DATE:

FILE NAME: Safety Kleen Corporation
PROGRAM : Hazardous Waste

PERMIT #: HO29-158820
COUNTY : Hillsborough

TYPE OF PERMIT ACTION: X PERMIT MODIFICATION MAJOR

PUBLIC NOTICE PERIOD CLOSED? NO

PERMIT SUMMARY: The Tampa Service Center is currently authorized to store hazardous wastes in containers and tanks. The center acts as a storage location for the various waste types until enough material has been gathered from customers to warrant a shipment to the Corporate treatment recycling facility. Safety Kleen has proposed storage of approximately 92 new waste types.

PROFESSIONAL RECOMMENDATION: X APPROVE DENY

EVALUATION SUMMARY: This proposal constitutes a Class 3 Major permit modification which by law requires a public notice in a newspaper of general circulation. Attached is the language for publication in order to satisfy FDER regulations and the modified draft permit.

TIME CLOCK: The FDER is not bound to a time clock concerning modifications to existing permits.

Re: Safety Kleen Corporation, FLD 980 847 271
Operation Permit, File No.: H029-158820
Hazardous Waste Facility - Hillsborough County

Dear Gentlemen:

Pursuant to Section 403.815, Florida Statutes, and Rule 17-730.220(6), Florida Administrative Code, (F.A.C.), the Department requires you to publish and broadcast, at your own expense, this Notice of Proposed Agency Action. Attached are the Intent to Issue a major permit modification, language for the newspaper publication and radio announcement, and the proposed draft modified operation permit.

Pursuant to Rule 17-730.220(6), F.A.C., the notice must be published one time only in the legal ad section of a major local newspaper of general circulation in Hillsborough County, and broadcast one time only over a local radio station within thirty (30) days of receipt of this letter. Proof of publication and broadcast must be provided to the Department within fourteen (14) days of publication and broadcast of the notice.

Failure to publish this notice and provide proof of publication and broadcast within the allotted time may result in denial of the modified operation permit without any further notice or opportunity for hearing.

Sincerely,

Richard D. Garrity, Ph.D.
Director of District Management
Southwest District

INTENT TO ISSUE

The Department of Environmental Regulation (DER) hereby gives notice of its Intent to Issue, and requests the publication and notice for the above referenced major permit modification. Upon issuance of this permit modification, the Department will authorize the permittee to operate a hazardous waste storage tank and container facility having identified 92 new waste codes located at 24th Avenue and 54th Street, Tampa, Hillsborough County, Florida.

Management of two new sources of hazardous waste will be authorized. The first new hazardous waste source to be managed at the facility is Fluid Recovery Service (FRS) waste. These FRS wastes are designated by the following EPA Waste Code Numbers: D001 and D002, F001, F002, F003, F004, F005, F006, F019, F024, F039, K006, K016, K019, K022, K029, K030, K031, K048, K049, K050, K051, K052, K085, K086, K095, K096, K009, K010, K011, K013, K014, K015, K002, K003, K004, K005, U001, U002, U003, U009, U019, U031, U037, U043, U044, U051, U052, U055, U056, U057, U068, U069, U070, U071, U072, U075, U077, U078, U079, U080, U083, U084, U107, U108, U110, U112, U113, U117, U118, U121, U125, U140, U154, U159, U161, U162, U165, U169, U171, U188, U191, U196, U210, U211, U213, U220, U226, U227, U228, U239, U359 and TCLP SubCharacteristics D004 through D011, D018, D019, D021 through D030 and D032 through D043.

The remaining new hazardous waste source is spent antifreeze (ethylene glycol) which is designated by EPA Waste code Numbers for TCLP SubCharacteristics D004 through D011, D018, D019, D021 through D030 and D032 through D043.

The Department is taking this action under the authority of Section 403.722, Florida Statutes (F.S.), and Florida Administrative Code Chapters 17-4 and 17-730, (F.A.C.), which provide for issuance of permit modifications to facilities that treat, store, or dispose of hazardous wastes. The issuance of this permit modification is based on the applicant's demonstration that this facility is in compliance with the technical and procedural requirements established in Chapter 17-730 F.A.C. and the appropriate Sections of 40 CFR Parts 260 through 266, which were adopted by reference in Chapter 17-730 F.A.C. This demonstration was made in the approved modification package submitted on March 8, 1993, and amended on March 30, 1993 and April 15, 1993.

Pursuant to Sections 403.815 and 403.722, F.S., and 17-730.220(6), F.A.C., you are required to publish at your own expense notice ^{of} ~~for~~ the Department's Intent to Issue a hazardous waste operating permit modification to Safety-Kleen Corporation to manage 92 new hazardous waste codes at an existing hazardous waste tank and container storage facility located at the above mentioned location.

Pursuant to Section 17-730.220(6), F.A.C., the attached notice must be published one time only in the legal ad section of a major local newspaper of general circulation in Hillsborough County and broadcast over a local radio station within thirty (30) days from receipt of this letter. Proof of publication and broadcast must be provided to the Department within fourteen (14) days of publication of the notice.

Failure to publish the notice and provide proof of publication and broadcast within the allotted time may result in denial of the permit modification.

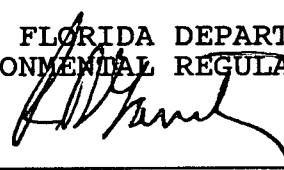

The Department shall issue the modified permit HO29-158820 with the attached conditions unless an appropriate petition is filed for a hearing pursuant to the provisions of Section 120.57, F.S. At a formal hearing under Section 120.57(1), F.S., all parties shall have an opportunity to present evidence and argument on all issues involved, to conduct cross-examination and submit rebuttal evidence, to submit proposed findings of fact and orders, to file exceptions to any order or hearing officer's recommended order, and to be represented by counsel. At an informal hearing under Section 120.57(2), F.S., the Department will provide affected persons or parties an opportunity to present evidence or a written statement in opposition to the agency's action.

Petitions for hearing must comply with the requirements of Section 28-5.201 F.A.C., and be filed with the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400. Petitions filed by the applicant must be filed within forty-five (45) days of receipt of this letter. Petitions filed by other parties, or requests for public meetings by persons,

must be filed within forty-five (45) days of publication or broadcast of the public notice. Petitions or requests for meetings which are not filed in accordance with the above provisions are subject to dismissal.

Executed in Tampa, Florida.

FLORIDA DEPARTMENT OF ENVIRONMENTAL REGULATION
3804 Coconut Palm Drive
Tampa, Florida 33619-8318
813/744-6100

THE FLORIDA DEPARTMENT OF ENVIRONMENTAL REGULATION (FDER) GIVES NOTICE OF ITS INTENT TO ISSUE A MAJOR PERMIT MODIFICATION UNDER THE RESOURCE CONSERVATION AND RECOVERY ACT (RCRA), AS AMENDED BY THE HAZARDOUS AND SOLID WASTE AMENDMENTS OF 1984 (HSWA), SECTION 403.722, FLORIDA STATUTES (FS), AND CHAPTERS 17-4 AND 17-730 OF THE FLORIDA ADMINISTRATIVE CODE (FAC) TO Safety Kleen Corporation for the storage of additional waste codes at the existing hazardous waste tank and container storage facility located at 5309 24th Avenue and 54th Street, Tampa, Hillsborough County, Florida, having assigned facility I.D. number FLD 980 847 271. The permit modification, if issued, will be the State permit which covers the RCRA program that was in effect prior to the passage of the HSWA. The Environmental Protection Agency (EPA) and Florida Department of Environmental Regulation (FDER) have determined that there are no additional evidences of releases of hazardous waste or constituents from solid waste management units (SWMUs) at this facility that have not already been identified. Therefore, at this time, Section 3004(u) of the Hazardous and Solid Waste Amendments (HSWA) of 1984 does not apply. The only provisions of HSWA which apply to the facility are the Section 3005(h) waste minimization certification and Section 3004(d) Land Disposal Restriction requirements, which have been incorporated into the existing State operating permit.

If new information becomes available indicating that Section 3004(u) of HSWA applies, the HSWA permit may be reopened.

The State of Florida has been granted authorization for those portions of the RCRA Hazardous Waste Program that were in effect prior to the passage of the Hazardous and Solid Waste Amendments of 1984. The Federal Environmental Protection Agency will administer the applicable portions of the Hazardous and Solid Waste Amendments of 1984 until the State receives authorization for these provisions.

A draft modified permit, prepared in accordance with the provisions of Chapter 17-730 FAC, contains the conditions for the operation of a hazardous waste storage container and tank facility.

The new hazardous wastes to be stored at the facility are Fluid Recovery Service (FRS) wastes which are designated by the following EPA Waste Code Numbers: D001 and D002, F001, F002, F003, F004, F005, F006, F019, F024, F039, K006, K016, K019, K022, K029, K030, K031, K048, K049, K050, K051, K052, K085, K086, K095, K096, K009, K010, K011, K013, K014, K015, K002, K003, K004, K005, U001, U002, U003, U009, U019, U031, U037, U043, U044, U051, U052, U055, U056, U057, U068, U069, U070, U071, U072, U075, U077, U078, U079, U080, U083, U084, U107, U108, U110, U112, U113, U117, U118, U121, U125, U140, U154, U159, U161, U162, U165, U169, U171, U188, U191, U196, U210, U211, U213, U220, U226, U227, U228, U239, U359 and TCLP SubCharacteristics D004 through D011, D018, D019, D021 through D030 and D032 through D043.

The remaining new hazardous waste source is spent antifreeze (ethylene glycol) which is designated by EPA Waste code Numbers for TCLP SubCharacteristics D004 through D011, D018, D019, D021 through D030 and D032 through D043.

The application and a copy of the proposed permit are available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at either:

Florida Department of Environmental Regulation
Southwest District Office
3804 Coconut Palm Drive
Tampa, Florida 33619-8318
(813) 744-6100

OR

Florida Department of Environmental Regulation
Hazardous Waste Permitting Section
2600 Blair Stone Road
Tallahassee, Florida 32399-2400
(904) 488-0300.

Any interested person may submit written comments on this proposed State agency action to the address shown above, within forty-five (45) days of publication of this notice. All comments on the facility will be considered by the Department in formulating a decision on issuing this permit.

A person whose substantial interests are affected by the Department's proposed permitting decision may petition for an administrative proceeding (hearing) in accordance with Section 120.57, FS, and Chapters 17-103, and 28-5, FAC. Petitions must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, within forty-five (45) days of publication of this notice. Petitioner shall mail a copy of the petition to the applicant at the time of filing. Failure to file a request for hearing within this time frame shall constitute a waiver or any right such person may have to request a hearing under Section 120.57, FS, or a meeting under Section 403.722(10), FS.

A petition for formal or informal administrative hearing pursuant to Section 120.57, FS, shall contain the following information: (a) The name, address, and telephone number of each petitioner. If the petitioner challenges a Department action or proposed action on a permit application, the application's name and address, the Department Permit File Number and the county in which the project is proposed, shall also be included; (b) A statement of how and when each petitioner received notice of the Department's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action; (d) A statement of those material facts (i.e., those facts upon which the Department's action or proposal is based) disputed by petitioner. If no facts are disputed, petitioner shall so state; (e) A statement of facts which petitioner contends warrant reversal or modification of the Department's action or proposed action; (f) A statement of which rules or statutes petitioner contends require reversal or modification of the Department's action or proposed action; (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Department's action or proposed action.

If a petition on the Department's permit is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the proposed agency action. Persons whose substantial interests have been affected by any decision of the Department have the right to intervene in the proceeding. A petition for intervention must be filed pursuant to Section 28-5.207, FAC, at least five (5) days before the final hearing. Failure to petition to intervene within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, FS.

Tampa, Florida 33619-8318
(813) 744-6100**

The Florida Department of Environmental Regulation (FDER) gives notice of its Intent to Issue a major permit modification under the Resource Conservation and Recovery Act (RCRA), as amended by the Hazardous and Solid Waste Amendments of 1984 (HSWA), Section 403.722, Florida Statutes (FS), and Chapters 17-4 and 17-730 of the Florida Administrative Code (FAC) to Safety Kleen Corporation for the storage of additional waste codes at the existing hazardous waste tank and container storage facility located at 5309 24th Avenue and 54th Street, Tampa, Hillsborough County, Florida, having assigned facility I.D. number FLD 980 847 271. The permit modification, if issued, will be the State permit which covers the RCRA program that was in effect prior to the passage of the HSWA. The Environmental Protection Agency (EPA) and Florida Department of Environmental Regulation (FDER) have determined that there are no additional evidences of releases of hazardous waste or constituents from solid waste management units (SWMUs) at this facility that have not already been identified. Therefore, at this time, Section 3004(u) of the Hazardous and Solid Waste Amendments (HSWA) of 1984 does not apply. The only provisions of HSWA which apply to the facility are the Section 3005(h) waste minimization certification and Section 3004(d) Land Disposal Restriction requirements, which have been incorporated into the existing State operating permit.

If new information becomes available indicating that Section 3004(u) of HSWA applies, the HSWA permit may be reopened.

The State of Florida has been granted authorization for those portions of the RCRA Hazardous Waste Program that were in effect prior to the passage of the Hazardous and Solid Waste Amendments of 1984. The Federal Environmental Protection Agency will administer the applicable portions of the Hazardous and Solid Waste Amendments of 1984 until the State receives authorization for these provisions.

A person whose substantial interests are affected by the Department's proposed permitting decision may request a hearing in accordance with Section 120.57, Florida Statutes. If a petition on the Department's permit is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final agency action may be different from the position taken in this preliminary statement. Additionally, persons who support the proposed agency action may also wish to intervene in the proceeding.

For more information concerning the applicable requirements of the petitioning process and the necessary time frames for filing, please contact the Tampa District Office at 813/744-6100. The application and a copy of the State permit are available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at either:

This permit is issued under the provisions of Chapter 403.722, Florida Statutes, and Florida Administrative Code Rules 17-730. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawings, plans, and other documents, attached hereto or on file with the Department and made a part hereof and specifically described as follows:

The operation of container and tank storage units within a service and operation center at 5309 24th Avenue South and 54th Street, Tampa, Hillsborough County, Florida.

Tank Storage

Utilization of one aboveground, outdoor, vertical storage tank that has a 15,000 gallon capacity and dimensions of 23 feet 3 inches high by 10 feet 6 inches wide. The unit is constructed of mild steel with a 0.25 inch minimal wall thickness and is surrounded by a 46 inch high concrete dike which serves as secondary containment providing a containment capacity of 20,615 gallons.

Storage of wastes in the tank shall be restricted to ^{Petroleum based} spent parts washer solvents (composed of mineral spirits part washer solvent 105, ~~and~~ Premium solvent) which are classified by waste code on Attachment A.

and Acetyl ②

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

Solvent Return/Fill Station

Petroleum based and Aetrol
Spent parts washer solvent (composed of mineral spirits part washer solvent 105, ~~and~~ premium solvent) shall enter the above referenced storage tank via any one of three dumpsters located in the return and fill station, which is a 50' by 80' roofed structure between the north and south buildings. The dumpsters can hold a combined maximum of 1,512 gallons. The interior secondary containment is in the form of a lined concrete vault having four-inch curbs. The interior containment areas slope to (2) 24-inch-deep stainless steel-lined sumps. Additional outer containment is provided and its areas slope to (2) shallow lined concrete sumps. Total containment capacity available during truck loading and unloading procedures is 8,342 gallons. The concrete in this area is coated so as to be impermeable to the solvents handled.

