Re: Chemical Conservation Corporation FLD 980 559 728

Dear Mr. Snyder:

This letter is to advise you of civil work that has been completed at the Chemical Conservation Corporation (CCC) site. The work provides access to the parcel of land adjacent to the existing site that CCC recently purchased, and it does not affect any of the operations and procedures contained in the permit application.

An area shaped as an "L" located in the Northwest corner of the existing site has been covered with a concrete slab. This area used to be part of the stormwater retention pond that has been replaced with a larger pond located on the Northwest corner of the new parcel. Also, a door was installed on the East side wall of the bay where tankers are placed in the North Building. Two photographs included with this letter illustrate the nature and extent of the work completed.

If you have any questions, please call me at 859-4441.

Sincerely,

CHEMICAL CONSERVATION CORPORATION

Armando I. Gonzalez

Compliance Officer
