator aggregation point _____
If so, is this only in vehicles owned by the facility or facility employees? Y _____ N _____
Is no more than 55 gallons transported at one time? Y _____ N _____
7. Alternatively, does the generator have a tolling arrangement with a used oil reclaimer? Y _____ N _____
Is a copy of the contract kept on site specifying
type and frequency of shipments? Y _____ N _____
that the transport vehicle is owned by the processor? Y _____ N _____
that the reclaimed oil will be returned to the generator? Y _____ N _____

CROWLEY®

Memo

To: Karen Kantor
From: Gloria Prats
Date: 5/16/05
Re: Haz. Waste Manifest Pages including cover 12

As per our phone conversation attached please find some of the must resend manifest for 2004 and 2005.

We will have 2003 available for you perhaps at the end of the week, as soon as they arrive from the warehouse.

Please advise if they are readable or if you prefer for us to send them by courier.

Hope to hear from you soon

Gloria Prats

Import Supervisor

NON-HAZARDOUS WASTE

FACILITY

NOTICE OF POTENTIAL HAZARDOUS WASTE NON-COMPLIANCE – Page 1 of 2

FACILITY NAME CROWLEY LINER SERVICES		TYPE OF INSPECTION: CAV: <input type="checkbox"/> CEI: <input checked="" type="checkbox"/> CI: <input type="checkbox"/> OTHER: <input type="checkbox"/>	
ADDRESS 4300 MCINTOSH RD	CITY FT. LAUDERDALE	STATE FL	ZIP CODE 33316
EPA ID NUMBER	DATE OF INSPECTION 5/12/05	PAGE 1	OF 2
FOLLOW UP CAV INSPECTION WITHIN 120 DAYS: <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO			

A hazardous waste/used oil compliance inspection was made this date, under the authority of Section 403.091, Florida Statutes (F.S.), to determine your facility's compliance with Chapter 403, F.S. and Chapters 62-730 and 62-710, Florida Administrative Code (F.A.C.). Provisions of Title 40 Code of Federal Regulations (C.F.R.) Parts 260 through 268 and 279, which are cited on this form, have been adopted by reference as the state hazardous waste and used oil rules in Chapter 62-730 and 62-710, F.A.C. The following potential items of non-compliance were identified by the inspector(s). **This is not a formal enforcement action and may not be a complete listing of all items of non-compliance which exist at the time of this inspection.**

GENERAL REQUIREMENTS:

- ☐ Failure to ensure delivery of HW to proper HW facility § 261.5
- ☐ Failure to provide hazardous waste determination § 262.11
- ☐ Failure to notify as generator § 262.12
- ☐ Failure to use a manifest or reclamation agreement § 262.20
- ☐ Failure to provide personnel training § 265.16, 262.34
- ☐ Evidence of release(s) of waste § 265.31
- ☐ Facility exceeds 90/180 day time limit § 262.34

USED OIL VIOLATIONS:

- ☐ Failure to label containers § 279.22
- ☐ Failure to respond to releases § 279.22
- ☐ Failure to document used oil disposal § 279.10

CONTAINER MANAGEMENT:

- ☐ Unlabeled containers § 262.34
- ☐ Undated containers § 262.34
- ☐ Leaking or bulging containers § 262.34
- ☐ Open containers § 265.173
- ☐ Inadequate aisle space § 62-730.160

RECORDKEEPING REQUIREMENTS:

- ☐ Manifests § 262.40, § 262.44
- ☐ Training records § 262.34
- ☐ Contingency Plan § 262.34
- ☐ Weekly Inspection records § 62-730.160
- ☐ Information not posted by phone § 262.34
- ☐ Authorities not notified § 262.37

RE: Hazardous Waste Compliance Evaluation Inspection

Dear Mr. Corrigan:

On July 12, 2000, the Department conducted a hazardous waste compliance evaluation inspection (CEI) at the above-referenced facility. Your facility appears to be a Conditionally Exempt Small Quantity Generator (CESQG) of hazardous waste and a transporter and transfer facility of hazardous waste.

Enclosed is an inspection report with the Department's observations for your records.

This will conclude the Department's investigation into this matter. If you have any questions about the inspection or any other compliance related issues, please contact Mr. John Harris at 561/681-6719. Thank you for your cooperation.

Sincerely,

for Kathy Winston

INTRODUCTION

On July 12, 2000, a compliance evaluation inspection was conducted at Crowley Liner Services (CLS) located at 4300 McIntosh Road, Fort Lauderdale, Florida 33316. CLS provides export and import services, including the importation of used oil and hazardous waste, to the Caribbean and Central America via water transport. CLS leases the property from the Broward County Port Authority. This facility has been in operation since 1990, is connected to the city sewer system, and employs 100-125 people. Hosting the site inspection and record review was Mr. George Michaels. Department personnel conducting the inspection were Mr. John Harris and Mr. Timothy Gray.