Container Storage

Container storage areas are present in the north and south buildings as detailed:

<u>Features</u>	<u>North Building</u>	<u>South Building</u>
Dimensions	40 ft X 30 ft	60 ft X 45 ft - Area 1 45 ft X 45 ft - Area 2
Curbing	6 in wide X 4 in high	6 in wide X 4 in high
Containment	3 trenches, total capacity 520 gal.	3 trenches, 2 sumps total capacity: 4,437 gal. - Area 1 6,151 gal. - Area 2
Maximum Waste Storage	5,197 gal.	44,367 gal. - Area 1 12,749 gal. - Area 2
Waste Type	non-flammables	Non-flammables - Area 1 Flammables - Area 2

Wastes from four specific types are authorized for storage as follows (waste codes are presented in Attachment A):

<u>Source</u>	<u>Storage Location</u>	<u>Waste Type</u>
Parts Washer Solvent Dumpster Mud and Tank Bottom Sludge	South Bldg. Area 2	Ignitable

DRAFT

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATE NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

<u>Source</u>	<u>Storage Location</u>	<u>Waste Type</u>
Spent Immersion Cleaner (Formula Numbers 609 and 699)	North Bldg. and South Bldg. Area 1	Chlorinated Solvent
	North Bldg. and South Bldg. Area 1	Cresylic Acid
Dry Cleaning Waste	South Bldg. Area 2	Ignitable (Mineral Spirits)
	North Bldg. and South Bldg. Area 1	Chlorinated Solvent (perchloroethylene & trichlorotrifluoroethane)
Paint Waste	South Bldg. Area 2	Ignitable (Lacquer Thinner)
	South Bldg. Area 2	Non-Halogenated Solvents (Lacquer Thinner)

Concrete in each of the two storage areas has been coated with material so as to be impermeable to the wastes being stored.

Containerized wastes approved for storage in any of the following combinations: nylon lined cardboard boxes (dry cleaning wastes only), 5 gallon, 16-gallon, 30-gallon, split 30 gallon, 55-gallon, and/or 85-gallon overpack containers.

Transfer Station

The permittee shall be authorized to operate a transfer facility on-site in accordance with Chapter 17-730.171, F.A.C. and shall be authorized to store manifested hazardous waste on-site not to exceed ten days as allowed for transfer facilities. Those waste types identified as transfer facility wastes are the Fluid Recovery Services (FRS) waste, the Antifreeze Collection Service (ethylene glycol) waste, and spent filtration cartridges.

The FRS wastes are composed of the following sources:

- Spent hydrocarbon distillates, such as waste fuel, oil, petroleum and naphtha;
- Lubricating, hydraulic oils, and machine oils;
- Industrial halogenated solvents such as 1,1,1-trichloroethane, tetrachloroethylene, freon, and trichloroethane;
- Photographic and x-ray related wastes; and
- Paint and lacquer thinners and paint wastes.

Two transfer facility storage locations have been identified and are presented on Figure II.B.1-3 of the application and Attachment 5b of this permit. Current rules allow the storage of transfer facility waste anywhere on the paved lot within the facility boundary. The FRS, antifreeze, and spent filtration cartridges waste codes are detailed in Attachment A.

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations, and restrictions set forth in this permit are "permit conditions" and are binding and enforceable pursuant to Sections 403.141, 403.727, or 403.859 through 403.861, F.S. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in Subsections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor infringement of federal, state or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the state. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.
7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times access to the premises where the permitted activity is located or conducted to:

GENERAL CONDITIONS: (cont'd)

- (a) Have access to and copy any records that must be kept under conditions of the permit;
- (b) Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
- (c) Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with, or will be unable to comply with, any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- (a) A description of and cause of noncompliance; and
- (b) The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance. The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.111, and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance, provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules. A reasonable time for compliance with a new or amended surface water quality standard, other than those standards addressed in Rule 17-302.500, F.A.C., shall include a reasonable time to obtain or be denied a mixing zone for the new or amended standard.

11. This permit is transferable only upon Department approval in accordance with Rules 17-4.120 and 17-730.300, F.A.C., as applicable. The permittee shall be liable for any noncompliance of the permitted activity until the transfer is approved by the Department.

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

GENERAL CONDITIONS: (cont'd)

12. This permit or a copy thereof is required to be kept at the work site of the permitted activity.

13. This permit also constitutes:

- (a) Determination of Best Available Control Technology (BACT)
- (b) Determination of Prevention of Significant Deterioration (PSD)
- (c) Certification of Compliance with State Water Quality Standards (Section 401, PL 92-500)
- (d) Compliance with New Source Performance Standards

14. The permittee shall comply with the following:

- (a) Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
- (b) The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by this permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report or application unless otherwise specified by Department rule.
- (c) Records of monitoring information shall include:
 - 1. the date, exact place, and time of sampling or measurements;
 - 2. the person responsible for performing the sampling or measurements;
 - 3. the dates analyses were performed;
 - 4. the person responsible for performing the analyses;
 - 5. the analytical techniques or methods used; and
 - 6. the results of such analyses.

15. When requested by the Department, the permittee shall, within a reasonable time, furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

GENERAL CONDITIONS: (cont'd)

16. The following conditions shall also apply to a hazardous waste facility permit:

(a) The following reports shall be submitted to the Department:

1. Manifest discrepancy report. If a significant discrepancy in a manifest is discovered, the permittee shall attempt to rectify the discrepancy. If not resolved within 15 days after the waste is received, the permittee shall immediately submit a letter report, including a copy of the manifest, to the Department.
2. Unmanifested waste report. The permittee shall submit an unmanifested waste report to the Department within 15 days of receipt of unmanifested waste.
3. Biennial report. A biennial report covering facility activities during the previous calendar year shall be submitted to the Department by March 1, of each even numbered year pursuant to Chapter 17-730, F.A.C.

(b) Notification of any noncompliance which may endanger health or the environment including the release of any hazardous waste that may endanger public drinking water supplies, or the occurrence of a fire or explosion from the facility which could threaten the environment or human health outside the facility, shall be reported verbally to the Department within 24 hours, and a written report shall be provided within 5 days. The verbal report within 24 hours shall contain the name, address, I.D. number and telephone number of the facility, its owner or operator, the name and quantity of materials involved, the extent of any injuries, an assessment of actual or potential hazards, and the estimated quantity and disposition of recovered material. The written submission shall contain:

1. A description of cause of the noncompliance.
2. If not corrected, the expected time of correction and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

(c) Reports of compliance or noncompliance with, or any progress reports on, requirements contained in any compliance schedule shall be submitted no later than 14 days after each schedule date.

(d) All reports or information required by the Department by a hazardous waste permittee shall be signed by a person authorized to sign a permit application.

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS:

Part I. General

1. The permittee shall operate the herein permitted facility in accordance with 40 CFR Part 264, Subparts A through J, the conditions of this permit, and the permit application.
2. The permittee shall store only those wastes identified in Attachments II.A.5 (Waste Analysis Report), II.B.3 (Waste Segregation) and Table I.D.3-1 of the application and Attachment A of this permit. Prior to acceptance of new hazardous waste for storage, the permittee shall submit to the Department, for approval, waste analysis of the proposed new waste. This analysis shall also be incorporated in the general waste analysis plan which is retained on site. Compliance with this condition shall be in accordance with 40 CFR Part 264.13.
3. The permittee shall notify the Department in writing four weeks prior to receipt of hazardous waste from a foreign source, and comply with the other requirements of 40 CFR Part 264.12.
4. The permittee is only allowed to operate the hazardous waste units specified in pages 1 of 21, 2 of 21 and 3 of 21 of this permit (detailed on Attachment 1).
5. The permittee shall comply with the required notice of 40 CFR Part 264.12(c) in accordance with Florida Administrative Code Rule 17-730.300(2), before transferring ownership or operation of the facility during its operating life.
6. The permittee shall maintain and update the records of chemicals and physical analysis for the hazardous wastes generated and stored at the permitted facility, as indicated in the permit application in Attachment II.A.5 and II.A.6, in compliance with 40 CFR Parts 264.13(a) and 264.13(b).
7. The permittee shall prevent unauthorized entry of persons into the hazardous waste units to comply with the security requirements of 40 CFR Part 264.14, and shall maintain the security equipment and procedures as described in the permit application, Attachment II.A.4.
8. The permittee shall inspect the facility operating, emergency and safety equipment in accordance with the schedule approved in Attachment II.A.4(d) of the application. Changes, additions, or deletions to the schedule must be approved in writing by the Department. The schedule must be maintained as part of the operating record at the facility. Inspection program, schedule and records shall be followed in accordance with 40 CFR Part 264.15.

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS: (cont'd)
Part I. General (cont'd)

9. The permittee shall comply with the training requirements of 40 CFR Part 264.16. Facility personnel shall successfully complete the approved training program within six (6) months of employment as indicated in the permit application, Attachment II.A.4(e). Verification of this training must be kept with the personnel training records and maintained on-site. Personnel shall not work unsupervised until training has been completed.

10.a. The permittee shall comply with the general requirements for ignitable, reactive, or incompatible waste of 40 CFR Part 264.17 concerning precautions to prevent accidental ignition or reaction of ignitable and reactive waste. Signs showing the wastes by the name they are known best, their EPA hazardous waste number, and total storage capacity in accordance with the tables shown on page 1 of 21, 2 of 21 and 3 of 21 of this permit, shall be placed in a highly visible location at each bay. "No Smoking" signs shall be conspicuously posted at each location where ignitable wastes are stored and whenever flammable gases are generated.

10.b. The facility shall be maintained and operated to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment as per 40 CFR Part 264.31.

11. The permittee shall operate the hazardous waste facility in accordance with the preparedness and prevention procedures outlined in Attachment II.A.4(d) of the permit application and the requirements of 40 CFR 264, Subpart C. The permittee shall test and maintain all facility communication, or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment as necessary to assure its proper operation in time of emergency.

12. The contingency plan must be amended and distributed to the appropriate agencies if any criteria of 40 CFR Part 270.42 are met. Amendments to the plan must be submitted and approved in writing by the Department.

13. The permittee shall follow the emergency procedures specified in 40 CFR Part 264.56, approved in Attachment II.A.4(b) of the permit application, and contingency plan. The permittee shall give proper notification if an emergency situation arises, and within fifteen (15) days shall submit to the Department a written report which includes all information required in 40 CFR Part 264.56(j), and as described on pages II.A.4(b)-6 through 8 of the contingency plan.

14. The permittee shall post at conspicuous locations information on emergency equipment and evacuation procedures in accordance with 40 CFR Parts 264.52(e) and (f).

15. The permittee shall keep close to the telephone from where emergency calls will most likely be made, a list containing the names and telephone numbers of the emergency coordinators required in 40 CFR Part 264.55, and of the emergency response institutions and agencies as described in 40 CFR Part 264.52(c).

16. The contingency plan shall be maintained as a separate independent document which meets the regulatory requirements of DER Form 17-730.900(2), Part II, A., 4., (b).

17. The permittee shall comply with the use of manifest system requirements of 40 CFR Part 264.71, and the manifest discrepancy requirements of 40 CFR Part 264.72. The permittee shall submit a letter describing the discrepancy and attempts to reconcile it, and a copy of the manifest or shipping paper to the Department within 15 days.

18. The permittee, when shipping hazardous waste off-site, shall comply with the requirements of 40 CFR Part 262, Subpart B, and in accordance with the permit application, Attachment II.A.7.

19. The permittee shall comply with the requirements of 40 CFR Parts 264.73 and 264.74, and as described in Attachment II.A.7 of the permit application. The permittee shall keep written operating records at the facility which include:

- The description and quantity of each hazardous waste;
- The location of each hazardous waste within the facility and quantity at each location;
- The results of the waste analysis;
- A summary report and details of incidents that require implementation of the Contingency Plan;
- Copy of manifests (for 3 years);
- Operation logs;
- Notice to generators;
- The results of monitoring and inspections (for 3 years);
- Closure plan and updated closure cost estimates;
- Annual certification of hazardous waste minimization;
- Current Biennial report.

DRAFT

PERMITTEE:
Safety Kleen Corp ation

PERMIT/CERTIFICATION NO.: H029-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS: (cont'd)
Part I. General (cont'd)

These records must be maintained at the facility until completion and certification of closure.

20. Analytical procedures shall be consistent with EPA Manual SW-846 Test Methods for Evaluating Solid Waste (latest edition), or Department approved equivalent method. The Sampling and Analysis Plan shall be in accordance with Characterization of Hazardous Waste Sites, A Methods Manual, Volume II, Available Sampling Methods, E-600/4-83-040.

21. The permittee shall apply for a closure permit at least 180 days prior to beginning closure at the facility as required by Florida Administrative Code Rule 17-730.260.

22. The permittee shall apply for permit renewal at least one hundred thirty five (135) days before the expiration date of this permit, and comply with all other requirements of the Florida Administrative Code Rule 17-730.300.

23. The Department may modify the conditions of this permit if any of the conditions of Florida Administrative Code Rule 17-730.290(1) apply.

24. Pursuant to Rule 17-730.290, Florida Administrative Code, this permit may be modified if additional information becomes available indicating that the provisions of Section 3004(u) of the Hazardous and Solid Waste Amendments of 1984 (HSWA) apply to this facility. At that time, this permit may be modified to address the requirements of Section 3004(u) of HSWA if the State has been authorized for these provisions, or alternately, the Environmental Protection Agency would issue a separate federal permit addressing Section 3004(u) requirements.

25. The permittee shall certify to the Department no less often than annually, that the permittee has in place a program to reduce the volume and toxicity of hazardous waste that the permittee generates to the degree determined by the permittee to be economically practicable; and that the method of storage is the best practicable to minimize the present and future threat to human health and the environment as required by 40 CFR Part 264.73(b)(9).

26. The permittee shall maintain compliance with the financial requirements of 40 CFR 264 Subpart H.

27. All documents submitted pursuant to the conditions of this permit shall be accompanied by a cover letter stating the name and date of the document submitted, the number(s) of the specific condition(s) affected, and number and project name of the permit involved.

29. The permittee shall notify the Department of any Solid Waste Management Units (SWMU) that are not listed in Subpart P of FDER Application form number 17-730.900(2).

30. The permittee shall submit a letter describing any unresolved manifest discrepancy and any attempts to reconcile them, and a copy of the manifest or shipping paper to the Department if the discrepancy is not resolved within fifteen (15) calendar days after receiving the waste in accordance with 40 CFR 264.72(b).

31. The permittee shall operate and maintain the on-site transfer facility pursuant to Rule 17-730.171, F.A.C.

32. The permittee shall comply with the provisions of Part 268.7 regarding notification and certifications which must accompany each shipment of waste restricted from land disposal. The permittee shall keep copies of all notices and certifications made by the permittee pursuant to this section for wastes shipped from the facility. The permittee shall also keep copies of all land disposal restriction notices and certifications which accompany shipments of hazardous waste received at the facility. These documents are to be kept filed with the permittee's copy of the manifest or service document as in the case of the small quantity generator (SQG) that accompanied the original shipment.

