[SK Boynton Beach Container Logs 11-2015.pdf](#)

Hi Kathy,

Attached are the last two weeks of container logs. I have informed Bill of the decision on the 10-day transfer container issue.

Thanks, Jeff

I got the OK to let the one day over at the transfer facility issue through this time; therefore, all you owe me is two weeks of container inspection logs with the number of containers on it and we can close this inspection out as CWOE. Tell Bill he doesn't have to sweat it anymore.

Don't forget to send me a couple of weeks of container inspection logs, so I can see that the number of hazardous waste containers is being noted. As far as the other matter, It may be awhile until I get Tally's approval. However; it didn't characterize out as a SNY, so I am hoping they will go along with my suggestion of CWOE. If you don't remember these acronyms, give me a call.

Hi Kathy,

Attached are the 2015 RCRA refresher training, and Hazwoper training docs requested from your inspection last week. Let Bill or I know if you have any questions, or need anything additional. In addition, please advise when the Department makes a decision on what action will be taken regarding the 10-day container(s) violation found during inspection. Thanks again!

Jeff
