SIC CODE: 4212 - Trans. & utilities - local trucking, without storage

TYPE OF OWNERSHIP: Private

Introduction:

On February 18, 2016, a representative of the Florida Department of Environmental Protection (DEP) conducted a hazardous waste transporter compliance evaluation inspection at Sterytec, LLC. located in Miami, FL.

Sterytec notified DEP on September 17, 2015, as a Hazardous Waste Transporter. This facility was located at 8053 NW 64th Street, Miami, Florida. Since 2015, Sterytec operates a storage with one- (1) bay which is used to store biomedical wastes (sharps, used gloves, used gages) and extra medical waste containers with different sizes of storage boxes (15 to 30 gallons) generated by dental and medical offices.

During the inspection, Sterytec LLC was represented by Mr. Francisco Garcia, President, and DEP was represented by Norva Blandin, Environmental Specialist.

Notification history

09/17/2015 - notify as Hazardous waste transporter

Inspection history

Never inspected by FDEP

Process Description:

Sterytec primary business is transporting biomedical wastes from small doctor and dentist offices, small medical labs, etc. Sterytec has one driver and services Broward and Dade counties. Medical wastes are disposed of through Advance Medical Sanitation (#RER SW1690) in Broward County. All manifests related to biomedical wastes (UN3291- regulated medical wastes, N.O.S., 6.2, PGII) were onsite.

Inspection Date: 02/18/2016

During the inspection of the storage bay located at this site, the inspector did not observe any hazardous wastes being stored in the storage unit. The inspector did observe several containers of biomedical waste that were being stored.

According to Mr. Garcia, Sterytec has not conducted, to date, any hazardous waste transport activities under its registration; and does not plan to begin hazardous waste transport activities until September.

Record review:

No hazardous wastes manifests at the time of inspection. Only biomedical wastes regulated by DOH. However, we observe the following on site management practices implemented:

- Modified contingency plan
- Liability Insurance - policy number #793-00-28-70-0001 exp. date: 12/19/16.
- Manifest tracking system for their medical wastes
- Employee Training Program - they provided training to their employees in HazMat, HazCom and OSHA. When they start operations with HW transporting, they will provide hazardous wastes training to their employees.
- US DOT #2427622FL

Conclusion:

Based on our observations, the facility was in compliance at the time of inspection.

Inspection Date: 02/18/2016

Signed:

A hazardous waste compliance inspection was conducted on this date, to determine your facility's compliance with applicable portions of Chapters 403 & 376, F.S., and Chapters 62-710, 62-730, 62-737, & 62-740 Florida Administrative Code (F.A.C.). Portions of the United States Environmental Protection Agency's Title 40 Code of Federal Regulations (C.F.R.) 260 - 279 have been adopted by reference in the state rules under Chapters 62-730 and 62-710, F.A.C. The above noted potential items of non-compliance were identified by the inspector(s).

This is not a formal enforcement action and may not be a complete listing of all items of non-compliance discovered during the inspection.