SITE INSPECTION

The facility consists of a dock, a loading and unloading yard, an office area, a wash down area, and a maintenance shop.

In specific regards to CLS's importation procedures, CLS receives shipments in sealed transport boxes or trailers outside the United States. Documentation, including bills of lading and hazardous waste manifests, do not remain with the vessel during shipment. Instead, they are flown to CLS and copies remain with the vessel.

Once at CLS, the boxes are unloaded into the loading and unloading yard, where they remain until picked up by a second transporter. CLS, as a service, also offers ground transportation from its facility to the desired location; however, CLS has stated that it does not transport used oil after it arrives at the port. CLS also does not manage used oil filters. According to CLS personnel, the trailers, being sealed, are not opened for inspection of any containers inside, however, CLS security guards do a cursory inspection of the transport boxes for leaks, odors, or other anomalies.

In response to the Department's questions concerning labeling, CLS stated that the box is labeled if all the containers inside it contain hazardous waste. Otherwise, the boxes are not labeled, as the label would not apply to those containers not containing hazardous waste. CLS stated that since they do not break the seals on the transport boxes, they cannot be sure if all containers of hazardous waste are correctly labeled.

The wash down area is used to wash down imported vehicles which may carry soil or mud on the frame or engine. This is conducted in accordance with the United States Customs Agency and United States Department of Agriculture requirements. A drain manages water run-off and leads to an oil/water separator, which is pumped out by Atlantic Industrial Services.

The maintenance shop is used to maintain the service vehicles. The shop performs mainly preventative maintenance, including oil changes, but does not change antifreeze, according to CLS personnel. The shop houses two Safety Kleen parts washers.

RECORD REVIEW

CLS uses a bill of lading system to track its shipments. This system, which is maintained for a period of at least three years, contains information regarding where and when the shipment was received for import to the U.S., the date of arrival into the U.S., the identity of the waste and its quantity, information on the generator, and the date it leaves the facility. It is accompanied by a hazardous waste manifest.

Safety Kleen services the two parts washers every five weeks. Atlantic Industrial Services manages used oil.

The facility's contingency plan was not available for review.

DEPARTMENT FINDINGS

CLS appears to be a hazardous waste transporter, transfer facility, and appears to generate less than 100 kg of hazardous waste per month and is classified as a Conditionally Exempt Small Quantity Generator (CESQG) of hazardous waste.

On November 20, 2000, the Department received a copy of CLS's contingency plan.

CLS is advised to maintain an updated copy of its contingency plan available at all times. It is also recommended that CLS implement and maintain a log of inspections conducted of the transport boxes.

RE: Hazardous Waste Compliance Evaluation Inspection

Dear Mr. Corrigan:

On July 12, 2000, the Department conducted a hazardous waste compliance evaluation inspection (CEI) at the above-referenced facility. Your facility appears to be a Conditionally Exempt Small Quantity Generator (CESQG) of hazardous waste and a transporter and transfer facility of hazardous waste.

Enclosed is an inspection report with the Department's observations for your records.

This will conclude the Department's investigation into this matter. If you have any questions about the inspection or any other compliance related issues, please contact Mr. John Harris at 561/681-6719. Thank you for your cooperation.

Sincerely,

Kathy Winston

Jeff,

Here is a copy of the manifest we have on file. I talked to Jeff Roetzel about this and he explained that Dominican Transport picked up the waste at the generator, who was Baxter Biotech Fenwal (in section 15) and took to the port. Crowley was the vessel that transported from port to port. Trussco picked up at the port and brought to us.

COMMENTS: Used Oil registration form and inspection plan requirements to follow. Also, Crowley needs to address protecting ignitable wastes from radiant heat. Gets pretty hot in the summer.

CASE NAME: Crowley Liner Services

DATE: January 4, 2001

TIME: 4:00 pm

CONTACT: Mr. Robert McFeeley

OF: Crowley Liner Services

WAS CALLED.

PHONE: 904/727-2200

DISCUSSION:

Mr. McFeeley stated that Crowley does not transport used oil once in the US and does not transport used oil filters at all. Mr. McFeeley also stated that the vessel shipping the waste does not carry the original documents (manifests). Those are flown overnight to the US and the ship carries copies.

Mr. McFeeley also stated that shipping boxes carrying drums of hazardous waste are not necessarily labeled with the words "Hazardous Waste." He stated that Crowley would not know if the drums inside the box are labeled with the words "Hazardous Waste" because the box is sealed before Crowley takes it.

I informed Mr. McFeeley that Crowley had not registered as a used oil transfer facility and would need to do so. I also informed Mr. McFeeley that he would need to address that the contingency plan be available at all times at the facility.

