RE: Minor Modification - Loading Dock

Dear Mr. Gonzalez:

This letter is to confirm your conversation of January 14, 1999 with Chris Aoussat in conjunction with your letter dated July 8, 1998 regarding a permit modification for reconfiguration and expansion of the loading dock at your facility.

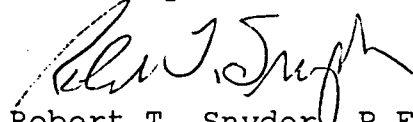

The Department is prepared to review, as a Minor Modification, the proposed expansion of the loading dock to facilitate the management of transfer waste. Processing the modification will commence when a written request, limited to this modification only, is received by the Department, along with the appropriate fee in the amount of \$250.00.

The written request must include an implementation schedule along with engineering drawings and specifications for the west and south expansion of the loading dock, and an amendment to the contingency plan specifically addressing the management of permitted waste and transfer waste during the construction process.

Chemical Conservation, Corp.
