**Re: Authorization to Consolidate Hazardous Waste from  
Conditionally Exempt Small Quantity Generators  
AAG Environmental Inc, FLR000167635  
25370 NW 8<sup>th</sup> Lane, Newberry, Florida  
Alachua County – Hazardous Waste**

Dear Mr. Chandler,

On January 22, 2015, the Florida Department of Environmental Protection (DEP) received your letter requesting formal authorization for your facility at 25370 NW 8<sup>th</sup> Lane, Newberry, Florida, to manage hazardous waste from Conditionally Exempt Small Quantity Generators (CESQGs) pursuant to Rule 62-730.220(5), F.A.C. DEP hereby approves your request with the understanding that your facility has specific standard operating procedures for accepting business waste approved by the Department including location, generator responsibilities, amount and type of wastes, time limits, and recordkeeping, as appropriate to the request and the generator status of the authorized person. In particular, the Department expects your facility will observe the following management practices:

At generator facility and arrival at AAG's Site:

- Comply with all USDOT shipping requirements when preparing waste for shipment off-site.
- Ensure the generator is a CESQG and have the facility certify in writing that they are operating as a CESQG. Keep these certifications on-site for at least three years.
- Load and store drums such that incompatible wastes are separated.
- Upon arrival at AAG, drums will be brought inside the AAG facility within one business day.
- Consolidation will start within two business days once brought inside the facility.

After consolidation:

- Maintain adequate aisle space in accordance with 40 CFR 265.35.
- Inspect drums weekly and maintain an inspection log in compliance with 40 CFR 265.174 and 62-730.160(5), FAC.
- Unless actively being consolidated, all hazardous waste containers shall be kept closed and sealed in accordance with 40 CFR 265.173.
- Label all hazardous waste containers with the words "hazardous waste," and once consolidated, date with the accumulation start date.
- Do not store hazardous waste more than 180 days.

Mr. Alan Chandler, President  
AAG Environmental Inc.  
March 6, 2015  
Page 2 of 3

- Fire, spill, and decon equipment should be readily available and in working condition in accordance with 40 CFR 265.32.
- Ensure all containers are kept in good condition in accordance with 40 CFR 265.171.
- All employees handling hazardous waste will receive training in hazardous waste procedures.
- Hazardous waste transporter registration shall be kept current. Keep registration certificate in all vehicles transporting hazardous waste.
- The facility will not accumulate more than 5,000 pounds (approximately ten 55-gallon drums) on-site at any one time.
- The CESQG will be provided a manifest to document disposal.
- Keep an inventory/log of what hazardous waste is stored on-site. This log will include:
  - Manifest number for each shipment that enters and leaves the facility, or, for a shipment from a CESQG without a manifest, an identifying number from the shipping document.
  - The date when all hazardous waste enters and leaves the facility.
  - Name, address, and EPA ID number (if applicable) of the generator.
  - The amount of hazardous waste and hazardous waste codes associated with each shipment into and out of the facility.

AAG must limit its operations to circumstances described in its January 22, 2015, letter. If AAG does not follow the above management practices, the DEP can revoke its authorization to consolidate CESQG waste at any time.

This authorization repeals and replaces the existing authorization dated June 16, 2010. If we can provide you with any additional assistance, or if you have any questions, please contact Jabe Breland at 904.256.1671 or [jabe.breland@dep.state.fl.us](mailto:jabe.breland@dep.state.fl.us).
