Facility property is about 60,000 sf, and uses city utilities. Facility currently has about 10 employees. Facility was previously inspected by the Department on 1/10/2012 with minor area of concerns that were resolved by submittals on 1/13/2012.

Process Description:

SWS is primarily an emergency response company. The transport of hazardous and universal wastes is provided to regular customers as a courtesy and is not regularly done. Hazardous wastes may also be transported following emergency response actions, and are usually transported in drums or other containers.

Inspection Date: 03/23/2017

If a vacuum truck must be utilized for hazardous waste, it is decontaminated at the receiving facility or at a commercial truck wash. Operations include transport of used oil, used oil filters, petroleum-contact waters, hazardous waste, and mercury lamps and devices. Facility does minor maintenance of their trucks on site which results in generated spent batteries, used oil and oil filters.

The storage yard area consisted of equipment parking, tanker truck parking, empty tanks, roll off containers and miscellaneous equipment. Facility currently does not generate any hazardous waste onsite.

The facility fire sprinklers and extinguishers were intact and up to date. The required PPE at the facility and used during the inspection were: Safety Shoes, Safety Glasses and Hard Hat.

At the time of inspection, employee training records were not physically available but were received on the same day via email.
