This covers everything that was requested except training records. Tell Steve Collins that if he can produce training records for you and one of your driver demonstrating they are properly trained pre their job description; Everglades will have met all of the Department's requests.

Good afternoon Kathy & Denise,

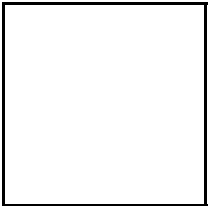

Per your inspection yesterday at Everglades Waste Removal Services, you had requested that we forward to you photos showing that we have labeled our drums for: Used Oil, Drained Used Oil Filters and Used Oily Pads/Rags; and that we have posted in a conspicuous location within the office current copies of any registrations, licenses, permits, etc.

Please find the attached photos showing the oil drums properly labeled, per use, and of our current licenses, registrations, permits issued from various federal, state, and city agencies/departments, including the FL DEP Used Oil Transporter for Hire – Small, Filter Transporter.

Regards,

Ken