 Waste Analysis Available? Yes (attached) _____ No _____ On file at receiving facility _____

Unrestricted Waste Notification (Category 1)

Mark the statement below if you generate a waste that is not a land disposal restricted waste (the waste has no applicable treatment standards).

☒ I notify that I am familiar with the waste through analysis and testing or through knowledge of the waste to support this notification that the waste is not restricted as specified in 40 CFR §268, Subpart D or any applicable prohibitions set forth in 40 CFR §268.32 or RCRA Section 3004(d).

Restricted Waste/Debris Notification (Category 2)

Mark statement (2a) below if you generate a waste that is restricted from land disposal (the waste has applicable treatment standards).
NOTE-1: A waste may pass one or more standards and require treatment or be variances for others. In this case, all applicable categories must be checked. **NOTE-2:** D001, D002 and D012 - D043 wastes must be evaluated for underlying constituents found in 40 CFR §268.48 (Table UTS), that are reasonably expected to be present. A list of these constituents must be included on **FORM B**, or attached to and accompany this notification with each waste shipment. Mark statement (2b) if you generate a debris waste that will be treated to the alternate debris standards located in 40 CFR §268.45.

☒ **(2a) Restricted Waste Notification**

I notify that I am familiar with the waste through analysis and testing or through knowledge of the waste to support this notification that the waste is subject to the treatment standards specified in 40 CFR §268 Subpart D. The waste: (a) must be treated to the appropriate regulatory treatment standard, by the appropriate regulatory treatment method; (b) qualifies for a variance as described in category 3 below; or (c) meets some or all of the standards as described in Category 4 below.

☐ **(2b) Alternate Debris Treatment Notification: This hazardous debris is subject to the alternate treatment standards of 40 CFR §268.45.**

The waste contains the following contaminants subject to treatment (check all that apply):

- _____ §268.45(b)(1)- Toxicity characteristic debris;
 _____ §268.45(b)(2)- Debris contaminated with listed waste;
 _____ §268.45(b)(3)- Cyanide reactive debris.

Restricted Waste Variance Notification (Category 3)

Mark the statement below and list the applicable variance date on **Form B**, if you generate a waste which does not require treatment prior to land disposal because of a variance (including a case-by-case extension under 40 CFR §268.5, a nationwide variance under 40 CFR §268 Subpart C, a no migration petition under 40 CFR §268.6, or other applicable variance).

☐ I notify pursuant to 40 CFR §268.7(a)(3) that I am familiar with the waste through analysis and testing or through knowledge of the waste to support this notification that this waste is subject to a national capacity variance under 40 CFR §268 Subpart C, or a case-by-case extension under 40 CFR §268.5, or an exemption under 40 CFR §268.6.

Restricted Waste Certification (Treatment Standards Met) (Category 4)

Mark the certification statement below if you generate a waste that is restricted from land disposal (the waste has applicable treatment standards), and the waste meets the standards as generated. **Note:** All applicable constituent standards must be accounted for. A waste may pass one or more standards and require treatment or be variance for other constituents. In this case, all applicable categories must be checked.

☐ I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D and all applicable prohibitions set forth in 40 CFR 268.32 or RCRA § 3004(d). I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

CROWLEY AMERICAN TRANSPORT
PORT EVERGLADES TERMINAL

HAZARDOUS MATERIAL EMERGENCIES
CONTINGENCY PLAN

1.0 PURPOSE

This plan is designed to meet the requirements set forth in the Florida Administrative Code Section 62-730.171 and 40 Code of Federal Regulations (CFR) part 265 for a "Transfer Facility".

2.0 SCOPE

This Contingency Plan applies to the temporary storage of Hazardous Materials and Waste at the Port Everglades terminal (referred to hereafter as PEV), operated by Crowley American Transport, Inc. (referred to hereafter as CATI). This plan will be used by all departments in emergency situations dealing with hazardous materials and wastes.

3.0 RESPONSIBILITY

The Terminal director is responsible to ensure the procedures outlined in this plan are followed in emergencies, and reviewed annually to verify content and the need for any changes.

4.0 PROCEDURE

- 4.1 The following procedures shall be used in the event of an emergency with hazardous materials and wastes.

4.1.1 Terminal Information.

Terminal address:	4300 Mc Intosh Road Ft. lauderdale, FL 33316 Port Everglades
Terminal Mailing address:	P. O. Box 359004 Ft. Lauderdale, FL. 33335

The terminal may be contacted by phone at (954) 760-7900

The Port Everglades terminal is located at in the Southport area of Port Everglades. From I-595 proceed along Eller Dr. making a right at McIntosh Road, the terminal is located at the end of McIntosh Road approximately ¼ mile south of Eller dr.