33. The permittee may not store hazardous wastes restricted from land disposal for more than one year from the date of receipt. The permittee shall notify the Department in writing within 14 days if any wastes restricted from land disposal are stored at the facility for more than one year. The notice must include a summary of all previous actions taken by the permittee to find a facility to accept the waste for treatment or disposal. The notice shall also include what measures the permittee shall undertake to dispose of the waste. The permittee shall submit copies of all manifests for wastes stored more than one year to the Department within 30 days of shipment off-site as per 40 CFR 268.50.

34. The permittee shall clearly mark each container of hazardous waste restricted from land disposal with the following information:

- a description of the contents, including all applicable EPA waste identification numbers; and
- the date the waste was received at the facility.

Part II. Container Storage Conditions

DRAFT

1. The permittee shall comply with the type, quality, and specification of containers utilized for storing hazardous wastes as described in PART II B in Attachment II.B.3, Tables II.B.3-1 through II.B.3-7 of the permit application. Any change in container type shall be previously approved by the Department.
2. The permittee shall be authorized to store the hazardous wastes approved on pages 2 of 21 and 3 of 21 of this permit in the approved storage areas which are detailed in Attachment 2.
3. Containers shall be kept closed except when adding or removing waste and be handled in a manner that will not allow the containers to rupture or leak. If a container holding hazardous waste is not in good condition, or begins to leak, the waste shall be transferred to another container in good condition as per 40 CFR Part 264.171, .172 and .173.
4. The permittee shall use containers which are compatible with the hazardous waste to be stored to comply with the requirements of 40 CFR Part 264.172.
5. The permittee shall not store incompatible waste in containers or place it in unwashed containers that have previously held incompatible waste as per 40 CFR Part 264.177
6. The permittee shall inspect the container unloading areas as well as the container storage area in accordance with the schedule and procedures approved in Attachment II.B.5 of the application and 40 CFR Part 264.174.
7. Any unknown waste shall be segregated from all other hazardous wastes until it is identified by analyses and a compatibility group is assigned.
8. Incompatible wastes shall not be stored in the same bay or in bays having the same containment system and, shall be physically separated by a dike, berm or other approved device in accordance with 40 CFR Part 264.177(c) requirements.
9. The permittee shall, prior to the storage of hazardous waste, determine the compatibility of each waste to be added to a storage area according to the procedures identified in Section I.D.4 of the permit application and EPA publication 600/2-80-076 "A Method for Determining the Compatibility of Hazardous Waste" (latest edition).

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: H029-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS: (cont'd)

Part II. Container Storage Conditions (cont'd)

10. Hazardous waste must be compatible with the secondary containment systems and liners of the storage bays.

11. Spilled or leaked waste and accumulated precipitation must be removed from the collection area, analyzed and disposed of in accordance with Attachment II.A.4(b) and Attachment II.A.6 of the application and 40 CFR Part 264.175(b)(5).

12. The permittee shall comply with the 50 foot setback rule concerning the storage of ignitable and reactive wastes in containers as per 40 CFR Part 264.176.

13. The permittee shall comply with the requirements of 40 CFR Part 264.35 and maintain a minimum aisle space between pallets and between a pallet and a wall of two (2) feet for containers storing free liquids. This rule shall imply that the pallet be observable from at least 2 sides in which the two foot aisle space is evident. The third and fourth side may be situated against a wall, containment curb or another pallet. The container arrangement discussed on Page II.B.1-1 and detailed in Figures II.B.1-2 and II.B.1-3 of the application shall be followed. Any change to the container arrangement (Attachment 5a and 5b) in any unit shall be previously approved by the Department. Containers shall not be placed/stored in the aisles between facility storage units.

14. The permittee shall be authorized to store non-regulated waste in the regulated storage area provided:

- a. The permittee complies with the requirements of 40 CFR Part 264.175 and includes the volume of non-regulated waste liquids in calculating the total volume of liquid to be stored in the regulated storage area.
- b. The permittee shall maintain the required aisle spacing in the storage area for both the regulated and non-regulated wastes in accordance with 40 CFR Part 264.35.
- c. The permittee ensures that non-regulated materials shall be separate and apart from regulated waste and shall have signs posted indicating the contents of the containers and that the materials are non-regulated.
- d. The permittee shall provide a written notice in the facility operating record of any non-regulated materials placed in the regulated storage area. The notice shall detail:
 1. the type and the quantity of the wastes,
 2. verify adequate secondary containment,
 3. confirm that appropriate aisle spacing is available, and
 4. document compatibility of the non-regulated waste with all other wastes already present in the storage area.

PERMIT/CERTIFICATION NO.: H029-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS: (cont'd)
Part II. Container Storage Conditions (cont'd)

15. The container unloading areas shall have the containers removed from the service vehicle to the unloading areas and placed into the respective storage locations within eight (8) hours of arrival at the unloading area. The following container unloading areas (Attachment 2) have been authorized:

- 3 loading docks along the east side of the south building
- 1 loading dock along the east side of the solvent return fill station
- 1 loading dock along the west side of the solvent return fill station.

16. All service vehicle trucks and tractor trailers shall be situated over a manmade surface having emergency liquid containment or at one of the unloading areas when the vehicle contains hazardous waste.

17.a. No vehicle containing RCRA regulated containers or RCRA regulated wastes shall be on-site at the facility for more than three (3) days before its contents shall be unloaded into a storage area, or in those instances where a truck is being loaded for shipment to a recycle center, the truck must leave the facility for the recycle center within three (3) days of the first container of RCRA waste being placed on the transport vehicle (exclusive of tanker trucks and those vehicles storing containers for which the facility is acting solely as a transfer facility, appropriate documentation verifying transfer facility activity shall be maintained).

17.b. The permittee shall provide assurances that the three (3) day time frame (specified above in Specific Condition Part II. 17.a) is being observed via documented placement of RCRA waste containers on board the transport vehicle designated for off-site disposal of such RCRA waste.

18. The secondary containment structure provided at the container loading/unloading areas shall be clear of any liquids and/or debris at all times.

19. The following containers shall conform to the Performance Standard and Construction specifications detailed in Tables II.B.3-1 through II.B.3-7 and be managed in accordance with the approved container management plan:

- 5 gallon steel and polyethylene containers
- 16 gallon steel containers
- 30 gallon steel containers
- split 30 gallon steel containers
- 55 gallon steel containers
- 85 gallon steel overpack containers

Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS: (cont'd)

Part II. Container Storage Conditions (cont'd)

20. The North Building Service Center shall have a maximum liquid waste storage of 5,197 gallons composed of non-flammable liquid wastes and/or liquid product.

21. The South Building Accumulation Center shall have a maximum liquid waste storage of 44,367 gallons composed of non-flammable liquid wastes and/or liquid product in Area 1.

23. The South Building Accumulation Center shall have a maximum liquid waste storage of 12,749 gallons composed of flammable liquid wastes and/or liquid product in Area 2.

24. The container unloading and storage areas shall be closed as per Attachment II.B.6 and PART II K and the Financial Requirements of the application as required by 40 CFR Subpart G and Part 264.178.

25. The permittee shall ensure that those containers being managed under the transporter/transfer station requirements of 40 CFR Part 263 are clearly identified from containers being managed in accordance with the storage requirements of 40 CFR Part 264. Subpart I.

26. The permittee shall manage all containers, which shall include containers of non-regulated waste in the manner described above in "Part II. Container Storage Conditions" of this permit to ensure that a release of hazardous waste or hazardous constituents will not occur.

Part III - Tank Storage Conditions

1. The permittee shall maintain, inspect, and operate the tank storage unit, appurtenant equipment, and associated secondary containment structures in such a manner that any leakage or release of hazardous waste from the unit shall be detected within twenty four (24) hours of occurrence, that the secondary containment structures will be capable of preventing any migration of wastes or accumulated liquid to the soil, groundwater, or surface waters, and that spilled or leaked waste and accumulated precipitation will be removed within twenty four (24) hours of occurrence. The specific conditions presented in Part III apply to the tank system storing *Petroleum based* spent parts washer solvents (composed of mineral spirits part washer solvent 105, ~~and~~ premium solvent) as described on pages 1 of 21 and 2 of 21 of this permit. The tank system shall be defined as the tank storage unit, appurtenant equipment and secondary containment structures (detailed in Attachments 3 and 4).

2. The permittee shall keep records at the facility documenting the age of the tank system.

3. The permittee shall maintain, inspect, and operate the spill and overfill prevention controls during loading and unloading procedures occurring at the tank storage unit in accordance with 40 CFR Part 264.194.

PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITION (cont'd)
Part III - Tank Storage Conditions (cont'd)

4. Description and management of the tank storage unit shall conform to the design shown in Figures II.C.2-4 (D11124) and II.C.2-5(A) (D13102) and Plate 2 (D10576) and to the procedures indicated in PART II C of the application.

5. The permittee shall inspect the tank storage unit, appurtenant equipment, and secondary containment structures in accordance with Attachment II.C.11 and Figure II.C.11-3 of the permit application, and 40 CFR Part 264.195.

6. The permittee shall comply with the provision of response to leaks or spills and disposition of leaking or unfit-for-use tank systems of 40 CFR Part 264.196 by satisfying the following requirements:

- DRAFT**
- a. Stop flow or addition of waste into the tank or secondary containment and inspect the system to determine the cause of the release in compliance with 40 CFR Part 264.196(a).
 - b. Remove waste from the tank system to prevent further releases and to allow for inspection and repair, and remove released waste from the secondary containment structure at the earliest possible time in accordance with 40 CFR Part 264.196(b).
 - c. Prevent possible or further migration of the leak or spill to the environment, and remove and properly dispose of wastes, contaminated soils or residues in compliance with 40 CFR Part 264.196(c).
 - d. Comply with the notification and report requirements of 40 CFR Part 264.196(d).
 - e. Comply with the secondary containment, repair or closure requirements of 40 CFR Part 264.196(e).
 - f. Certify major repairs of the tank system in accordance with 40 CFR Part 264.196(f).

Tank system is defined as the tank storage unit, appurtenant equipment and secondary containment structures.

7. The permittee shall comply with the management requirements for ignitable or reactive wastes contained in 40 CFR 264.198, and shall follow the procedures specified in Attachment II.A.4(d) on pages II.A.4(d)-8 and II.A.4(d)-9 of the permit application.

8. The permittee shall not store incompatible waste in the tank in accordance with 40 CFR Part 264.199.

9. The permittee is allowed to store in the tank only those wastes shown on Page 1 of 21 of this permit. The permittee shall not exceed the indicated waste volume presented on Page 1 of 21.

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITION (cont'd)

Part III - Tank Storage Condition (cont'd)

10. The permittee shall comply with the protective distance requirements for the tank placement as set forth in Tables 2-1 through 2-6 of the National Fire Protection Association's "Flammable and Combustible Liquids Code" (1977 or 1981) as required by 40 CFR 264.198(b).

Part IV - Miscellaneous

DRAFT

1. The permittee shall manage stormwater accumulating within the tank farm dike as detailed on Page II.C.2-3 through II.C.2-4 and Page II.C.9-2 through II.C.9-3 of Section II.C of the permit application.

2. The permittee shall report to the Department, within 14 days of an incident, any utilization of the retention pond for purposes other than receipt of non-contaminated stormwater. This includes activation of the sprinkler system which will cause an overflow from the accumulation center to the retention pond.

Part V. Closure Conditions

1. The permittee shall manage all hazardous waste, residues, sludges, spilled or leaked waste, or contaminated liquids and soils removed during closure of the units in accordance with the applicable provisions of 40 CFR Parts 260 through 268 and FDER Form 17-730.900(2), including the manifest requirements. A copy of each manifest required as a result of closure activities shall be submitted to the Department with closure certification.

2. The permittee shall close the hazardous waste units in a manner that minimizes or eliminates, to the extent necessary to protect human health and the environment, post-closure escape of hazardous waste, hazardous waste constituents, leachate, contaminated rainfall, or waste decomposition products to the groundwater, surface waters, or to the atmosphere as per 40 CFR Part 264.111.

3. The permittee shall submit a written request for a permit modification to authorize a change in the closure plans in accordance with the procedures in 17-730.900(2) Part II K. The written request must include a copy of the amended closure plan for Department approval as per 40 CFR Part 264.112.

4. The permittee shall notify the Department 30 days prior to the date on which he expects to begin partial closure or final closure of a unit(s) as per 40 CFR Part 264.112.

5. The permittee shall complete closure activities within one hundred eighty (180) days after Department approval of the closure plan. Any changes in the time allowed for closure of the units after approval shall require prior Departmental approval as per 40 CFR Part 264.113.

6. The permittee shall decontaminate or dispose of as hazardous waste all facility equipment, structures, and residues resulting from the closure activities as required by 40 CFR Part 264.114.

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS (cont'd)
Part V - Closure Conditions (cont'd)

7. Within sixty (60) days of the completion of closure, the permittee shall submit to the Department, by certified mail or hand delivery, a letter signed by the permittee and an independent, Professional Engineer registered in the State of Florida, stating that the facility has been closed in compliance with the closure plan as required by 40 CFR Part 264.115.
8. The container storage area and the container loading areas shall be partially closed or finally closed as per PART II B Container Closure Plan - Attachment II.B.6 and PART II K Closure Pages II.K.1-3 through 4 of the application and 40 CFR Part 264.178.
9. The solvent return/fill shelter area shall be partially or finally closed as per PART II C Tank System Closure Plan - Attachment II.C.12(a) and PART II K Closure Page II.K.1-4 of the application and 40 CFR Part 264.197.
10. The tank system shall be partially or finally closed as per PART II C Tank System Closure Plan - Attachment II.C.12(a) and PART II K Closure Pages II.K.1-5 through 10, Phase I, II, III and IV of the application and 40 CFR Part 264.197.
11. The entire facility shall be closed as per PART II K Closure Section of the application and 40 CFR Part 264 Subpart G.

DATE: August 20, 1991

SUBJECT: Safety Kleen Corp., FLD 980 847 271
Draft Operating Permit File No.: HO29-158820
24th Avenue and 54th Street, Tampa, Hillsborough County,
Florida

Safety Kleen submitted the referenced application on December 27, 1988. The facility is strictly a hazardous waste storage accumulation center. The wastes received on-site are spent mineral spirits (ignitable solvent-D001 and EP Toxic D006 and D008); immersion cleaner (chlorinated solvents F002 and cresylic acid F004); dry cleaning wastes (perchloroethylene F002, mineral spirits D001 and trichlorotrifluoroethane F002); paint wastes (lacquer thinners D001, F003, F005 and paints D006, D007, D008) and lastly seven types of various solvents from "large quantity industrial solvent generators" which include mineral spirits (D001, D006, D008); trichloroethylene (F001, F002); per and trichloroethylene (F001, F002); methylene chloride (F001, F002); trichlorotrifluoroethane (F001, F002); and lacquer thinners (D001, F003, F005).

Each waste type is accumulated and shipped off-site for treatment/disposal.

The applicant has provided information detailing the adequacy of the storage areas along with supporting calculations demonstrating secondary containment capabilities.

