Subject: Re: Transfer Facility Notification

Florida Waste is applying to be a HW transporter and transfer facility. Requirements are listed in 62-730.170 and 171, F.A.C. They are required to notify the Department 30 days before they start the facility operations during which time we are supposed to inspect and make sure that they meet the requirements. After 30 days they can operate even if the district hasn't done the inspection and then it becomes a compliance/enforcement problem. I have not issued the transporter certificate as of yet as they are supposed to be submitting the Certificate of Liability Insurance form, which they have not done so yet!

I stopped sending updated HW transporter list to the districts when COMHAZ came into being. You can print it yourself. Co into COMHAZ, reports, handlers, transporters and put in your printer number and control6 and you should get it! If you need further instructions, give me a call and I'll try to walk you through it!
