Principal Inspector:Juchan Choi, InspectorOther Participants:Matt Sheppard, Director of Safety

LATITUDE / LONGITUDE: Lat 26° 46' 16.8888" / Long 80° 3' 13.7124"

SIC CODE: 4449 - Trans. & utilities - water transportation of freight, nec

TYPE OF OWNERSHIP: Private

## Introduction:

Tropical shipping is an ocean cargo shipping company that services the United States, and Caribbean islands. This facility is located at the Port of Palm Beach, consists of five acres, employs 500 people, utilizes city water and sewer, and has been in operation at this location for more than 40 years. The facility originally notified the Department of its status as a Small Quantity Generator (SQG) of hazardous waste on January 17, 2003. The facility then notified as a non-handler and a hazardous waste transporter on October 26, 2015.

## **Process Description:**

The Tropical Shipping has relocated their main office to 501 Avenue P, Riviera Beach, FL 33404. However, the office relocation has not completed yet. Mr. Sheppard explained that the company anticipates to complete their office relocation by end of 2016 and they will formally submitting an address change upon the renewal of 8700-12FL. Mr. Sheppard stated that the TS has registered as a transporter because an oil refinery in the Virgin Islands needed to ship its wastes. Hazardous wastes were to be shipped to Puerto Rico, and/or Florida with an end disposal destination of Texas. To date, Puerto Rico is the only TS that has transported hazardous wastes. If wastes were to be received in Palm Beach, the wastes would only be on the loading docks for a short period of time, and would then be loaded onto another boat that was destined to Texas.

The TS rarely conducts heavy equipment maintenance at their facility. The facility provided manifest showing used oil and used oil filters has been transferred to World Petroleum facility located at 3650 SW 46th ave, Davie, FL 33314 (FLD980709075). The records showed that the facility generates wastes under CESQG limit. The TS properly documented HW liability endorsement, modified contingency plan and training records which recorded electronically.

# **Conclusion:**

Based on the evaluated area, the facility was in compliance at the time of this inspection.

# **1.0 - Pre-Inspection Checklist**

#### Requirements:

The requirements listed in this section provide an opportunity for the Department's inspector to indicate the conditions found at the time of the inspection. A "Not Ok" response to a requirement indicates either a potential violation of the corresponding rule or an area of concern that requires more attention. Both potential violations and areas of concern are discussed further at the end of this inspection report.

	ltem No.	Pre-Inspection Review	Yes	No	N/A
1.1		Has the facility notified with correct status? 262.12	~		
1.2		Has the facility notified of change of status? 62-730.150(2)(b)	~		
1.3		Did the facility conduct a waste determination on all wastes generated? 262.11	>