The applicant has also agreed to payment of penalties for submitting inaccurate facility drawings, calculations and narrative which were utilized to support issuance of the original permit application. Safety-Kleen submitted a revised application May 20, 1991 which accurately assessed the facility's operation.

Issuance of this draft permit intent is recommended.

Re: Safety Kleen Corporation - Tampa Florida Service Center, Green Cor
State Operating Permit No. HO29-158820
Federal Operating Permit No. FLD 980 847 271
Operation of a Hazardous Waste Tank and Container Storage
Facility - Hillsborough County

Dear Mr. Fore:

Pursuant to Section 403.815, Florida Statutes, and Rule
17-730.220(6) Florida Administrative Code (F.A.C.), the Department
and the U.S. Environmental Protection Agency requires you to publish
and broadcast, at your own expense, the Notices of Proposed Agency
Actions. Attached are the Intents to Issue, language for the
newspaper publication and radio announcement, and the draft permits.

Pursuant to Rule 17-730.220(6), F.A.C., the notice must be published
one time only in the legal ad section of a major local newspaper of
general circulation in Hillsborough County, and broadcast one time
only over a local radio station within thirty (30) days of receipt
of this letter. Proof of publication and broadcast must be provided
to the Department and the U.S. Environmental Protection Agency
within fourteen (14) days of publication of the notice.

Failure to publish this notice and provide proof of publication and
broadcast within the allotted time may result in denial of the
permits without any further notice or opportunity for hearing.

Sincerely,

Richard D. Garrity, Ph.D.
Deputy Assistant Secretary
Southwest District

INTENT TO ISSUE

INTENT TO ISSUE

INTENT TO ISSUE

The Department of Environmental Regulation (DER) and the U.S. Environmental Protection Agency (U.S. EPA) hereby give notice of

their Intent to Issue, and request the publication and notice for

the above referenced joint permits. Upon issuance of these permits,

the Department and EPA will authorize the permittee to operate a

hazardous waste tank and container storage facility at 24th Avenue

and 54th Street, Tampa, Hillsborough County. Safety Kleen will

receive wastes for storage on-site resulting from the servicing of

four specific types of customers as follows: 1. Parts washer

service which generates spent mineral spirits and spent immersion

cleaner; 2. Dry cleaner service which generates perchloroethylene,

mineral spirits and trichlorotrifluoroethane; 3. Paint waste service

which generates various lacquer thinners and waste paints; and 4.

Solvents from large quantity generators which will produce the same

wastes mentioned above plus the similar solvents trichloroethylene

and methylene chloride. These wastes are designated EPA

Identification Numbers D001, D006, D007, D008, F001, F002, F003,

F004 and F005. Treatment and disposal of these stored wastes will

occur off-site.

The State of Florida has been granted authorization for those portions of the RCRA Hazardous Waste Program that were in effect prior to the passage of the Hazardous and Solid Waste Amendments of 1984. The Federal Environmental Protection Agency will administer the applicable portions of the Hazardous and Solid Waste Amendments of 1984 until the State receives authorization for these provisions.

The Department is taking this action under the authority of Section 403.722, Florida Statutes (F.S.), and Florida Administrative Code Chapters 17-4 and 17-730, (F.A.C.), which provide for issuance of permits to facilities that treat, store, or dispose of hazardous wastes. The issuance of this permit is based on the applicant's demonstration that this facility is in compliance with the technical and procedural requirements established in Chapter 17-730 F.A.C. and the appropriate Sections of 40 CFR Parts 260 through 266, which were adopted by reference in Chapter 17-730 F.A.C. This demonstration was made in the approved revised application submitted with DER Form 17-730.900(2) on May 20, 1991 and amended on August 9, 1991 and August 15, 1991. These documents supercede the original application which was received on DER Form 17-730.401(2) on December 27, 1988.

Pursuant to Sections 403.815 and 403.722, F.S., and 17-730.220(6), F.A.C., you are required to publish and broadcast at your own expense notice for the Department's and EPA's Intent to issue joint hazardous waste operation permits to Safety Kleen Corporation, Tampa Service Center to operate a hazardous waste storage facility at 24th Avenue and 54th Street, Tampa, Hillsborough County, Florida.

Pursuant to Section 17-730.220(6), F.A.C., the attached

notice must be published one time only in the legal ad section

of a major local newspaper of general circulation in a major local newspaper

Hillsborough County and broadcast over a local radio station

within thirty (30) days from receipt of this letter. Proof of

publication and broadcast must be provided to the Department

within fourteen (14) days of publication of the notice.

Failure to publish the notice and provide proof of

publication and broadcast within the allotted time may result

in denial of the permit.

The Department and EPA shall issue their respective permits
with the attached conditions unless an appropriate petition is

filed for a hearing pursuant to the provisions of Section

120.57, F.S. At a formal hearing under Section 120.57(1),

F.S., all parties shall have an opportunity to present evidence

and argument on all issues involved, to conduct

cross-examination and submit rebuttal evidence, to submit

proposed findings of fact and orders, to file exceptions to any

order or hearing officer's recommended order, and to be

represented by counsel. At an informal hearing under Section

120.57(2), F.S., the Department will provide affected persons

or parties an opportunity to present evidence or a written

statement in opposition to the agency's action.

Petitions for hearing must comply with the requirements of

Section 28-5.201 F.A.C., and be filed with the Office of

General Counsel or the Department at 2600 Blair Stone Road,

Tallahassee, Florida 32399-2400. Petitions filed by the

applicant must be filed within forty-five (45) days of receipt

of this letter. Petitions filed by other parties, or requests

for public meetings by persons, must be filed within forty-five

(45) days of publication or broadcast of the public notice, of publication

Any interested person may submit comments on the draft federal

permit and may request a hearing pursuant to 40 CFR 124.11. The

hearing request must be in writing and should be addressed to

James H. Scarbrough, U.S. EPA, at 345 Courtland Street, N. Scarbrough,

Atlanta, Georgia 30365 within 45 days of this notice, Atlanta, Georgia 303

Petitions or requests for the meetings which are not filed in

accordance with the above provisions are subject to dismissal.

Executed in Tampa, Florida.

EPA FILE NUMBER: FLD980847271

INTENT TO ISSUE

THE FLORIDA DEPARTMENT OF ENVIRONMENTAL REGULATION (DER) AND THE U.S. ENVIRONMENTAL PROTECTION AGENCY (U.S. EPA) GIVE NOTICE OF THEIR INTENT TO ISSUE JOINT PERMITS UNDER THE RESOURCE CONSERVATION AND RECOVERY ACT (RCRA), AS AMENDED BY THE HAZARDOUS AND SOLID WASTE AMENDMENTS OF 1984 (HSWA), SECTION 403-722, FLORIDA STATUTES (FS), AND CHAPTERS 17-4 AND 17-730 OF THE FLORIDA ADMINISTRATIVE CODE (FAC) TO SAFETY KLEEN CORPORATION, 24th Avenue and 54th Street, Tampa, Florida, having assigned facility I.D. number FLD 980 847 271. The two permits, if issued, will constitute the RCRA permit required by Florida DER and the U.S. EPA.

The State of Florida has been granted authorization for those portions of the RCRA Hazardous Waste Program that were in effect prior to the passage of the Hazardous and Solid Waste Amendments of 1984. The Federal Environmental Protection Agency will administer the applicable portions of the Hazardous and Solid Waste Amendments of 1984 until the State receives authorization for these provisions.

A draft permit, prepared in accordance with the provisions of Chapter 17-730, FAC, contains the conditions for the operation of the hazardous waste storage facility at 24th Avenue and 54th Street, Tampa, Hillsborough County, Florida. The proposed facility will manage hazardous waste storage units. Storage of wastes is in containers and a tank as follows:

South Building (Accumulation Center)

Type of Waste	EPA Hazardous Waste Number	EPA Hazardous Waste Number
Ignitable Solvents	D001	Ignitable Solvents
EP Toxic Metals	D006, D007, D008	EP Toxic Metals
Chlorinated Solvents	F001, F002	Chlorinated Solvents
Non-Halogenated Solvents	F003, F004, F005	Non-Halogenated Solvents

The South Building will support a maximum drum storage capacity of 57,116 gallons.

North Building (Service Center)

Type of Waste

Chlorinated Solvents
Non-Halogenated Solvents

The North Building will support a maximum drum storage capacity of 5,197 gallons.

Storage Tank

Type of Waste

Ignitable Solvent

EP Toxic Metals

The Federal draft permit contains conditions requiring the facility to investigate prior/continuing releases of hazardous waste or constituents from solid waste units. The Federal draft permit also sets conditions for certification of waste minimization and compliance with landban regulations. FDER and EPA have made a preliminary determination that the proposed permits will comply with applicable state and federal regulations.

The application and a copy of both state and federal proposed permits are available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at Florida Department of Environmental Regulation, 4520 Oak Fair Boulevard, Tampa, Florida 33610-7347.

The proposed U.S. EPA permit and statement of basis are available for public inspection Monday through Friday, except legal holidays, from 8:00 a.m. to 5:00 p.m. at the U.S. EPA Library, 345 Courtland Street, N.E., Atlanta, Georgia 30365. All data submitted by the applicant to the U.S. EPA is available as part of the administrative record at the above address.

Any interested person may submit written comments on this proposed State agency action to the Department of Environmental Regulation, 4520 Oak Fair Boulevard, Tampa, Florida 33610-7347, or the proposed U.S. EPA action to the U.S. Environmental Protection Agency, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30365 Attention: Mr. James H. Scarbrough, within forty-five (45) days of publication of this notice. All comments on the facility will be considered by both agencies in formulating a decision on issuing the respective permits.

A person who is substantially affected by the Department's proposed permitting decision may request a hearing in accordance with Section 120.57, Florida Statutes, and Chapters 17-103, and 28-5, Florida Administrative Code. Any person may request a public meeting pursuant to Section 403.722(10), Florida Statutes. The request for a hearing or meeting must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Twin Towers Office Building, Tallahassee, Florida 32399-2400, within forty-five (45) days of publication of this notice. Failure to file a request for hearing within this time frame shall constitute a waiver or any right such person may have to request a hearing under Section 120.57, FS, or a meeting under Section 403.722(10), Florida Statutes.

If a petition on the Department's permit is filed, the administrative hearing process is designated to formulate agency action. Accordingly, the Department's final action may be different from the proposed agency action. Persons whose substantial interests have been affected by any decision of the Department have the right to intervene in the proceeding. A petition for intervention must be filed pursuant to Section 28-5.207, Florida Administrative Code, at least five (5) days before the final hearing and be filed with the hearing officer, if one has been assigned, at the Division of Administrative Hearings, Department of Administration, 2009 Apalachee Parkway, Tallahassee, Florida 32301. If no hearing officer has been assigned, the petition is to be filed with the Department's Office of General Counsel, 2600 Blair Stone Road, Twin Towers Office Building, Tallahassee, Florida 32399-2400. Failure to petition to intervene within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, Florida Statutes.

Any interested person may submit comments on the draft federal permit and may request a hearing pursuant to 40 CFR 124.11. The hearing request must be in writing and must include a written notice of opposition to the draft federal permit. Hearing requests should be addressed to Mr. James H. Scarbrough, U.S. EPA, at the above address within 45 days of this notice.

A copy of the proposed U.S. EPA permit may be obtained by contacting Mr. James H. Scarbrough, U.S. EPA at the above address. A nominal fee for copying and/or mailing may be charged.

INTENT TO ISSUE

The Florida Department of Environmental Regulation and the U.S. Environmental Protection Agency (U.S. EPA) give notice of their Intent to Issue joint permits under the Resource Conservation and Recovery Act, as amended by the Hazardous and Solid Waste Amendments of 1984, Section 403.722, Florida Statutes, and Chapter 17-4 and 17-730 of the Florida Administrative Code to Safety Kleen Corporation, Hillsborough County for the operation of a hazardous waste storage tank and container storage facility at 24th Avenue and 54th Street, Tampa, Florida. The two permits, if issued, will constitute the RCRA permit required by Florida DER and the U.S. EPA.

The State of Florida has been granted authorization for those portions of the RCRA Hazardous Waste Program that were in effect prior to the passage of the Hazardous and Solid Waste Amendments of 1984. The Federal Environmental Protection Agency will administer the applicable portions of the Hazardous and Solid Waste Amendments of 1984 until the State receives authorization for these provisions.

A person whose substantial interests are affected by the Department's proposed permitting decision may request a hearing in accordance with Section 120.57, Florida Statutes. If a petition on the Department's permit is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final agency action may be different from the position taken in this preliminary statement. Additionally, persons who support the proposed agency action may also wish to intervene in the proceeding.

For more information concerning the applicable requirements of the petitioning process and the necessary time frames for filing, please contact the Tampa District Office at 813/623-5561. The application and a copy of the State permit are available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at: Monday through Friday, etc.

Container/Tank
Storage Facility

DRAFT

This permit is issued under the provisions of Chapter 403.722, Florida Statutes, and Florida Administrative Code Rules 17-730. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawings, plans, and other documents, attached hereto or on file with the Department and made a part hereof and specifically described as follows:

The operation of drum and tank storage units within a service accumulation center at 24th Avenue and 54th Street, Tampa, Hillsborough County, Florida.

Tank Storage

Utilization of one aboveground, outdoor, vertical storage tank that has a 15,000 gallon capacity and dimensions of 23 feet 3 inches high by 10 feet 6 inches wide. The unit is constructed of mild steel with a 0.25 inch minimal wall thickness and surrounded by a 46 inch high concrete dike as secondary containment.

Storage of wastes in the tank shall be restricted to spent minerals spirits which are classified as follows:

EPA Number

Waste Type

D001

Ignitability

D006

EP Toxic - cadmium

D008

EP Toxic - lead

Maximum tank operation will be 14,250 gallons which is approximately 95% of the tank's volume. Secondary containment provided by the dike is 20,615 gallons.

Paged 1 of 2

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

Solvent Return/Fill Station

Spent mineral spirits shall enter the above referenced storage tank via any one of three dumpsters located in the return and fill station, which is a 50' by 80' roofed structure between the north and south buildings. The dumpsters are not intended for storage and can hold a combined maximum of 1,512 gallons. The interior secondary containment is in the form of a lined concrete vault having four-inch curbs. The interior containment areas slope to (2) 24-inch-deep stainless steel lined sumps. Additional outer containment is provided and its areas slope to (2) shallow lined concrete sumps. Total containment capacity available during truck loading and unloading procedures is 8,342 gallons. The concrete in this area is coated so as to be impermeable to the solvents handled.

