RE: Hazardous Waste Shipment

Dear Mr. Gonzalez:

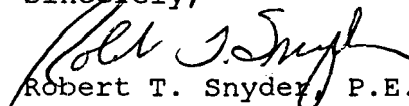

This letter is in response to the letter submitted by your facility and dated September 29, 1999 regarding the acceptance of hazardous waste from the closed Perma-Fix facility located in Memphis, Tennessee.

The Department has agreed to allow Chemical Conservation Corporation (CCC) to accept this waste as permitted waste. The profiles generated by Perma-Fix appear to be similar to profiles required by CCC's permit, and will allow CCC to properly manage the waste received.

CCC should include documentation in the files for all waste received from the closed Perma-Fix facility stating that this waste was received from a closed, sister facility, and that this was a one time occurrence.

Please do not hesitate to contact Chris Aoussat, at (407) 893-3323 if you should have any questions regarding this matter.

Sincerely,

Robert T. Snyder, P.E.
Program Manager
Hazardous Waste Section
