Attachments: Haz_Emr_Response_Trng_Records.pdf

Leslie,

In response to Richard Vaughn's letter dated 8/22/16, regarding your inspection on 6/14/16 of our Ring Power facility in Tampa/Riverview, I would like to update you on the steps that we have taken to correct the three (3) violations that you noted in your report.

1. Unlabeled used oil containers. We have been taking inventory of our current stock of Used Oil containers and properly labeling any that are in violation. We have also been in contact with our Used Oil Collection vendor and stressed the importance of them replacing filled oil containers with properly labeled empty containers.
2. We have stressed to the managers the importance of assigning responsibility to individuals to complete the weekly inspections. In the event the responsible employee is out due to illness or vacation, they need to let a manager/supervisor know so that the duties can be assigned to an alternate.
3. Ring Power takes great pride in it's continued education and training programs. We maintain a training database for all of our employees at our Corporate offices in St. Augustine. Attached is a print out of the past two years training records for our personnel in the Tampa/Riverview Branch.

Ring Power is committed to keeping our employees and environment safe, and I believe that our track record speaks for itself. If there are any other questions or comments that I can assist you with please let me know.

Brian Brown
Environmental & Property Manager