Container Storage

Container storage areas are present in the north and south buildings as detailed:

	North Building (Service Center)	South Building (Accumulation Center)
Dimensions	40 ft X 30 ft	60 ft X 45 ft - Area 1 45 ft X 45 ft - Area 2
Curbing	6 in wide X 4 in high	6 in wide X 4 in high
Containment	3 trenches, total capacity 520 gal.	3 trenches, 2 sumps total capacity: 4,437 gal. - Area 1 1,275 gal. - Area 2
Maximum Waste Storage	44,367 gal. 5,197 gal.	44,367 gal. - Area 1 12,749 gal. - Area 2
Waste Type	non-flammables, Flammables - Area 2	Non-flammables - Area 1 Flammables - Area 2

DRAFT

Wastes from five specific sources are authorized for storage as follows:

Source	Storage Location	Hazardous Waste EPA Number	Storage Location	Waste Type
Mineral Spirit Dumpster Mud		D001 D006 D008	South Bldg. Area 2	Ignitable EP Toxic - Cadmium EP Toxic - Lead
Spent Immersion Cleaner	South Bldg. Area 1	F002	North Bldg. and South Bldg. Area 1	Chlorinated Solvent
Cresylic Acid	North Bldg. and South Bldg. Area 1	F004	North Bldg. and South Bldg. Area 1	Cresylic Acid

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820

PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

Source	Hazardous Waste EPA Number	Storage Location	Waste Type
Dry Cleaning Waste	D001	South Bldg. Area 2	Ignitable (Mineral Spirits)
Fluorescent Light Ballast	F002	North Bldg. and South Bldg. Area 1	Chlorinated Solvent (perchloroethylene & trichlorotrifluoroethane)
Automotive Paint Waste	D001	South Bldg. Area 2	Ignitable (Lacquer Thinner)
	D006	South Bldg. Area 2	EP Toxic - Cadmium
	D007	South Bldg. Area 2	EP Toxic - Chromium
	D008	South Bldg. Area 2	EP Toxic - Lead
	F003	South Bldg. Area 2	Non-Halogenated Solvents (Lacquer Thinner)
	F005	South Bldg. Area 2	Non-Halogenated Solvents (Lacquer Thinner)
Industrial Solvents (from Large Quantity Generators)	D001	South Bldg. Area 2	Ignitable (Mineral Spirits and Lacquer Thinner)
	D006	South Bldg. Area 2	EP Toxic - Cadmium (Mineral Spirits)
	D008	South Bldg. Area 2	EP Toxic - Lead (Mineral Spirits)
	F001	South Bldg. Area 1	Chlorinated Solvents
	F002	South Bldg. Area 1	Chlorinated Solvents
	F003	South Bldg. Area 2	Non-Halogenated Solvents (Lacquer Thinner)
	F005	South Bldg. Area 2	Non-Halogenated Solvents (Lacquer Thinner)

Concrete in each of the two storage areas has been coated with material so as to be impermeable to the solvents being stored.

Containerized wastes approved for storage in any of the following combinations: 5 gallon pails, boxes which hold 4 two and one-half gallon filters each, 16-gallon drums, 30-gallon drums, split 30-gallon drums, and/or 55-gallon drums.

GENERAL CONDITIONS:

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations, and restrictions set forth herein are "Permit Conditions" and as such are binding upon the permittee and enforceable pursuant to the authority of Sections 403.161, 403.727, or 403.859 through 403.861, Florida Statutes. The permittee is hereby placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of the "Permit Conditions" by the permittee, its agents, employees, servants or representatives.

2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.

3. As provided in Subsections 403.087(6) and 403.722(5), Florida Statutes, the issuance of this permit does not convey any vested rights or any exclusive privileges. Nor does it authorize any injury to public or private property or any invasion of personal rights, nor infringement of federal, state or local laws or regulations. This permit does not constitute a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.

4. This permit conveys no title to land or water, does not constitute state recognition or acknowledgement of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the state. Only the Trustees of the Internal Improvement Trust Fund may express state opinion as to title.

5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, plant or aquatic life or property and penalties therefore caused by the construction or operation of this permitted source, nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by any order from the Department.

PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

CONDITIONS: GENERAL CONDITIONS: (cont'd)

6. The permittee shall at all times properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed or used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law, access to the premises, at reasonable times, where the permitted activity is located or conducted for the purposes of:

a. Having access to and copying any records that must be kept under the conditions of the permit;

b. Inspecting the facility, equipment, practices, or operations regulated or required under this permit; and

c. Sampling or monitoring any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately notify and provide the Department with the following information:

(a) a description of and cause of non-compliance; and

(b) the period of non-compliance, including exact dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or revocation of this permit.

Facility

GENERAL CONDITIONS: (cont'd)

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source, which are submitted to the Department, may be used by the Department as evidence in any enforcement case arising under the Florida Statutes or Department rules, except where such use is proscribed by Section 403.73, and 403.111, Florida Statutes.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance, provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

11. This permit is transferable only upon Department approval in accordance with Florida Administrative Code Rules 17-4.120 and 17-730.300, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit is required to be kept at the work site of the permitted activity during the entire period of construction or operation.

13. This permit also constitutes:

- (-) Determination of Best Available Control Technology (BACT)
- (-) Determination of Prevention of Significant Deterioration (PSD)
- () Certification of Compliance with State Water Quality Standards (Section 401, PL 92-500)
- () Compliance with New Source Performance Standards

14. The permittee shall comply with the following monitoring and record keeping requirements:

Upon request, the permittee shall furnish all records and plans required under Department rules. The retention period for all records will be extended automatically, unless otherwise stipulated by the Department, during the course of any unresolved enforcement action.

b. The permittee shall retain at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation), copies of all reports required by this permit, and records of all data used to complete the application for this permit. The time period of retention shall be at least three years from the date of the sample, measurement, report or application unless otherwise specified by Department rule.

c. Records of monitoring information shall include:

- the date, exact place, and time of sampling or measurements;
- the person responsible for performing the sampling or measurements;
- the date(s) analyses were performed;
- the person responsible for performing the analyses;
- the analytical techniques or methods used; and
- the results of such analyses.

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be submitted or corrected promptly.

16. In the case of a hazardous waste facility permit, the following permit conditions shall also apply:

a. The permittee will submit the following reports to the Department:

(1) Manifest discrepancy report: If a significant discrepancy in a manifest is discovered, the permittee must attempt to reconcile the discrepancy. If not resolved within 15 days after receiving the waste, the permittee shall immediately submit a letter report including a copy of the manifest to the Department.

(2) Unmanifested waste report: The permittee shall submit an unmanifested waste report to the Department within 15 days of receipt of unmanifested waste.

(3) Annual report: An annual report covering facility activities during the previous calendar year must be submitted in accordance with Florida Administrative Code Rule 17-730.

b. Notification of any non-compliance which may endanger public drinking water supplies, or the occurrence of a fire or explosion from the facility which could threaten the environment or human health outside the facility, shall be verbally submitted to the Department within 24 hours and a written submission provided within 5 days. The verbal submission within 24 hours shall contain the name, address, I.D. number and telephone number of the facility and owner or operator, the name and quantity of materials involved, the extent of injuries (if any), an assessment of actual or potential hazards, and the estimated quantity and disposition of recovered material. The written submission shall contain the following:

(1) a description of any cause of non-compliance; and

(2) if not corrected, the anticipated time the non-compliance is expected to continue and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

c. Reports of compliance or non-compliance with, or any progress reports on, requirements contained in any compliance schedule of this permit shall be submitted no later than 14 days following each schedule date.

d. All reports on information required to be submitted to the Department by a hazardous waste permittee shall be signed by a person authorized to sign a permit application.

Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS:

Part I. General

SPECIFIC CONDITIONS:

Part I. General

1. The permittee shall operate the herein permitted facility in accordance with 40 CFR Part 264, Subparts A through J, the conditions of this permit, and the permit application.

2. The permittee shall store only those wastes identified in Attachment I.D.2, pages I.D.2-1 through I.D.2-4 and Table I.D.3-1 of the application. Prior to acceptance of new hazardous waste for storage, the permittee shall submit to the Department, for approval, waste analysis of the proposed new waste. This analysis shall also be incorporated in the general waste analysis plan which is retained on site. Compliance with this condition shall be in accordance with 40 CFR Part 264.13.

3. The permittee shall notify the Department in writing four weeks prior to receipt of hazardous waste from a foreign source, and comply with the other requirements of 40 CFR Part 264.12.

4. The permittee is only allowed to operate the hazardous waste units specified in pages 1 of 21, 2 of 21 and 3 of 21 of this permit (detailed on Attachment 1).

5. The permittee shall comply with the required notice of 40 CFR Part 264.12(c) in accordance with Florida Administrative Code Rule 17-730.300(2), before transferring ownership or operation of the facility during its operating life.

6. The permittee shall maintain and update the records of chemicals and physical analysis for the hazardous wastes generated and stored at the permitted facility, as indicated in the permit application in Attachment II.A.5 and II.A.6, in compliance with 40 CFR Parts 264.13(a) and 264.13(b).

7. The permittee shall prevent unauthorized entry of persons into the hazardous waste units to comply with the security requirements of 40 CFR Part 264.14, and shall maintain the security equipment and procedures as described in the permit application, Attachment II.A.4.

8. The permittee shall inspect the facility operating, emergency and safety equipment in accordance with the schedule approved in Attachment II.A.4(d) of the application. Changes, additions, or deletions to the schedule must be approved in writing by the Department. The schedule must be maintained as part of the operating record at the facility. Inspection program, schedule and records shall be followed in accordance with 40 CFR Part 264.15.

SPECIFIC CONDITIONS: (cont'd)
Part I. General (cont'd)

9. The permittee shall comply with the training requirements of 40 CFR Part 264.16. Facility personnel shall successfully complete the approved training program within six (6) months of employment as indicated in the permit application, Attachment II.A.4(e).

Verification of this training must be kept with the personnel training records and maintained on-site. Personnel shall not work unsupervised until training has been completed.

10.a. The permittee shall comply with the general requirements for ignitable, reactive, or incompatible waste of 40 CFR Part 264.17 concerning precautions to prevent accidental ignition or reaction of ignitable and reactive waste. Signs showing the wastes by the name they are known best, their EPA hazardous waste number, and total storage capacity in accordance with the tables shown on page 1 of 21, 2 of 21 and 3 of 21 of this permit, shall be placed in a highly visible location at each bay. "No Smoking" signs shall be conspicuously posted at each location where ignitable wastes are stored and whenever flammable gases are generated.

10.b. The facility shall be maintained and operated to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment as per 40 CFR Part 264.31.

11. The permittee shall operate the hazardous waste facility in accordance with the preparedness and prevention procedures outlined in Attachment II.A.4(d) of the permit application and the requirements of 40 CFR 264, Subpart C. The permittee shall test and maintain all facility communication, or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment as necessary to assure its proper operation in time of emergency.

12. The contingency plan must be amended and distributed to the appropriate agencies if any criteria of 40 CFR Part 264.54 are met. Amendments to the plan must be submitted and approved in writing by the Department.

13. The permittee shall follow the emergency procedures specified in 40 CFR Part 264.56, approved in Attachment II.A.4(b) of the permit application, and contingency plan. The permittee shall give proper notification if an emergency situation arises, and within fifteen (15) days shall submit to the Department a written report which includes all information required in 40 CFR Part 264.56(j), and as described on pages II.A.4(b)-6 through 8 of the contingency plan.

Page 12 of 21.

14. The permittee shall post at conspicuous locations information on emergency equipment and evacuation procedures in accordance with 40 CFR Parts 264.52(e) and (f).

SPECIFIC CONDITIONS: (cont'd)

Part I. General (cont'd)

15. The permittee shall keep close to the telephone from where emergency calls will most likely be made, a list containing the names and telephone numbers of the emergency coordinators required in 40 CFR Part 264.55, and of the emergency response institutions and agencies as described in 40 CFR Part 264.52(c).

16. The contingency plan shall be maintained as a separate independent document which meets the regulatory requirements of DERA Form 17-730.900(2), Part II, A.4.2 (b).

17. The permittee shall comply with the use of manifest system requirements of 40 CFR Part 264.71, and the manifest discrepancy requirements of 40 CFR Part 264.72. The permittee shall submit a letter describing the discrepancy and attempts to reconcile it, and a copy of the manifest or shipping paper to the Department within 15 days.

18. The permittee, when shipping hazardous waste off-site, shall comply with the requirements of 40 CFR Part 262, Subpart B, and in accordance with the permit application, Attachment II.A.7.

19. The permittee shall comply with the requirements of 40 CFR Parts 264.73 and 264.74, and as described in Attachment II.A.7 of the permit application. The permittee shall keep written operating records at the facility which include:

- The description and quantity of each hazardous waste;
- The location of each hazardous waste within the facility and quantity at each location;
- The results of the waste analysis;
- A summary report and details of incidents that require implementation of the Contingency Plan;
- Copy of manifests;
- Operation logs;
- Notice to generators;
- The results of monitoring and inspections (for 3 years);
- Closure plan and updated closure cost estimates;
- Annual certification of hazardous waste minimization;

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS: (cont'd):
Part I. General (cont'd)

- Biennial report. These records must be maintained at the facility until completion and certification of closure.

These records must be maintained at the facility until completion and certification of closure.

20. Analytical procedures shall be consistent with EPA Manual SW-846 Test Methods for Evaluating Solid Waste (latest edition), or Department approved equivalent method. The Sampling and Analysis plan shall be in accordance with Characterization of Hazardous Waste Sites, A Methods Manual, Volume II, Available Sampling Methods, E-600/4-83-040.

21. The permittee shall apply for a closure permit at least 180 days prior to beginning closure at the facility as required by Florida Administrative Code Rule 17-730.260.

22. The permittee shall apply for permit renewal at least one hundred thirty five (135) days before the expiration date of this permit, and comply with all other requirements of the Florida Administrative Code Rule 17-730.300.

23. The Department may modify the conditions of this permit if any of the conditions of Florida Administrative Code Rule 17-730.290(1) apply.

24. Pursuant to Rule 17-730.290, Florida Administrative Code, this permit may be modified if additional information becomes available indicating that the provisions of Section 3004(u) of the Hazardous and Solid Waste Amendments of 1984 (HSWA) apply to this facility. At that time, this permit may be modified to address the requirements of Section 3004(u) of HSWA if the State has been authorized for these provisions, or alternately, the Environmental Protection Agency would issue a separate federal permit addressing Section 3004(u) requirements.

25. The permittee shall certify to the Department no less often than annually, that the permittee has in place a program to reduce the volume and toxicity of hazardous waste that the permittee generates to the degree determined by the permittee to be economically practicable; and that the method of storage is the best practicable to minimize the present and future threat to human health and the environment as required by 40 CFR Part 264.73(b)(9).

26. The permittee shall maintain compliance with the financial requirements of 40 CFR 264 Subpart H.

27. All documents submitted pursuant to the conditions of this permit shall be accompanied by a cover letter stating the name and date of the document submitted, the number(s) of the specific condition(s) affected, and number and project name of the permit involved.

28. The submittals in response to the specific conditions of this permit shall be submitted in triplicate to:

Deputy Assistant Secretary
Department of Environmental Regulation
4520 Oak Fair Boulevard
Tampa, Florida 33610-7347
Attn: Hazardous Waste Permitting Program

Submittals in response to Specific Condition 26 of this part shall be submitted to:

Financial Coordinator
Hazardous Waste Regulation Section
Department of Environmental Regulation
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

29. The permittee shall notify the Department of any Solid Waste Management Units (SWMU) that are not listed in Subpart P of FDER Application form number 17-730.900(2).

II. Container Storage Conditions

1. The permittee shall comply with the type, quality, and specification of containers utilized for storing hazardous wastes as described in PART II B, and the Figures detailed in Attachment II.B.3 of the permit application. Any change in container type shall be previously approved by the Department.

