Gerry - was an analysis performed of the product as stated in Section 4.1 of the contract? Please provide a copy of the report. If the material meets the used oil specifications, we no longer track it as used oil, however Diversified would be considered to be the marketer of the material under 40 CFR 279 Subpart H. You would need to maintain records of the analysis and the delivery in accordance with 40 CFR 279.72(b) and 279.74(b).

The vessel HMS 2607 is registered to Harco Marine LLC, out of Seattle Washington. The national database of hazardous waste notifiers does not include Harco. I could not find a record that the company has notified that they are transporting used oil.

The shipment is described as cutter stock. In order to be in compliance with 40 CFR 279, I need to be able to verify that the shipment was either on-specification under 40 CFR 279.11, or that it went to a notified used oil processor or a petroleum refinery primarily engaged in refining crude oil. You have redacted the buyer information.

I understand you are out of the office, but I will need this information when you return. You can mark it "confidential business information" and it will be handled in accordance with Section 403.111, Florida Statutes.

Thanks,

Elizabeth Knauss

Ms. Knauss,

Attached are the loading ullage reports for the 1625 as well as the contract stating zero pay. If you have any questions feel free to contact me. I am out of the office until 8/3 but can receive emails. Thanks!

Gerry McCormick Jr
