**Subject:** RE: Anywhere Fleet Repair – Routine Compliance Inspection and CAO letter – FLR000188151  
**Importance:** High

Good afternoon Mrs. Allen,

Thank you for contacting me regarding Anywhere Fleet Repair (EPA ID # FLR000188151). Regarding your questions presented below:

We can not fit a drum container under the the Drum that is under the the Filter Crusher would it be appropriate to put a 30 gallon Drum inside a 55 gallon drum and be acceptable?

Yes. Placing one drum inside the other would be an acceptable form of secondary containment for the filter crusher.

Also we will be moving the crushed filters outside under the carport sitting on the asphalt with lids on them if this is also acceptable.

Will you be moving the drums of the drained crushed filters or the crusher outside? Is the carport an enclosed area or a covered area (no walls)? Is the ground asphalt, poured concrete, stone, etc.?

Please call or email me regarding the follow up questions above, so we can discuss further.

Thank you,

### Shannon Kennedy

Good afternoon Mr. and Mrs. Allen,

As discussed during our visit on April 20, 2017, I have attached a PDF copy of the DEP's "Used Oil Management Training" power point presentation. After reviewing the information, please feel free to contact me with any questions or concerns you may have.

Additionally, also attached please find a copy of the compliance inspection report and compliance assistance offer letter, related to FDEP's compliance inspection of Anywhere Fleet Repair on April 20, 2017. As indicated during the site visit, as well as in the inspection report, the used oil and used oil filter drums must be in secondary containment. *Please email me back within 14 days and indicate in writing how and when you will comply with these requirements.*

We appreciate your ongoing cooperation and look forward to working with you to resolve any outstanding issues or violations.

Thank you,

**Shannon Kennedy**

Greetings,

The Department of Environmental Protection is using electronic correspondence rather than paper mail to deliver documents faster while reducing costs and waste. Please click on the link below to access the above referenced document in OCULUS, the Department of Environmental Protection's electronic document management system.

[https://depdms.dep.state.fl.us:443/Oculus/servlet/shell?command=getEntity&\[guid=2.405932.1\]&\[profile=Discovery\\_Compliance\]](https://depdms.dep.state.fl.us:443/Oculus/servlet/shell?command=getEntity&[guid=2.405932.1]&[profile=Discovery_Compliance])

**To access the documents in OCULUS:**

1. Click on the link to open OCULUS at the Login screen.
2. Click on PUBLIC OCULUS login to view the search results screen.
3. Click the arrow button next to *view* in the Operations drop-down menu to open and view the document in its native format. Most OCULUS documents are in .pdf format. Acrobat Reader is required to read the document. The free reader can be downloaded from <http://www.adobe.com/products/reader.html>.

If you are interested in reviewing documents from the Department's Information Portal, you can access the portal at <http://webapps.dep.state.fl.us/DepNexus/public/search-portal>.

Thank you for your attention to this matter.

Sincerely,

FL. Department of Environmental Protection  
Southwest District Office