2. The permittee shall be authorized to store the hazardous wastes approved on pages 2 of 21 and 3 of 21 of this permit, in the approved storage areas which are detailed in Attachment 2.

3. Containers shall be kept closed except when adding or removing waste and be handled in a manner that will not allow the containers to rupture or leak. If a container holding hazardous waste is not in good condition, or begins to leak, the waste shall be transferred to another container in good condition as per 40 CFR Part 264.171, .172 and .173.

4. The permittee shall use containers which are compatible with the hazardous waste to be stored to comply with the requirements of 40 CFR Part 264.172.

5. The permittee shall not store incompatible waste in containers or place it in unwashed containers that have previously held incompatible waste as per 40 CFR Part 264.177.

Part II. Container Storage Conditions (cont'd)

6. The permittee shall inspect the container unloading areas as well as the container storage area in accordance with the schedule and procedures approved in Attachment II.B.5 of the application and 40 CFR Part 264.174.

7. Any unknown waste shall be segregated from all other hazardous wastes until it is identified by analyses and a compatibility group is assigned.

8. Incompatible wastes shall not be stored in the same bay or in bays having the same containment system and shall be physically separated by a dike, berm or other approved device in accordance with 40 CFR Part 264.177(c) requirements.

9. The permittee shall, prior to the storage of hazardous waste, determine the compatibility of each waste to be added to a storage area according to the procedures identified in Section I.D.4 of the permit application and EPA publication 600/2-80-076 "A Method for Determining the Compatibility of Hazardous Waste" (latest edition).

10. Hazardous waste must be compatible with the secondary containment systems and liners of the storage bays.

11. Spilled or leaked waste and accumulated precipitation must be removed from the collection area, analyzed and disposed of in accordance with Attachment II.A.4(b) and Attachment II.A.6 of the application and 40 CFR Part 264.175(b)(5).

12. The permittee shall comply with the 50 foot setback rule concerning the storage of ignitable and reactive wastes in containers as per 40 CFR Part 264.176.

13. The permittee shall comply with the requirements of 40 CFR Part 264.35 and maintain a minimum aisle space between pallets and between a pallet and a wall of two (2) feet for containers storing free liquids. The container arrangement discussed on Page II.B.1-1 of the application shall be followed. Any change to the container arrangement in any unit shall be previously approved by the Department.

14. The permittee shall be authorized to store non-regulated liquids in the regulated storage area provided:

- The permittee complies with the requirements of 40 CFR Part 264.175 and includes the volume of non-regulated liquids in calculating the total volume of liquid to be stored in the regulated storage area.
- The permittee shall maintain the required aisle spacing in the storage area for both the regulated and non-regulated wastes in accordance with 40 CFR Part 264.35.

Part II. Container Storage Conditions (cont'd)

c. The permittee ensures that non-regulated materials shall be separate and apart from regulated waste and shall have signs posted indicating the contents of the containers and that the materials are non-regulated.

d. The permittee shall provide a written notice in the facility operating record of any non-regulated materials placed in the regulated storage area. The notice shall detail:

1. the type and the quantity of the wastes
2. verify adequate secondary containment,
3. confirm that appropriate aisle spacing is available, and
4. document compatibility of the non-regulated waste with all other wastes already present in the storage area

15. The container unloading areas shall have the containers removed from the service vehicle to the unloading areas and placed into the respective storage locations within eight (8) hours of arrival at the unloading area. The following container unloading areas (Attachment 2) have been authorized:

- 3 loading docks along the east side of the south building
- 1 loading dock along the east side of the solvent return fill station
- 1 loading dock along the west side of the solvent return fill station.

16. All service vehicle trucks and tractor trailers shall be situated over an impervious surface having emergency liquid containment or at one of the unloading areas when the vehicle contains hazardous waste.

17. No vehicle shall be on-site at the facility for more than three (3) days before its contents shall be unloaded into a storage area.

18. The container unloading areas shall be clear of any liquids and/or debris at all times.

19. The following containers shall conform to DOT specifications and be managed in accordance with the approved plan:

- 5 gallon polyethylene drums
- boxes containing 4 two and one-half gallon filters
- 16 gallon steel drums
- 30 gallon steel drums
- split 30 gallon steel drums
- 55 gallon steel drums

20. The North Building Service Center shall have a maximum liquid waste storage of 5,197 gallons composed of non-flammable liquid wastes and/or liquid product.

21. The South Building Accumulation Center shall have a maximum liquid waste storage of 44,367 gallons composed of non-flammable liquid wastes and/or liquid product in Area 1.

23. The South Building Accumulation Center shall have a maximum liquid waste storage of 12,749 gallons composed of flammable liquid wastes and/or liquid product in Area 2.

24. The container unloading and storage areas shall be closed as per Attachment II.B.6 and PART II K and the Financial Requirements of the application as required by 40 CFR Subpart G and Part 264.178.

III - Tank Storage Conditions

1. The permittee shall maintain, inspect, and operate the tank storage unit, appurtenant equipment, and associated secondary containment structures in such a manner that any leakage or release of hazardous waste from the unit shall be detected within twenty-four (24) hours of occurrence, that the secondary containment structures will be capable of preventing any migration of wastes or accumulated liquid to the soil, groundwater, or surface waters, and that spilled or leaked waste and accumulated precipitation will be removed within twenty-four (24) hours of occurrence. The specific conditions presented in Section III apply to the tank system storing spent mineral spirits as described on pages 1 of 21 and 2 of 21 of this permit. The tank system shall be defined as the tank storage unit, appurtenant equipment and secondary containment structures (detailed in Attachments 3 and 4).

2. The permittee shall keep records at the facility documenting the storage of the tank system.

3. The permittee shall maintain, inspect, and operate the spill and overfill prevention controls during loading and unloading procedures occurring at the tank storage unit in accordance with 40 CFR Part 264.194.

4. Description and management of the tank storage unit shall conform to the design shown in Figures II.C.2-4 (D11124) and II.C.2-5(A) (D13102) and Plate 12 (D10576), and to the procedures indicated in PART II.C of the application.

5. The permittee shall inspect the tank storage unit, appurtenant equipment, and secondary containment structures in accordance with Attachment II.C.11 and Figure II.C.11-3 of the permit application, and 40 CFR Part 264.195.

6. The permittee shall comply with the provision of response to leaks or spills and disposition of leaking or unfit-for-use tank systems of 40 CFR Part 264.196 by satisfying the following requirements:

a. Stop flow or addition of waste into the tank or secondary containment and inspect the system to determine the cause of the release in compliance with 40 CFR Part 264.196(a).

b. Remove waste from the tank system to prevent further releases and to allow for inspection and repair, and remove released waste from the secondary containment structure at the earliest possible time in accordance with 40 CFR Part 264.196(b).

c. Prevent possible or further migration of the leak or spill to the environment, and remove and properly dispose of wastes, contaminated soils or residues in compliance with 40 CFR Part 264.196(c).

d. Comply with the notification and report requirements of 40 CFR Part 264.196(d).

e. Comply with the secondary containment, repair or closure requirements of 40 CFR Part 264.196(e).

f. Certify major repairs of the tank system in accordance with 40 CFR Part 264.196(f).

Tank system is defined as the tank storage unit, appurtenant equipment and secondary containment structures.

SPECIFIC CONDITION (cont'd)
III - Tank Storage Condition (cont'd)

7. The permittee shall comply with the management requirements for ignitable or reactive wastes contained in 40 CFR 264.198, and shall follow the procedures specified in Attachment II.A.4(d) on page II.A.4(d)-9 of the permit application.

8. The permittee shall not store incompatible waste in the tank in accordance with 40 CFR Part 264.199.

9. The permittee is allowed to store in the tank only those wastes shown on Page 1 of 21 of this permit. The permittee shall not exceed the indicated waste volume presented on Page 1 of 21.

10. The permittee shall comply with the protective distance requirements for the tank placement as set forth in Tables 2-1 through 2-6 of the National Fire Protection Association's "Flammable and Combustible Liquids Code" (1977 or 1981) as required by 40 CFR 264.198(b).

IV - Miscellaneous

1. The permittee shall visually inspect stormwater accumulating within the tank farm dike prior to releasement of these waters. Stormwater exhibiting an iridescent sheen shall be disposed in a Department approved manner as detailed on Page II.C.2-3 of Section II.C of the permit application.

2. The permittee shall report to the Department, within 14 days of an incident, any utilization of the retention pond for purposes other than receipt of non-contaminated stormwater. This includes activation of the sprinkler system which will cause an overflow from the accumulation center to the retention pond.

V. Closure Conditions

1. The permittee shall manage all hazardous waste, residues, sludges, spilled or leaked waste, or contaminated liquids and soils removed during closure of the units in accordance with the applicable provisions of 40 CFR Parts 260 through 268 and EDER Form 17-730.900(2), including the manifest requirements. A copy of each manifest required as a result of closure activities shall be submitted to the Department with closure certification.

2. The permittee shall close the hazardous waste units in a manner that minimizes or eliminates, to the extent necessary to protect human health and the environment, post-closure escape of hazardous waste, hazardous waste constituents, leachate, contaminated rainfall, or waste decomposition products to the groundwater, surface waters, or to the atmosphere as per 40 CFR Part 264.111.

Draft Permit

Attached for your consideration is the draft permit that has been prepared for Safety Kleen's Tampa Service Center. We have utilized the "Intent to Issue" language you suggested for joint permit issuance. As we would like to proceed with issuance as soon as possible, please notify us of any appropriate revisions you might have by June 15, 1990 or earlier.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL REGULATION

IN THE MATTER OF AN
APPLICATION FOR A PERMIT BY:

DER FILE NUMBER: HO29-158820
EPA FILE NUMBER: FLD 980847271

Safety Kleen Corporation
777 Big Timber Road
Elgin, Illinois 60120

Attn: Scott E. Fore, Vice President

INTENT TO ISSUE

The Department of Environmental Regulation (DER) and the U.S. Environmental Protection Agency (U.S. EPA) hereby give notice of their Intent to Issue, and request the publication and notice for the above referenced joint permits. Upon issuance of these permits, the Department and EPA will authorize the permittee to operate a hazardous waste tank and container storage facility at 24th Avenue and 54th Street, Tampa, Hillsborough County. Safety Kleen will receive wastes for storage on-site resulting from the servicing of four specific types of customers as follows: 1. Parts washer service which generates spent mineral spirits and spent immersion cleaner; 2. Dry cleaner service which generates perchloroethylene, mineral spirits and trichlorotrifluoroethane; 3. Paint waste service which generates various lacquer thinners and waste paints; and 4. Solvents from large quantity generators which will produce the same wastes mentioned above plus the similar solvents trichloroethylene and methylene chloride. These wastes are designated EPA Identification Numbers D001, D006, D007, D008, F001, F002, F003, F004 and F005. Treatment and disposal of these stored wastes will occur off-site.

DRAFT

The State of Florida has been granted authorization for those portions of the RCRA Hazardous Waste Program that were in effect prior to the passage of the Hazardous and Solid Waste Amendments of 1984. The Federal Environmental Protection Agency will administer the applicable portions of the Hazardous and Solid Waste Amendments of 1984 until the State receives authorization for these provisions.

The Department is taking this action under the authority of Section 403.722, Florida Statutes (F.S.), and Florida Administrative Code Chapters 17-4 and 17-730, (F.A.C.), which provide for issuance of permits to facilities that treat, store, or dispose of hazardous wastes. The issuance of this permit is based on the applicant's demonstration that this facility is in compliance with the technical and procedural requirements established in Chapter 17-730 F.A.C. and the appropriate Sections of 40 CFR Parts 260 through 266, which were adopted by reference in Chapter 17-730 F.A.C. This demonstration was made in the approved application submitted with DER Form 17-730.401(2) on December 27, 1988 and amended on June 9, 1989, November 2, 1989, February 14, 1990 and April 30, 1990.

Pursuant to Sections 403.815 and 403.722, F.S., and 17-730.220(6), F.A.C., you are required to publish at your own expense notice for the Department's and EPA's Intent to Issue joint hazardous waste operation permits to Safety Kleen Corporation, Tampa Service Center to operate a hazardous waste storage facility at 24th Avenue and 54th Street, Tampa, Hillsborough County, Florida.

DRAFT

Pursuant to Section 17-730.220(6), F.A.C., the attached notice must be published one time only in the legal ad section of a major local newspaper of general circulation in Hillsborough County and broadcast over a local radio station within thirty (30) days from receipt of this letter. Proof of publication and broadcast must be provided to the Department within fourteen (14) days of publication of the notice.

Failure to publish the notice and provide proof of publication and broadcast within the allotted time may result in denial of the permit

The Department and EPA shall issue their respective permits with the attached conditions unless an appropriate petition is filed for a hearing pursuant to the provisions of Section 120.57, F.S. At a formal hearing under Section 120.57(1), F.S., all parties shall have an opportunity to present evidence and argument on all issues involved, to conduct cross-examination and submit rebuttal evidence, to submit proposed findings of fact and orders, to file exceptions to any order or hearing officer's recommended order, and to be represented by counsel. At an informal hearing under Section 120.57(2), F.S., the Department will provide affected persons or parties an opportunity to present evidence or a written statement in opposition to the agency's action.

Petitions for hearing must comply with the requirements of Section 28-5.201 F.A.C., and be filed with the Office of General Counsel or the Department at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400. Petitions filed by the applicant must be filed within forty-five (45) days of receipt

of this letter. Petitions filed by other parties, or requests for public meetings by persons, must be filed within forty-five (45) days of publication or broadcast of the public notice. Any interested person may submit comments on the draft federal permit and may request a hearing pursuant to 40 CFR 124.11. The hearing request must be in writing and should be addressed to Mr. James H. Scarbrough, U.S. EPA, at 345 Courtland Street, N.E., Atlanta, Georgia 30365 within 45 days of this notice. Petitions or requests for the meetings which are not filed in accordance with the above provisions are subject to dismissal.

Executed in Tampa, Florida.

DER FILE NUMBER: HO29-158820 EPA FILE NUMBER: FLD980847271

INTENT TO ISSUE

THE FLORIDA DEPARTMENT OF ENVIRONMENTAL REGULATION (DER) AND THE U.S. ENVIRONMENTAL PROTECTION AGENCY (U.S. EPA) GIVE NOTICE OF THEIR INTENT TO ISSUE JOINT PERMITS UNDER THE RESOURCE CONSERVATION AND RECOVERY ACT (RCRA), AS AMENDED BY THE HAZARDOUS AND SOLID WASTE AMENDMENTS OF 1984 (HSWA), SECTION 403.722, FLORIDA STATUTES (FS), AND CHAPTERS 17-4 AND 17-730 OF THE FLORIDA ADMINISTRATIVE CODE (FAC) TO SAFETY KLEEN CORPORATION, 777 Big Timber Road, Elgin, Illinois 60120, having assigned facility I.D. number FLD 980 847 271. The two permits, if issued, will constitute the RCRA permit required by Florida DER and the U.S. EPA.