4.1.2 Port Everglades Terminal Design (see attachment no. 1)

The terminal consists of main office area, container yard, maintenance building and carlot area.

4.2 Emergency Contact List

Primary Response Coordinator: Ed Corrigan
Terminal Operations Mgr.
Work: (954) 760-7900 ext: 4045
Home: (954) ~~561-3669~~
Beeper: (954) 878-8910
(305) 837-0046

Secondary Response Coordinator: Arnold Heredia
Supervisor, Gate & vehicle Insp.
Work: (954) 760-7900 ext: 4026
Home: (305) 385-4981
Beeper: (954) 730-6489
(305) 291-4686

4.2.1 Crowley Crisis Management Team

<u>Name</u>	<u>Position</u>	<u>Telephone Numbers</u>
David Homan	Director, Port Ops.	Home: (954) 467-5756 Cellular: (954) 328-5835
Ed Corrigan	Emergency Coord.	Home: Beeper: (954) 878-8910 (305) 837-0046
Jackie Fisher	Mgr. Equip Cntrl	Home: (954) 434-2855 Beeper: (954) 879-9688 (305) 886-7420
Dan Borrelli	Mgr. Trucking	Home: (954) 927-5610 Beeper: (954) 879-0537
Charles Meridth	Mgr. Maintenance	Home: (954) 434-0764 Beeper: (954) 676-6674 (305) 376-7595
Bob Weist	Mgr. Stevedoring	Home: (954) 845-9010 Beeper: (954) 408-7316 (305) 277-0636

(305) 291-4686

4.2.2 Crowley, Crisis Control Center location for Port Everglades Terminal

- CATI
4300 Mc Intosh Road
Port Everglades
Ft. Lauderdale, Fl. 33316

4.2.3 Emergency Support Agencies

Port Everglades Fire Department

Emergencies: 911

Non-Emergencies, Hazardous
Materials:
(954) 468-3533

The Port Everglades Fire Department is to be contacted and alerted of Hazardous Materials Emergency. 'Captain on Duty' will send emergency response team and make appropriate recommendations and calls to various support agencies, as necessary.

- For any type of incident where help is needed for clean up.

Cliff Berry Inc.
851 Eller Drive
Port Everglades
Ft. Lauderdale, Fl. 33316

(800) 899-7745

4.2.4 Report accidents after working hours to the following:

Mr. David Homan

Home: (954) 467-5756
Cellular: (954) 328-5835

Mr. Ed Corrigan

Home: (954) 581-3869
Beeper: (954) 837-0046
(305) 878-8910

4.3 Location of Hazardous Materials

All Hazardous Materials and Wastes stored at the terminal are stored in intermodal containers or tanks in accordance with the requirements in 49 CFR.

4.4 Security

Main entrances to both terminals are controlled by a contracted 24 hour guard service. They are responsible to ensure no unauthorized personnel enter the terminal. Terminal access is controlled by security guards at the main entrances to the terminal and security cards to the main office. The terminal is surrounded by chain link fence topped with barbed wire, and security lighting is provided throughout.

The Terminal is patrolled by security guards at night and are responsible to report any condition noted below to the watch supervisor. The supervisor is responsible for a daily record of the inspections of the entire facility.

The inspections encompass the entire facility and check for more than intrusion detection. The guard is responsible to check for the following conditions:

- Leakage of cargo from trailers, containers or tanks.
- Unusual odors.
- Fire or smoke.

If such conditions are discovered, the watch supervisor is notified immediately, and the area is secured for a distance of 100 feet in all directions. This area will remain secured until the terminal supervisor relaxes this condition.

The watch supervisor shall immediately contact the terminal manager if a hazardous material/waste trailer, container or tank is found to be leaking or emitting an unusual odor.

If there are signs of fire and/or smoke emanating from a trailer, container or tank, immediately call the Port Everglades Fire Department. They will then contact the Terminal Manager and the Emergency Coordinator and prepare for the clear passage of fire department personnel. They will not allow any unauthorized personnel in the area until the incident is resolved and the Terminal Manager has relaxed the heightened condition.

5.0 Action Plans (by Job)

5.1 Emergency Coordinator (EC):

The EC will take charge of the incident and make recommendations to the Terminal Manager or Crisis Management Team Leader regarding action to be taken. The EC must have the ability to evaluate emergencies and provide leadership necessary to minimize exposure to personnel, property and the environment. To accomplish this endeavor the EC must be thoroughly familiar with the following:

- This contingency plan
- Federal DOT regulations as they apply to the carriage of Hazardous Materials/Waste via rail, highway and water.
- Packaging requirements in CFR title 49 part 173.
- Placarding requirements in CFR title 49 part 172.
- Federal and State Environmental Regulations as they apply to Crowley Maritime Corporation activities in Port Everglades, Florida.
- The Emergency Response Guidebook. DOT publication 5800.4.
- Informational content of a Material Safety Data Sheet (MSDS).
- Shipping documents as they relate to the shipment of Hazardous Materials.
- Hazardous Wastes Manifests
- Dangerous Cargo Manifests and computer data information on hazardous materials.
- Codes on the compatibility of dangerous cargo.
- The Chemical Dictionary.
- Evacuation distances (and how to compute).

