**Subject:** RE: DES Oil Test Results

Ron - the 40 CFR 279.11 used oil specifications include analysis for arsenic, cadmium, chromium, lead and total halogens in addition to flash point.

Can you get me those results? The lab may have retained the sample, if they have not been run.

In addition, do you have information on how the sample was collected? Were all of the barge compartments sampled and the aliquots composited?

**Subject:** DES Oil Test Results

Hi Beth:

Per the Department's request, attached please find the test results for the oil taken while it was on the DES barge.

Please let me know if the Department needs any additional information,

Thanks,  
Ron