The State of Florida has been granted authorization for those portions of the RCRA Hazardous Waste Program that were in effect prior to the passage of the Hazardous and Solid Waste Amendments of 1984. The Federal Environmental Protection Agency will administer the applicable portions of the Hazardous and Solid Waste Amendments of 1984 until the State receives authorization for these provisions.

A draft permit, prepared in accordance with the provisions of Chapter 17-730, FAC, contains the conditions for the operation of the hazardous waste storage facility at 24th Avenue and 54th Street, Tampa, Hillsborough County, Florida. The proposed facility will manage hazardous waste storage units. Storage of wastes is in containers and a tank as follows:

South Building
(Accumulation Center)

<u>Type of Waste</u>	<u>EPA Hazardous Waste Number</u>
Ignitable Solvent	D001
EP Toxic Metals	D006, D007, D008
Chlorinated Solvents	F001, F002
Non-Halogenated Solvents	F003, F004, F005

DRAFT

The South Building will support a maximum drum storage capacity of 42,912 gallons.

North Building
(Service Center)

<u>Type of Waste</u>	<u>EPA Hazardous Waste Number</u>
Ignitable Solvent	D001
EP Toxic Metals	D006, D008
Chlorinated Solvents	F002
Non-Halogenated Solvents	F004

The North Building will support a maximum drum storage capacity of 6192 gallons.

Storage Tank

<u>Type of Waste</u>	<u>EPA Hazardous Waste Number</u>	<u>Maximum Capacity</u>
Ignitable Solvent	D001	14,250 gallons
EP Toxic Metals	D006, D008	

The Federal draft permit contains conditions requiring the facility to investigate prior/continuing releases of hazardous waste or constituents from solid waste units. The Federal draft permit also sets conditions for certification of waste minimization and compliance with landban regulations. FDER and EPA have made a preliminary determination that the proposed permits will comply with applicable state and federal regulations.

The application and a copy of both state and federal proposed permits are available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at Florida Department of Environmental Regulation, 4520 Oak Fair Boulevard, Tampa, Florida 33610-7347.

The proposed U.S. EPA permit and statement of basis are available for public inspection Monday through Friday, except legal holidays, from 8:00 a.m. to 5:00 p.m. at the U.S. EPA Library, 345 Courtland Street, N.E., Atlanta, Georgia 30365. All data submitted by the applicant to the U.S. EPA is available as part of the administrative record at the above address.

Any interested person may submit written comments on this proposed State agency action to the Department of Environmental Regulation, 4520 Oak Fair Boulevard, Tampa, Florida 33610-7347, or the proposed U.S. EPA action to the U.S. Environmental Protection Agency, Region IV, 345 Courtland Street, N.E., Atlanta, Georgia 30365 Attention: Mr. James H. Scarbrough, within forty-five (45) days of publication of this notice. All comments on the facility will be considered by both agencies in formulating a decision on issuing the respective permits.

A person who is substantially affected by the Department's proposed permitting decision may request a hearing in accordance with Section 120.57, Florida Statutes, and Chapters 17-103, and 28-5, Florida Administrative Code. Any person may request a public meeting pursuant to Section 403.722(10), Florida Statutes. The request for a hearing or meeting must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Twin Towers Office Building, Tallahassee, Florida 32399-2400, within forty-five (45) days of publication of this notice. Failure to file a request for hearing within this time frame shall constitute a waiver of any right such person may have to request a hearing under Section 120.57, FS, or a meeting under Section 403.722(10), Florida Statutes.

If a petition on the Department's permit is filed, the administrative hearing process is designated to formulate agency action. Accordingly, the Department's final action may be different from the proposed agency action. Persons whose substantial interests have been affected by any decision of the Department have the right to intervene in the proceeding. A petition for intervention must be filed pursuant to Section 28-5.207, Florida Administrative Code, at least five (5) days before the final hearing and be filed with the hearing officer, if one has been assigned, at the Division of Administrative Hearings, Department of Administration, 2009 Apalachee Parkway, Tallahassee, Florida 32301. If no hearing officer has been assigned, the petition is to be filed with the Department's Office of General Counsel, 2600 Blair Stone Road, Twin Towers Office Building, Tallahassee, Florida 32399-2400. Failure to petition to intervene within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, Florida Statutes.

Any interested person may submit comments on the draft federal permit and may request a hearing pursuant to 40 CFR 124.11. The hearing request must be in writing and must include a written notice of opposition to the draft federal permit. Hearing requests should be addressed to Mr. James H. Scarbrough, U.S. EPA, at the above address within 45 days of this notice.

A copy of the proposed U.S. EPA permit may be obtained by contacting Mr. James H. Scarbrough, U.S. EPA at the above address. A nominal fee for copying and/or mailing may be charged.

DRAFT

JOINT PUBLIC NOTICE OF
PROPOSED AGENCY ACTIONS
FLORIDA DEPARTMENT OF
ENVIRONMENTAL REGULATION
SOUTHWEST DISTRICT
4520 OAK FAIR BOULEVARD
TAMPA, FLORIDA 33610-7347
813/623-5561

In conjunction with the
U.S. ENVIRONMENTAL
PROTECTION AGENCY
REGION IV, RCRA BRANCH
345 COURTLAND STREET, N.E.
ATLANTA, GEORGIA 30365
404/347-3016

DER FILE NUMBER: HO29-158820

EPA FILE NUMBER: FLD980847271

INTENT TO ISSUE

The Florida Department of Environmental Regulation and the U.S. Environmental Protection Agency (U.S. EPA) give notice of their Intent to Issue joint permits under the Resource Conservation and Recovery Act, as amended by the Hazardous and Solid Waste Amendments of 1984, Section 403.722, Florida Statutes, and Chapter 17-4 and 17-730 of the Florida Administrative Code to Safety Kleen Corporation, Hillsborough County for the operation of a hazardous waste storage tank and container storage facility at 24th Avenue and 54th Street, Tampa, Florida. The two permits, if issued, will constitute the RCRA permit required by Florida DER and the U.S. EPA.

The State of Florida has been granted authorization for those portions of the RCRA Hazardous Waste Program that were in effect prior to the passage of the Hazardous and Solid Waste Amendments of 1984. The Federal Environmental Protection Agency will administer the applicable portions of the Hazardous and Solid Waste Amendments of 1984 until the State receives authorization for these provisions.

A person whose substantial interests are affected by the Department's proposed permitting decision may request a hearing in accordance with Section 120.57, Florida Statutes. If a petition on the Department's permit is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final agency action may be different from the position taken in this preliminary statement. Additionally, persons who support the proposed agency action may also wish to intervene in the proceeding.

DRAFT

For more information concerning the applicable requirements of the petitioning process and the necessary time frames for filing, please contact the Tampa District Office at 813/623-5561. The application and a copy of the State permit are available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at:

Florida Department of Environmental Regulation
Southwest District Office
4520 Oak Fair Boulevard
Tampa, Florida 33610-7347
(813) 623-5561.

Any interested person may submit comments on the draft federal permit and may request a hearing pursuant to 40 CFR 124.11. The hearing request must be in writing and should be addressed to Mr. James H. Scarbrough, U.S. EPA, at 345 Courtland Street, N.E., Atlanta, Georgia 30365 within 45 days of this notice.

Section / Township / Range:

27 / 29S / 19W

Project: Operation of a
Hazardous Waste
Container/Tank
Storage Facility

This permit is issued under the provisions of Chapter 403.722, Florida Statutes, and Florida Administrative Code Rules 17-730. The above named permittee is hereby authorized to perform the work or operate the facility shown on the application and approved drawings, plans, and other documents, attached hereto or on file with the Department and made a part hereof and specifically described as follows:

The operation of drum and tank storage units within a service accumulation center at 24th Avenue and 54th Street, Tampa, Hillsborough County, Florida.

Tank Storage

Utilization of one aboveground, outdoor, vertical storage tank that has a 15,000 gallon capacity and dimensions of 23 feet 3 inches high by 10 feet 6 inches wide. The unit is constructed of mild steel with a 0.25 inch minimal wall thickness and surrounded by a 46 inch high concrete dike as secondary containment.

Storage of wastes in the tank shall be restricted to spent minerals spirits which are classified as follows:

EPA Number

Waste Type

D001

Ignitability

D006

EP Toxic - cadmium

D008

EP Toxic - lead

Maximum tank operation will be 14,250 gallons which is approximately 95% of the tank's volume. Secondary containment provided by the dike is 20,615 gallons.

DRAFT

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

Solvent Return/Fill Station

Spent mineral spirits shall enter the above referenced storage tank via any one of three dumpsters located in the return and fill station, which is a 50' by 80' roofed structure between the north and south buildings. The dumpsters are not intended for storage and can hold a maximum of 1,125 gallons. Four sumps are provided adjacent to the over head doors of the station for secondary containment during truck loading and unloading procedures. Each sump has a 280 gallon capacity. The concrete in this area is coated so as to be impermeable to the solvents handled.

Container Storage

Container storage areas are present in the north and south buildings as detailed:

<u>Features</u>	<u>North Building (Service Center)</u>	<u>South Building (Accumulation Center)</u>
Dimensions	40 ft X 30 ft	80 ft X 100 ft
Curbing	6 in wide X 4 in high	6 in wide X 4 in high
Containment	2 trenches, total capacity 624 gal.	4 trenches, 2 sumps total capacity 4,298 gal.
Maximum Waste Storage	6,192 gal.	33,662 gal. - Area 1 9,250 gal. - Area 2
Waste Type	flammables and non- flammables	Non-flammables - Area 1 Flammables - Area 2

Wastes from five specific sources are authorized for storage as follows:

<u>Source</u>	<u>Hazardous Waste EPA Number</u>	<u>Storage Location</u>	<u>Waste Type</u>
Mineral Spirit	D001	North Bldg.	Ignitable
Dumpster Mud	D006	North Bldg.	EP Toxic - Cadmium
	D008	North Bldg.	EP Toxic - Lead
Spent Immersion Cleaner	F002	North Bldg. and South Bldg. Area 1	Chlorinated Solvent
	F004	North Bldg. and South Bldg. Area 1	Cresylic Acid

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

<u>Source</u>	<u>Hazardous Waste EPA Number</u>	<u>Storage Location</u>	<u>Waste Type</u>
Dry Cleaning Waste	D001	North Bldg. and South Bldg. Area 2	Ignitable (Mineral Spirits)
	F002	North Bldg. and South Bldg. Area 1	Chloronated Solvent (perchloroethylene & trichlorotrifluoro- ethane)
Paint Waste	D001	South Bldg. Area 2	Ignitable (Lacquer Thinner)
	D006	South Bldg. Area 2	EP Toxic - Cadmium
	D007	South Bldg. Area 2	EP Toxic - Chromium
	D008	South Bldg. Area 2	EP Toxic - Lead
	F003	South Bldg. Area 2	Non-Halogenated Solvents (Lacquer Thinner)
	F005	South Bldg. Area 2	Non-Halogenated Solvents (Lacquer Thinner)
Industrial Solvents (from Large Quantity Generators)	D001	South Bldg. Area 2	Ignitable (Mineral Spirits and Lacquer Thinner)
	D006	South Bldg. Area 2	EP Toxic - Cadmium (Mineral Spirits)
	D008	South Bldg. Area 2	EP Toxic - Lead (Mineral Spirits)
	F001	South Bldg. Area 1	Chloronated Solvents
	F002	South Bldg. Area 1	Chloronated Solvents
	F003	South Bldg. Area 2	Non-Halogenated Solvents (Lacquer Thinner)
	F005	South Bldg. Area 2	Non-Halogenated Solvents (Lacquer Thinner)

Concrete in each of the two storage areas has been coated with material so as to be impermeable to the solvents being stored.

Containerized wastes approved for storage detail any of the following combinations: 5 gallon pails, boxes which hold 4 two and one-half gallon filters each, 16-gallon drums, 30-gallon drums and/or 55-gallon drums.

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations, and restrictions set forth herein are "Permit Conditions" and as such are binding upon the permittee and enforceable pursuant to the authority of Sections 403.161, 403.727, or 403.859 through 403.861, Florida Statutes. The permittee is hereby placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of the "Permit Conditions" by the permittee, its agents, employees, servants or representatives.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in Subsections 403.087(6) and 403.722(5), Florida Statutes, the issuance of this permit does not convey any vested rights or any exclusive privileges. Nor does it authorize any injury to public or private property or any invasion of personal rights, nor infringement of federal, state or local laws or regulations. This permit does not constitute a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.
4. This permit conveys no title to land or water, does not constitute state recognition or acknowledgement of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the state. Only the Trustees of the Internal Improvement Trust Fund may express state opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, plant or aquatic life or property and penalties therefore caused by the construction or operation of this permitted source, nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by any order from the Department.

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

GENERAL CONDITIONS: (cont'd)

6. The permittee shall at all times properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed or used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law, access to the premises, at reasonable times, where the permitted activity is located or conducted for the purposes of:

- a. Having access to and copying any records that must be kept under the conditions of the permit;
- b. Inspecting the facility, equipment, practices, or operations regulated or required under this permit; and
- c. Sampling or monitoring any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately notify and provide the Department with the following information:

- (a) a description of and cause of non-compliance; and
- (b) the period of non-compliance, including exact dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or revocation of this permit.

PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

GENERAL CONDITIONS: (cont'd)

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source, which are submitted to the Department, may be used by the Department as evidence in any enforcement case arising under the Florida Statutes or Department rules, except where such use is proscribed by Section 403.73 and 403.111, Florida Statutes.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance, provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

11. This permit is transferable only upon Department approval in accordance with Florida Administrative Code Rules 17-4.120 and 17-730.300, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit is required to be kept at the work site of the permitted activity during the entire period of construction or operation.

13. This permit also constitutes:

- () Determination of Best Available Control Technology (BACT)
- () Determination of Prevention of Significant Deterioration (PSD)
- () Certification of Compliance with State Water Quality Standards (Section 401, PL 92-500)
- () Compliance with New Source Performance Standards

14. The permittee shall comply with the following monitoring and record keeping requirements:

- a. Upon request, the permittee shall furnish all records and plans required under Department rules. The retention period for all records will be extended automatically, unless otherwise stipulated by the Department, during the course of any unresolved enforcement action.

GENERAL CONDITIONS: (cont'd)
14. (cont'd)

- b. The permittee shall retain at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation), copies of all reports required by this permit, and records of all data used to complete the application for this permit. The time period of retention shall be at least three years from the date of the sample, measurement, report or application unless otherwise specified by Department rule.
- c. Records of monitoring information shall include:
 - the date, exact place, and time of sampling or measurements;
 - the person responsible for performing the sampling or measurements;
 - the date(s) analyses were performed;
 - the person responsible for performing the analyses;
 - the analytical techniques or methods used; and
 - the results of such analyses.

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be submitted or corrected promptly.

16. In the case of a hazardous waste facility permit, the following permit conditions shall also apply:

a. The permittee will submit the following reports to the Department:

- (1) Manifest discrepancy report: If a significant discrepancy in a manifest is discovered, the permittee must attempt to reconcile the discrepancy. If not resolved within 15 days after receiving the waste, the permittee shall immediately submit a letter report including a copy of the manifest to the Department.
- (2) Unmanifested waste report: The permittee shall submit an unmanifested waste report to the Department within 15 days of receipt of unmanifested waste.