The Terminal Manager will provide all appropriate shipping documents, MSDS's, waste stream numbers and any additional information requested by the EC and emergency response personnel..

5.2 Operations Supervisors

Within the context of these guidelines, all employees are directed to contact their supervisor in the event of an incident involving hazardous material/waste on the Port Everglades terminal. It is the supervisor's responsibility to provide the required leadership to minimize exposure to personnel and keep losses to a minimum. The following are suggested guidelines to assist them in this endeavor.

- a. Maintain access to a copy of the arriving vessels Dangerous Cargo Manifest.

- b. Maintain access to automated data of the individual terminals hazardous material, for that day.
- c. Have access to a current edition of the North American Emergency Response Guidebook (ERG).
- d. Make immediate notifications as outlined in section 4.2 (Emergency Contacts) of this plan. Provide these personnel with an incident summary, all identification information about the product, and environmental conditions known at the scene (as practicable).
- e. Clear the area of personnel and ignition sources and make an assessment of the situation using the information sources mentioned above.
- f. Take steps necessary to minimize the environmental impact, based on your assessment. If containment is feasible (and safety to personnel will not be affected) attempt containment.
- g. The supervisor's priority in an incident is protection of personnel. Clear the area of all personnel not trained to deal with incident at hand, and wait for emergency personnel.
- h. When the EC arrives, the supervisor will brief him and follow his instructions until the incident is mitigated.
- i. Containers, trailers or tanks with hazardous waste will be given the same consideration as hazardous material.

5.3 Inspector - Gate

Inspectors must follow these procedures when hazardous materials arrive or depart the terminal to determine how to handle the cargo.

- Hazardous material/waste must be accompanied by a shipping document that properly describes the material in accordance with Department of Transportation (DOT) regulations, or the recommendations set forth in the International Maritime Dangerous Goods Code (IMDG).
 - 1. Shipments to Puerto Rico and the U.S. Virgin Islands fall within the scope of the DOT regulations.
 - 2. Shipments bound for a foreign country fall within the scope of the IMDG code.

3. Shipping papers must have the proper shipping name, hazard class, UN number, packaging group and weight of the material.
4. If the trucker does not have this information, the cargo must not be accepted until this document is provided.
- b. All trailers and container loads not deemed Limited Quantities on the documentation must have a placard on all four sides that corresponds to the primary (and if applicable) subsidiary hazard class of that material.
 1. Tanks must also have the identification number of the product. (UN number) on or adjacent to the placard.
 2. Hazardous Waste cargo does not need a placard unless it meets the definition of a DOT hazardous material waste.

Inspection guidelines:

Hazardous material/waste loads will enter and exit terminals through inspection stations, and will not enter the terminal from the highway without inspection. After clearing inspection, hazardous loads will be directed to drop the loads in an available "slot" or proceed directly to a vessel for loading.

- Upon arrival, at the terminal inspection station, the trailer, container or tank will have a Equipment Interchange Report (EIR) completed for it's inspection and any damage will be noted.
- Van and box type containers will have their underside, and around the rear doors checked for evidence of leakage. Tankers, will have all valves, and undersides inspected for any evidence of leakage.

IF LEAKAGE IS PRESENT, CLEAR THE AREA OF ALL PERSONNEL AND SOURCES OF IGNITION FOR A MINIMUM OF 50 FEET IN ALL DIRECTIONS. IMMEDIATELY NOTIFY SUPERVISOR!

- Supervisors shall immediately notify the Emergency Coordinator, and the Terminal Manager. Evaluate the hazard using the ERG and any other available information about the product. (Evaluation must be completed prior to any attempt to contain the leak).
- Supervisors shall make every attempt to contain the leak, based on their evaluation. Every consideration shall be given to the product's health risks, type of protective equipment required, environmental considerations and level of training required for personnel to perform the task.

- Supervisors must keep all personnel not involved with the evaluation, containment and clean-up of the scene until the EC has approved the site for continued operations.

5.4 Vessel Stevedoring Supervisors

As a normal part of pre-discharge and loading operations aboard ship, stevedoring supervisors review the vessels cargo manifest (to include the DCM) and/or stow plan. As a result of this review, the supervisors become familiar with the stowage locations and types of hazardous materials on board the vessel. The stevedoring supervisor is responsible for the proper loading and discharging of the vessel's cargo. They will be present at all times stevedores are aboard the vessel handling or preparing to handle cargo. During pre-operation safety meetings, supervisors direct all personnel involved in the operation to immediately notify them of any condition listed below:

- a. Unusual odors present in the area of a hazardous cargo.
- b. Leakage from cargoes known to be a hazardous material or waste.
- c. Damage, such as bulging of sides or flat tires, to a cargo known to be a hazardous material/waste.

