Subject: Perma-Fix Treatability Studies for 2016 [FLD980711071]
Date: Tuesday, March 14, 2017 4:23:30 PM

In accordance with the requirements of 40 CFR 261.4(f)(9), I am reporting treatability study activity for Perma-Fix of Florida. Perma-Fix did not receive any treatability study samples or perform any treatability studies in 2016. No samples were carried over from 2015 to 2016.

Perma-Fix of Florida plans to continue to conduct treatability studies in 2017. It is anticipated that Perma-Fix of Florida will treat less than 1,000 kg of non-acute hazardous waste samples, and that the total treatability sample inventory will not exceed 1,000 kg at any one time during the year. Perma-Fix of Florida does not anticipate receiving any treatability study samples of acute hazardous waste in 2017.

Facility Conducting Treatability Studies:

Perma-Fix of Florida, Inc.
1940 NW 67th Place
Gainesville, FL 32653
EPA ID: FLD980711071

Thanks,
Kurt