GENERAL CONDITIONS: (cont'd)

16.a. (cont'd)

- (3) Annual report: An annual report covering facility activities during the previous calendar year must be submitted in accordance with Florida Administrative Code Rule 17-730.

b. Notification of any non-compliance which may endanger public drinking water supplies, or the occurrence of a fire or explosion from the facility which could threaten the environment or human health outside the facility, shall be verbally submitted to the Department within 24 hours and a written submission provided within 5 days. The verbal submission within 24 hours shall contain the name, address, I.D. number and telephone number of the facility and owner or operator, the name and quantity of materials involved, the extent of injuries (if any), an assessment of actual or potential hazards, and the estimated quantity and disposition of recovered material. The written submission shall contain the following:

- (1) a description of any cause of non-compliance; and
- (2) if not corrected, the anticipated time the non-compliance is expected to continue and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

c. Reports of compliance or non-compliance with, or any progress reports on, requirements contained in any compliance schedule of this permit shall be submitted no later than 14 days following each schedule date.

d. All reports or information required to be submitted to the Department by a hazardous waste permittee shall be signed by a person authorized to sign a permit application.

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS:
Part I. General

1. The permittee shall operate the herein permitted facility in accordance with 40 CFR Part 264, Subparts A through J, the conditions of this permit, and the permit application.
2. The permittee shall store only those wastes identified in Section I.D.2.6-1 pages ID 2-5 through ID 2-8 of the application. Prior to acceptance of new hazardous waste for storage, the permittee shall submit to the Department, for approval, waste analysis of the proposed new waste. This analysis shall also be incorporated in the general waste analysis plan which is retained on site. Compliance with this condition shall be in accordance with 40 CFR Part 264.13.
3. The permittee shall notify the Department in writing four weeks prior to receipt of hazardous waste from a foreign source, and comply with the other requirements of 40 CFR Part 264.12.
4. The permittee is only allowed to operate the hazardous waste units specified in pages 1 of 17, 2 of 17 and 3 of 17 of this permit.
5. The permittee shall comply with the required notice of 40 CFR Part 264.12(c) before transferring ownership or operation of the facility during its operating life.
6. The permittee shall maintain and update the records of chemicals and physical analysis for the hazardous wastes generated and stored at the permitted facility, as indicated in the permit application in Section I.D.4.a-1, in compliance with 40 CFR Parts 264.13(a) and 264.13(b).
7. The permittee shall prevent unauthorized entry of persons into the hazardous waste units to comply with the security requirements of 40 CFR Part 264.14, and shall maintain the security equipment and procedures as described in the permit application, Section I.E.1 and Section I.E.4.a.
8. The permittee shall inspect the facility operating, emergency and safety equipment in accordance with the schedule approved in Section I.E.4.b. of the application. Changes, additions, or deletions to the schedule must be approved in writing by the Department. The schedule must be maintained as part of the operating record at the facility. Inspection program, schedule and records shall be followed in accordance with 40 CFR Part 264.15.

9. The permittee shall comply with the training requirements of 40 CFR Part 264.16. Facility personnel shall successfully complete the approved training indicated in the permit application, Section I.E.5. Verification of this training must be kept with the personnel training records and maintained on-site. Personnel shall not work unsupervised until training has been completed.

10. The permittee shall comply with the general requirements for ignitable, reactive, or incompatible waste of 40 CFR Part 264.17 concerning precautions to prevent accidental ignition or reaction of ignitable and reactive waste. Signs showing the wastes by the name they are known best, their EPA hazardous waste number, and total storage capacity in accordance with the tables shown on page 1 of 17, 2 of 17 and 3 of 17 of this permit, shall be placed in a highly visible location at each bay. "No Smoking" signs shall be conspicuously posted at each location where ignitable wastes are stored and whenever flammable gases are generated.

11. The permittee shall operate the hazardous waste facility in accordance with the preparedness and prevention procedures outlined in Section I.E.4. of the permit application and the requirements of 40 CFR 264, Subpart C. Required equipment and communication systems at the facility shall be installed, operated, and maintained as indicated in the permit application section referenced above, in accordance with 40 CFR Part 264, Subpart C.

12. The contingency plan must be amended and distributed to the appropriate agencies if any criteria of 40 CFR Part 264.54 are met. Amendments to the plan must be submitted and approved in writing by the Department.

13. The permittee shall follow the emergency procedures specified in 40 CFR Part 264.56, approved in Section I.E.2. of the permit application, and contingency plan. The permittee shall give proper notification if an emergency situation arises, and within fifteen (15) days shall submit to the Department a written report which includes all information required in 40 CFR Part 264.56(j), and as described in Section I.E.2.c Item 10 of the contingency plan.

14. The permittee shall post at conspicuous locations information on emergency equipment and evacuation procedures in accordance with 40 CFR Parts 264.52(e) and (f).

15. The permittee shall keep close to the telephone from where emergency calls will most likely be made, a list containing the names and telephone numbers of the emergency coordinators required in 40 CFR Part 264.55, and of the emergency response institutions and agencies as described in 40 CFR Part 264.52(c).

16. The contingency plan shall be maintained as a separate independent document which meets the regulatory requirements of DER Form 17-730.900(2), Part II, A., 4., (b).

17. The permittee shall comply with the use of manifest system requirements of 40 CFR Part 264.71, and the manifest discrepancy requirements of 40 CFR Part 264.72.

18. The permittee, when shipping hazardous waste off-site, shall comply with the requirements of 40 CFR Part 262, Subpart B, and in accordance with the permit application, Section I.D.6.

19. The permittee shall comply with the requirements of 40 CFR Parts 264.73 and 264.74, and as described in Section I.D.6 of the permit application. The permittee shall keep written operating records at the facility which include:

- The description and quantity of each hazardous waste;
- The location of each hazardous waste within the facility and quantity at each location;
- The results of the waste analysis;
- A summary report and details of incidents that require implementation of the Contingency Plan;
- Copy of manifest;
- Notice to generators;
- The results of monitoring and inspections (for 3 years);
- Closure plan and cost estimates;
- Annual certification of hazardous waste minimization.

These records must be maintained at the facility until completion and certification of closure.

20. Analytical procedures shall be consistent with EPA Manual SW-846 Test Methods for Evaluating Solid Waste (latest edition), or Department approved equivalent method. The Sampling and Analysis Plan shall be in accordance with Characterization of Hazardous Waste Sites, A Methods Manual, Volume II, Available Sampling Methods, E-600/4-83-040.

21. The permittee shall apply for a closure permit at least 180 days prior to beginning closure at the facility as required by Florida Administrative Code Rule 17-730.260.

22. The permittee shall apply for permit renewal one hundred thirty five (135) days before the expiration date of this permit, and comply with all other requirements of the Florida Administrative Code Rule 17-730.300.

23. The Department may modify the conditions of this permit if any of the conditions of Florida Administrative Code 17-730.290(1) apply.

24. Pursuant to Rule 17-730.290, Florida Administrative Code, this permit may be modified if additional information becomes available indicating that the provisions of Section 3004(u) of the Hazardous and Solid Waste Amendments of 1984 (HSWA) apply to this facility. At that time, this permit may be modified to address the requirements of Section 3004(u) of HSWA if the State has been authorized for these provisions, or alternately, the Environmental Protection Agency would issue a separate federal permit addressing Section 3004(u) requirements.

25. The permittee shall certify to the Department no less often than annually, that the permittee has in place a program to reduce the volume and toxicity of hazardous waste that the permittee generates to the degree determined by the permittee to be economically practicable; and that the method of storage is the best practicable to minimize the present and future threat to human health and the environment. 40 CFR Part 264.73(b)(9).

26. The permittee shall maintain compliance with the financial requirements of 40 CFR 264 Subpart H.

27. All documents submitted pursuant to the conditions of this permit shall be accompanied by a cover letter stating the name and date of the document submitted, the number(s) of the specific condition(s) affected, and number and project name of the permit involved.

II. Container Storage Conditions

1. The permittee shall comply with the type, quality, and specification of containers utilized for storing hazardous wastes as described in Section I.E.3, and the Figures detailed in Section I.E.3 of the permit application. Any change in container type shall be previously approved by the Department.
2. The permittee shall be authorized to store the hazardous wastes approved on pages 1 of 17, 2 of 17 and 3 of 17 of this permit in the approved storage areas which are detailed in Attachments 1, 2 and 3.
3. Containers must conform to DOT specification(s) and be managed in accordance with the approved operational plan. Containers shall be kept closed except when adding or removing waste and be handled in a manner that will not allow the containers to rupture or leak. If a container holding hazardous waste is not in good condition, or begins to leak, the waste shall be transferred to another container in good condition.
3. The permittee shall use containers which are compatible with the hazardous waste to be stored to comply with the requirements of 40 CFR Part 264.173.
4. The permittee shall not store incompatible waste in containers or place it in unwashed containers that have previously held incompatible waste.
5. The permittee shall inspect the container storage area in accordance with the schedule and procedures approved in Section I.E.4.a and Exhibit I.E.4-1 page 3 of the application and 40 CFR Part 264.174.
6. Any unknown waste shall be segregated from all other hazardous wastes until it is identified by analyses and a compatibility group is assigned.
7. Incompatible wastes shall not be stored in the same bay or in bays having the same containment system and, shall be physically separated by a dike, berm or other approved device in accordance with 40 CFR Part 264.177(c) requirements.

PERMITTEE:
Safety Kleen Corporation

PERMIT/CERTIFICATION NO.: HO29-158820
PROJECT: Operation of a Hazardous
Waste Container/Tank Storage
Facility

SPECIFIC CONDITIONS: (cont'd)

Part II. Container Storage Conditions (cont'd)

8. The permittee shall, prior to the storage of hazardous waste, determine the compatibility of each waste to be added to a storage area according to the procedures identified in Section I.D.4 of the permit application and EPA publication 600/2-80-076 "A Method for Determining the Compatibility of Hazardous Waste" (latest edition).
9. Hazardous waste must be compatible with the secondary containment system and liner of the storage bay.
10. Spilled or leaked waste and accumulated precipitation must be removed from the collection area, analyzed and disposed of in accordance with Section I.E.2 and Section I.D.4 Part a-2 and a-3 of the application and 40 CFR Part 264.174(b)(5).
11. The permittee shall comply with the 50 feet setback rule contained in 40 CFR Part 264.176.
12. The permittee shall comply with the requirements of 40 CFR Part 264.35 and maintain a minimum aisle space between pallets and between a pallet and a wall of two (2) feet for containers storing free liquids. The container arrangement shown in Exhibits I.D.5-2a and 2b of the application shall be followed. Any change to the container arrangement in any unit shall be previously approved by the Department.

III - Tank Storage Conditions

1. The permittee shall maintain, inspect, and operate the tank storage unit, appurtenant equipment, and associated secondary containment structures in such a manner that any leakage or release of hazardous waste from the unit shall be detected within twenty four (24) hours of occurrence, that the secondary containment structures will be capable of preventing any migration of wastes or accumulated liquid to the soil, groundwater, or surface waters, and that spilled or leaked waste and accumulated precipitation will be removed within twenty four (24) hours of occurrence. This specific condition applies to the tank storing spent mineral spirits as described in pages 1 of 17 and 2 of 17 of this permit.
2. The permittee shall keep records at the facility documenting the age of the tank mentioned in specific condition #III-1.
3. The permittee shall maintain, inspect, and operate the spill and overfill prevention controls during loading and unloading procedures occurring at the tank storage unit in accordance with 40 CFR Part 264.194.

Waste Container/Tank Storage
Facility

SPECIFIC CONDITION (cont'd)
III - Tank Storage Conditions (cont'd)

4. Description and management of the tank storage unit shall conform to the design shown in Figures 12034, 12086 and 12172 and Exhibits I.E.3 Part 5,6,7 and 8 and to the procedures indicated in Part III of the application.

5. The permittee shall inspect the tank storage unit, appurtenant equipment, and secondary containment structures in accordance with Section I.E. 4 Part a-6 and a-7 and Exhibit I.E.4-1 page 1 of 4 and page 2 of 4 of the permit application, and 40 CFR Part 264.195.

6. The permittee shall comply with the provision of response to leaks or spills and disposition of leaking or unfit-for-use tank systems of 40 CFR Part 264.196 by satisfying the following requirements:

- a. Stop flow or addition of waste into the tank or secondary containment and inspect the system to determine the cause of the release in compliance with 40 CFR Part 264.196(a).
- b. Remove waste from the tank system to prevent further releases and to allow for inspection and repair, and remove released waste from the secondary containment structure at the earliest possible time in accordance with 40 CFR Part 264.196(b).
- c. Prevent possible or further migration of the leak or spill to the environment, and remove and properly dispose of wastes, contaminated soils or residues in compliance with 40 CFR Part 264.196(c)
- d. Comply with the notification and report requirements of 40 CFR Part 264.196(d).
- e. Comply with the secondary containment, repair or closure requirements of 40 CFR Part 264.196(e).
- f. Certify major repairs of the tank system in accordance with 40 CFR Part 264.196(f).

Tank system is defined as the tank storage unit, appurtenant equipment and secondary containment structures.

SPECIFIC CONDITION (cont'd)
III - Tank Storage Condition (cont'd)

7. The permittee shall comply with the management requirements for ignitable or reactive wastes contained in 40 CFR 264.198, and shall follow the procedures specified in Section I.E.3.d. Parts 1 through 5 of the permit application.
8. The permittee shall not store incompatible waste in the tank in accordance with 40 CFR Part 264.199.
9. The permittee is allowed to store in the tank only those wastes shown on Page 1 of 17 of this permit.
10. The permittee shall comply with the protective distance requirements for the tank placement as set forth in Tables 2-1 through 2-6 of the National Fire Protection Association's "Flammable and Combustible Liquids Code" (1977 or 1981) as required by 40 CFR 264.198(b).

IV - Miscellaneous

1. The permittee shall visually inspect stormwater accumulating within the tank farm dike prior to releasement of these waters. Stormwater exhibiting an iridescent sheen shall be disposed in a Department approved manner.
2. The permittee shall report to the Department, within 14 days of an incident, any utilization of the retention pond for purposes other than receipt of non-contaminated stormwater. This includes activation of the sprinkler system which will cause an overflow from the accumulation center to the retention pond.

DRAFT

This a cross-section (i.e., side view) of the trench: bottom to top is from left to right.

The secondary containment system is closed; no piping is associated with it. There is no slope to the floor. All containers will be stored on pallets.

Service Center Container Storage Area:

Two Trenches:

2 x 11' 9 1/4" L x 19" W x 2' D x 7.481 gal./cf = 623.7 gallons

Amount to Be Stored:

43 single or double stacked pallets x 9 drums/pallet x 16 gallons/drum = 6,192 gallons. While the volume of each type of waste stored may vary, the total volume stored will never exceed 6,912 gallons.

Scale: 1" = 12'

The trenches delineate three separate areas in this building. The square room in the upper right corner is designed to hold flammable material; flammable material may not be stored in any area but this room. The remaining two areas are actually one L-shaped room which may be used for the storage of any non-flammable material. The secondary containment volumes are listed on the following page and the maximum volumes to be stored are shown below.