Upon notification of any hazardous condition, the supervisor will follow the notification protocol outlined in section 4.2.

5.5 Drivers, Lashers and Checkers / GANG members

Gang members are not normally in contact with hazardous material or haz. waste. Gang members may come in contact with a container laden with hazardous materials during loading or discharging operations while lashing or unlashng containers aboard ship. While gang members are working in the drivers capacity, they only move the container from the pier head to a container slot (on the yard) or vice versa. During either process, lashing or driving, if any of the conditions listed in 5.6 - 1 - a,b, or c above is discovered, the gang member shall notify the supervisor of the conditions and the location aboard the vessel or "slot" number on the yard where the container is located. While acting in the capacity as a checker, the member will not come in contact with containers laden with hazardous materials. If the checker observes any condition listed in 5.6 - 1 - a,b or c, they must notify the supervisor immediately.

5.6 Notification

All leaks or spills of a hazardous material/waste must be reported to

1. The Terminal Manager, who will direct the notifications to the following.
2. The Emergency Coordinator
3. Risk Management Department
4. The shipper and/or the manufacturer
5. In accordance with 49 CFR 171.15:
 - At the earliest practicable moment, each carrier who transports hazardous materials (including hazardous waste) shall give notice as required by subparagraph (b) of this section after each incident that occurs during the course of transportation (including loading, unloading and temporary storage) in which;
 - (1) As a direct result of hazardous materials -
 - (i) A person is killed;
 - (ii) A person receives injuries requiring his or her hospitalization;
 - (iii) Estimated carrier or other property damage exceeds \$50,000.00;
 - (iv) An evacuation of the general public occurs lasting one or more hours;
 - (v) One or more major transportation arteries or facilities are closed.
 - (vi) The operational flight pattern of an aircraft has been altered.
 - (2) Fire, breakage, spillage, or suspected radioactive contamination occurs involving shipment of infectious substances (etiologic agents); or
 - (3) There has been a release of a marine pollutant in a quantity exceeding 450 L (119 gals) for liquids or 400 kg (882 lbs) for solids; or
 - (4) A situation exists of such a nature that, in the judgment of the carrier, it should be reported to even though it does not meet the criteria of 49 CFR 171.15 (a)(1)(2) or (3), as paraphrased above.

Each notice required by paragraph (a) above shall be given to the DOT, U.S. Coast Guard National Response Center (toll free) on 800-424-8802. Each notice must include the following information:

- (1) Name of operator.
- (2) Name and address of carrier represented by reporter.

- (3) Phone number where reporter can be contacted.
- (4) Date, time and location of incident.
- (5) The extent of injuries, if any
- (6) Classification, name, and quantity of hazardous materials involved, if available.
- (7) Type of incident and nature of hazardous materials involved and whether a continuing danger to life exists at the scene.

Each carrier making a report under this section shall also make the report required by 49 CFR 171.16.

NOTE: Under 40 CFR 302.6 EPA requires persons in charge of facilities (including transport vehicles, vessels and aircraft) to report any release of a hazardous substance in a quantity equal to or greater than its reportable quantity (RQ), as soon as that person has knowledge of the release, to report to the U.S. Coast Guard National Response Center at (800) 424-8802 or (202) 267-2675."

6.0 Evacuation

In the event evacuation becomes necessary, personnel are directed to stop what they are doing and proceed in a calm and orderly manner to the nearest exit. Once outside personnel will assemble in the parking lot outside the main building and a personnel count will be conducted. At this time, personnel will proceed as directed by supervisors, based on conditions.

The designated route of egress will be determined by wind direction and the location of the incident on the terminal. In the event an evacuation of the terminal becomes necessary, no access to the terminal will be allowed without permission of the Terminal Manager, EC and the Port Everglade Fire Department. If evacuation of the surrounding community becomes necessary, this operation would be accomplished by the proper authorities. These agencies are familiar with the terminal and routes to be taken to reach the terminal in the event of an emergency. Site maps of the terminal are provided as part of this plan.

7.0 Personnel Training

All personnel engaged in the transportation, storage and management of hazardous materials to include hazardous wastes will be trained in the appropriate levels for their positions. The training will be conducted in accordance with the requirements in 49 CFR 172.700 for General Awareness, Function Specific and General Safety.

Training in the use of this contingency plan will be conducted annually for all personnel and job titles with descriptions updated as needed.

