Ms. Knauss

My office has told me you are trying to reach me. I am assuming to set up the follow up inspection. I am going through a USCG inspection this morning and will be at DMT most of the day. Anthony Cuva who was our attorney present at the meeting we had with you is no longer representing us on this matter. He felt that this particular area was out of his expertise. Mr. Ron Noble is our counsel now on this matter and I have two phone calls into him awaiting a call back. I believe he wants to be present at the inspection. He was also supposed to speak with you about this matter which I assume has not been done. Hopefully he will get back with me today and I will make sure that he contacts you asap. I apologize for the delay. I have had several employees off the last two weeks and I have been basically handling all of our operations myself. I will get with Mr. Noble at some point today either via email or phone so we can get this matter handled quickly.

Gerry McCormick Jr.
