Re: Chemical Conservation Corporation FLD 980 559 728
Hazardous Waste Facility Permit No. HC02-0026916-001 & HO02-0026916-002

Dear Mr. Snyder:

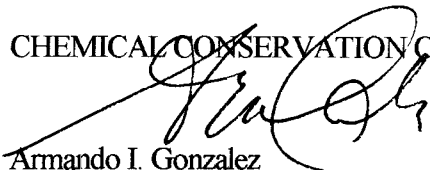

This submittal is a Permit Modification Request for Revision of the Contingency Plan for Chemical Conservation Corporation (CCC). Modification of the plan consists of revision of phone numbers of emergency service organizations. Local numbers are now required to dial the three digit exchange number (407) and some numbers have been updated. In accordance with line item B.6.a. of the listing contained in Appendix I to §270.42, this type of permit change is a Class 1 permit modification.

A copy of revised page 70 of CCC's application for the hazardous waste facility permit referenced above and an owner/operator certification is attached. I am also enclosing a table that shows the status of permit modifications submitted after the permit was issued on November 6, 1998.

If you have any questions, please call me at (407) 859-4441.

Sincerely,

CHEMICAL CONSERVATION CORPORATION

Armando I. Gonzalez
Compliance Officer