8.0 Arrangements with Local Authorities

This plan was created in part with information provided by the Port Everglades Fire Department. It is their request that they should be the first contact in any Hazardous Emergency. They will provide emergency personnel and contact all necessary agencies while determining what course of action(s) need to be taken.

Job Titles and Descriptions

Director of port Operations: Overall manager of the terminal.

Emergency Coordinator: (Emergency Position Only) Coordinates response activities with facility personnel and outside authorities. Responsible for preliminary assessment of a hazmat incident.

Alt. Emergency Coordinator : Same as Emergency Coordinator, as a back up.

Crisis Management Team Member: Personnel selected to represent the company and work with the Emergency Coordinator in making economic and environmental decisions in the event of a hazmat incident.

Manager, Stevedoring Operation: Manages the loading and discharging operations of vessels, may be called on for expertise in a hazmat incident involving this type operation.

Manager, Traffic/ Port Documentation: Maintains records for all traffic, trailer and container loads. Responsible to provide documentation of hazmat loads, shipping papers, etc.

Manager, Transportation & Equipment: Responsible for control of equipment to move trailers, and containers to and from the vessel and throughout the yard. May be called for transportation support in the event of a hazmat incident.

Supervisor, Stevedoring Operations: In charge of loading and discharging operations of vessels. May be used to coordinate activities for discharge of a load involved with a hazmat.

Inspectors, Gate: These personnel are used to ensure the terminal does not receive a hazmat load in an unsafe condition.

Driver (Yard Hostler): Responsible for movement of trailers and containers on and off vessels and throughout the yard under the directions of the supervisor, operations. May be used to segregate containers as needed.

Lashers: Responsible to lash (chain down) and unlash loads aboard ship. Also used to report any unusual conditions during loading and unloading operations.

Checkers: Accountable for checking seal numbers on each container loaded or removed from the vessel, also responsible for reporting any unusual conditions during loading and unloading operations.

Maintenance Personnel: Responsible for maintenance of yard hostlers, fork lifts and containers. Responsible to report all suspect releases of hazmat from a container/tank or trailer.

NOTE:

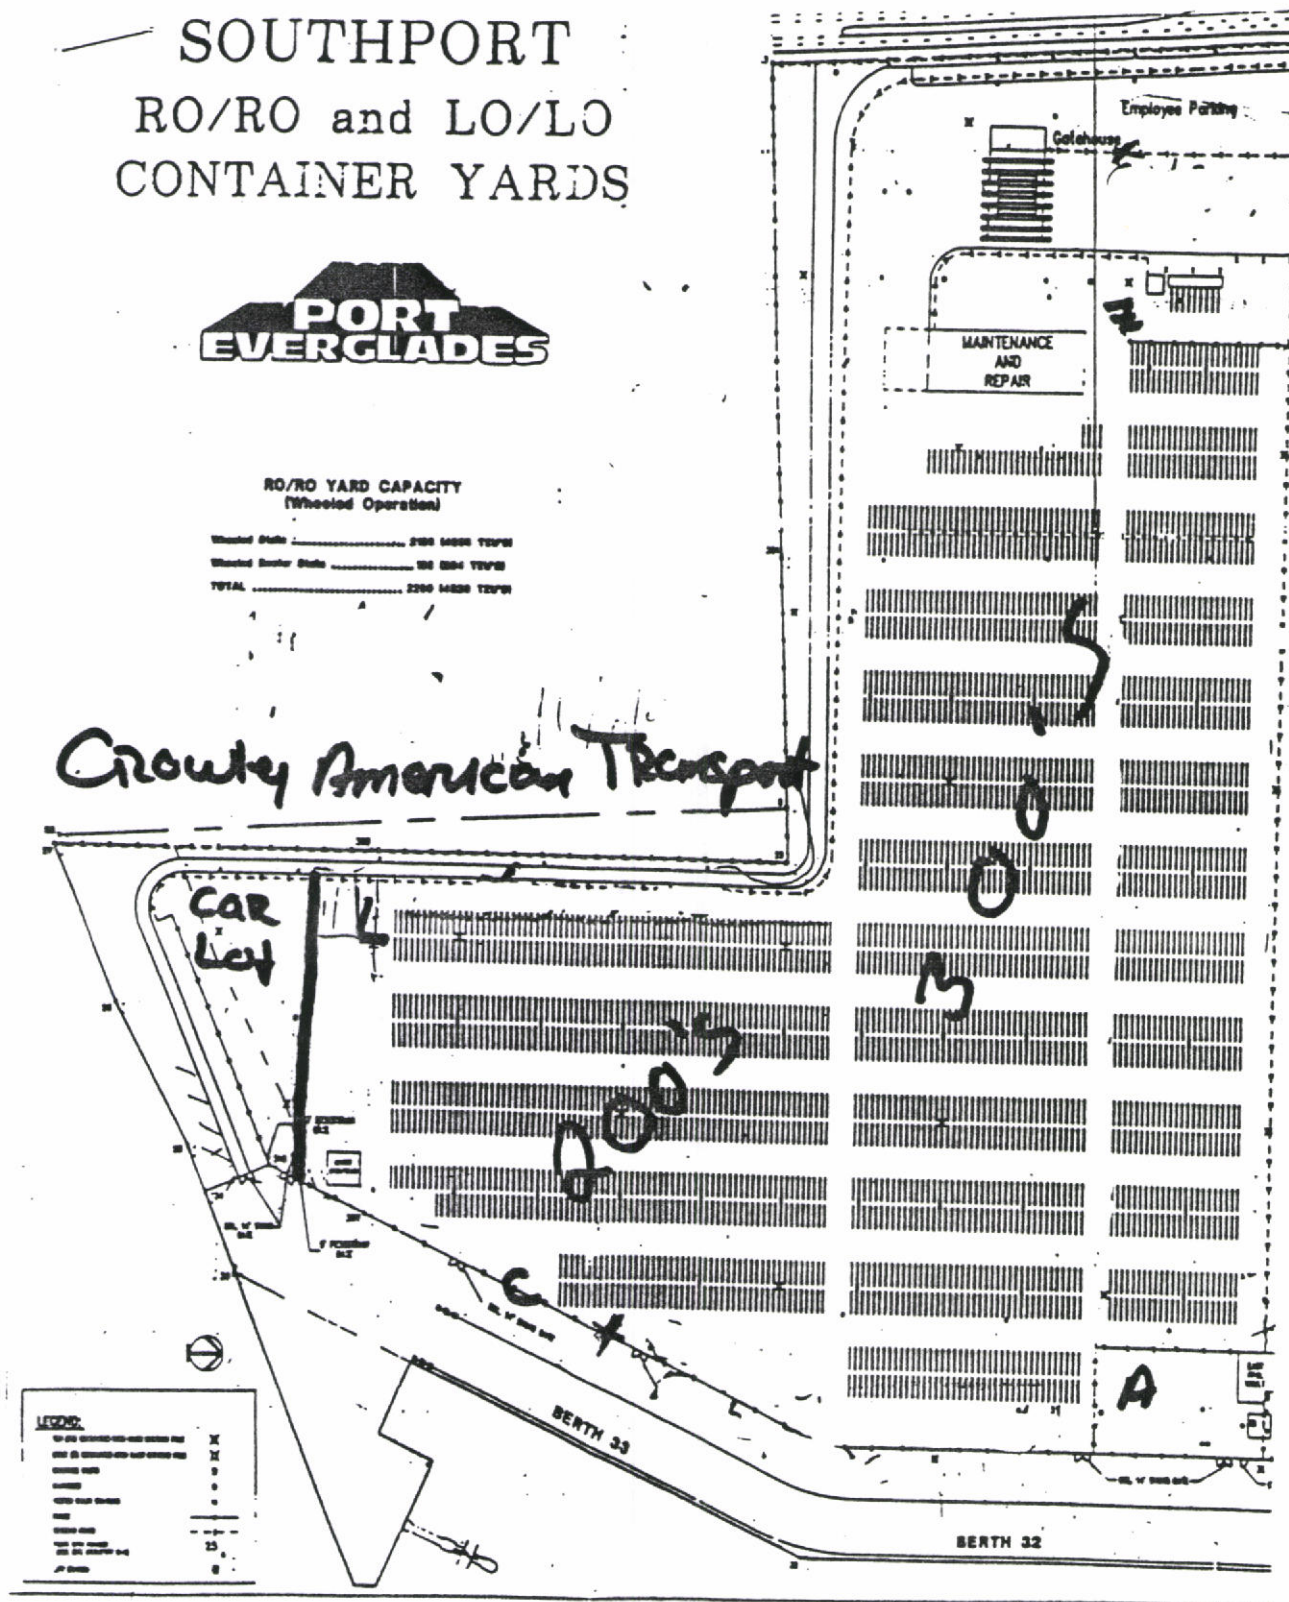

The Marine Terminal Manager maintains this plan and will make it available upon request from any appropriate agency representative.

Reported On / 2/23/98

**STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
ENFORCEMENT TELEPHONE LOG**

CASE NAME: Crowley Liner Services, Inc. (CLS)

DATE: July 20, 2000

TIME: 11:30 am

CONTACT: Mr. Robert McFeeley

OF: Crowley Liner Services, Inc.

CALLED.

DISCUSSION:

Mr. McFeeley informed me that he would forward me the results of a determination completed two years ago on the truck wash sludge. I recommended that CLS complete a determination on the sludge about once per year.

PREPARED BY: J. C. Harris
